

This petition will be presented to President Dobbie on December 10, 2002. Send signatures to Refuse & Resist!, P. O. Box 521, Honolulu, HI 96809, or call R&R at 598-4653.

We, the undersigned students and faculty of the University of Hawai'i, believe that the U.S.-led war is illegal, illegitimate and immoral. It violates the sovereign rights of nations. It forces U.S. values and culture on other nations and peoples. It encourages attacks on immigrants. It paves the way for a Wartime Police State.

We therefore demand that the University of Hawai'i:

1. Refuse to allow military recruitment (including FBI & CIA) on campus.
2. Refuse to be enforcers for the wartime police state¹.
3. Oppose SEVIS² and protect the rights of international students.
4. Publish a single, easily accessible list of all military-funded grants and projects at UH, including those funded through UH-affiliated research foundations or corporations.
5. Provide a "permanent" space, in a centrally located area on campus, where students can speak out on the war through art and written word.

9. Name: _____ Student Faculty
10. Name: _____ Student Faculty

¹ Such as providing private student records to the government, engaging in racial profiling, assisting with round-ups of immigrants or activists, allowing FBI agents on campus to surveil students, and the like.

² SEVIS is a computer-based tracking system that forces universities to provide private student information on international students to the INS and other government agencies, changing the universities role from that of an advocate to that of an enforcer.
