

# OSEA Fight For Affordable Health Care

# RALLY

We know that we are the lowest-paid employees in the School District.

We know we haven't had a raise in over four years, while the cost of living continues to skyrocket.

We know that in our contract negotiations Dr. Ward has demanded that SEIU 790 classified workers agree to pay for future increases in our healthcare insurance.

We know if we accept Dr. Ward's proposal we will eventually end up paying hundreds of dollars per year for healthcare coverage.

We know that RIGHT NOW we are barely making ends meet; and if Dr. Ward imposes this proposal on us it will be a disaster for classified workers, our families, and the children in Oakland schools.

We know hypocrisy and injustice when we see it, and we know what to do about it. It is up to us to convince the district that we deserve respect and a fair contract!
