

How to assemble your Guide

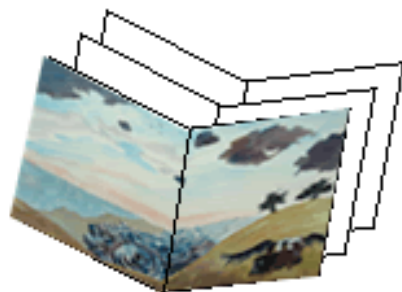

1. Print out all the pages. Make sure to do double-sided printing on legal-size paper.
2. With the cover facing you, stack up the pages so that the numbers in the bottom corners are in sequence.

the numbers on the left
will be even numbers,
counting down from 40

numbers on the right
will be odd numbers,
counting up from 5

3. Fold the stack of papers in half.

4. Use a long-arm or booklet stapler to staple the booklet along the fold.
