

Nobel Prize scientist Sir Tim Hunt gave a lecture at School of Medicine

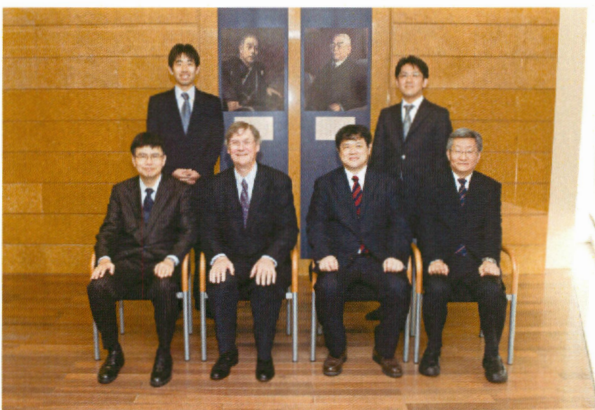

On June 11th, 2008, Nobel Prize scientist Sir Tim Hunt delivered a lecture entitled "Getting in and out of Mitosis" at Shinanomachi Campus. Sir Tim visited the campus before the conferral of the degree of Doctor of Medicine which was held at Mita Campus. He gave a professional lecture to about 100 people of audience of School of Medicine. Furthermore, 2 other lectures were given by 2 young promising researchers of Keio University followed by lively question-and-answer sessions. We at School of Medicine hope that academic exchange between the two will be promoted in the future.
