

Support IBU-ILWU and MM&P-ILA Union Alcatraz Ferry Workers

Mass Picket Saturday December 9, 2006 – 10 AM Pier 31½, The Embarcadero, San Francisco

For the past two months Bay Area maritime union members have been picketing daily in a struggle to maintain union wages and working conditions.

Terry Macrae's Alcatraz Cruises (a subsidiary of Hornblower) refuses to hire IBU and MM&P members who have worked on the Alcatraz ferry since 1973.

The International Longshore and Warehouse Union was born out of the 1934 San Francisco Maritime and General Strike.

Since then, the ILWU has maintained good wages and working conditions on the entire Bay Area waterfront. The current assault by Hornblower is a direct attack at the heart of ILWU jurisdiction and demands a powerful response!

In a show of solidarity ILWU Local 10 voted for a port-wide shutdown in support of the IBU & MMP workers.

This is call for all union members and their allies to join us on the picket line December 9 at 10 AM.

An Injury to One is an Injury to All!
