

# Please Support Workplace Justice

The Government's Employment Bill is currently progressing through Parliament. The Employment Bill can be amended to include the following clauses taken from the TUC backed **Trade Union Rights and Freedoms Bill**:

- Better protection for striking workers
- Prevention of the use of replacement labour during strikes
- Fairer industrial action balloting procedures

**Please support the campaign for justice in the workplace and improvements to trade union and workers' rights by sending this postcard to your MP.**

The United Campaign is supported by:

Dear .....MP

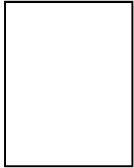

Unions play a vital role in protecting and raising living standards and fighting poverty. The removal of trade union rights has contributed to an increase in inequality over the last 25 years. I hope you can therefore agree to support the following amendments to the Employment Bill when they are tabled,

1. Better protection for workers taking part in lawful industrial action – so that all workers have the right to take official industrial action free from the fear of dismissal or victimisation.
2. Preventing the use of agency workers to replace striking workers - to tighten loopholes in the existing law and improve compliance
3. Fairer balloting procedures – cutting the “red tape” that unions face when balloting members for industrial action by placing a duty on employers to supply trade unions with information they need to comply with notice and balloting requirements.

These protections are taken from the TUC backed Trade Union Rights and Freedoms Bill. I would also be grateful if you could sign EDM 1604 in support of the Trade Union Rights and Freedoms Bill. I look forward to hearing from you.

With best wishes,
