

CLIMATE CAMP 2009: PART 1

STOPPING CARBON MARKETS.
BECAUSE NATURE DOESN'T DO BAILOUTS.

Climate Camp hits the City of London on April Fools Day the eve of the G20 Leaders' London summit

First the **city traders** speculated with our **homes, jobs and money** – with disastrous results. Now they are speculating with our climate and the very **future of life on earth** – and once again our governments are cheering them on.

By creating a brain-bending system of **carbon pollution licenses**, fossil fuel companies and trading firms have found a way to keep on churning out global warming gases and to reap huge windfall profits at the same time. Meanwhile, the UK government is justifying a third runway at **Heathrow** and a coal-fired power station at **Kingsnorth** by saying that these new '**carbon trading**' schemes will magically make all their emissions vanish.

They are handing control of our climate over to the same people and systems that caused the financial collapse. All the workable and fair alternatives aren't getting a look-in. We need to stop this foolishness.

We've camped against the **Heathrow** runway, we've camped against the **Kingsnorth** coal power station. Now it's time to camp against the over-arching problem: absolute faith in **unfettered markets** and **endless economic growth**. On **April 1st** the **G20** leaders arrive in London. At a time of climate crisis their response to the market meltdown is **emergency loans** to car manufacturers, **increased spending** to encourage consumption, and **bailouts** for the very people who got us into this mess - just the thing that will make the climate crisis worse.

**Don't let them get away with it.
Join our Camp in the Square Mile!**

Bring a pop-up tent if you've got one, sleeping bag, wind turbine, mobile cinema, action plans and ideas...let's imagine another world...

Gather at **noon, 1 April 2009** at the **European Climate Exchange, Hasilwood House, 62 Bishopsgate, EC2N 4AW**
