¹ Period life expectancy at birth is an estimate of the average number of years a newborn baby would survive if he or she experienced the area's age-specific mortality rates for that time period throughout his or her life. The figure reflects mortality among those living in the area in each time period, rather than mortality among those born in each area. It is not therefore the number of years a baby born in the area in each time period could actually expect to live, both because the death rates of the area are likely to change in the future and because many of those born in the area will live elsewhere for at least some part of their lives.

² Calculated using the methodology described in Office for National Statistics: Report: Life expectancy at birth and at age 65 by local areas in the United Kingdom, 2006-08. Health Statistics Quarterly **44**, 59-68.

³ Three year rolling averages, based on deaths registered in each calendar year and mid-year population estimates.

⁴ Based on boundaries pre-1st April 2009, before local government reorganisation.

¹ Period life expectancy at birth is an estimate of the average number of years a newborn baby would survive if he or she experienced the area's age-specific mortality rates for that time period throughout his or her life. The figure reflects mortality among those living in the area in each time period, rather than mortality among those born in each area. It is not therefore the number of years a baby born in the area in each time period could actually expect to live, both because the death rates of the area are likely to change in the future and because many of those born in the area will live elsewhere for at least some part of their lives.

² Calculated using the methodology described in Office for National Statistics: Report: Life expectancy at birth and at age 65 by local areas in the United Kingdom, 2006-08. Health Statistics Quarterly **44**, 59-68.

³ Three year rolling averages, based on deaths registered in each calendar year and mid-year population estimates.

⁴ Based on boundaries as of 1st April 2009, following local government reorganisation.
