The Big Lottery Fund does not own any vehicles however where necessary we hire and lease vehicles, for example for visiting projects that could not be reached by public transport.

The table below shows the amount spent on vehicles in England during the time period requested. A breakdown for each of the English regions could only be provided at a disproportionate cost.

Dear Mr Wishart,

DCMS Parliamentary Questions 12469 and 12468

I have been asked, as Chief Executive of the Heritage Lottery Fund, to answer the following questions which you recently tabled to the Secretary of State for Culture, Olympics, Media and Sport:

To ask the Secretary of State for Culture, Olympics, Media and Sport, what the annual expenditure on vehicles of (a) his Department and (b) each (i) non-departmental public body and (ii) executive agency for which his Department is responsible in each English region was in each of the last three financial years; and what the planned expenditure is in each case for 2010-11.

To ask the Secretary of State for Culture, Olympics, Media and Sport, what the cost was of pension contributions incurred by (a) his Department and (b) each (i) non-departmental public body and (ii) executive agency for which he is responsible in (A) Scotland, (B) Wales, (C) each of the English regions and (D) Northern Ireland in each of the last three financial years; and what the planned expenditure is for 2010-11.

I can confirm that there was no expenditure on vehicles by the Heritage Lottery Fund in the last three financial years and none is planned for 2010-11.

The Heritage Lottery Fund does not record pension contributions by country or by region in England. UK-wide pension contributions were as follows:

2007-08	£1,501,000
2008-09	£1,394,000
2009-10	£1,396,000

The planned expenditure for 2010-11 is £1,452,741.

I hope that this response is helpful.

Dear Mr Wishart,

Parliamentary Question 12468

To ask the Secretary of State for Culture, Olympics, Media and Sport, what the cost was of pension contributions incurred by (a) his Department and (b) each (i) non-departmental public body and (ii) executive agency for which he is responsible in (A) Scotland, (B) Wales, (C) each of the English regions and (D) Northern Ireland in each of the last three financial years; and what the planned expenditure is for 2010-11.

Parliamentary Question 12469

To ask the Secretary of State for Culture, Olympics, Media and Sport, what the annual expenditure on vehicles of (a) his Department and (b) each (i) non-departmental public body and (ii) executive agency for which his Department is responsible in each English region was in each of the last three financial years; and what the planned expenditure is in each case for 2010-11.

I have been asked by Department for Culture, Media and Sport to respond directly to you in order to answer the Parliamentary questions noted above that you have recently asked.

By way of background the Horserace Betting Levy Board is a statutory body established by the Betting Levy Act 1961 and now operating in accordance with the provisions of the Betting, Gaming and Lotteries Act 1963 (as amended). It is a non-departmental public body, and its sponsoring Government department is the Department for Culture, Media and Sport.

The Horserace Betting Levy Board raises money by collecting a statutory levy on off-course betting on horseracing, and on the Tote and on-course bookmakers, which it then distributes for the improvement of horseracing and breeds of horses and for the advancement of veterinary science and education.

The Horserace Betting Levy Board does not receive any public monies or lottery funding.

Douglas Erskine-Crum
Chief Executive

Parliamentary Question 12468

The cost of pension contributions incurred in the last three years was as follows: -

2007/2008	£nil
2008/2009	£3,190,000
2009/2010	£94,000

The planned annual expenditure on pension contributions for 2010/2011 is £94,000.

The Horserace Betting Levy Board operates a pension scheme providing defined benefits based on final pensionable salary ("Scheme"). The Scheme was closed to new members on 31 March 2003 and, with effect from 1 October 2009, the Scheme commenced winding up and defined benefit accrual ceased in the Scheme and all members who were accruing additional service immediately before 1 October 2009 became deferred members. A group personal pension plan was set up on 1 April 2003.

The significant pension contribution made in 2008/2009 was in respect of the existing pension deficit and the payment was required to facilitate the winding up of the Scheme. It should be noted that the Scheme is a multi-employer scheme to which The National Stud (withdrew on 17 April 2008), the National Joint Pitch Council (withdrew on 13 June 2008), RaceTech and Horserace Forensics Laboratory contributed and therefore this payment is not solely in respect of Horserace Betting Levy Board staff.

Parliamentary Question 12469

The annual expenditure on vehicles in the last three financial years was as follows: -

2007/2008	£25,944
2008/2009	£20,306
2009/2010	£807

The planned annual expenditure on vehicles for 2010/2011 is £nil.

In answering this question please note that officials at the Department of Culture, Media and Sport advised that the phrase 'annual expenditure on vehicles', includes car hire and purchase, but does not include taxis or mileage allowance for the use of private cars.

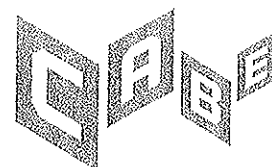

With best wishes,

Yours sincerely,

cc Alana Curtis - DCMS

Dear Mr Wishart

Response to Parliamentary Questions 12468 and 12469

As Chief Executive of the Commission for Architecture and the Built Environment (CABE), I have been asked to reply to your Parliamentary Questions (12468) and (12469) in respect of CABE. You asked the Secretary of State for Culture, Olympics, Media, and Sport:

What the cost was of pension contributions incurred by (a) his Department and (b) each (i) non-departmental public body and (ii) executive agency for which he is responsible in (A) Scotland, (B) Wales, (C) each of the English regions and (D) Northern Ireland in each of the last three financial years; and what the planned expenditure is for 2010-11. (12468)

CABE is a non-departmental public body that operates in England. The information you request is as follows:

2007/08 (Actual)	£802,112
2008/09 (Actual)	£850,476
2009/10 (Actual)	£816,915
2010/11 (Planned)	£817,546

You also asked:

What the annual expenditure on vehicles of (a) his Department and (b) each (i) non-departmental public body and (ii) executive agency for which his Department is responsible in each English region was in each of the last three financial years; and what the planned expenditure is in each case for 2010-11. (12469)

I can confirm that CAFE has not purchased any vehicles in the last three financial years and has no plans to do so in 2010-11. CAFE has made occasional use of hire cars and coaches, and expenditure on these has been as follows:

2007/08	3,134.22
2008/09	1,223.98
2009/10	1,326.62

It is unlikely that expenditure on hire cars and coaches in 2010/11 will exceed that of 2009/10.

I have copied this letter to DCMS officials.

Dear Mr Wishart,

I am writing to provide information in response to the Parliamentary Questions below which you tabled on 3 September 2010.

To ask the Secretary of State for Culture, Olympics, Media and Sport, what the annual expenditure on vehicles of (a) his Department and (b) each (i) non-departmental public body and (ii) executive agency for which his Department is responsible in each English region was in each of the last three financial years; and what the planned expenditure is in each case for 2010-11. To ask the Secretary of State for Culture, Olympics, Media and Sport, what the cost was of pension contributions incurred by (a) his Department and (b) each (i) non-departmental public body and (ii) executive agency for which he is responsible in (A) Scotland, (B) Wales, (C) each of the English regions and (D) Northern Ireland in each of the last three financial years; and what the planned expenditure is for 2010-11. [12468]

Tables 1 and 2 at appendix A set out the data you have requested for English Heritage. The figures in table 1 show the amount English Heritage has spent on vehicles in the last three financial years and what planned expenditure is for 2010/11. The figures include car hire, purchase and maintenance, but do not include taxis or mileage allowance for the use of private cars. The increase in figures in 2008/09 resulted from a policy change in favour of hire car usage as opposed to private car mileage payments. Our forecasted figures for 2010/11 are significantly lower as we are encouraging the use of virtual meetings to reduce travelling costs.

Cont...2

The figures in table 2 show the cost of pension contributions incurred by English Heritage in each of the last three financial years and what the planned expenditure is for 2010/11. The increase in 2008/09 related to the settlement of pension arrears for previous periods. Our forecasted figures for 2010/11 show a normal gradual increase for pension costs.

A copy of this letter will be placed in the Libraries of both Houses.

Yours sincerely,

Simon Thurley.

UK Sport is the strategic lead body for high performance sport in the UK. It invests National Lottery, Exchequer and more recently private sector funds in Britain's best Olympic and Paralympic sports and athletes to maximise their chances of success on the world stage.

UK Sport also leads and co-ordinates the bidding and staging of major international sporting events in the UK and is responsible for developing the UK's sporting relations with International Federations and other international bodies.

All of UK Sport's activity is characterised by it having a United Kingdom-wide remit for delivery. This is essential in those international sporting arenas where the nation competes or is represented as Great Britain. Where sporting activity is funded and carried out at a devolved national level, that is the responsibility of the Home Country Sports Councils.

The British Library spend on vehicles: The vehicles purchased are in relation to escorting staff and visitors to the outlying Boston Spa site from the major transport hub in the area, York City station. A Value for Money Review undertaken last year by our Internal Auditors, RSM Bentley Jennison, concluded this was the most cost effective method of transporting staff and visitors to the site.

PARLIAMENTARY QUESTIONS 12468 and 12469

Dear Mr Wishart,

In response to your recent Parliamentary Questions directed to the Secretary of State for Culture, Olympics, Media and Sport, I offer the following answers in relation to the Football Licensing Authority, an Executive NDPB sponsored by DCMS:

PQ 12468 - To ask the Secretary of State for Culture, Olympics, Media and Sport, what the cost was of pension contributions incurred by (a) his Department and (b) each (i) non-departmental public body and (ii) executive agency for which he is responsible in (A) Scotland, (B) Wales, (C) each of the English regions and (D) Northern Ireland in each of the last three financial years; and what the planned expenditure is for 2010-11.

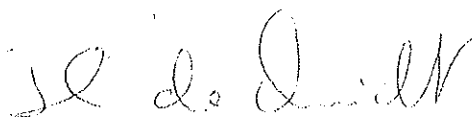

Answer – Details of the pension contributions incurred by the Football Licensing Authority for each of the last three financial years are contained in our Annual Reports, copies of which are held in the House of Commons Library. A precise estimate of the costs for 2010-11 cannot be given but it is likely to be similar to that for 2009-10.

Answer – The Football Licensing Authority had no expenditure on vehicles in

the last three financial years and has no planned expenditure for 2010-11.

Yours faithfully
