# The American Naturalist

Monthly; two volumes/year  
 145 pages/issue.  
 Founded: 1867  
 ISSN: 0003-0147  
 E-ISSN: 1537-5323

## The American Naturalist

Editor-in-Chief: Mark A. McPeck  
 Editors: Judith L. Bronstein  
 and Ruth G. Shaw

**Ranked #11**  
*out of 127*  
**Ecology Journals**

**Ranked #8**  
*out of 44*  
**Evolutionary  
 Biology Journals**  
 JCR® ISI 2009

Since its inception in 1867, *The American Naturalist* has maintained its position as one of the world's most renowned, peer-reviewed publications in ecology, evolution, and population and integrative biology research. Uniquely addressing all topics throughout ecology and evolution, *AmNat* emphasizes sophisticated methodologies and innovative theoretical syntheses, with the aim of advancing the knowledge of organic evolution and other broad biological principles.

Readers include researchers in ecology, evolutionary biology, and population, integrative and conservation biology.

*Individual subscriptions include membership in the American Society of Naturalists.*

## International Journal of Plant Sciences

Editor-in-Chief: Manfred Ruddat

Editors: Joy Bergelson, Sir Peter Crane, William Friedman,  
and Larry Hufford

A major outlet for botanical research since 1875, the *International Journal of Plant Sciences* publishes current research in all areas of the plant sciences, including genetics and genomics, developmental and cell biology, biochemistry and physiology, morphology and structure, systematics, plant-microbe interactions, paleobotany, evolution, and ecology. *IJPS* emphasizes dynamic rather than purely descriptive work and regularly features new and exciting research presented at major botanical conferences.

Readers include research scientists, plant scientists, biologists, and educators.

**Physiological and Biochemical Zoology**  
*Ecological and Evolutionary Approaches*

Editors: Kathleen M. Gilmour and Patricia M. Schulte

*Physiological and Biochemical Zoology* has since 1928 presented current research in environmental, adaptational, and comparative animal physiology and biochemistry. *PBZ* publishes the results of original investigations in animal physiology and biochemistry at all levels of organization, from the molecular to the organismic, focusing on adaptations to the environment. *PBZ* covers a wide range of subdisciplines, with a specific emphasis on studies that investigate the ecological and/or evolutionary aspects of physiological and biochemical mechanisms.

Readers include teachers and researchers in zoology, physiology, and other biological sciences.

## The Quarterly Review of Biology

Editor-in-Chief: Daniel E. Dykhuizen  
Editors: James D. Thomson,  
John J. Wiens, and Gregory A. Wray

**Ranked #7**  
*out of 73*  
**Biology Journals,**  
JCR® ISI 2009

The premier review journal in biology, *The Quarterly Review of Biology* has since 1926 presented insightful historical, philosophical, and technical treatments of important biological topics. *QRB* publishes outstanding review articles of generous length that are guided by an expansive, inclusive, and often humanistic understanding of biology. Beyond the core biological sciences, *QRB* is also an important review journal for scholars in related areas, which include policy studies and the history and philosophy of science. A comprehensive section of reviews on new biological books provides educators and researchers alike with information on the latest publications in the life sciences.

Readers include researchers, educators, and students throughout the biological sciences.
