(7) ensure an adequate number of qualified health care professionals and facilities to guarantee availability of, and timely access to quality care throughout the state;

(c) The board shall have provisions in place to insure the Minnesota Health Plan against unforeseen expenditures or revenue shortfalls not covered by the reserve account. The board may borrow money to cover temporary shortfalls.

Sec. 2. **[62V.20] REVENUE SOURCES.**

Subdivision 1. **Minnesota Health Plan premium.** (a) The Minnesota Health Board shall:

(1) determine the aggregate cost of providing health care according to this chapter;

(b) The premium structure must be based on ability to pay and include a cap on the maximum premium.

(c) On or before January 15, 2013, the board shall submit to the governor and the legislature a report on the premium and business health tax structure established to finance the Minnesota Health Plan.

Subd. 2. **Funds from outside sources.** Institutional providers operating under Minnesota Health Plan operating budgets may raise and expend funds from sources other than the Minnesota Health Plan including private or foundation donors. Subd. 3. **Governmental payments.** The chief executive officer and, if required under federal law, the commissioners of health and human services shall seek all necessary waivers, exemptions, agreements, or legislation so that all current federal payments to the state for health care are paid directly to the Minnesota Health Plan, which shall then assume responsibility for all benefits and services previously paid for by the federal government with those funds. In obtaining the waivers, exemptions, agreements, or legislation, the chief executive officer and, if required, commissioners shall seek from the federal government a contribution for health care services in Minnesota that reflects:

medical inflation, the state gross domestic product, the size and age of the population, the number of residents living below the poverty level, and the number of Medicare and VA eligible individuals, and does not decrease in relation to the federal contribution to other states as a result of the waivers, exemptions, agreements, or savings from implementation of the Minnesota Health Plan.

Subd. 4. **Federal preemption.** (a) The board shall pursue all reasonable means to secure a repeal or a waiver of any provision of federal law that preempts any provision of this chapter. The commissioners of health and human services shall provide all necessary assistance.

(b) In the event that a repeal or a waiver of law or regulations cannot be secured, the board shall adopt rules, or seek conforming state legislation, consistent with federal law, in an effort to best fulfill the purposes of this chapter.

(c) The Minnesota Health Plan's responsibility for providing care shall be secondary to existing federal government programs for health care services to the extent that funding for these programs is not transferred to the Minnesota Health Fund or that the transfer is delayed beyond the date on which initial benefits are provided under the Minnesota Health Plan.

Subd. 5. **No cost-sharing.** No deductible, co-payment, coinsurance, or other cost-sharing shall be imposed with respect to covered benefits.

Sec. 3. **[62V.21] SUBROGATION.**

Subdivision 1. **Collateral source.** (a) When other payers for health care have been terminated, health care costs shall be collected from collateral sources whenever medical services provided to an individual are, or may be, covered services under a policy of insurance, or other collateral source available to that individual, or when the individual has a right of action for compensation permitted under law.

(b) As used in this section, collateral source includes:

(1) health insurance policies and the medical components of automobile, homeowners, and other forms of insurance;

(2) medical components of worker's compensation;

(1) a contract or plan that is subject to federal preemption; or

(2) any governmental unit, agency, or service, to the extent that subrogation is prohibited by law. An entity described in paragraph (b) is not excluded from the obligations imposed by this section by virtue of a contract or relationship with a government unit, agency, or service.

(d) The board shall negotiate waivers, seek federal legislation, or make other arrangements to incorporate collateral sources into the Minnesota Health Plan.

Subd. 2. **Collateral source; negotiation.** When an individual who receives health care services under the Minnesota Health Plan is entitled to coverage, reimbursement, indemnity, or other compensation from a collateral source, the individual shall notify the health care provider and provide information identifying the collateral source, the nature and extent of coverage or entitlement, and other relevant information. The health care provider shall forward this information to the board. The individual entitled to coverage, reimbursement, indemnity, or other compensation from a collateral source shall provide additional information as requested by the board.

Subd. 3. **Reimbursement.** (a) The Minnesota Health Plan shall seek reimbursement from the collateral source for services provided to the individual and may institute appropriate action, including legal proceedings, to recover the reimbursement. Upon demand, the collateral source shall pay to the Minnesota Health Fund the sums it would have paid or expended on behalf of the individual for the health care services provided by the Minnesota Health Plan.

(b) In addition to any other right to recovery provided in this section, the board shall have the same right to recover the reasonable value of benefits from a collateral source as provided to the commissioner of human services under section 256B.37.

(c) If a collateral source is exempt from subrogation or the obligation to reimburse the Minnesota Health Plan, the board may require that an individual who is entitled to medical services from the source first seek those services from that source before seeking those services from the Minnesota Health Plan.

(d) To the extent permitted by federal law, the board shall have the same right of subrogation over contractual retiree health benefits provided by employers as other contracts, allowing the Minnesota Health Plan to recover the cost of services provided to

individuals covered by the retiree benefits, unless arrangements are made to transfer the revenues of the benefits directly to the Minnesota Health Plan.

Subd. 4. **Defaults, underpayments, and late payments.** (a) Default, underpayment, or late payment of any tax or other obligation imposed by this chapter shall result in the remedies and penalties provided by law, except as provided in this section.

(b) Eligibility for benefits under section 62V.04 shall not be impaired by any default, underpayment, or late payment of any premium or other obligation imposed by this chapter.

ARTICLE 5

Subd. 2. **Payments to noninstitutional providers.** (a) The Minnesota Health Board shall establish and oversee a payment system for noninstitutional providers that promotes quality and controls cost.

(b) The board shall pay noninstitutional providers based on rates negotiated with providers. Rates shall take into account the need to address provider shortages.

(c) The board shall establish payment criteria and methods of payment for care coordination for patients especially those with chronic illness and complex medical needs.

(d) Providers who accept any payment from the Minnesota Health Plan for a covered service shall not bill the patient for the covered service.

(e) Providers shall be paid within 30 business days for claims filed following procedures established by the board.

Subd. 3. **Payments to institutional providers.** (a) The board shall establish annual budgets for institutional providers. These budgets shall consist of an operating and a capital budget. An institution's annual budget shall be negotiated to cover its anticipated

services for the next year based on past performance and projected changes in prices and service levels.

(b) Providers who accept any payment from the Minnesota Health Plan for a covered service shall not bill the patient for the covered service.

Subd. 4. **Capital management plan.** (a) The board shall periodically develop a capital investment plan that will serve as a guide in determining the annual budgets of institutional providers and in deciding whether to approve applications for approval of capital expenditures by noninstitutional providers.

(b) Providers who propose to make capital purchases in excess of $500,000 must obtain board approval. The board may alter the threshold expenditure level that triggers the requirement to submit information on capital expenditures. Institutional providers shall propose these expenditures and submit the required information as part of the annual budget they submit to the board. Noninstitutional providers shall submit applications for approval of these expenditures to the board. The board must respond to capital expenditure applications in a timely manner.

Sec. 3. **[62V.06] MINNESOTA HEALTH BOARD.**

Subdivision 1. **Establishment.** The Minnesota Health Board is established to promote the delivery of high quality, coordinated health care services that enhance health; prevent illness, disease, and disability; slow the progression of chronic diseases; and improve personal health management. The board shall administer the Minnesota Health Plan. The board shall oversee:

(1) the Office of Health Quality and Planning under section 62V.09; and

(2) the Minnesota Health Fund under section 62V.19.

Subd. 2. **Board composition.** The board shall consist of 15 members, including a representative selected by each of the five rural regional health planning boards under section 62V.08 and three representatives selected by the metropolitan regional health planning board under section 62V.08. There is currently a serious shortage of providers in many health care professions, from medical technologists to registered nurses, and many potentially displaced health administrative workers already have training in some medical field. To alleviate these shortages, the dislocated worker support program should emphasize retraining and

placement into health care related positions. As Minnesota residents, all displaced workers shall be covered under the Minnesota Health Plan.

Subd. 5. **Conflict of interest committee.** (a) The board shall establish a conflict of interest committee to develop standards of practice for individuals or entities doing business with the Minnesota Health Plan, including but not limited to, board members, providers, and medical suppliers. After exercising due diligence, the committee shall determine whether the Minnesota Health Plan can obtain with reasonable efforts a more advantageous transaction or arrangement with a person or entity that would not give rise to a conflict of interest. If this is not reasonably possible under the circumstances, the committee shall make a recommendation to the board on whether the transaction or arrangement is in the best interest of the Minnesota Health Plan, and whether the transaction is fair and reasonable. The committee shall provide the board with all material information used to make the recommendation. After reviewing all relevant information, the board shall decide whether to approve the transaction or arrangement.
