

FOX NEWS POLL

Anderson Robbins Research (D) / Shaw & Company Research (R)
N= 911 registered voters (708 landline, 203 cell phone)

Interviews Conducted:
February 7-9, 2011

Methodology

The Fox News Poll is conducted under the joint direction of Anderson Robbins Research (D) and Shaw & Company Research (R). The poll is based on live telephone interviews with a national sample of 911 registered voters, and was conducted February 7-9, 2011 in the evenings.

Landline and cell phone telephone numbers were randomly selected for inclusion in the survey using a probability proportionate to size method, which means that phone numbers for each state are proportional to the number of voters in each state.

Results based on the full sample have a margin of error of $\pm 3\%$. Results among subgroups have larger sampling errors, including: Democrats (n = 389) $\pm 5\%$; Republicans (n = 354) $\pm 5\%$; Independents (n = 147) $\pm 8\%$.

Results from Fox News polls before February 2011 were conducted by Opinion Dynamics Corp.

Poll Results

Questions 1-2 released separately.

3. - 16. I'm going to read you a list of names -- for each one please tell me if you think that person would make a good president or not. If you have never heard of a person, please just say so. (RANDOMIZE) SCALE: 1. Yes 2. No 3. (Don't know - vol.) 4. Never heard of
