INTRODUCTION

1. This report has been prepared pursuant to decision III/24 of the Conference of the Parties, which requested the Executive Secretary to prepare a quarterly report on the administration of the Convention including such matters as the staff list, status of contributions, progress on the implementation of the medium term work programme and financial expenditure report. The requirements to report on a regular basis to the Parties were further elaborated under the Administrative Arrangements between the Secretariat and UNEP, which were endorsed by the Conference of the Parties in decision IV/17.
2. The Executive Secretary has therefore, prepared the 46th edition of the Quarterly Report which contains a summary of key activities in implementing the decisions of the Conference of the Parties and other relevant matters during the period 1 July to 30 September 2009.

B. German Financial Resources Management

85. During the third quarter 2009, the following activities were undertaken:

- a. Elaboration of a tool kit on biodiversity mainstreaming for stakeholders involved in multi and cross-sectoral planning and finance processes (including Poverty Reduction Strategies) at the national level. The tool kit targets essentially mid level officers from Planning and Finance Ministries and provides a conceptual frame as well as a technical overview on how to incorporate through an ecosystems goods and services approach biodiversity considerations into responsible and informed decision making. The tool will show the importance of ecosystem services as indispensable assets for sustainable development and poverty reduction. Shifting from a traditional re-active and do-no harm approach to a pro-active investment vision, the tool aims to overcome remaining doubts and skill gaps to definitely incorporate biodiversity into development planning processes.
- b. As a first step to elaborate an umbrella framework linking the planning cycle and the implementation of the CBD better to development and poverty reduction processes, an agreement in form of a consultancy was established with UNEP/WCMC. The work starts with an analysis on to which extent socio-economic and poverty considerations are already integrated in each of the seven thematic Programmes of Work. Based on this analysis and detected gaps a proposal for a better and coherent integration of poverty and socio- economical issues within each thematic Programme of Work will be formulated. The results will be presented in form of individual desired matrices for each Programme of Work. A synthesis of common tasks and challenges for all the Programmes of Work will provide substantial contributions for the umbrella framework and the new Strategic Plan beyond 2010.
- c. Outlines of a technical series entitled “Interdependence between biodiversity and development under global change” were defined. The technical series will include several disciplinary and trans-disciplinary scientific manuscripts showing the actual best available knowledge on the main global challenges related to human survival and options to prevent dangerous tipping points resulting from biodiversity loss, ecosystem degradation and climate change. After calling for contributions through the CBD-web a significant amount of submissions and letter of interest were received for each of the chapters. The recruiting process will be finalized in October 2009.
- d. In the context of concrete initiatives with regional organizations, collaboration starts with the Southern African Development Community (SADC - FANR). The purpose of this additional initiative with SADC is to catalyze actions aiming to reinforce the implementation of its Regional Biodiversity Strategies. Additional to the NBSAPs more and more countries work at the regional level on biodiversity issues as part of common

/...

trans-boundary challenges and regional integration processes. The collaboration with SADC consist in gathering good practices and lessons learned from member states in order to identify replicable experiences and establish a common trans-boundary portfolio for priority interventions in the region. Based on this work and an additional contribution from IUCN-Pretoria, SADC will be able to operationalize its biodiversity strategy through the formulation of an regional action plan and elaborate projects proposals for fund rising. A consultant was hired and will start his work in October.

- e. During a mission to Peru and Ecuador in July a common work plan with the Peruvian Ministry of Environment and the General Secretary of the Andean Community of Nations (SGCAN) were defined. The Peruvian Ministry is interested to be involved in the whole SCBD Biodiversity for Development Initiative in order to contribute Peru's experiences into the planned guidance and mainstreaming activities, including the review of the strategic plan. For this purpose the Ministry seconded an experienced Officer to the SCBD, who will work on the agreed issues during the next weeks. The Andean Community expressed interest to collaborate with the SCBD to better link its regional biodiversity program with poverty reduction in the region.
- f. During a second mission to Germany in September the Programme Officer attended an international workshop at the Isle of Vilm hosted by the German Agency for Nature Conservation (BfN). The workshop was dedicated to analyze the actual CBD Strategic Plan and 2010 Target in order to identify gaps regarding its linkages to poverty reduction and development. The Programme Officer presented the working approach to better integrate poverty and development issues into the CBD planning cycle. The workshop came up with concrete recommendations on how to better link the new strategic plan and the post 2010 framework to poverty reduction and development. Specific goals and indicators incorporating an equitable access to vital ecosystem services for all the segments of the society, transparency and good environmental governance as well as a clear international commitment for cooperation and capacity building on the interfaces between biodiversity conservation – climate change – poverty reduction – development are the central recommendations.

Decision IX/26: Promoting Business Engagement

86. A two-day informal brainstorming meeting was held at the CBD Secretariat on 14-15 September 2009 with a view to advancing the decisions VIII/17 and IX/26 of the Conference of the Parties to the CBD on engagement with the private sector. A. Website Maintenance and Development:

- a. Implementation of several important web portals proceeded with a special focus on the International Year on Biodiversity (IYB) portal, the Biodiversity for Development portal, and LifeWeb portal. The latter greatly benefited from the arrival of the two LifeWeb staff members (Coordinator and Website Officer) at the beginning of the summer.
- b. Some visual enhancements were made to the data-driven dynamic web components that display related websites and reference documents across the CBD website.

- c. Development of a web page and translation management system proceeded, but more work is needed to get an operational version.
- d. A junior programmer worked as a CHM intern during the summer and investigated how to benefit from a Web 2.0 service provider (Google) to share calendar and other relevant information. A basic proof of concept was implemented.

B. Knowledge and Information Management:

- a. The report of the consultancy on knowledge and information management was submitted to the Secretariat with recommendations on how to improve knowledge and information management.
- b. A CHM intern reviewed and enhanced the content of several key database tables (related websites, reference documents). He also structured facts and figures extracted from the available Fourth National Reports for future export into a database.
- c. The CBD Secretariat actively participated in the UNEP Knowledge Management Meeting for MEAs held in Chexbres, Switzerland on 22-24 September 2009. The purpose of the meeting was to take stock of existing initiatives and identify useful information services that could be implemented as a first step towards broader knowledge sharing among MEAs.

C. Cooperation and the Clearing-House Mechanism Network:

- a. The ASEAN Centre for Biodiversity (ACB) organized a Regional Technical Workshop on CHM Enhancement: Networking and Collaboration Tools in Bogor, Indonesia, on 30 June-3 July 2009. The workshop, attended by 18 CHM experts from 8 ASEAN countries, provided concrete hands-on training on the Joomla content management system (CMS). The CBD Secretariat contributed by presenting the CHM strategic vision and lessons learned, and by compiling information on national CHM from the various participating countries.
- b. The Third Global Invasive Species Information Network (GISIN3) meeting was held in Elmira, NY, United States on 26-29 July 2009, and organized by USGS National Biodiversity information Infrastructure (USGS/NBII). The objective of the meeting was to make progress in the establishment of the GISIN protocol, an interoperability mechanism to exchange IAS information between providers and potential users. The meeting was attended by 12 IAS/IT experts from several IAS data providers and other relevant institutions (IABIN I3N, FishBase, Smithsonian Institute, GBIF, and CBD/CHM).

BIOSAFETY

THE CARTAGENA PROTOCOL ON BIOSAFETY

**III. IMPLEMENTATION OF THE DECISIONS OF THE CONFERENCE OF THE PARTIES
SERVING AS THE MEETING OF THE PARTIES TO THE PROTOCOL**

Decisions BS-II/2 and BS-IV/2: Operation and Activities of the Biosafety Clearing House (BCH)

126. With the aim of improving Management Centre as recommended at the last BCH-IAC meeting and in accordance with Programme Element 1 of the annex to BS-II/2, a new version of the BCH Management Centre and 6 new common formats for information registration have been released and are available at <http://bch.cbd.int/managementcentre>. The following changes have been effected:

- the structure of the common formats has been improved by adding new fields (metadata);

/...

- a number of mandatory fields have been introduced to minimize registration of incomplete and/or inaccurate records,
- a new procedure for the validation of information which establishes a timeframe for the confirmation or updating of certain categories of information.

127. Common formats for the submission of information at the Biosafety Information Resource Centre (BIRC), LMO registry, Gene registry and the Organism registry have also been modified. These modifications are aimed at offering a more user-friendly interface as well as a wider and more precise range of options for the classification of records. In addition, a new set of Frequently Asked Questions (FAQs) has been made available at: <http://bch.cbd.int/help/faq.shtml>.

128. During the reporting period, the Secretariat launched through the BCH a website on the Online Survey on the Application of and Experience in the Use of Socio-Economic Considerations in Decision-Making on Living Modified Organisms. The online survey will commence on 1 October and end on 31 October 2009.

129. With regards to the upcoming BCH IAC meeting in October 2009, the Secretariat has finalized an agenda that available at: <http://bch.cbd.int/about/iac/>. The meeting is expected to be attended by 20 participants who include BCH experts and observers.

130. The BCH databases continues to expand and improve with the increase in information registered in the capacity-building databases, the Biosafety Information Resource Centre (BIRC) and the addition of guidance materials on risk assessment.

Decision BS-IV/11: Risk Assessment and Risk Management

131. The Ad Hoc Technical Expert Group on Risk Assessment and Risk Management under the Cartagena Protocol on Biosafety (AHTEG) continues its work on the development of guidance materials in its four Sub-working Groups. (Roadmap for Risk Assessment, Living Modified Crops with Resistance or Tolerance to Abiotic Stress, Living Modified Mosquitoes and Living Modified Organisms with Stacked Genes or Traits). It is hoped that the outputs of the Sub-working Groups, among others, will be ready for the second round of the discussion groups in November 2009 under the Open-ended Online Forum.

132. Pursuant to decision BS-IV/11, the Secretariat issued a notification reminder on 25 August 2009 calling for the submission of scientifically sound information regarding the identification of living modified organisms or specific traits that may have adverse effects on the conservation and sustainable use of biological diversity, taking also into account risks to human health. The submissions received by the deadline will serve as a basis for deliberations by experts in i) ad hoc discussion groups and ii) real-time conferences under the Open-ended Online Forum; as well as by the experts of the Ad Hoc Technical Expert Group during its second meeting.

Decision BS-IV/17: Public Awareness, Education and Participation

133. The Secretariat released the sixth issue of the Biosafety Protocol News in July and produced an updated version of the brochure on the Cartagena Protocol on Biosafety in the six UN languages. It also embarked on preparation of outreach materials on the Protocol for the International Year on Biodiversity (IYB).

The Secretariat organised the first in the series of Regional Training of Trainers' Workshops on the Identification and Documentation of Living Modified Organisms (LMOs) under the Cartagena Protocol on Biosafety for the Africa region. The workshop was held from 14 to 18 September 2009 in Bamako, Mali. It was hosted by the Government of Mali with the financial contribution from the European Commission and with support for some participants being provided by the Union Economique et Monétaire Ouest Africaine. The workshop was attended by more than 36 participants including 22 countries and 6 representatives from organizations involved in the identification and documentation of living modified organisms.

136. The workshop was aimed at introducing customs officers to (i) the requirements of the Cartagena Protocol on Biosafety regarding the identification and documentation of LMOs; and (ii) techniques and methodologies that may be used for the implementation of these requirements. To this end, participants discussed the role of customs officials in implementing the Cartagena Protocol on Biosafety, documentation accompanying shipments of living modified organisms, sampling and detection of living modified organisms and experiences of the Green Customs Initiative partners. One of the major outputs of the workshop was the development of action plans for the implementation of the identification and documentation requirements for LMOs by country participants. The workshop also had an experimental session on LMO identification at the Laboratoire de Biologie Moléculaire Appliquée (LBMA) of the Université de Bamako.
