The times cry out for a new direction. The existing left is unable to speak to our times. A serious, creative break must be made. Kasama is a communist project that is open to learning and unafraid of our own uncertainties. At the same time, we don't shrink from what we know: the needed solutions cannot be found within a capitalist world order. We are for revolution – the people most dispossessed by this system freeing themselves and all humanity.

KASAMA PROJECT – walk the revolutionary road with us.
