Show Your Support For A Public Inquiry Into The Mal Hussain Case

The Friends of Mal Hussain Campaign petitions the Government to conduct an immediate public enquiry into the complete failure of Lancaster statutory agencies to protect Mal Hussain and his partner Linda Livingstone from over ten years of racial violence and psychological torture.

Mal has suffered over 4,000 racist incidents since moving into Ryelands Mini-Market, Lancaster in 1991 including being firebombed, shot at with live bullets and physically threatened. Mal and Linda are lucky to be alive and live like prisoners in their own home. Only a public enquiry will explain why the local police, city council and Crown Prosecution Services failed them during this sustained race hate campaign

Mal and Linda respectfully ask you to sign this petition for a public enquiry that will also create a lasting framework for ensuring that state agencies will never again turn their backs on victims of racism suffering alone and isolated.
