English Defence League show their true fascist colours. These racist thugs are coming into Scotland, re-branding themselves the Scottish Defence League

The fascist and racist BNP are strutting the streets of Glasgow, bouyed up by the outrageous publicity afforded them by the BBC and the printed media.

They and their members/allies in the mis-named Scottish Defence League prey on the fears of the most deprived communities - who have been abused and neglected for years by the big capitalist parties and the rotten system they uphold. But their poisonous racism and violence can only divide and weaken the very communities that need to unite against poverty, low incomes, poor housing.

The Scottish Socialist Party has a proud and consistent record of combating fascists - both by blocking their path on the streets and by appealing to those they seek to exploit with a fighting socialist alternative set of policies. We stand up for equal rights, regardless of race, nationality, religion or origins. We stand up for decent pay,

guaranteed jobs, 21st century housing provision - and for a massive re-distribution of wealth to pay for these basic needs. We are the only party in Scotland which opposed the invasion of Afghanistan - a war that has added to the racism whipped up by the government and sections of the media. We unite with others in our communities against poverty, discrimination and racism. We aim at a democratic socialist Scotland - that embraces all who live here, long-term residents and newcomers alike. We extend the hand of friendship, not the fist of fascism, to those fleeing persecution or simply seeking a new life in Scotland.

Attend the public meeting.

Take part in a discussion about how best to halt the spread of racism and fascism. Help build a future based on equality and human solidarity, not rampant greed, inequality, corruption and attempts to scapegoat minorities - the age-old divide and conquer practised for centuries by the British Empire.
