

Turn Their Election into a Referendum

VOTE FOR A NEW WORLD

Write-In “World Socialism”

Capitalism simply cannot be reformed to work in the interest of the majority of the population, the working class. Which is why we in the World Socialist Party say workers should organize to end it, not to try and reform it.

Real socialism is a world without frontiers, without armed states, without privileged classes, as system of free access, where the resources of the Earth are used for the mutual benefit of all. This is the only framework within which the problems facing humanity in general and working people in particular stress at work, inadequate public services, war and the threat of war, ecological destruction, world hunger, and the rest can be solved.

That is why working for Socialism is the only constructive and worthwhile political activity.

It is not up to us to tell you how to vote. If you see no alternative to capitalism, no doubt you will vote for one or other of the capitalist politicians on offer.

If you want socialism you can indicate this by writing
WORLD SOCIALISM across your ballot.
