

The Jim Rome Podcast for iTunes 9

System Requirements

In order to run the Jim Rome Podcast for iTunes 9, please see the system requirements here:

<http://www.apple.com/itunes/download/>

Initial Setup of the Jim Rome Podcast for iTunes 9

• If needed, download and install iTunes 9 for PC or Mac from:

<http://www.apple.com/itunes/download/>

Note: If a previous version of iTunes is installed, please run Apple Software Update instead. To start update go to the **"Help"** menu and selecting **"Check for Updates."**

• Once installed, launch iTunes 9 and follow the on screen setup instructions.

• When complete, go to: <http://www.jimrome.com>

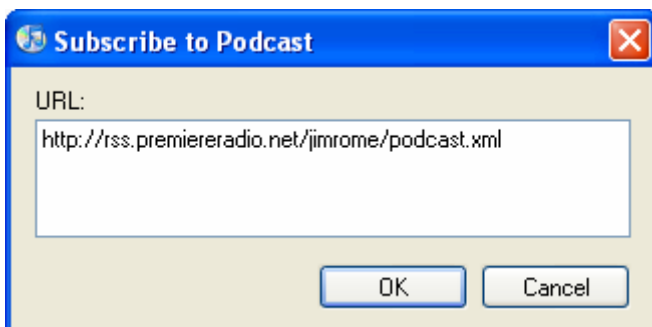

Note: Be sure you are logged into the website with your Jim Rome username & password.

• Click the link → **Add Jim Rome Podcast to iTunes**

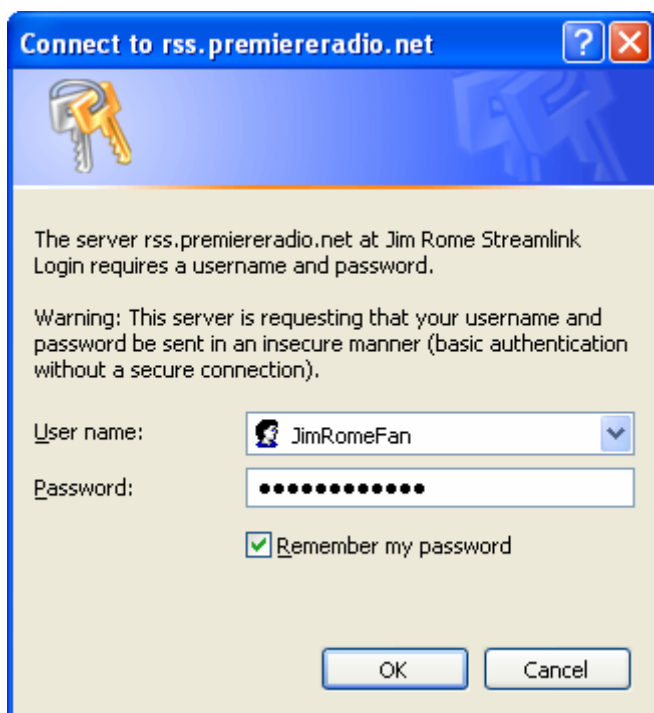

• This will automatically launch iTunes and auto-load the JIM ROME Podcast feed into the Podcast section of iTunes.

Note: If auto-load does not occur; within the iTunes player, go to the **"Advanced"** menu and select **"Subscribe to Podcast..."** In the **"Subscribe to Podcast"** box, paste the following URL: <http://rss.premiereradio.net/jimrome/podcast.xml>

• Click OK.

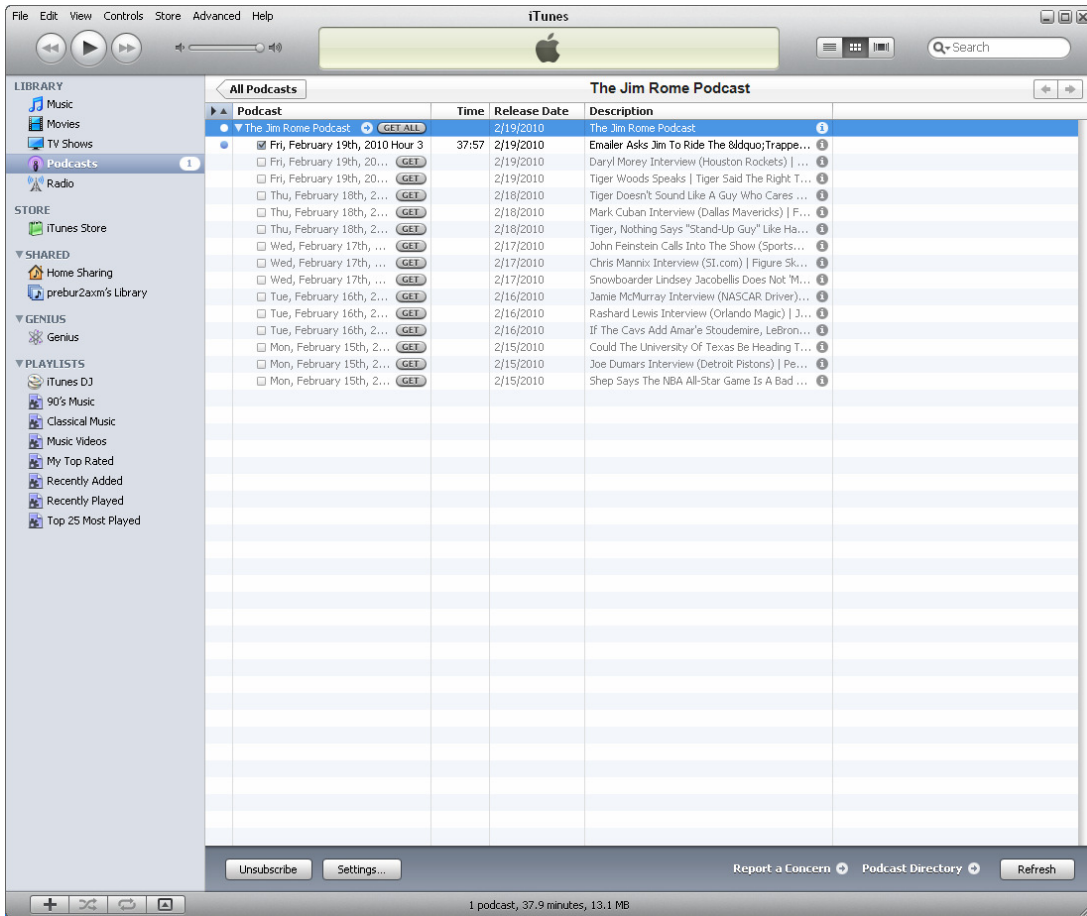

- When prompted within iTunes, enter your **Jim Rome Podcast** username & password.
Note: *Be sure to checkmark “Remember my password”.* Windows XP / Vista / 7 users will be required to click the **OK** button on the username & password box each time iTunes is restarted.

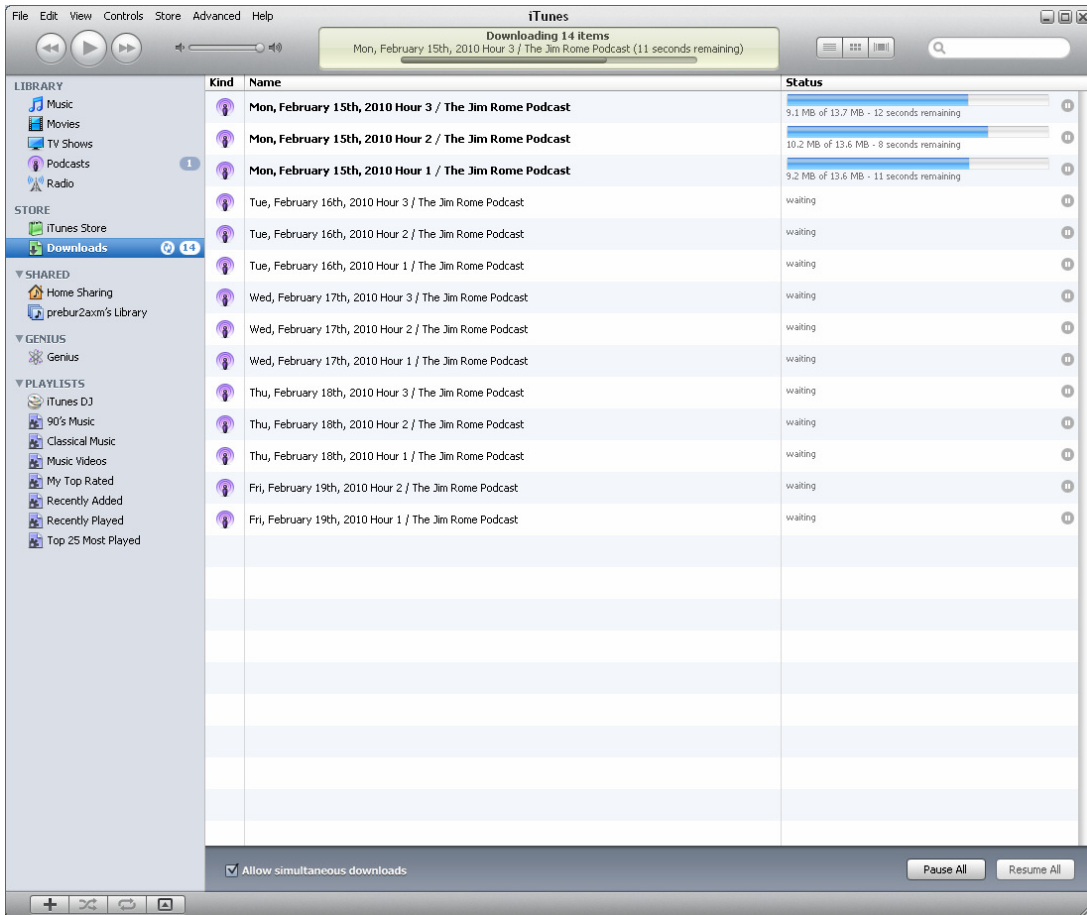

- The **Jim Rome Podcast** will load into the main Podcasts window of iTunes.
- Note:** *If this does not occur, click the **Podcasts** icon in the left menu bar of iTunes 9.*
- iTunes has several category viewing options: **Podcasts, Categories & New**. Please choose the one that best suits your needs.
- Double click on the **Jim Rome Podcast** album icon.

- You will see one downloaded hour, plus the past 5 days of shows available for download. **Note:** *If you don't see this, click the small dark grey **triangle** next to the feed to reveal the available shows for download.*
- To download all hours available from the past 5 days, click the **GET ALL** button at the top of the list.
- To download individual hours available from the past 5 days, click the **GET** button next to each hour listed.

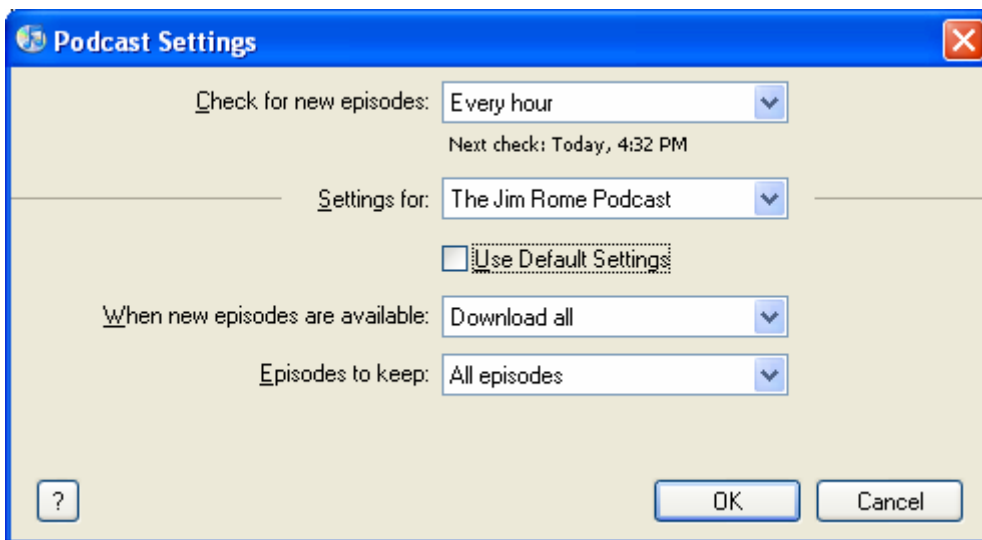

- To monitor the progress of the download, click the **Downloads** icon in the left menu bar of iTunes 9.

Setup the Jim Rome Podcast for iTunes 9 Auto-Download Feature

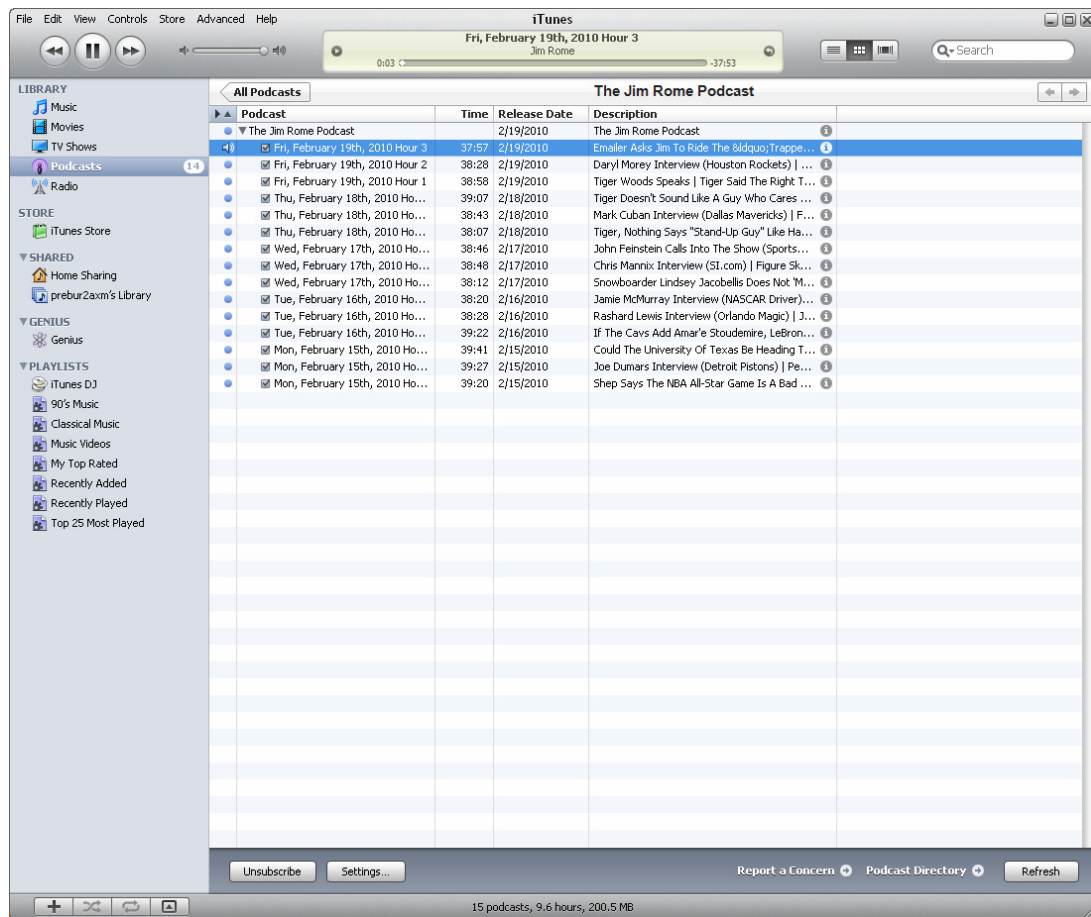

- iTunes has streamlined the Podcasts settings button. Under the Podcasts category, click the “**Setting...**” button located in the bottom left corner of the main Podcasts window.
 - In the **Podcast Settings** box, we recommend the following settings:
Check for new episodes: Every Hour
Settings for: The Jim Rome Podcast
Use Default Settings: Checked
- Note:** If you prefer, you can manually set the “When new episodes are available” and the “Episodes to keep” settings by un-checking the “Use Default Settings” box.
- Click the **OK** button.

Playing the JIM ROME Podcast for iTunes 9 Audio

• To play the **Jim Rome Podcast** in iTunes, simply double-click on the file of choice to hear it. Alternatively, you may highlight the hour of choice by clicking on it once and then clicking the play button in the upper left hand corner of iTunes.

Note: If you do not hear any audio, be sure the volume bar in iTunes 9 is adjusted to the right. Also, verify your computer system's volume and speakers are on.

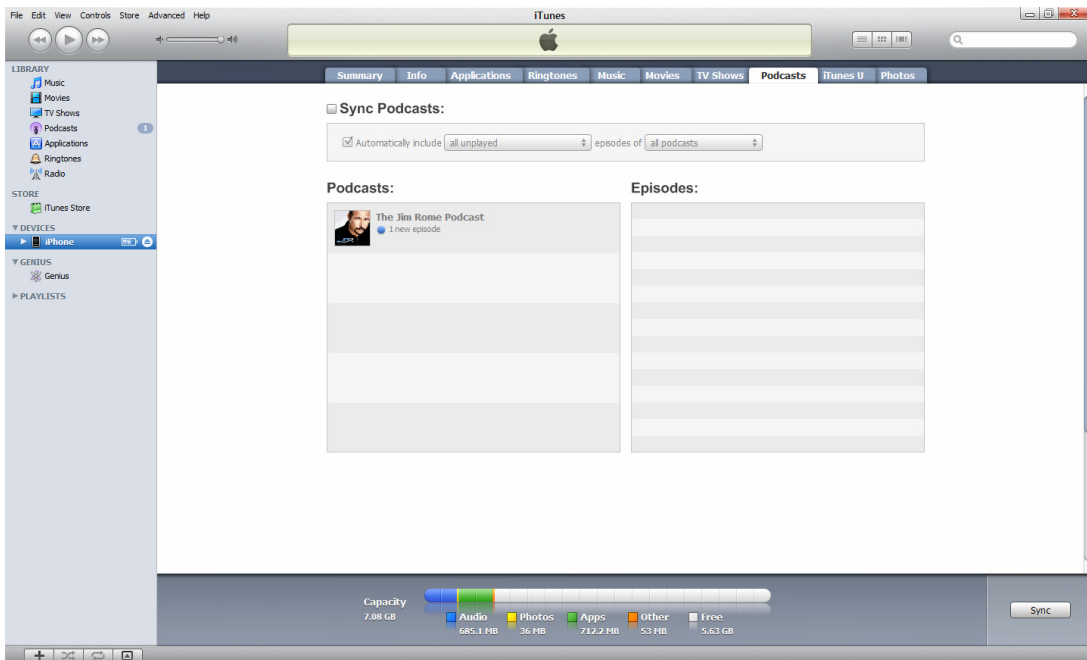

Syncing the Jim Rome Podcast for iTunes 9 to your iPod, iPod Touch, or iPhone

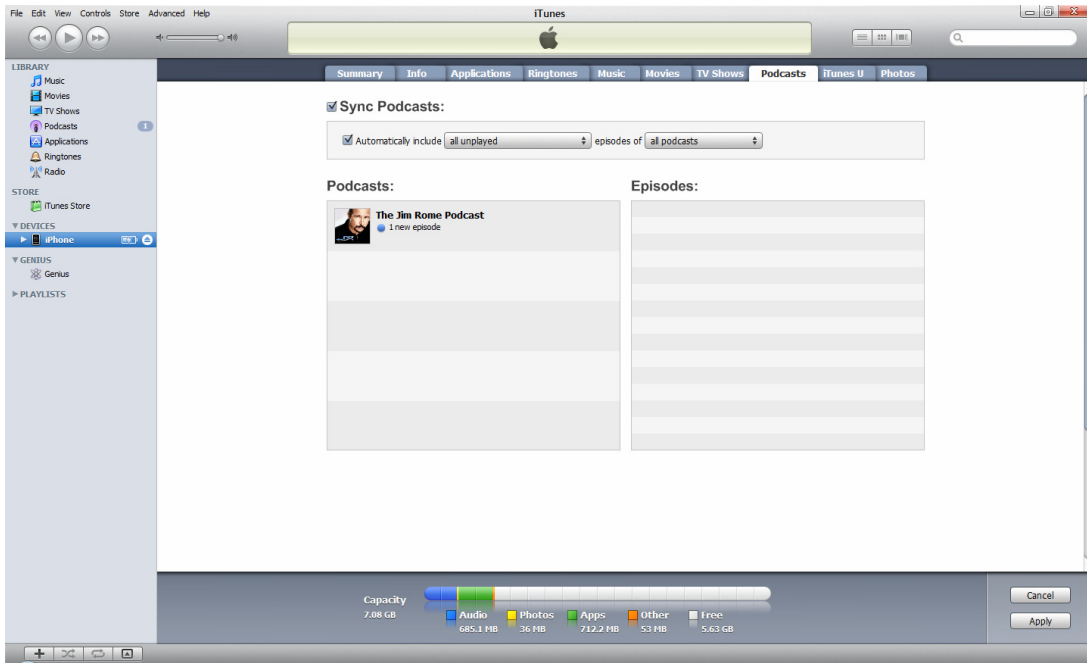

- Attach your iPod, iPod Touch or iPhone to your computer using your USB cable.
- Click the **iPod** icon in the left menu bar of iTunes 9 under **Devices**.

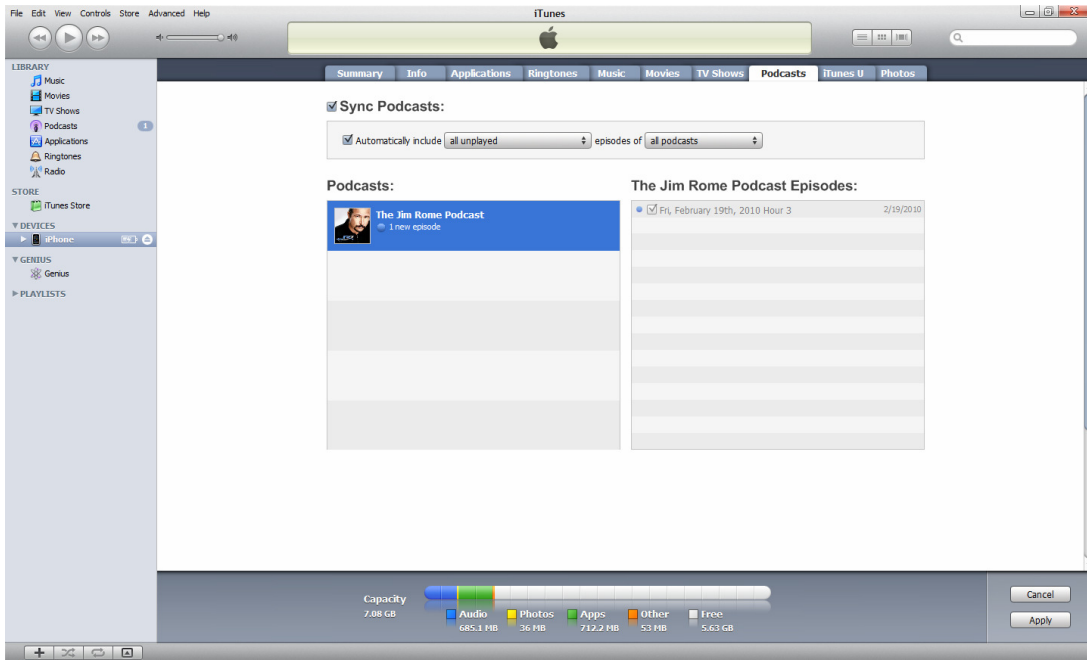

- Click the **Podcasts** tab in the main window.

- Checkmark **Sync Podcasts**.

- Select **The Jim Rome Podcast**.

- Click **Apply** in the bottom right hand corner of the main window.
- Click **Sync** in the bottom right hand corner of the main window to transfer the files from iTunes 9 to your iPod.

Note: *Once this has been setup once, attaching your iPod to your computer will auto-sync after download, or repeat the above step if the iPod is already attached to your computer.*

- When ready to detach the iPod for listening, click the **Eject** icon next to the **iPod** icon in the left side menu bar in iTunes 9.

Note: For more information on syncing your iPod or iPhone, go to:

<http://www.apple.com/itunes/tutorials/>

Playing the Jim Rome Podcast on your iPod, iPod Touch, or iPhone

- To playback the Jim Rome Podcast audio on your iPod, navigate to:
Music → Podcasts → Jim Rome Podcast → (Podcast Hours)
 - Scroll to the hour of your choice and then click the center button to begin playback.

 - To playback the Jim Rome Podcast audio on your iPod Touch or iPhone, navigate to:
iPod → More → Podcasts → Jim Rome Podcast → (Podcast Hours)
 - Tap the hour of your choice for playback.
-

Frequently Asked Questions

* Listing order of the Jim Rome Podcast

- You can control the way iTunes categorizes the order of your items by Podcast, Time, Release Date or Description.
- You can reverse the order dates of the downloaded **Jim Rome Podcast** hours by clicking the **Release Date** tab at the top of the iTunes Podcast category.
- Within the iPod, the **Jim Rome Podcast** is listed in chronological order by date and hour. You can create your own playlist in iTunes and arrange them in the order you wish to hear the show and then sync to your iPod.

Note: In the iPod, after you have completed playback of any given hour in the Podcast category, the iPod will take you back to the main Podcast menu. This is normal.

Note: For more details on creating a playlist within iTunes 9, go to:

<http://www.apple.com/itunes/tutorials/>

* Not Prompted for my Jim Rome Username & Password

- This is likely a result of the Windows Internet Security settings which iTunes 9 uses for its username & password authentication, to correct:

- Open Window's **Control Panel**
- Select **Security Center**
- Select **Internet Options**
- Click the **Default Level** button
- Click the **Apply** button
- Click the **OK** button
- Repeat the "initial setup of the **Jim Rome Podcast** for iTunes 9" instructions

- Mac OS X users, insure that Port 8080 is not being blocked by any network firewall. Generally this may be an issue at certain paid or free WiFi Hot Spot locations.

Note: If you are still not receiving a prompt for your username and password please try re-launching iTunes, highlighting the podcast and clicking the refresh button.

*** Exclamation Point Alert Next to Jim Rome Podcast Feed / Now New Podcasts Downloading**

• If you have downloaded, but not listened to the **Jim Rome Podcast** in iTunes for more than 5 days, iTunes will automatically stop downloading the **Jim Rome Podcast**, to correct:

- Click the **!** button next to **Jim Rome Podcast** feed
- When asked to resume this podcast, click the **Yes** button
- Click the **Refresh** button in the lower right hand corner of iTunes
