For the benefit of future organizing committees, each chapter contains conclusions and recommendations.

### VOLUME II THE CENTENNIAL OLYMPIC GAMES JEUX OLYMPIQUES DU CENTENAIRE

This volume is comprised of a prologue and three major sections. The prologue provides a description of the city of Atlanta and its history. Section One begins with the arrival of the Olympic Torch to Los Angeles, California, on 27 April 1996, and progresses as the Torch Relay moves across the US reaching Atlanta 19 July, the day of the Opening Ceremony. This Torch Relay description is juxtaposed with Atlanta's preparations for the Centennial Olympic Games during spring and summer 1996 and highlights of Cultural Olympiad exhibitions and events prior to the start of the Games. Section Two is a day-by-day account of the Games, 19 July–4 August, with highlights of athletic achievements and descriptions of cultural events, as well as details of Games-time operations. Section Three provides information on the competition of each sport in the programme of the 1996 Olympic Games.

*Ce volume comprend un prologue, qui décrit Atlanta et raconte son histoire, et trois grands chapitres. Le premier débute par l'arrivée de la flamme olympique à Los Angeles, en Californie, le 27 avril 1996, et retrace le relais du flambeau à travers les Etats-Unis jusqu'à son arrivée à Atlanta le 19 juillet, jour de la cérémonie d'ouverture des Jeux. Cette narration est juxtaposée aux préparatifs menés par Atlanta au printemps et pendant l'été de 1996 en vue des Jeux Olympiques du Centenaire, et indique les grands moments de l'Olympiade culturelle avant le début des Jeux. Le deuxième raconte les Jeux, jour par jour, du 19 juillet au 4 août, et donne les moments forts des épreuves sportives et des manifestations culturelles. Il donne aussi des détails sur l'aspect administratif des Jeux. Le troisième fournit des informations sur les épreuves de chaque sport inscrit au programme des Jeux Olympiques de 1996.*

### VOLUME III THE COMPETITION RESULTS RÉSULTATS DES COMPÉTITIONS

This volume is comprised of the detailed results for all athletes in all events. Also included as a reference is a section on medal winners and record-setting performances arranged by sport and discipline, as well as a section of venue maps for the major locations used during the 1996 Olympic Games.

*Ce volume donne les résultats détaillés de toutes les épreuves sportives. Il comprend aussi, en tant que référence, les médailles et les records par discipline sportive, ainsi qu'un chapitre consacré aux plans des principaux sites utilisés pendant les Jeux Olympiques de 1996.*

# PREFACE / PRÉFACE

**T**HE OFFICIAL REPORT of the Centennial Olympic Games is strongly influenced by historical precedence and IOC requirements. The organizers and authors of this Report have tried to provide as much detail as possible to assist Olympic scholars and future organizing committees.

This third and final volume contains the competition results from all events of the Programme of the 1996 Olympic Games. Every athlete who participated in the Games is named in this volume. The results are organized by their respective sports, which are listed alphabetically.

One organizational change in the presentation of the results of the 1996 Olympic Games concerns the order of the listing of men's and women's events. We have chosen to juxtapose men's and women's events that are the same or comparable for each sport.

We have endeavored to provide an accurate record of the competition results and have relied on both the Official Results books that were produced for each sport after the Games and authorized by the governing International Federations as well as additional research.

## *Note on Designations of New Records*

The statistics in this volume indicate World and Olympic records set during the 1996 Olympic Games as determined by the governing International Federation for each sport. The records are shown—by a "W" for a new World record and an "O" for a new Olympic record—within the results of each sport, with the exception of Weightlifting (see below).

World records are also Olympic records. Other types of records (such as national and area) as well as World and Olympic records that were equaled but not broken are not identified here.

For five sports, the International Federations define which performances qualify for new records when an event is without Olympic precedent or produces a tie. Decisions are made based on the following criteria:

■ *Aquatics—Swimming.* In the Women's 4 x 200 m Relay, which was a new event for these Games, the Olympic record is shown to have been broken more than once as the event progressed.

■ *Archery.* The format for all events was changed, so many new records were set in these Games. The best individual scores and combined scores at the completion of each event are denoted as Olympic records.

■ *Athletics.* In the Women's 5,000 m and the Women's Triple Jump, which were new events, only the best result at the completion of each of these events is designated as an Olympic record. In the Pole Vault, three athletes tied in setting an Olympic record height. Because all three vaults occurred in the same round, all three athletes are shown as having set an Olympic record.

■ *Shooting.* There were many new shooting events in these Olympic Games. Only the best score at the completion of each new event is denoted as an Olympic record. There were ties in both the Men's Trap and the Men's 50 m Free Rifle 3 Position events. Because the tying scores occurred within the same match, both athletes in each event are shown as having set an Olympic record.

■ *Weightlifting.* All weight divisions were changed for the 1996 Games. Olympic records were broken more than once in some divisions as events progressed. Records are shown in a separate table immediately following the Weightlifting results.

**L**E RAPPORT OFFICIEL des Jeux Olympiques du Centenaire est fortement influencé par l'historique et les exigences du C.I.O. Les organisateurs et les auteurs de ce Rapport se sont efforcés de fournir autant de détails que possible afin d'aider les érudits de l'Olympisme et les comités d'organisation à venir.

Ce troisième et dernier volume contient les résultats des compétitions de toutes les épreuves figurant au programme des Jeux Olympiques de 1996. Le nom de chaque athlète ayant participé aux Jeux apparaît dans ce volume. Les résultats sont organisés en fonction de chaque sport, par énumérations alphabétique suivant la langue anglaise.

Un changement organisationnel dans la présentation des résultats des Jeux de 1996 concerne l'ordre d'énumération des épreuves masculines et féminines. Nous avons décidé de juxtaposer les épreuves masculines et féminines semblables ou comparables dans chaque sport.

Nous avons tenté de donner un compte précis des résultats des compétitions. Nous nous sommes servis à cet effet des livres des Résultats officiels produits pour chaque sport pendant les Jeux et autorisés par des Fédérations Internationales. Nous avons également effectué des recherches supplémentaires le cas échéant.

### *Les Nouveaux Records*

Le présent volume contient des statistiques qui reflètent les records du monde et olympiques établis lors des Jeux Olympiques de 1996, conformément à la Fédération Internationale qui est l'organe directeur de chaque sport. Ils figurent parmi les résultats avec la mention "W" pour un nouveau record du monde, et "O" pour un record olympique, et ce pour tous les sports, à l'exception de l'haltérophilie (Voir ci-dessous). Tous les records du monde sont aussi des records olympiques. Les autres (nationaux et régionaux) et ceux qui ont été égalés mais non battus ne sont pas identifiés dans ces statistiques.

Dans le cas de cinq sports, les F.I. déterminent ce qui constitue un nouveau record s'il n'y a pas eu d'épreuve olympique précédente ou en cas d'ex aequo. Les décisions sont prises en fonction des critères suivants :

■ *Natation* — *Natation* : Dans le relais 4 fois 200 m féminin, épreuve nouvelle pour les Jeux, le record olympique a été battu à plusieurs reprises au fur et à mesure de la progression de la compétition.

■ *Tir à l'arc* : Le format de toutes les épreuves a été modifié, de sorte que de nombreux records ont été établis lors de ces Jeux. Les meilleurs scores individuels et combinés dans chaque épreuve constituent des records olympiques.

■ *Athlétisme* : Dans le 5 000 m et le triple saut féminins, qui sont des épreuves nouvelles, seul le meilleur résultat obtenu dans chaque discipline est considéré comme un record olympique. Dans le saut à la perche, trois athlètes ont établi un nouveau record olympique. Etant donné que les trois sauts victorieux ont eu lieu lors du même essai, les trois athlètes sont considérés comme ayant établi le nouveau record.

■ *Tir* : De nombreuses épreuves nouvelles ont été disputées lors de ces Jeux. Seuls les meilleurs scores enregistrés à la fin de chacune sont considérés comme des records olympiques. Il y a eu ex aequo à la fosse olympique et à la carabine libre 3 positions à 50 m messieurs. Etant donné que ces résultats ont été enregistrés au cours du même match, les deux athlètes sont considérés comme ayant battu le record olympique.

■ *Haltérophilie* : Toutes les catégories de poids ont été changées pour les Jeux de 1996. Les records olympiques ont été battus plus d'une fois dans certaines, au fur et à mesure de la progression de la compétition. Les records sont indiqués dans un tableau distinct qui suit immédiatement les résultats de ce sport.
