

Gilad Atzmon

Gilad Atzmon is an Israeli musician and political activist. He calls himself an "ex-Jew" and is notorious for his extreme antisemitic views. Opponents of racism and hatred should never welcome him to their meetings or premises. In fact, he is already widely shunned, even on the far Left.

The following quotes illustrate a selection of the views he has expressed.

Jews were responsible for their persecution by the Nazis¹

Jewish texts tend to glaze over the fact that Hitler's March 28 1933, ordering a boycott against Jewish stores and goods, was an escalation in direct response to the declaration of war on Germany by the worldwide Jewish leadership.

...

Jewish lobbies certainly do not hold back when it comes to pressuring states, world leaders and even super powers. AIPAC's behavior last week reminded me of the Jewish declaration of war against Nazi Germany in 1933.

Not many people are aware that in March 1933, long before Hitler became the undisputed leader of Germany and began restricting the rights of German Jews, the American Jewish Congress announced a massive protest at Madison Square Gardens and called for an American boycott of German goods.

Burning synagogues – a "rational act"²

I'm not going to say whether it is right or not to burn down a synagogue, I can see that it is a rational act.

Jews try to control the world, as predicted by the Protocols of the Elders of Zion

*We must begin to take the accusation that the Jewish people are trying to control the world very seriously.... American Jewry makes any debate on whether the 'Protocols of the elder of Zion' are an authentic document or rather a forgery irrelevant. American Jews do try to control the world, by proxy. So far they are doing pretty well for themselves at least.*³

*The Protocols is widely considered a forgery. It is a manual for a prospective new member of the "Elders", describing how they will run the world through control of the media and finance, replacing the traditional social order with one based on mass manipulation. Though the book is considered a hoax by most experts and regarded as a vile anti-Semitic text, it is impossible to ignore its prophetic qualities and its capacity to describe both the century unfolding and the political reality in which we live.*⁴

Jews are inhuman and they are destroying the planet⁵

I'm anti-Jewish, not anti-Jews. I think Jewish ideology is driving our planet into a catastrophe and we must stop.

Jews caused the Credit Crunch⁶

How is that America let its foreign policy be shaped by some ruthless Zionists? How come alleged American 'free media' failed to warn the American people of the enemy within? Money is probably the answer, it indeed makes the world go round, or at least the 'American housing market'. Throughout the centuries, Jewish bankers bought for themselves some real reputations of backers and financiers of wars and even one communist revolution]. ... You may wonder at this stage whether I regard the credit crunch as a Zionist plot. In fact it is the opposite. It is actually a Zionist accident. The patient didn't make it to the end. This Zionist accident is a glimpse into Political Zionism's sinister agenda. This Zionist accident provides us with an opportunity to see that as far as misery is concerned, we are together with the Palestinians, the Iraqis and the Afghans. We share one enemy.

Promotion of Holocaust denial

The question of whether there was a mass homicide with gas or 'just' a mass death toll due to total abuse in horrendous conditions is no doubt a crucial historical question. The fact that such a major historical chapter less than seven decades ago is scholarly [sic] inaccessible undermines the entire historical endeavour. ...Furthermore, unless one approves and repeats the official Holocaust narrative, one may find oneself locked behind bars. This happened lately to three rightwing history revisionists who dared to suspect the official Auschwitz narrative.I can see these three outlaws: [David] Irving, [Ernest] Zundel and [Germar] Rudolf, the three rightwing historical revisionists who happen to be locked behind bars. ...While left academics are mainly concerned with signalling out Holocaust deniers telling us what is right and who is wrong, it is the revisionists who engage themselves in detailed archive work as well as forensic scrutiny.... If history shapes the future, we need to liberate our perspective of the past, rather than arresting revisionists, we simply need many more of them.⁷

65 years after the liberation of Auschwitz we should reclaim our history and ask why? Why were the Jews hated? Why did European people stand up against their next door neighbours? Why are the Jews hated in the Middle East, surely they had a chance to open a new page in their troubled history? ... We should also ask for what purpose do the holocaust denial laws serve? What is the holocaust religion there to conceal? As long as we fail to ask questions, we will be subjected to Zionists and their Neocons agents' plots...Holocaust religion robs humanity of its humanism. For the sake of peace and future generations, the holocaust must be stripped of its exceptional status immediately. It must be subjected to thorough historical scrutiny. Truth and truth seeking is an elementary human experience. It must prevail.⁸

Israel is worse than the Nazis⁹

To regard Hitler as the ultimate evil is nothing but surrendering to the Zio-centric discourse. To regard Hitler as the wickedest man and the Third Reich as the embodiment of evilness is to let Israel off the hook. To compare Olmert to Hitler is to provide Israel and Olmert with a metaphorical moral shield. It maintains Hitler at the lead and allows Olmert to stay in the tail.

We should never compare Israel to Nazi Germany. As far as evilness is concerned, we should now let Israel take the lead.
