## LRD Centenary Appeal Help us go on supporting unions into the future.

The Labour Research Department (LRD) has been publishing information and undertaking research to support the trade union movement for the last 100 years. Our work is more relevant than ever with unions depending on LRD publications and services to represent members in a challenging environment.

So, to celebrate our 100 year anniversary, we are launching our Centenary Appeal for funds to help guarantee LRD's continuing success.

"The funds generated from our Centenary Appeal will be an enormous help in ensuring we can continue to provide unions with the resources and services they need in the future."

Lionel Fulton, Secretary, Labour Research Department

## We need to raise £100,000 to:

- Invest in our future. We want to continue developing our services and products and provide trade unions with the information they need in the right format.
- Renovate and modernise our Georgian office building and warehouse. The main office building is in good condition but we need to undertake a programme of planned maintenance. The crumbling warehouse at the back of the building is in urgent need of development.
- Update our telephone system which is now over 15 years old. A new system would help us integrate all our communications systems and provide a more efficient service.
