CORRECTION

Statistical Bulletin: Labour market statistics

February 2010

An error was found in this Statistical Bulletin, originally published on 17 February 2010. In the fourth sentence of the first paragraph on page 2, the figure that reads '7.67 million' should be '7.69 million'

This error has now been corrected.

ONS apologises for any inconvenience caused.

Statistical Bulletin

Labour market statistics

February 2010

Date: 17 February 2010

Coverage: United Kingdom Theme: Labour Market

ATION A

For October to December 2009:

The employment rate was 72.4 per cent and there were 28.91 million employed people.

The unemployment rate was 7.8 per cent and there were 2.46 million unemployed people.

The inactivity rate was 21.3 per cent and there were 8.08 million working age inactive people.

Total pay (including bonuses) rose by 0.8 per cent on a year earlier.

Regular pay (excluding bonuses) rose by 1.2 per cent on a year earlier.

Headline labour market indicators (seasonally adjusted), October to December 2009

| | Number of pe | eople (thousands) | Rates (percentages) | | |
|--------------------------------|-----------------|-------------------|---------------------|-------------------|--|
| Labour Force Survey indicators | | Change since July | Change since July | | |
| (United Kingdom) | Latest estimate | to September 2009 | Latest estimate | to September 2009 | |
| Number in employment (aged | | | | | |
| 16+) and rate (working age) | 28,905 | -12 | 72.4 | -0.1 | |
| Unemployment (aged 16+) | 2,457 | -3 | 7.8 | 0.0 | |
| Inactivity (working age) | 8,077 | 72 | 21.3 | 0.2 | |

| Average Weekly Earnings | Average weekly pay for December 2009 | Annual growth rate: percentage change |
|---------------------------------|--------------------------------------|---------------------------------------|
| (Great Britain) | (£ sterling) | between Oct-Dec 2008 and Oct-Dec 2009 |
| Total pay (including bonuses) | 451 | 0.8 |
| Regular pay (excluding bonuses) | 425 | 1.2 |

For January 2010:

The number of people claiming Jobseeker's allowance (the Claimant count) was 1.64 million.

Claimant count estimates (seasonally adjusted), January 2010

| | Number of pe | eople (thousands) | Rates (percentages) | | |
|---------------------------------|-----------------|-------------------------------|---------------------|-------------------------------|--|
| Jobseeker's allowance claimants | Latest estimate | Change since December 2009 | Latest estimate | Change since December 2009 | |
| (United Kingdom, aged 18+) | 1,635.6 | 23.5 | 5.0 | 0.1 | |

Summary of labour market statistics published on 17 February 2010

The **employment rate** for October to December 2009 was 72.4 per cent, down 0.1 on the quarter. The **number of people in employment** fell by 12,000 on the quarter to reach 28.91 million. The number of people in full-time employment fell by 37,000 on the quarter to reach 21.22 million, the smallest quarterly fall since the three months to July 2008. The number of people in part-time employment increased by 25,000 on the quarter to reach 7.69 million. There were 1.04 million employees and self-employed people working part-time because they could not find a full-time job. This is the highest figure since records for this series began in 1992 and it is up 37,000 on the quarter.

The unemployment rate for October to December 2009 was 7.8 per cent, unchanged on the quarter. The **number of unemployed people** fell by 3,000 over the quarter to reach 2.46 million. The number of people unemployed for more than 12 months increased by 37,000 over the quarter to reach 663,000, the highest figure since the three months to September 1997.

A comparison between unemployment and Gross Domestic Product is available at: http://www.statistics.gov.uk/cci/nugget.asp?id=2294

The number of people claiming Jobseeker's Allowance (the claimant count) increased by 23,500 between December 2009 and January 2010 to reach 1.64 million, the highest figure since April 1997. This monthly increase in the claimant count was preceded by two consecutive monthly falls.

The inactivity rate for October to December 2009 was 21.3 per cent, up 0.2 on the guarter but below the record high of 23.3 per cent recorded in 1983. The number of inactive people of working age increased by 72,000 over the quarter to reach a record high of 8.08 million. This increase in inactivity was largely driven by the number of students not in the labour market which has increased by 62,000 on the quarter to reach 2.26 million, the highest since comparable records began in 1993.

The number of vacancies in the three months to January 2010 increased by 49,000 on the previous quarter to reach 479,000.

Average total pay (including bonuses) was £451 per week in December 2009. In the three months to December 2009 total pay rose by 0.8 per cent on a year earlier.

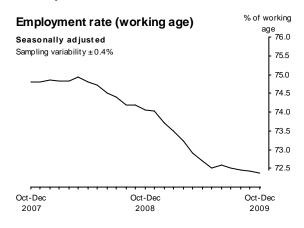

Average regular pay (excluding bonuses) was £425 per week in December 2009. In the three months to December 2009 regular pay rose by 1.2 per cent on a year earlier.

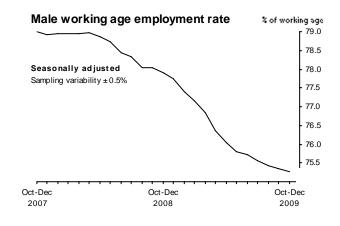

Detailed Commentary

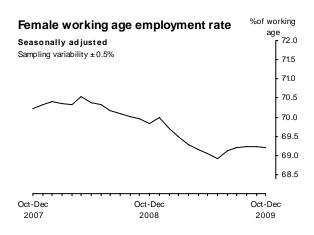

Employment (Tables 2 to 4, and 8)

The working age employment rate was 72.4 per cent in the three months to December 2009, down 0.1 percentage point on the three months to September 2009 and down 1.7 percentage points from a year earlier.

The working age employment rate for men was 75.3 per cent, down 0.3 percentage points on the previous guarter. The working age employment rate for women was 69.2 per cent, unchanged on the previous quarter.

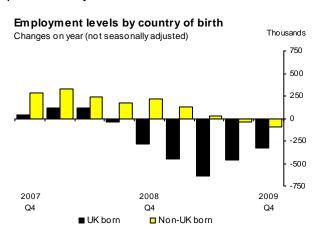

The number of people in employment was 28.91 million in the three months to December 2009, down 12,000 from the three months to September 2009 and down 428,000 on a year earlier. The number of people in full-time employment was 21.22 million in the three months to December 2009, down 37,000 from the three months to September 2009. Of this total, 13.52 million were men and 7.70 million were women. The number of people in part-time employment was 7.69 million in the three months to December 2009, up 25,000 from the three months to September 2009. Of this total, 1.88 million were men and 5.81 million were women.

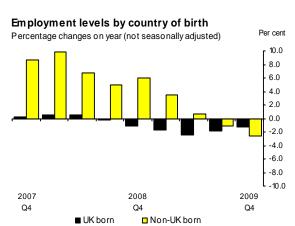

The number of people in public sector employment was 6.09 million in September 2009, up 23,000 from June 2009. The number of people in private sector employment was 22.82 million, up 15,000 from June 2009.

The number of UK born people in employment (not seasonally adjusted) was 25.26 million in the three months to December 2009, down 327,000 on a year earlier. The number of non-UK born people in employment (not seasonally adjusted) was 3.72 million, down 98,000 from a year earlier.

The working age employment rate for UK born people (not seasonally adjusted) was 73.5 per cent in the three months to December 2009, down 1.7 percentage points on a year earlier. The corresponding employment rate for non-UK born people was 67.0 per cent, down 1.9 percentage points on a year earlier.

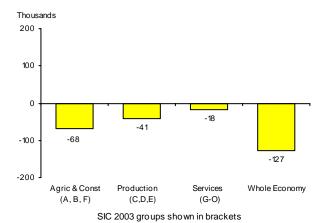

Jobs (tables 5 & 6)

There were 30.86 million workforce jobs in September 2009, down 127,000 over the quarter and down 649,000 on a year earlier. The sector showing the largest decrease in jobs over the quarter was construction, which fell by 67,000.

Workforce jobs by industry - September 2009

Changes on quarter from June 2009 (seasonally adjusted)

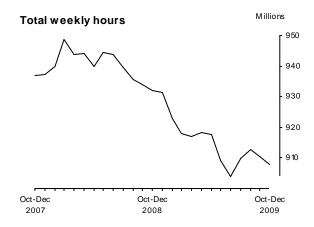

There were 2.60 million employee jobs in manufacturing industries in the three months to December 2009, down 199,000 on a year earlier.

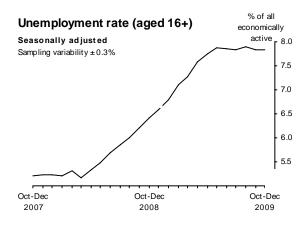

Actual hours worked (table 7)

Total hours worked per week were 907.9 million in the three months to December 2009, down 1.8 million from the three months to September 2009. Average weekly hours worked in the three months to December 2009 were 31.5, unchanged on the three months to September 2009.

Unemployment (table 9)

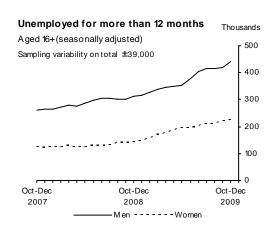

The unemployment rate was 7.8 per cent in the three months to December 2009, unchanged on the three months to September 2009 but up 1.4 percentage points from a year earlier. The number of unemployed people was 2.46 million in the three months to December 2009, down 3,000 from the three months to September 2009 but up 448,000 from a year earlier.

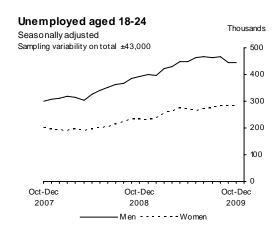

The number of unemployed men was 1.50 million in the three months to December 2009, down 22,000 from the three months to September 2009. The number of unemployed women was 959,000 in the three months to December 2009, up 18,000 from the three months to September 2009.

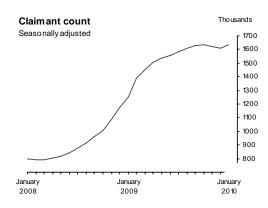

The number of people unemployed for over 12 months was 663,000 in the three months to December 2009, up 37,000 from the three months to September 2009. Unemployment for 18 to 24 year olds was 725,000 in the three months to December 2009, down 13,000 from the three months to September 2009.

Claimant Count (tables 10 and 11)

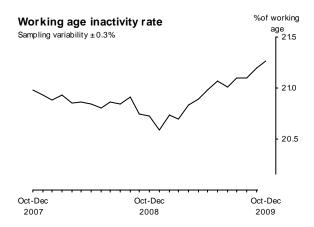

The claimant count in January 2010 was 1.64 million, up 23,500 on the previous month and up 381,800 on a year earlier. The claimant count rate was 5.0 per cent, up 0.1 percentage point on the previous month and up 1.2 percentage points from a year earlier. A comparison between the claimant count (which measures the number of people claiming Jobseeker's Allowance) and unemployment (which measures people who meet the internationally agreed definition of unemployment) is available from Annex 3 of the Labour Market Overview document at: http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=1944

Economic Inactivity (tables 12 to 14)

The working age economic inactivity rate was 21.3 per cent in the three months to December 2009, up 0.2 percentage points on the three months to September 2009 and up 0.5 percentage points on a year earlier. The number of economically inactive people of working age increased by 72,000 over the quarter and by 241,000 over the year to reach 8.08 million in the three months to December 2009.

GB average earnings (tables 15 to 16)

Whole economy earnings

Average total pay (including bonuses) was £451 per week in December 2009. In the three months to December 2009 total pay rose by 0.8 per cent on a year earlier, unchanged from the three months to November 2009.

Average regular pay (excluding bonuses) was £425 per week in December 2009. In the three months to December 2009 regular pay rose by 1.2 per cent on a year earlier, unchanged from the three months to November 2009.

Private sector earnings

Average total pay (including bonuses) in the private sector was £448 per week in December 2009. In the three months to December 2009 total pay in the private sector was unchanged on a year earlier.

Average regular pay (excluding bonuses) in the private sector was £416 per week in December 2009. In the three months to December 2009 regular pay in the private sector rose by 0.2 per cent on a year earlier.

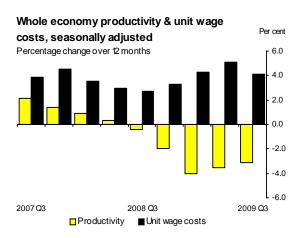

Public sector earnings

Average total pay (including bonuses) in the public sector was £457 per week in December 2009. In the three months to December 2009 total pay in the public sector rose by 3.7 per cent on a year earlier. Average total pay in the public sector excluding financial services was £452 per week in December 2009. In the three months to December 2009 total pay in the public sector excluding financial services rose by 2.6 per cent on a year earlier.

Average regular pay (excluding bonuses) in the public sector was £456 per week in December 2009. In the three months to December 2009 regular pay in the public sector rose by 3.9 per cent on a year earlier. Average regular pay in the public sector excluding financial services was £451 per week in December 2009. In the three months to December 2009 regular pay in the public sector excluding financial services rose by 2.9 per cent on a year earlier.

Productivity and unit wage costs (table 17)

Whole economy productivity was 3.1 per cent lower in the third quarter of 2009 compared with a year earlier. Whole economy unit wage costs rose by 4.1 per cent over the same period. Manufacturing productivity increased by 3.6 per cent in the three months to December 2009 compared with a year earlier. Manufacturing unit wage costs decreased by 0.7 per cent over the same period.

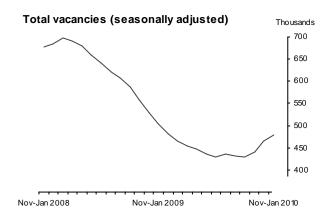

Labour disputes (table 20)

In December 2009, there were 3,000 working days lost from eleven stoppages. In the twelve months to December 2009, there were 438,000 working days lost from 95 stoppages.

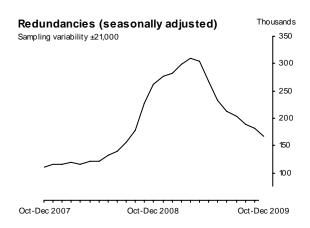

Vacancies (tables 21 to 22)

There were 479,000 job vacancies in the three months to January 2010, up 49,000 from the three months to October 2009 but down 24,000 from a year earlier. There were 1.8 vacancies per 100 employee jobs, up 0.2 on the previous quarter but down 0.1 over the year.

Redundancies (tables 23 and 24)

In the three months to December 2009, 168,000 people had become redundant in the three months before the Labour Force Survey interviews, down 36,000 from the previous quarter and down 94,000 from a year earlier. The redundancy rate was 6.8 per 1,000 employees, down 1.4 from the three months to September 2009 and down 3.6 from a year earlier.

Key out of work benefits (table 25)

In August 2009 the number of people claiming key out of work benefits (not seasonally adjusted) was 5.08 million, up 675,400 from August 2008.

Background Notes

This month's Statistical Bulletin

- 1. In the November 2009 edition of this Statistical Bulletin, the Labour Force Survey (LFS) estimates were revised to incorporate the latest population estimates using the "interim reweighting" methodology. In this Statistical Bulletin, there are further revisions to LFS estimates back to June-August 2006 arising from the "full reweighting" of the detailed LFS datasets (the LFS "microdata"). This "full reweighting" is undertaken at a more detailed geographical level than the "interim reweighting" methodology. As a result, the aggregate LFS estimates in this Statistical Bulletin are consistent with the reweighted LFS microdata sets, which are also published today.
- 2. The latest *Report on the Triennial Review of the Vacancy Survey* was published in December 2009 and can be found on the website at:

 http://www.statistics.gov.uk/downloads/theme_other/VacancyTriennialReviewReport2009a.pdf

 This report recommended that the single month estimate of vacancies, previously published at Table 21 of this Statistical Bulletin, should be discontinued. Consequently ONS has now stopped publishing this series. Table 21, as published in last month's Statistical Bulletin, has therefore been discontinued as the single month vacancies series was the only series in this table which did not also appear at Table 22. It has been replaced by a new Table 21 which shows estimates of vacancies by size of business. These estimates have been published for some time at Table 6.25 of *Economic and Labour Market Review*. An improved methodology for the estimates of vacancies by size of business has been introduced this month resulting in revisions to the series. A new Table 21(1) has also been introduced in this Statistical Bulletin showing the number of unemployed people, the number of vacancies and the number of unemployed people per vacancy.
- 3. Table 22, which shows estimates of vacancies by industry, has been improved. The improved table shows a more detailed industrial breakdown which follows the latest internationally agreed industrial classification, Standard Industrial Classification 2007 (SIC 2007). The figures are seasonally adjusted at this more detailed level resulting in revisions to estimates of total vacancies back to the start of the series in 2001. ONS plans to move other industrial aggregates published in this Statistical Bulletin from SIC 2003 to SIC 2007 later in 2010. Further information is available in an article published in the December 2009 edition of *Economic and Labour Market Review* which is available at: http://www.statistics.gov.uk/cci/article.asp?ID=2341

Next month's Statistical Bulletin

4. Estimates of production industries employee jobs and manufacturing productivity and unit wage costs for December 2009 are published in this Statistical Bulletin, at tables 6 and 17

respectively. However, estimates for January 2010 will not be published in next month's Statistical Bulletin because the collection of production industries employee jobs data has been changed to a quarterly periodicity in line with all other sectors. Table 6 will therefore not be updated next month, or in subsequent months, and ONS plans to discontinue the table in the June 2010 edition of this Statistical Bulletin. Table 17 will be changed in next month's Statistical Bulletin to show quarterly estimates of productivity and unit wage costs for the whole economy, manufacturing and services.

Experimental statistics

5. Experimental statistics are those which are in the testing phase and are not yet fully developed. Estimates of lone parent claimants of Jobseeker's Allowance, published at Table 10(1), are the only series in this Statistical Bulletin designated as experimental statistics. Further information on experimental statistics can be found on the website at: http://www.statistics.gov.uk/cci/nugget.asp?id=173

Quality reporting

- 6. A Summary Quality Report for this Statistical Bulletin can be found on the website at: http://www.statistics.gov.uk/cci/article.asp?ID=1354
- One indication of the reliability of the key indicators in this Statistical Bulletin can be obtained 7. by monitoring the size of revisions. The tables below record the size and pattern of revisions over the last five years. These indicators only report summary measures for revisions. The revised data itself may be subject to sampling or other sources of error. The ONS standard presentation is to show five years worth of revisions (i.e. 60 observations for a monthly series, 20 for a quarterly series).
- 8. The first table covers Employment, Unemployment and Claimant Count data first published from February 2004 to January 2009. The second table covers Workforce Jobs data first published from March 2002 to January 2007. Publication of the first Workforce Jobs estimates for September 2006 was delayed from December 2006 to January 2007. Spreadsheets giving revisions triangles of estimates and the calculations behind the averages in the tables are available on the National Statistics website at:

http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=1944.

| Key Indicator | Value in latest | Number of observations | Revisions between first pub | olication and estimates one |
|----------------------------|---------------------|--|---|-----------------------------|
| | period (maximum 60) | Average over the last five years (mean revision) | Average over the last five years without regard to sign (average absolute revision) | |
| Employment rate (%) | 72.4 | 60 | 0.01 (percentage points) | 0.03 (percentage points) |
| Unemployment rate (%) | 7.8 | 60 | 0.01 (percentage points) | 0.02 (percentage points) |
| Claimant count (thousands) | 1,635.6 | 60 | 1.32 (thousands) | 3.59 (thousands) |

| Key Indicator | Value in | Number of | Revisions between first publication and estimates | | |
|----------------------------|----------|--------------|---|---|--|
| | latest | observations | three years later (thousand | s) | |
| | period | (maximum 20) | Average over the last five years (mean revision) | Average over the last five years without regard to sign (average absolute revision) | |
| Workforce jobs (thousands) | 30,861 | 20 | 399.8* | 399.8* | |

A statistical test has been applied to the average revision to find out if the mean revision is statistically significantly different from zero; this is indicated by an asterisk (*) in the above tables.

9. Labour market statistics are revised in line with the revisions policy, which is published on the website at:

http://www.statistics.gov.uk/about/Methodology_by_theme/downloads/LM_revisionspolicy.pdf

- 10. More information about the revisions material in this Statistical Bulletin can also be found on the website at: http://www.statistics.gov.uk/cci/article.asp?ID=793
- 11. Workforce jobs estimates, shown at Tables 5(1) and 5(2) of this Statistical Bulletin are mainly sourced from employer surveys. However estimates for Construction and for Agriculture, forestry and fishing are sourced from the Labour Force Survey (LFS). Estimates for self-employment jobs, for all sectors, are also sourced from the LFS.
- 12. The estimates for employee jobs in the "Construction" and "Agriculture, forestry and fishing" sectors, and to a lesser degree for the whole economy, from March 2009 may not be entirely consistent with those for previous quarters. There may be similar inconsistencies for self-employment jobs for all sectors, but not for whole economy self-employment jobs as any sectoral inconsistencies would cancel each other out. This is because, from 2009, the sectoral breakdown of LFS data which feeds into Workforce jobs estimates has been collected according to the Standard Industrial Classification (SIC) 2007 and then mapped to SIC 2003 according to the assumed relationship between the two classifications. ONS currently plans to convert the Workforce Jobs estimates to SIC 2007 in the June 2010 edition of this Statistical Bulletin.

Sampling variability of Labour Force Survey estimates

The tables below show sampling variabilities, calculated on not seasonally adjusted data, for 13. the Labour Force Survey. These sampling variability ranges represent '95 per cent confidence intervals'. It is expected that in 95 per cent of samples the range would contain the true value. Sampling variabilities for Labour Force Survey estimates are shown in the following tables.

Sampling variability of Labour Force Survey estimates: October to December 2009

| | | Compling | | Sampling | | Sampling |
|------------------------------|--------|----------------------|-----------|-----------------------|---------|-----------------------|
| | | Sampling variability | Change on | variability of change | Change | variability of change |
| | Level | of level | quarter | on quarter | on year | on year |
| Employment (000s) | 28,905 | ± 149 | -12 | ± 107 | -428 | ± 186 |
| Employment rate | 72.4 % | ± 0.4 | -0.1 | ± 0.3 | -1.7 | ± 0.5 |
| Average weekly hours | 31.5 | ± 0.2 | 0.0 | ± 0.2 | -0.4 | ± 0.2 |
| Unemployment (000s) | 2,457 | ± 81 | -3 | ± 84 | 448 | ± 103 |
| Unemployment rate | 7.8% | ± 0.3 | 0.0 | ± 0.3 | 1.4 | ± 0.3 |
| Economically active (000s) | 31,363 | ± 137 | -15 | ± 98 | 20 | ± 172 |
| Economic activity rate | 78.7% | ± 0.3 | -0.2 | ± 0.2 | -0.5 | ± 0.4 |
| Economically Inactive (000s) | 8,077 | ± 128 | 72 | ± 91 | 241 | ± 161 |
| Economic Inactivity rate | 21.3% | ± 0.3 | 0.2 | ± 0.2 | 0.5 | ± 0.4 |
| Redundancies (000s) | 168 | ± 21 | -36 | ± 31 | -94 | ± 33 |

Sampling variability of Labour Force Survey estimates of employment by country of birth and nationality: October to December 2009

| | Level | Sampling variability |
|---|--------|----------------------|
| UK born people in employment (000s) | 25,259 | ± 146 |
| UK born employment rate | 73.5% | ± 0.3 |
| Non UK born people in employment (000s) | 3,720 | ± 72 |
| Non UK born employment rate | 67.0% | ± 1.0 |
| UK nationals in employment (000s) | 26,691 | ± 145 |
| UK nationals employment rate | 73.1% | ± 0.3 |
| Non UK nationals in employment (000s) | 2,288 | ± 59 |
| Non UK nationals employment rate | 67.3% | ± 1.4 |

Sampling variability of regional Labour Force Survey estimates: October to December 2009

| | | | | Working age | | |
|------------------------|--------------|--------------|--------------|----------------|-------------|--------------|
| | | | Economic | economic | Working age | |
| | Employment | Unemployment | activity | inactivity | employment | Unemployment |
| | level (000s) | Level (000s) | level (000s) | level (000s) | rate (%) | rate (%) |
| North East | ± 39 | ± 15 | ± 39 | ± 39 | ± 2.0 | ± 1.2 |
| North West | ± 63 | ± 24 | ± 62 | ± 62 | ± 1.2 | ± 0.7 |
| Yorkshire & The Humber | ± 54 | ± 22 | ± 53 | ± 52 | ± 1.4 | ± 0.9 |
| East Midlands | ± 44 | ± 17 | ± 44 | ± 47 | ± 1.4 | ± 0.8 |
| West Midlands | ± 55 | ± 22 | ± 54 | ± 54 | ± 1.4 | ± 0.7 |
| East | ± 56 | ± 21 | ± 55 | ± 53 | ± 1.2 | ± 0.7 |
| London | ± 76 | ± 33 | ± 72 | ± 73 | ± 1.3 | ± 0.8 |
| South East | ± 68 | ± 25 | ± 67 | ± 63 | ± 1.0 | ± 0.6 |
| South West | ± 56 | ± 19 | ± 55 | ± 54 | ± 1.4 | ± 0.7 |
| Wales | ± 44 | ± 17 | ± 43 | ± 45 | ± 2.0 | ± 1.2 |
| Scotland | ± 55 | ± 21 | ± 53 | ± 52 | ± 1.4 | ± 0.8 |

Sampling variability of Vacancy Survey estimates

The sampling variability of the three month average vacancies level (95 per cent confidence interval) is around \pm 1.5 per cent of that level. Further information on sampling variability for the vacancy survey is available from the Report on the Triennial Review of the Vacancy Survey which is available at:

http://www.statistics.gov.uk/downloads/theme_other/VacancyTriennialReviewReport2009a.pdf

INDEX OF TABLES

Not seasonally adjusted tables are indicated by "NSA". All other tables are seasonally adjusted.

SUMMARY

- 1 Summary of headline Labour Force Survey indicators
- 1a Summary of other headline indicators

EMPLOYMENT AND JOBS

- 2 Employment by age
- 3 Full-time, part-time and temporary workers
- 4 Public and private sector employment
- 4(1) Public sector employment by industry
- 5(1) Workforce jobs
- 5(2) Workforce jobs by industry
- 6 Production industries employee jobs
- 7 Actual weekly hours worked
- 7(1) Usual weekly hours of work
- 8 Employment levels by country of birth and nationality (NSA)
- 8(1) Working age employment rates by country of birth and nationality (NSA)

UNEMPLOYMENT

9 Unemployment by age and duration

CLAIMANT COUNT

- 10 Claimant count levels and rates
- 10(1) Claimant count: lone parent claimants by age of youngest child (NSA)
- 11 Claimant count by age and duration

ECONOMIC ACTIVITY AND INACTIVITY

- 12 Economic activity and inactivity by age
- 13 Economic inactivity: reasons
- 14 Educational status, economic activity & inactivity of young people

EARNINGS, PRODUCTIVITY & UNIT WAGE COSTS

- 15 Average weekly earnings total pay
- 15(1) Average weekly earnings bonus pay
- 16 Average weekly earnings regular pay
- 17 Productivity and unit wage costs

REGIONAL AND INTERNATIONAL SUMMARY

- 18 Regional labour market summary
- 19 International comparisons

LABOUR DISPUTES

20 Labour disputes (NSA)

VACANCIES

- 21 Vacancies by size of business
- 21(1) Vacancies and unemployment
- 22 Vacancies by industry

REDUNDANCIES

- 23 Redundancies levels and rates
- 24 Redundancies by industry (NSA)

BENEFITS

25 Key out of work benefits (NSA)

Source: Labour Force Survey

Labour Market Statistics Helpline 01633 456901

- 1. The Labour Force Survey (LFS) is a survey of the population of private households, student halls of residence and NHS accommodation.
- 2. The headline employment rate is the number of working age people (aged 16 to 59 for women and 16 to 64 for men) in employment divided by the working age population.
- 3. The headline unemployment rate is the number of unemployed people (aged 16+) divided by the economically active population (aged 16+). The economically active population is defined as those in employment plus those who are unemployed.
- 4. The headline inactivity rate is the number of working age inactive people (aged 16 to 59 for women and 16 to 64 for men) divided by the working age

Note on headline employment, unemployment and inactivity rates

The headline employment and inactivity rates are based on the working age population (aged 16 to 59 for women and 16 to 64 for men) but the headline unemployment rate is based on the economically active population aged 16 and over. The employment and inactivity rates for those aged 16 and over are distorted by the inclusion of the retired population in the denominators and are therefore less meaningful than the working age rates. However, for the unemployment rate for those aged 16 and over, no such distortion occurs as the denominator for the unemployment rate is the economically active population which only includes people in work or actively seeking and able to work.

Note on headline employment, unemployment and inactivity levels

The headline employment and unemployment levels are for those aged 16 and over; they measure all people in work or actively seeking and able to work. However, the headline inactivity level is for those of working age (aged 16 to 59 for women and 16 to 64 for men). The inactivity rate for those aged 16 and over is less meaningful as it includes elderly people who have retired from the labour force.

Relationship between columns: 1 = 2+8; 2 = 3+4+5+6+7

1. Denominator = all persons in the relevant age group

Source: Labour Force Survey Labour Market Statistics Helpline 01633 456901

The Labour Force Survey is a survey of the population of private households, student halls of residence and NHS accommodation.

3 Full-time, part-time and temporary workers

United Kingdom (thousands), seasonally adjusted

Labour Market Statistics Helpline 01633 456901

^{1.} The split between full-time and part-time employment is based on respondents' self-classification.

Labour Market Sta

These series cover Employees and Self-employed only.

The total includes those who did not give a reason for working part-time and it therefore does not equal the sum of columns 21, 23, 24 and 25.

Source: Labour Force Survey (LFS) and returns from public sector organisations

Relationship between columns: 2 = 1/5*100: 3 = 5-1: 4 = 3/5*100

Enquiries 01633 456756

- Estimates derived from public sector organisations.
- 2. Estimates for Northern Ireland included in the UK total are sourced from the Quarterly Employment Survey and are based on jobs rather than employees.
- 2. Estimates on Northern Health included in the Ort coal are source from 13 October 2008. They are therefore included in the public sector from December 2008 onwards but not for earlier periods. Similarly, Northern Rock is classified to the public sector from 9 October 2007 and is therefore included in the public sector estimates from December 2008 onwards but not for earlier periods. Similarly, Northern Rock is classified to the public sector from 9 October 2007 and is therefore included in the public sector estimates from December 2007 onwards but not for earlier periods.
- 4. Estimated as the difference between LFS total employment and the data from public sector organisations.
- 5. LFS employment data for March refer to February-April, June refers to May-July, September refers to August-October and December refers to November-January.

More detailed estimates are available in the Public Sector Employment Statistical Bulletin at:

ource: returns from public sector organisations Enquiries 01633 456756

- 1. This series excludes locally engaged staff stationed outside the United Kingdom.
- 2. This series excludes the Northern Ireland Civil Service.
- 3. This series includes publicly owned financial corporations. Royal Bank of Scotland Group plc and Lloyds Banking Group plc are classified to the public sector from 13 October 2008. They are therefore included in the public sector estimates from December 2008 onwards but not for earlier periods. Similarly, Northern Rock is classified to the public sector from 9 October 2007 and is therefore included in the public sector estimates from December 2007 onwards but not for earlier periods.
- 4. This series does not exactly equal the sum of columns 1 to 4 and 6 to 9 because each series is independently seasonally adjusted.

More detailed estimates are available in the Public Sector Employment Statistical Bulletin at:

http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=13615

Workforce jobs enquiries 01633 456776

^{1.} Workforce Jobs figures are a measure of jobs rather than people. For example, if a person holds two jobs, each job will be counted in the Workforce Jobs total. For this reason, self-employment Jobs (which come from LFS) will not equal the figures for self-employed persons from the LFS. Workforce Jobs figures come from a variety of sources, and where possible, from the employer rather than the individual. Employee Jobs (which is the largest component of Workforce Jobs) come from quarterly surveys of employers carried out by ONS, and administrative sources. Other data sources are as follows:

Self-employment Jobs are provided by the Labour Force Survey (LFS).

HM Forces figures are provided by the Ministry of Defence (MOD)

Government-supported trainees are provided by administrative sources.

^{2.} Due to a change in the method of compiling the data, there is currently a discontinuity between June and September 2008. The quality of the data is being reviewed and further revisions are expected to the series.

Source: Jobcentre Plus administrative system and HM Revenue & Customs child benefit data Labour Market Statistics Helpline: 01633 456901

- 1. Lone Parents are defined as those claiming Child Benefit for at least one child aged under 16 at the Jobseeker's Allowance (JSA) count date (second Thursday of the month) who have their marital status recorded as single, widowed, divorced or separated.
- 2. Age of youngest child relates to the age of the youngest child at the JSA count date.
- 3. These figures are experimental statistics and may be subject to retrospective changes as and when the Department for Work and Pensions (DWP) receive updated Child Benefit data.
- 4. The number of people claiming JSA in Great Britain. These figures are different from the figures at table 10 (series BCJA) which relate to the UK. Series BCJA (shown at Table 10) and BCJG (shown above) also include clerical claims which are not used in producing the subsequent lone parent series and are therefore slightly different to JSA figures published by the DWP on similar tables in their publications.
- 5. Some JSA claimants have their marital status coded as "not known". Such claimants who are claiming Child Benefit for at least one child aged under 16 may be lone parents but are not recorded as such in the above table.

The estimates for Lone Parent claimants shown in the above table are produced a month later than the Claimant Count estimates shown at table 10 of this Statistical Bulletin.

Further estimates of lone parents claiming JSA are available from DWP at http://research.dwp.gov.uk/asd/

Months where there are 5 weeks between count dates. All the rest are 4 week periods.

The Labour Force Survey is a survey of the population of private households, student halls of residence and NHS accommodation.

^{1.} Not in full-time education includes people in part-time education and/or some form of training. Estimates of the number of young people who are not in employment, education or training ("NEET") cannot therefore be derived from this table.

^{2.} People in full-time education are employed if they have a part-time job or unemployed if they are looking for part-time employment.

^{3.} Denominator = all persons in the relevant age group for economically active, total in employment and economically inactive, economically active for unemployment.

^{1.} Estimates of total pay include bonuses but exclude arrears of pay.

^{2.} The figure in brackets is the percentage of whole economy employment in that sector or industry for the latest time period.

^{3.} The three month average figures are the changes in the average seasonally adjusted values for the three months ending with the relevant month compared with the same period a year earlier.

EARNINGS, PRODUCTIVITY & UNIT WAGE COSTS 15(1) Average Weekly Earnings - bonus pay

More detailed estimates are available in the Productivity Statistical Bulletin at $\,$

http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=7476

The monthly manufacturing series published in this table will not be updated after the December 2009 estimates (published in February 2010) as ONS has changed the collection of production industries employee jobs data to a quarterly periodicity in line with all other sectors. In March 2010 this table will be changed to show quarterly estimates of productivity and unit wage costs for the whole economy, manufacturing and services.

Source: Labour Force Survey

Labour Market Statistics Helpline 01633 456901

The Labour Force Survey is a survey of the population in private households, student halls of residence and NHS accommodation.

^{1.} Labour Force Survey is tabulated by region of residence.

^{2.} Denominator = all persons of working age.

^{3.} Denominator = Total economically active.

^{4.} Quarter on quarter changes at regional level are particularly subject to sampling variability and should be interpreted in the context of changes over several quarters rather than in isolation

- 1. The UK employment rate shown in the lower part of the table as published by the Office for National Statistics is seasonally adjusted; all other employment rates are unadjusted.
- 2. All employment rates for EU countries published by EUROSTAT (including the rate for the UK) are based on the population aged 15-64. The rates for Canada and Japan are also based on the population aged 15-64, but the rate for the US is for those aged 16-64. The employment rate for the UK published by the Office for National Statistics is based on the working age population aged 16-64 (men) and 16-59 (women).
- 3. Unemployment rates published by EUROSTAT for most EU countries (but not for the UK), are calculated by extrapolating from the most recent LFS data using monthly registered unemployment data. A standard population basis (15-74) is used by EUROSTAT except for Spain and the UK (16-74). The unemployment rate for the US is based on those aged 16 and over, but the rates for Canada and Japan are for those aged 15 and over. All unemployment rates are seasonally adjusted.
- 4. The unemployment rate for the UK published by EUROSTAT is based on the population aged 16-74 whilst the unemployment rate for the UK published by the Office for National Statistics is based on those aged 16 and over. There are other minor definitional differences.
- 5. The "Total EU" series consist of all 27 EU countries. The Eurozone series consist of the following EU countries: Austria, Belgium, Cyprus, Finland, France, Germany, Greece, Ireland, Italy, Luxembourg, Malta, Netherlands, Portugal, Slovak Republic, Slovenia and Spain.

Data source: ONS Labour Disputes Inquiry Labour disputes enquiries 01633 456720

- 1. Estimates of working days lost and workers involved are shown to the nearest thousand. Unrounded estimates of less than 500 therefore round to zero.
- 2. Due to rounding the working days lost for the public and private sectors may not add up to the total working days lost.
- 3. The latest 12 month cumulative totals for the figures in these columns will not necessarily equal the sum of the 12 months as some disputes continue for over one month. These disputes appear in each month's data, but only once in the total.

Labour Market Statistics Helpline 01633 456901

^{*} Change on previous non-overlapping three month rolling average time period.

^{1.} Excludes Agriculture, Forestry and Fishing.

^{2.} Unemployment estimates are produced from the Labour Force Survey (LFS) and are always one period behind the ONS Vacancy Survey estimates. This table therefore shows estimates for the same periods as shown in table 1 (which shows LFS estimates).

Labour Market Statistics Helpline 01633 456901

- 1. The estimates in this table are for calendar quarters only whereas the estimates at Table 23 are for rolling three-monthly time periods.
- 2. The level of each industry may not sum to the total as all redundancies includes those people who did not state their industry. See footnote 2 at Table 23.
- 3. Includes both public and private sectors.
- 4. Other Services are not shown separately in this table as the sample size is too small to provide reliable estimates.

Further redundancy estimates, including data for redundancy rates by industry, region, and age group and re-employment rates by age group are available at: www.statistics.gov.uk/STATBASE/Product.asp?vlnk=9474

The Labour Force Survey is a survey of the population of private households, student halls of residence and NHS accommodation.

^{2.} The redundancies levels as derived directly from the Labour Force Survey do not currently display seasonality. For this reason series BEAO is currently identical to the not seasonally adjusted series BEYV shown at Table 24.

- 1. This table includes the key out of work statistical groups, showing claimants of working age (16-59 for women and 16-64 for men). Carers, who are not subject to labour market activation policies in the same way as other groups, are not included.
- 2. Claimants have been assigned to a statistical group according to a hierarchy to avoid double counting of claimants. The order is shown in the table (ie, Jobseeker followed by incapacity benefits, etc.). For example, a person claiming both incapacity benefits and Lone Parent benefit will be recorded under the former but not the latter.
- 3. The estimates for Jobseekers claimants shown in this table are for Great Britain (GB) and are consistent with the not seasonally adjusted estimates for the United Kingdom shown at Table 10 (Claimant Count) of this Statistical Bulletin. However, the figures are different from the estimates of jobseekers claimants shown at Table 1.1 of the Dept. for Work & Pensions (DWP) Quarterly Statistical Summary. This is because of methodological differences between the Benefits estimates produced by the DWP and the Claimant Count estimates produced by the Office for National Statistics.
- 4. "Jobseekers" are recipients of Jobseeker's Allowance.
- 5. From November 2008 the "incapacity benefits group" includes Employment and Support Allowance (ESA). ESA replaced Incapacity Benefit and Income Support paid on the grounds of incapacity for new claims from 27 October 2008. Prior to this, the "incapacity benefits group" referred to claimants of Incapacity Benefit or Severe Disablement Allowance including people claiming Income Support on the grounds of incapacity.
- 6. "Lone parents" are single recipients of Income Support with a child under qualifying age.
- 7. "Other Income related" covers recipients of Income Support or Pension Credit who are not included in "incapacity benefits" or "Lone parents".
- 8. The proportions shown in this table are residence based proportions which show the number of claimants as a proportion of the working age resident population. The jobseeker proportions shown in this table are therefore not consistent with the not seasonally adjusted Claimant Count rate shown at Table 10 of this Statistical Bulletin as the denominator for the latter is Workforce Jobs plus Claimant Count.
