You Should

Unmissable home page exposure

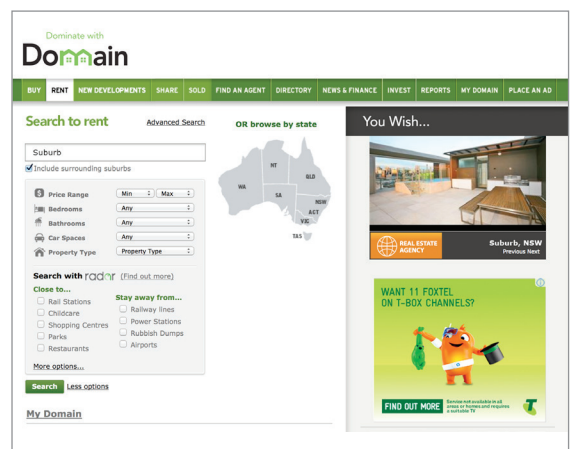

You Should puts rental properties directly in the limelight with prominent placement on the rental home page of domain.com.au.

With stunning imagery, video and high quality enquiries, this is the perfect medium for landlords to showcase and lease their properties in the most cost effective and time efficient way.

What makes You Should listings so effective?

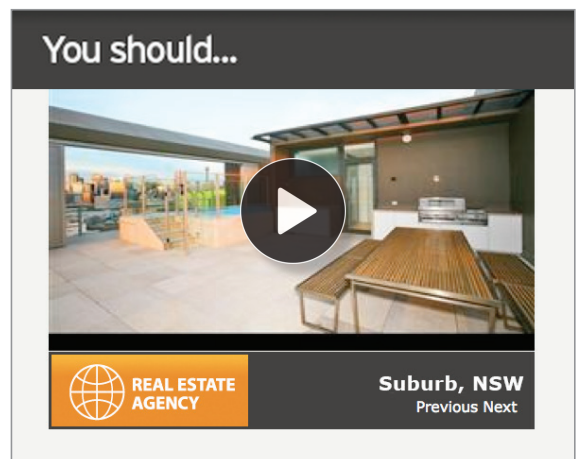

You Should rentals can also engage larger audiences through video. Use a professional video (up to 120 seconds long) to deliver buyers an even better online search experience whilst raising your agency's profile in your market.

A You Should video promotion enables renters to connect with the property before they've viewed it, resulting in better quality leads.

Why You Should?

- Offers centre stage position on the rental home page
- Its maximum exposure attracts a significant increase in views and enquiries
- Is one of a maximum of five exclusive rental properties featured in each state at any time
- Displays in eye-catching slide show imagery
- Is interactive, linking through to the full property details page
- Includes the option of video which engages larger audiences
