You Wish

Unmissable home page exposure

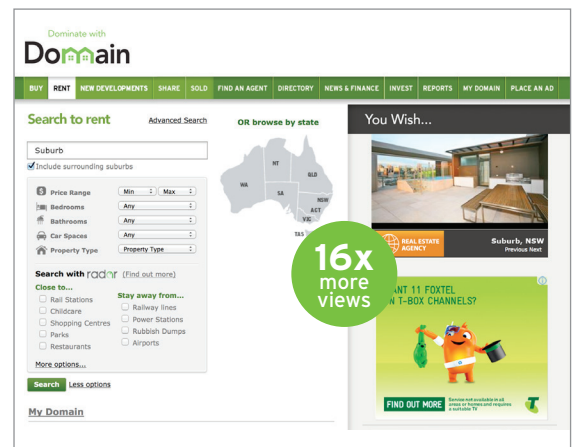

You Wish puts properties for sale directly in the spotlight with prominent placement on the buy home page of domain.com.au.

With stunning imagery, video and high quality enquiries, this is the perfect medium for vendors to showcase their properties in the most cost effective and time efficient way.

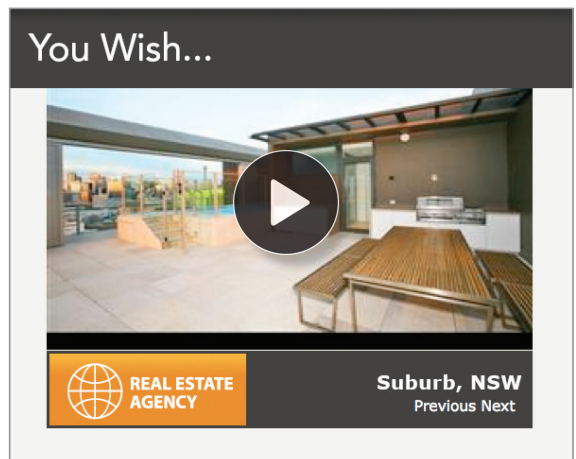

What makes You Wish listings so effective?

You Wish properties can also engage larger audiences through video. Use a professional video (up to 120 seconds long) to deliver buyers an even better online search experience whilst raising your agency's profile in your market.

A You Wish video promotion enables buyers to emotionally connect with the property before they've even viewed it, resulting in better quality leads.

Why You Wish?
Offers centre stage position on the buy home page
Its maximum exposure attracts a significant increase in views and enquiries
Is interactive, linking to the full property details page
Is one of a maximum of five exclusive properties featured in each state at any time
Displays in eye-catching slide show imagery
Includes the option of video which engages larger audiences

* National average on online property views compared to a Standard listing
