HOBART has something most cities can only dream of and it's right here on our doorstep: 3000 hectares of natural bushland within the city's boundary.

The City of Hobart's Bush Adventures Team wants to get you and your family out into the bush to learn, play and explore during the holidays.

Since it started in 1998, the City of Hobart's Bush Adventures Program has steadily expanded to offer a seasonal series of age-specific programs carefully designed to ensure high-quality experiences that are fun, engaging, creative, challenging and educational. The aim is that participants learn to love Hobart's bushland while having a ball!

The Bush Kids series of activities over the Easter break cater for younger children attending with a parent or

guardian. Those aged two to five can join Flora the Explorer's Little Bushwalk and discover a spectacular little bushland world in the Waterworks Reserve. Children aged five to seven can explore the world of water bugs, make amazing animal finger puppets, explore the habits and challenges of penguins in the Derwent or discover the wild personalities of Tasmanian devils. And seven to 10 year olds find out about Tasmanian rock structures, use the power of animal camouflage in team games and problem solving situations and find out why owls are such phenomenal hunters.

For the 10-14 year olds, there is the Go Wild Go Solo section of the program without parental attendance. This season that means learning the art of survival in the bush. Building shelters and learning to

light fires with a flint are just a taste of the challenges experienced in Survival of the Fittest.

There are also three special events offering a chance for the whole family to share a special outdoor experience together. Take a night walk to see if you can spot some local wildlife, join the Big Little Bat Party and try using a bat detector to hear bat calls or embark on a small but beautiful journey to the famous Octopus Tree.

No matter what your age, if

you love to be active, to discover hidden secrets, to solve mysteries and to care for the environment, the Bush Adventures program has something to offer you these holidays.

You can find out more about the activities schedule at www.hobartcity.com.au/bush-adventures, or by calling the City of Hobart on 6238 2886.

If you would like to receive the new program of events for kids, adults and families each season you can ask to join the mailing list.

Kids' day out

SCHOOL HOLIDAY FUN

AN ADVERTISING FEATURE

Juniors' taste of tennis

THE Tennis Domain runs tennis clinics throughout the year in the school holidays for children 5 to 15yrs of age.

Participants are taught all the basic shots as well as learning how to score and play a game.

These holiday clinics lead into programs that have individual coaching, group coaching and the popular Hot Shots 5 — 10yr olds.

Tennis Domain also conducts pennants for juniors.

IT'S COOL IN THE POOL

WITH the temperature cooling so quickly, families heading into the Easter school holidays will be wondering what activities they could do with such unpredictable weather.

They may be thinking of these holidays as a time for staying indoors and hibernating. But with the school holidays upon us, that could seem more like a punishment for all concerned.

Now is the perfect time to get out and do new things, set up new habits and find new hobbies. Swimming and pools are something we associate more with summer, but at Swim Central, it's like summer all year round.

Both pools are heated to a wonderfully warm 30C and 32C, so there's no shivering or chattering teeth. The change-rooms are heated as well and while parents relax on the couches with a creamy cappuccino and a toastie, the kids can learn in the best environment available.

All of the teachers are Aust-swim qualified and experienced – so you know you're getting the best. Classes are small and intimate and the teachers are actually in the pool so they can truly interact with the children. And lessons aren't all that's going on.

Family swims are always popular over the holidays –

just \$26 for exclusive use of the centre for you and your children for a whole hour.

If it's exercise you are after, the aquarobics classes are second to none – best value at only \$8 and with a relaxing spa included in the price. Seniors and uni students get a discount.

With three classes a week, you can get your exercise routine established and have some fun. No booking required.

ALL AGES: Swim Central has classes for all age groups from bubs, to toddlers to teens.

And don't forget Swim Central has a wide range of chlorine resistant swimwear for all the family, and all your other swimming needs are covered at bargain prices. Centrally located in New Town Rd and with loads of off-street parking, it's your one-stop swimming shop.

Check out the website for more information on the Learn to Swim Program, aquarobics and other services and facilities at Swim Central. There's much more to Swim Central than meets the eye.

THE DIFFERENCE IS DRAMATIC!

NOW TAKING ENROLMENTS FOR TERM 2!

CLASSES FOR LOWER PRIMARY, UPPER PRIMARY AND YOUTH - 5 TO 18 YEARS
