3 How FirstChoice Wholesale Investments works

When you invest in FirstChoice Wholesale Investments, your money is combined with other investors' money in a managed investment scheme. Each FirstChoice Wholesale investment option is a separate managed investment scheme except for FirstRate Wholesale products, which are deposit products of the Bank. We may invest directly or indirectly in other managed investment schemes managed by us to gain exposure and administrative efficiencies.

How your account works

When you make an investment into FirstChoice Wholesale Investments, you are issued units in the investment option(s) you select.

The unit price you receive is the unit price which applies on the day we receive a transaction request, provided the request is received before 3pm, Sydney time, on any business day.

The value of units fluctuates as a result of changes in the value of the underlying assets or as a result of costs reflected in the unit price (except for FirstRate Wholesale products, where the value changes as a result of the payment of interest). This means that your account balance can fluctuate on a daily basis depending on the value of the units which you hold in your account.

Depending on the investment option(s) you select, you may receive income in the form of distributions.

There may be tax consequences as a result of your investment.

Receiving income

Any income that you receive from your investment, other than FirstRate Wholesale products, will be in the form of distributions. Your distribution may include income such as interest, dividends and realised capital gains.

FirstRate Wholesale products will pay interest only. The payment of interest will follow the distribution choices you make on your FirstChoice Wholesale Investments account.

Distributions are based on the number of units you hold in a particular option, in proportion to the number of units held by all unitholders, at the distribution date. Distributions are not pro-rated for investors who were not unitholders for the whole period. The type of income you receive depends on the asset classes in which each option invests.

Withdrawal of funds

Where an option is suspended, restricted or unavailable, we may not process withdrawal requests. Any decisions whether to process withdrawals or partial withdrawals will be made in the best interests of investors as a whole, and if any payment is to be made, then the exit price used to calculate this payment will be the one determined at the time the payment is made.

You should note that unless an investment option is suspended, restricted or unavailable, you may withdraw from an investment option in accordance with our normal processes.

4 Risks of investing

What is risk?

Understanding investment risk is the key to successfully developing your investment strategy. Before you consider your investment strategy, it is important that you understand that:

- all investments are subject to risk
- different strategies carry different levels of risk depending on the assets that make up the strategy, and
- assets with the highest long-term returns may also carry the highest level of short-term risk.

When considering your investment, it is important to understand that:

- the value of investment options will go up and down
- returns are not guaranteed
- you may lose money
- previous returns don't predict future performance
- laws affecting investments may change
- the appropriate level of risk for you will vary, depending on your age, investment timeframe, where other parts of your money are invested and how comfortable you are with the possibility of losing some of your investment in some years.

Different investments perform differently over time. Investments that have provided higher returns over the longer term have also tended to produce a wider range of returns. These investments are generally described as more risky, as there is a higher chance of losing money, but they can also give you a better chance of achieving your long-term objectives. Investments that have provided more stable returns are considered less risky, but they may not provide sufficient long-term returns for you to achieve your long-term goals. Selecting the investments that best match your investment needs and timeframe is crucial in managing this risk.

Your adviser can help you understand investment risk, and design an investment strategy that is right for you.

General risks for all options

The main risks which typically affect all investment options are:

Market risk

Investment returns are influenced by the performance of the market as a whole. This means that your investments can be affected by things like changes in interest rates, investor sentiment and global events, depending on which markets or asset classes you invest in and the timeframe you are considering.

Security and investment-specific risk

Within each asset class and each option, individual securities like mortgages, shares, fixed interest securities or hybrid securities can be affected by risks that are specific to that investment or that security. For example, the value of a company's shares can be influenced by changes in company management, its business environment or profitability. These risks can also impact on the company's ability to repay its debt.

Management risk

Each option in the PDS has an investment manager to manage your investments on your behalf. There is a risk that the investment manager will not perform to expectation.

Liquidity risk

Liquidity risk refers to the difficulty in selling an asset for cash quickly without an adverse impact on the price received. Assets such as shares in large listed companies are generally considered liquid, while 'real' assets such as direct property and infrastructure are generally considered illiquid. Under abnormal or difficult market conditions, some normally liquid assets may become illiquid, restricting our ability to sell them and to make withdrawal payments or process switches for investors without a potentially significant delay.

Counterparty risk

This is the risk that a party to a transaction such as a swap, foreign currency forward or stock lending fails to meet its obligations such as delivering a borrowed security or settling obligations under a financial contract.

Legal, regulatory and foreign investment risk

This is the risk that any change in taxation, corporate or other relevant laws, regulations or rules may adversely affect your investment.

In particular, for funds investing in assets outside Australia, your investment may also be adversely impacted by changes in broader economic, social or political factors, regulatory change and legal risks applicable to where the investment is made or regulated.

Distribution risk

In some circumstances, the frequency or rate of distribution payments may vary or you may not receive a distribution. This is more likely to occur when an option employs extensive currency hedging or uses derivatives.

Option-specific risks

Typical option-specific risks are described below and cross-referenced to particular options in the table on pages 14 to 16 in the Investment Options Menu.

Currency risk

Investments in global markets or securities which are denominated in foreign currencies give rise to foreign currency exposure. This means that the Australian dollar value of these investments may vary depending on changes in the exchange rate. Investment options in the PDS which have significant currency risks adopt different currency management strategies. These strategies may include currency hedging, which involves reducing or aiming to remove the impact of currency movements on the value of the investment.

Information on the currency management strategy for each option with a significant currency risk is set out in that option's description in the Investment Options Menu.

Because different options have different currency management strategies, you should consult your financial adviser on the best approach for you.

Derivatives risk

Derivatives are contracts between two parties that usually derive their value from the price of a physical asset or market index. They can be used to manage certain risks in investment portfolios or as part of an investment strategy; however, they can also increase other risks in a portfolio or expose a portfolio to additional risks. Risks include: the possibility that the derivative position is difficult or costly to reverse; that there is an adverse movement in the asset or index underlying the derivative; or that the parties do not perform their obligations under the contract.

In general, investment managers may use derivatives to:

- protect against changes in the market value of existing investments
- achieve a desired investment position without buying or selling the underlying asset
- gear a portfolio
- manage actual or anticipated interest rate and credit risk
- alter the risk profile of the portfolio or the various investment positions
- manage currency risk.

As a financial instrument, derivatives are valued regularly and movements in the value of the underlying asset or index should be reflected in the value of the derivative. Information on whether an investment option in this PDS uses derivatives such as futures, options, forward currency contracts and swaps, is outlined in the strategy of the investment option in the Investment Options Menu.

Credit risk

Credit risk refers to the risk that a party to a credit transaction fails to meet its obligations, such as defaulting under a mortgage, a mortgage-backed security, a hybrid security, a fixed interest security or a derivative contract. This creates an exposure to underlying borrowers and the financial condition of issuers of these securities.

Term deposit risk

Specific risks apply to investments in term deposits. Refer to section 7 on page 13 for information about this product.

Gearing risk

Some of the options in the PDS use gearing. Gearing means the option borrows so that it can invest more to increase potential gains. Gearing magnifies both gains and losses from the option's investments.

For an option geared at 50%, if the market rise is less than the option's borrowing and management costs, then it is unlikely that the geared option will outperform an equivalent ungeared portfolio. Consequently, a geared option will not always magnify market gains in a low return environment, but it will always magnify market losses.

In extreme market conditions, such as a rapid fall of over 60% in the value of investments in the Colonial First State Wholesale Geared Global Share option, or over 40% for the other geared options, you may lose all your capital.

We suggest you consult a financial adviser regarding the impact of these investments on your overall portfolio.

Short selling risk

Some of the options in the PDS use short selling. Short selling means the option sells a security it does not own to try and profit from a decrease in the value of the security. This is generally done by borrowing the security from another party to make the sale. The short sale of a security can greatly increase the risk of loss, as losses on a short position are not limited to the purchased value of the security.

Short selling strategies involve additional risks such as:

Liquidity risk

In certain market conditions, an option that adopts a short selling strategy may not be able to reverse a short position because the security it needs to buy may not be available for purchase in a reasonable timeframe or at all. In this event, losses may be magnified.

Leverage risk

Whilst short selling can often reduce risk, it is also possible for an option's long positions and short positions to both lose money at the same time.

Prime broker risk

When short selling is employed, the assets of the investment option are generally held by the prime broker (which provides the broking, stock lending and other services). As part of this arrangement, assets may be used by or transferred to the prime broker, and there is a risk that the prime broker does not return equivalent assets or value to the option (for example, because of insolvency). This would have a substantial negative impact on the value of your investment. This risk is managed by having arrangements with large, well established and globally operating prime brokers. If you would like details of our prime broker, please contact us.

If an option uses short selling, this is detailed in the strategy of the option – refer to the Investment Options Menu.

Emerging markets risk

Due to the nature of the investments in emerging markets, there is an increased risk that the political and/or legal framework may change and adversely impact your investments. This could include the ability to sell assets. Options that invest in global markets may have exposure to emerging markets.

All of the investment options in the PDS are subject to some or all of these risks, which can also vary from time to time. You should consult your financial adviser before making a decision to invest. Your financial adviser is required to be qualified in understanding the risk and return associated with the wide range of investment options available to you and can help you make decisions regarding these options.

Further details about option-specific risks, such as currency, gearing, emerging markets and short selling risks and ways to manage investment risk are contained on pages 10 to 12 of the Investment Options Menu, which forms part of the PDS.

Role of your financial adviser

Your financial adviser may play a large role in implementing your financial plan and can assist you to meet your financial needs. We have therefore designed an online platform service to enable your adviser to carefully monitor the progress of your portfolio and make transactions on your behalf if you nominate this.

If you choose to appoint your financial adviser to transact on your FirstChoice account, please complete the Adviser Online Transaction Authority in the application forms section.

Colonial First State can at any time remove an adviser or refuse to record or deal with an adviser nominated on your account.

You should read all the important information about the investment risks and diversification in the Investment Options Menu, which forms part of the PDS, before making an investment decision. The material relating to investments may change between the time you read the PDS and the day you sign the application form.

5 Fees and other costs

Did you know?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns. For example, total annual fees and costs of 2% of your fund balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000). You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask the fund or your financial adviser.

To find out more

If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) website (moneysmart.gov.au) has a managed investment fee calculator to help you check out different fee options.

This document shows fees and other costs that you may be charged. These fees and costs may be deducted from your money, from the returns on your investment or from the fund assets as a whole.

Taxes are set out in section 6.

You should read all the information about fees and costs because it is important to understand their impact on your investment.

Fees and costs for particular investment options are set out on pages 6 to 8.

FirstRate Wholesale Saver and FirstRate Wholesale Term Deposits are deposit products of the Bank, refer to section 7 for information on these products.

These figures are inclusive of the net effect of GST. Due to GST amendments, these amounts may increase from 1 July 2012. See page 9 for more details.

- 1 Refer to pages 9 to 10 for more details on the calculation of performance fees and how performance fees have been estimated in the assessment of management costs. This estimate is generally based on the performance of the option over the 12 months to 31 December 2011 and the associated performance fee. As past performance is no indicator of future performance, the performance fee charged in the future may differ.
- 2 The two figures shown above for the geared share options are based on the gross (g) assets (which includes the option's borrowings and is the lower of the two fees) and on net (n) assets (which excludes the option's borrowings and is the higher of the two fees). **Please note:** Borrowings include any exposure to borrowings from an option investing directly or indirectly into another managed investment scheme which borrows.
- 3 Transaction costs depend on the specific gearing level of the option.
- 4 These options have not been in existence for 12 months (as at 31 December 2011). For these options, this is an estimated management cost. For these options with performance fees, we assume no outperformance. However, please note that based on the actual performance of the Magellan Wholesale Global and the BlackRock Wholesale Asset Allocation Alpha options from 11 April 2011 to 31 December 2011, the performance fees would have been 2.58% and 1.42% respectively.
- 5 FirstRate Wholesale Investment Deposits are deposit products of the Bank. You should read the separate FirstRate Wholesale Investment Deposits PDS and the relevant offer term sheet before investing in this product.
- 6 FirstRate Wholesale Saver and FirstRate Wholesale Term Deposits are deposit products of the Bank, refer to section 7.
- 7 For these options, we are not remunerated by way of a cash fee. Instead, each month we receive units in the options at no cost in consideration for managing the options.

Additional explanation of fees and costs

Management costs

The terms 'management costs' and 'management fees' mean different things.

Management costs include management fees, estimated performance fees (if applicable), investment expenses and custody fees. Management costs are deducted from the performance of the option (ie they are not charged directly to your account). They do not include contribution fees, transaction costs or additional service fees. The management costs for each option are an estimate based on current financial information. They are expressed as a percentage of each option's net assets and, together with any applicable transaction costs, are outlined in the table on pages 6 to 8.

The management costs charged to these funds have been quoted on the basis that they fully qualify for a 75% input tax credit claim of GST. The Government has recently introduced legislative amendments to the GST Regulations which, when passed, may reduce the fund's access to claim input tax credits on some of the management costs (ie responsible entity fees) from 75% to 55% from 1 July 2012. As a consequence, this may result in an increase in the net management costs for the funds from 1 July 2012. For updated information, please visit colonialfirststate.com.au.

Management fees are the fees payable under the Constitution for the management of each option. Management fees are calculated from gross assets of the option. For details of the maximum management fees allowed under the Constitution, see page 10.

Example of annual fees and costs for a balanced investment option

This table gives an example of how fees and costs in the Colonial First State Wholesale Diversified option for this product can affect your investment over a one-year period. You should use this table to compare this product with other managed investment products.

EXAMPLE

The Colonial First State Wholesale Diversified option		Balance of \$50,000 with a contribution of \$5,000 during year
Contribution fees	0%	Nil
PLUS		
Management costs	0.95% pa	And, for every \$50,000 you have in the fund, you will be charged \$475 each year.
EQUALS		
Cost of fund		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you will be charged fees of: \$475 What it costs you will depend on the investment option you choose and the fees you negotiate with your fund or financial adviser.

These figures are inclusive of the net effect of GST.

Please note that this is just an example. In practice, the actual investment balance of an investor will vary daily and the actual fees and expenses we charge are based on the value of the option, which also fluctuates daily.

Transaction costs also apply. Refer to pages 6 to 8.

Performance fees

In addition to the management fee, on some options a performance fee may also be payable. The performance fee is reflected in the daily unit price and paid monthly at the relevant performance rate (inclusive of the net effect of GST). The fee is calculated as a percentage rate of the relevant option's outperformance.

The option's outperformance is the percentage return above the relevant benchmark, as outlined below.

Please note: There is no standard that is applied to how performance fees are calculated. You should carefully compare the different performance fee types in the tables below, noting which benchmark they aim to outperform and whether performance fees are calculated before or after management fees are charged.

For options where a performance fee applies, an estimate of the performance fees is included within the management cost for the option. This estimate is generally based on the actual performance fees paid from the option over the 12 months to 31 December 2011. For options which do not have 12 months of performance history (as at 31 December 2011) or for new investment options, we have assumed that the option has achieved performance in line with the relevant benchmark and therefore no performance fees would be payable. As past performance is no indicator of future performance, the performance fee charged in the future may differ.

The tables below show which options within the PDS are subject to performance fees.

PERFORMANCE FEE BEFORE MANAGEMENT FEES

Option	Benchmark	Management fee (pa)	Performance fee rate ⁸
Acadian Wholesale Australian Equity Long Short	S&P/ASX 300 Accumulation Index	1.20%	15%
Acadian Wholesale Global Equity Long Short	MSCI World Net Index (AUD)	1.45%	15%
Acadian Wholesale Quant Yield ⁹	Reserve Bank of Australia (RBA) cash rate	0.60%	20%

Ausbil Wholesale Australian Emerging Leaders	Composite benchmark ¹¹	1.10%	15%

⁸ This rate is inclusive of the net effect of GST.

⁹ The return on the option includes total income grossed up by the amounts of Australian franking credits.

¹⁰ The performance fee is calculated on the dollar value of positive performance (less carried forward negative performance) generated on the trading accounts only (this may include futures, forwards and/or options). **Please note:** Earnings generated on cash allocations held outside the trading accounts are excluded from attracting a performance fee.

¹¹ The composite benchmark consists of a weighting of 70% to the S&P/ASX Midcap 50 Accumulation Index and 30% to the S&P/ASX Small Ordinaries Accumulation Index.

PERFORMANCE FEE AFTER MANAGEMENT FEES

Option	Benchmark	Management fee (pa)	Performance fee rate ¹
BlackRock Wholesale Asset Allocation Alpha	UBS Australian Bank Bill Index	1.30%	20%
Celeste Wholesale Australian Small Companies	S&P/ASX Small Ordinaries Accumulation Index	1.00%	20%
Colonial First State Wholesale Australian Share Long Short – Core	S&P/ASX 100 Accumulation Index	1.20%	15%
Colonial First State Wholesale Enhanced Yield ²	RBA cash rate	0.50%	20%
Generation Wholesale Global Share	MSCI World (ex Australia) Net Index (AUD)	1.20%	20%
Magellan Wholesale Global	MSCI World Index Total Return (Net Dividends)	1.55%	10%
PM Capital Wholesale Absolute Performance	Greater than 0%	1.20%	20%
PM Capital Wholesale Australian Share	S&P/ASX 200 Accumulation Index	1.00%	25%
PM Capital Wholesale Enhanced Yield ²	RBA cash rate	0.70%	25%

1 This rate is inclusive of the net effect of GST.

2 The return on the option includes total income, inclusive of overseas withholding tax deducted at source and grossed up by the amounts of Australian franking credits.

Dollar fee example – performance fees (after management fees)

Assumptions for this example: 2.00% return before fees above the relevant benchmark, \$50,000 investment, performance fee rate of 25% and a management fee of 1.00% pa.

Fees calculation		Fee amount
Management cost: (excluding performance fee)	1.00% pa	\$500
Plus	0.25% pa	\$125
Estimated performance fee: $25\% \times (2.00\% - 1.00\%)$		
Management cost (including performance fee)	1.25% pa	\$625 inclusive of the net effect of GST

Sometimes the calculation of the performance fee will result in a negative dollar amount (negative performance fee). This negative performance fee is offset against any entitlement to future performance fees. We do not have to reimburse the option for negative performance. In extreme circumstances (eg if the net outflow from the option is more than 10% in one month) the negative performance fee which is offset may be reduced pro rata with the percentage of net outflow.

3 The performance fee is calculated on the dollar value of positive performance (less carried forward negative performance) generated on the trading accounts only (this may include futures, forwards and/or options). **Please note:** Earnings generated on cash allocations held outside the trading accounts are excluded from attracting a performance fee.

4 The alternative investment managers may change.

It is also possible for the manager to exceed the relevant benchmark (and therefore be entitled to a performance fee) even where an option has had negative performance over a period, as that option may have performed better relative to the benchmark.

Colonial First State may keep some of the performance fee. For periods of high outperformance, the performance fee may be substantial. We recommend you discuss this with your financial adviser to understand the impact of the performance fee.

Alternative investments

Alternative investments typically include investments in futures, forwards and options and are not limited to investments in shares, bonds, cash and/or property.

FirstChoice Wholesale Conservative, FirstChoice Wholesale Moderate, FirstChoice Wholesale Balanced and FirstChoice Wholesale Growth may have an exposure to alternative investments by investing in an underlying fund that holds these investments. Their respective allocations are shown in the Investment Options Menu on pages 18 and 19.

The underlying fund that holds the alternative investments may pay a performance fee to the alternative investment managers of up to 27.50% for outperformance above a benchmark of 0%^{3, 4} (calculated before the deduction of their management fees).

The effect of any performance fee paid is reflected in the return or value of the allocation that each investment option makes to alternative investments. For example, assuming all alternative investment managers achieve 2.0% outperformance above their relevant benchmark, FirstChoice Wholesale Balanced (which has a 6% allocation to alternative investments) would effectively incur 0.033% in performance fees ($2\% \times 6\% \times 27.50\%$) which would reduce the performance of the FirstChoice Wholesale Balanced option by this amount.

Increases or alterations to the fees

We may vary the management fees used to calculate the management costs set out on pages 6 to 8 at any time at our absolute discretion, without your consent, within the limits prescribed in each option's Constitution. If the variation is an increase in a fee or charge, we will give you 30 days advance written notice.

For all other options with performance fees other than those listed in the table below, a maximum performance fee rate of 25.00% (inclusive of the net effect of GST) is provided for under the Constitution.

Option name	Maximum performance fee ⁵
Acadian Wholesale Global Equity Long Short and Acadian Wholesale Australian Equity Long Short	15.00%
Acadian Wholesale Quant Yield, Aspect Wholesale Diversified Futures, BlackRock Wholesale Asset Allocation Alpha, Colonial First State Wholesale Australian Share Long Short – Core and Magellan Wholesale Global	27.50%

5 All maximum performance fees in the table are inclusive of the net effect of GST.

⁶ Maximum fee is charged for this option.

These figures are inclusive of the net effect of GST.

Please note: The maximums are provided for information and are not the current fees charged. The current fees are shown on pages 6 to 8.

Transaction costs

Transaction costs such as brokerage, government taxes/duties/levies, bank charges and account transaction charges are paid from each option. When you (or any person you have authorised) invest, switch or withdraw all or part of your investment, we use what is called a ‘buy/sell’ spread to recover transaction costs incurred. Because there are costs in buying and selling assets, we use the ‘buy/sell’ spread to direct these costs to investors transacting rather than other investors in the option. The ‘buy/sell’ spread that applies to each option is shown in the table on pages 6 to 8.

Please note that the ‘buy/sell’ spreads are not fees paid to us. They are paid to the option. They are, however, an additional cost to you. They may be altered at any time.

Where short-term settlement borrowing or borrowing for underlying funds occurs (including geared options), borrowing costs such as interest on borrowings, legal fees and other related costs are payable by those options.

Transaction costs example: If you make a \$50,000 investment in or withdrawal from the Colonial First State Wholesale Diversified option, you will incur transaction costs of \$100.

Abnormal costs

Abnormal costs (such as costs of unitholder meetings, recovery and realisation of assets, changes to the Constitution and defending or pursuing legal proceedings) are paid out of the option. These costs are incurred fairly infrequently.

Other operating expenses

The Constitution for each option allows for the ongoing operating expenses (such as registry, audit, regulatory, taxation advice and offer documents) to be paid directly from the option. The responsible entity recovers costs related to custody, and a portion of the costs related to audit, regulatory, production of the offer document and particular transactions.

The Constitution does not place any limit on the amount of the ongoing operating expenses that can be paid from each option.

What is paid to your adviser?

The adviser recommending the investment product may receive payment (‘remuneration’) from us.

Dealer groups, IDPS operators and other licensees may also receive remuneration from us for offering the fund on their investment menus or for the provision of services. This remuneration may be up to an amount equal to 100% of the relevant management costs indicated in the table on pages 6 to 8 in a given year. These amounts may be rebated or retained by the dealer group, IDPS operator or licensee. If these amounts are paid, they are paid by us and are not an extra amount paid from the fund nor are they a further amount you pay.

Any payments will be made in compliance with the Financial Services Council Industry Codes of Practice (Codes). We keep a register of certain payments as required by the Codes. Please contact us if you would like to view this register. Details of the adviser’s remuneration will be in the Financial Services Guide and Statement of Advice which your adviser must give you.

Negotiation of fees

Adviser service fee

You can also agree with your financial adviser to have an adviser service fee, for advice received relating to your investment in FirstChoice Wholesale Investments, including FirstRate Wholesale products, paid directly from one of your investment options. The adviser service fee (including GST) will be paid to your current adviser or any subsequent adviser on your investment.

Please note: Paying an adviser service fee from a FirstRate Wholesale Term Deposit will be treated as an early withdrawal and this will reduce your interest rate. Please refer to page 13 for more details on the FirstRate Term Deposit investment options.

An **ongoing fee** can be charged as:

- a percentage of your account value, or
- a set dollar amount.

This ongoing fee will be deducted from one of your options on a monthly basis within the first five business days of the following month.

In addition, a **one-off fee** can also be charged as:

- a set dollar amount.

This one-off fee will be deducted from one of your options within the first five business days of the following month.

Colonial First State may at its discretion refuse to deduct an adviser service fee or refuse to record or deal with your adviser at any time. Please contact your adviser directly regarding the negotiation of the adviser service fee.

Management cost rebates

You may be entitled to a portfolio rebate of part of the management costs on investment options. No trail rebate is payable on FirstChoice Wholesale accounts.

Management cost rebates are calculated and paid before income tax. You may be assessable for income tax on the rebate amount so you should ensure that this amount is included in your annual tax return. You should speak to your financial adviser or accountant for more information.

Management cost rebates are calculated monthly using your account balances and the rebate rate that applied on the last day of the month. If you close your account, your redemption will only include a rebate calculated to the end of month prior to the redemption. Management cost rebates will be credited to your account in the form of additional units as follows:

Management cost rebate	Frequency of payment
Portfolio rebate	Six-monthly in September and March

Unless you nominate a particular investment option, the management cost rebates will be paid to your investment options as outlined on page A2 in the application forms section.

Portfolio rebate

You may be entitled to a portfolio rebate depending on the size of your portfolio invested in eligible FirstChoice Wholesale products. Eligible FirstChoice Wholesale products (including Colonial First State Wholesale Cash and FirstRate Wholesale investment options) which determine the eligibility and the level of your portfolio rebate are:

- FirstChoice Wholesale Investments¹
- FirstChoice Wholesale Personal Super, and
- FirstChoice Wholesale Pension.

Only investments in this range of the FirstChoice range of products are eligible for the portfolio rebate. However, no rebate is payable on your investments in the Colonial First State Wholesale Cash and FirstRate Wholesale products investment options.

FirstChoice Wholesale accounts held under the same Online Identity Number (OIN) are automatically eligible and are counted towards your portfolio rebate. If you have more than one OIN, please contact us to ensure that your portfolio rebate is calculated correctly. You can also nominate investments held in joint names or as trustee for a trust or superannuation fund to be included in your portfolio rebate. Each account can only be linked to one OIN for portfolio rebate purposes. We do not allow the linking of nominee company accounts.

If you have more than one eligible FirstChoice Wholesale product, all your investments will be aggregated for the purposes of calculating the portfolio rebate and the rebate will be paid to each eligible product in proportion to your total portfolio.

The following table details the level of portfolio rebate you may be entitled to:

Value of eligible FirstChoice Wholesale products and investment options	Portfolio rebate (pa)
First \$800,000	Nil
Next \$400,000	0.10%
Over \$1,200,000	0.20%

Please note: Cash and deposit amounts are counted first in each tier amount.

Example calculation: A FirstChoice Wholesale Investments investor has the following investments:

FirstRate Wholesale Saver	\$500,000
Colonial First State Wholesale Cash	\$500,000
FirstChoice Wholesale Balanced	\$1,000,000
TOTAL PORTFOLIO	\$2,000,000

Portfolio balance	Rate	Portfolio fee rebate
First \$800,000 (Cash/Saver options counted first)	$\$800,000 \times 0.00\%$	\$0
Next \$400,000 (Cash/Saver option – \$200,000 remaining \times 0.00% plus $\$200,000 \times 0.10\%$)	$\$200,000 \times 0.10\%$	\$200
Over \$1,200,000	$\$800,000 \times 0.20\%$	\$1,600
TOTAL		\$1,800

We may change the portfolio rebate level or eligibility criteria at any time. If you require any clarification, please refer to our website, colonialfirststate.com.au, contact Investor Services on 13 13 36 or speak to your financial adviser.

Tax implications

Please note that this portfolio rebate will have income tax and may have GST implications. Please discuss this with your financial adviser.

Differential fees

We may issue units to certain investors such as sophisticated, professional, wholesale investors or Bank employees with reduced contribution and/or management costs. Such arrangements would be subject to individual negotiation, compliance with legal requirements and any applicable ASIC class orders.

6 How managed investment schemes are taxed

General taxation information has been provided for you in this PDS. However, because the Australian taxation system is complex and different investors have different circumstances, you should consider seeking professional taxation advice before investing in FirstChoice Wholesale options.

You may be required to pay tax in relation to your investment in an option (generally income or capital gains tax); however, you may be able to claim some tax credits or receive the benefit of some tax concessions.

Some tax information has been provided for you below. However, although every care is taken, it is never possible to rule out the risk that on a subsequent review, taxation liabilities of each option could be increased or the benefit of concessions reduced.

Because investors can move into and out of an option at different points in time, there is a risk that taxation liabilities in respect of gains that have benefited past investors may have to be met by subsequent investors.

This tax information is current as at 28 May 2012.

The levels and basis of tax may change in the future. We will send you all the information you need each year in order for you to complete your tax return.

¹ Where your FirstChoice Wholesale Investments account receives a rebate under an arrangement outlined above under the heading 'Differential fees', this account will not count towards determining eligibility or the level of your portfolio rebate.

Will you be liable to pay tax on income distributions you receive from an option?

You may, depending on your total level of taxable income and your income tax rate. This is the case regardless of whether the money is actually paid to you or reinvested. Any tax you pay depends on what makes up the distributions. Distributions could comprise:

- income (such as dividends and interest)
- net capital gains (from the sale of the option's investments), and
- tax credits (such as franking credits attached to dividend income and credits for tax paid on foreign income).

Will you be liable for tax when you switch or withdraw money from an option?

You may, depending on your total level of taxable income and your income tax rate. Australian residents are generally subject to capital gains tax on gains when they switch or withdraw from an option or transfer units to another person or entity. Depending on the type of taxpayer you are defined as and how long you have held your units, you may be entitled to a capital gains tax concession which can reduce the liability by up to 50% if you are an individual, or 33.33% if the investment is by a complying superannuation entity.

Do you have to quote a Tax File Number (TFN) or an Australian Business Number (ABN)?

(Australian residents only)

You are not required by law to quote your TFN. However, without your TFN or appropriate exemption information, we are required to withhold tax at the highest marginal tax rate (plus Medicare levy) from income distributions and interest payments made to you.

Non-residents

Non-residents may be subject to withholding tax on distributions. The exact amount cannot be determined in advance because it varies depending upon the type of income. Generally, for the options offered in this document (with the exception of the property securities options), non-residents will not be subject to Australian tax on capital gains arising at redemption. However, non-residents seeking to invest should obtain tax advice on their specific circumstances.

You should read all parts of the PDS or contact Colonial First State on 13 13 36 or email us at contactus@colonialfirststate.com.au if you would like a paper copy to be sent to you free of charge. You should assess whether the product is appropriate for you and speak to your financial adviser before making a decision to invest in the product.

If you decide to invest in the product, you should always check that you are completing an application form from the most up-to-date version of the PDS.

By completing the application, you agree to the content of the PDS available at the date you first become an investor in FirstChoice Wholesale Investments. Thereafter, we will notify you of changes to the PDS in accordance with our legal obligations.

Complete the forms required in the application forms section

Complete the application form included with or accompanied by the PDS and send it to us. Alternatively, you can complete the application online and send it to us. Please refer to the application form checklist to help you determine which forms to complete.

Is there a cooling-off period?

A 14-day 'cooling-off period' will apply to your initial investment in FirstChoice Wholesale Investments in certain circumstances. If, during the 14-day cooling-off period, you decide that the investment does not meet your needs, then contact your financial adviser and advise us in writing.

The 14 days start when your transaction confirmation is received by you or five days after your units are issued, whichever is earlier.

We will refund your investment, reduced or increased for market movements (and, where relevant, once we have established your identity). We will also deduct any tax or duty incurred and an amount for reasonable transaction and administration costs we incur in relation to your investment in the fund, including determining your application. As a result, the amount returned to you may be less than your original investment.

Please note: The cooling-off period does not apply to FirstRate Wholesale products. FirstRate Wholesale products terms and conditions deal with the withdrawal of your investment, together with accrued interest. CONDITIONS FOR AUTHORISING AN ADVISER TO TRANSACT ON YOUR BEHALF

By signing this authority you authorise the named adviser, and any other person authorised by that adviser, to perform the following activities on your account online (if available) on your behalf:

- make an additional investment, set up or modify a regular investment plan (including modifying the adviser fees as agreed by you and your adviser from time to time), switch between investment options and modify account details (excluding bank account details)
- modify investment selection and frequency (including auto-rebalancing)
- withdraw an investment (does not apply to superannuation or pension accounts)
- transact on FirstRate products (including managing maturity instructions).

This adviser transaction authority is subject to the following:

- You agree that the named adviser remains authorised, even if this adviser transfers to a new dealer group (with the current dealer's release) and changes to new arrangements without notice to you.
- If the dealer group's Australian Financial Services Licence is suspended or cancelled by the Australian Securities and Investments Commission (applies to advisers in Australia) or the adviser's licence is suspended or cancelled by the New Zealand Securities Commission (applies to advisers in New Zealand), we have the discretion to switch off the adviser authority.
- If we reasonably believe that a person is your authorised adviser or their authorised delegate, then anything they do on your behalf will be treated as if you have done it personally.
- Once you sign this authority, then we will treat your adviser (or their delegate) as being properly appointed unless you tell us otherwise. We will not accept or be on notice of any restrictions on their authority.

Please note that the adviser may also delegate this authority to third parties, such as others in their office. Therefore you should carefully consider the implications of giving this authority before proceeding.

Joint applicants must both sign.

- At our complete discretion we can refuse to accept an authority, permit a person to transact or carry out a transaction.
- You agree to release, discharge and indemnify us from and against any liability, cost or loss that is incurred by us or you as a result of our acting on this authority except if we have acted fraudulently or have wilfully defaulted in our obligations to you and you acknowledge we will process transactions under this authority until we receive a valid written notification, signed by you, amending or revoking this authority.
- You also agree that neither you, nor any person claiming through you, has any claim against us for a transaction done in accordance with this authority.
- This authority continues until the second business day after we receive written notice from you of cancellation of the authority.
- Use of Colonial First State's online facilities is subject to specific terms and conditions. These are available on our internet site.
- We can cancel or vary these conditions by giving you not less than seven (7) days written notice.
- If during our normal business hours FirstNet is unavailable or online transactions are not being processed (as determined by us), then this authority will permit your adviser (or their delegate) to transact on your behalf using fax instructions. The terms of fax usage which will then apply are set out in the Reference Guide – Transacting on your account.

Investments and withdrawals can only be made to and from a bank account pre-nominated by you.

Please note: By providing this authority to your adviser you will also be automatically updated to full transaction access on your account via FirstNet, if you do not already have this level of access.

The adviser and any other person authorised by that adviser will be authorised to carry out these activities online only.

PLEASE NOTE THAT BY APPOINTING AN ADVISER TO TRANSACT ON YOUR BEHALF, YOU ARE GIVING THAT ADVISER, AND ANY PERSON ACTING ON BEHALF OF THE ADVISER, AUTHORITY TO TRANSACT AND MODIFY DETAILS ON YOUR ACCOUNT(S), UNTIL WE RECEIVE A VALID WRITTEN NOTIFICATION, SIGNED BY YOU, AMENDING OR REVOKING THIS AUTHORITY.
