NYAGRA Transgender Health Care Provider Directory

Introduction

In August 2004, the New York Association for Gender Rights Advocacy (NYAGRA), the Transgender Legal Defense & Education Fund (TLDEF) and the Gender Identity Project (GIP) of the Lesbian, Gay, Bisexual & Transgender Community Center came together to organize three public forums on access to health care for members of the transgender community. Hosted by the Center, the three forums focused on the pervasive discrimination and insensitivity that transgendered and gender-variant people face when trying to access health care in New York City and its metropolitan area. Out of those public meetings, the three partner organizations formed the Transgender Health Initiative of New York (THINY), a community organizing project whose goal is to ensure that transgendered and gender non-conforming people can access health care in a safe, respectful and non-discriminatory manner.

NYAGRA's work on health care access builds on our work in leading the campaign for the New York City transgender rights law (Int. No. 24, enacted as Local Law 3 of 2002 by the New York City Council), which prohibits discrimination based on gender identity or expression in health care and social services as well as in employment, housing and public accommodations. As part of the Transgender Health Initiative and in cooperation with our partner organizations in THINY, we offer this -- the first published public directory of transgender-affirming health care providers in the New York City metropolitan area.

We look forward to hearing back from users of the directory about the providers in it as well as providers who are not in this first edition but who they think should be in subsequent editions. You can provide feedback and input on the directory and the providers listed in it by calling the NYAGRA office at (212) 675-3288, ext. 338 or by e-mailing paulinepark@earthlink.net. There are many people to thank for their help in putting together this directory:

-- Cristina Herrera and her colleagues at the Center GIP, who helped NYAGRA identify a significant number of the providers listed in this directory and who helped secure a room for the directory launch party as well as helping to publicize the event and distribute the directory;

NYAGRA Transgender Health Care Provider Directory

- Drs. Dennis Greenbaum and Barbara Johnston and their colleagues at St. Vincent's Hospital of Manhattan and the Saint Vincent Catholic Medical Centers, who helped NYAGRA identify individual providers at St. Vincent's, and with whom NYAGRA, TLDEF and THINY have been working in partnership for the last four years to improve delivery of care to transgendered and gender-variant patients at the hospital;
- Michael Silverman and Dru Levasseur of TLDEF, who coordinate the Transgender Health Initiative of New York (THINY);
- Kelly White, who compiled the directory as NYAGRA's 2009 summer intern. She did the work of pulling together names of providers and working with our designer and our printer under tight deadlines and carried out responsibilities far greater than those borne by most summer interns. Kelly joined NYAGRA as part of a paid summer internship through the Cornell Urban Scholars Program (CUSP), without whose support this project would not have been possible;
- Sarah Smith, CUSP program coordinator; John Nettleton, CUSP executive director; and Ann Forsyth, CUSP campus director;
- Queens Pride House (a center for the LGBT communities of Queens), which housed Kelly during her summer internship;
- The Latino Commission on AIDS, which has housed NYAGRA and provided ongoing infrastructural support to the organization since 2002;
- Dennis Yuen of Litchinut for his wonderful designs for the covers;
- Bargainprinting.com for efficiency and attention to detail;
- And last but not least, the members of THINY and the transgender community of New York, who inspired us to do this work and who continue to inspire us to work towards the day when everyone can access safe, affordable, sensitive, high-quality health care, regardless of their gender identity or expression.
