THE AWAKENING OF LATIN AMERICA *Ernesto Che Guevara*

A classic anthology of Che Guevara's writing on Latin America

The name Che Guevara is synonymous with Latin America. This classic anthology on Latin America shows the Argentine-born revolutionary's cultural depth, rigorous intellect and intense emotional engagement with a continent and its people.

Selected from his family's personal archives, this book offers the best of Che's writing: examples of his journalism, essays, speeches, letters and even his poetry, revealing the evolution of an extraordinary mind from that of an impressionable young medical student to the "heroic guerrilla," brutally assassinated in Bolivia.

"I consider my country to be not only Argentina but the entire Americas."
