Ambassador Chairman's letter

1 July 2014

Dear Ambassador Shareholder,

Drillsearch Offer

On 28 May 2014, Ambassador announced that it had signed a Bid Implementation Agreement with Drillsearch Energy Limited (ABN 73 006 474 844) (**Drillsearch**) in relation to a proposed off-market takeover offer for all of the issued shares in Ambassador which it does not already own.

Under Drillsearch's initial offer, Drillsearch (Central) Pty Limited (ABN 41 160 522 056) (**Drillsearch Bidco**), a wholly owned subsidiary of Drillsearch, offered you 1 Drillsearch Share for every 5.4 of your Ambassador Shares.

On 16 June 2014, Drillsearch varied its offer by increasing its offer consideration from 1 Drillsearch Share for every 5.4 Ambassador Shares **to include 5 cents cash** for every Ambassador Share. Drillsearch Bidco also immediately declared the Drillsearch Offer unconditional. The implied value of the Drillsearch Offer is \$0.329 per Ambassador Share based on Drillsearch's closing share price of \$1.505 on 27 June 2014, being the last practicable trading day prior to the date of this Target's Statement.

You should have received the Drillsearch Bidder's Statement and the Supplementary Drillsearch Bidder's Statement which sets out the detailed terms of the Drillsearch Offer. A copy of the Drillsearch Bidder's Statement and the Supplementary Drillsearch Bidder's Statement are also available on the Ambassador website (www.ambassadorexp.com.au).

Magnum Hunter Offer

On 10 June 2014, Magnum Hunter Resources Corporation (**Magnum Hunter**) announced its intentions to make a competing off-market takeover offer for all of the issued shares in Ambassador for one share of Magnum Hunter common stock for every 27.8 Ambassador Shares. Magnum Hunter is a United States entity with its common stock listed on the New York Stock Exchange (**NYSE**).

On 17 June 2014, Magnum Hunter announced its intentions to increase the consideration offered under its off-market takeover offer to one share of Magnum Hunter common stock for every 23.6 Ambassador Shares, and declared the Magnum Hunter Offer unconditional. The implied value of the Magnum Hunter Offer is \$0.374¹ per Ambassador Share based on the closing share price of Magnum Hunter common stock on the NYSE of USD\$8.31 on 27 June 2014, being the last practicable trading day prior to the date of this Target's Statement.

You should have received the Magnum Hunter Bidder's Statement which sets out the detailed terms of the Magnum Hunter Offer. A copy of the Magnum Hunter Bidder's Statement is also available on the Ambassador website (www.ambassadorexp.com.au).

¹ Calculated based on an exchange rate of 0.9427 US Dollars per 1.00 Australian Dollar, as published by Bloomberg at market close on 27 June 2014.

The Ambassador Directors' recommendation

The Ambassador Directors importantly note that under both the Drillsearch Offer and the Magnum Hunter Offer, Ambassador Shareholders would realise a significant premium to the closing price of Ambassador Shares of \$0.195 on 23 May 2014, being the trading day prior to Ambassador entering into a trading halt pending announcement of Drillsearch's initial offer on 28 May 2014. Accordingly:

- the implied value of the Drillsearch Offer of \$0.329 per Ambassador Share² represents a premium of 68.57% to the closing price of Ambassador Shares of \$0.195 on 23 May 2014; and
- the implied value of the Magnum Hunter Offer of \$0.374 per Ambassador Share³ represents a premium of 91.55% to the closing price of Ambassador Shares of \$0.195 on 23 May 2014.

Recommendation

Having given careful consideration to the Drillsearch Offer and the Magnum Hunter Offer, the Ambassador Directors' unanimously recommends that:

Ambassador Shareholders should **ACCEPT THE DRILLSEARCH OFFER** if one or more of the following applies:

- You wish to retain and increase your exposure to the Cooper Basin with an investment in Drillsearch, consistent with your initial investment in Ambassador and the risk profile of holding Drillsearch Shares is acceptable to you.
- You prefer to receive a combination of cash and shares in an Australian ASX listed entity, instead of common stock in an entity which is listed on the New York Stock Exchange.
- You intend to liquidate your investment in the short term and wish to have a greater degree of control and certainty in relation to the subsequent sale of the consideration received for your Ambassador Shares.
- The risk profile of holding Magnum Hunter common stock or participating in the Magnum Hunter Sale Facility in order to liquidate your investment may be unacceptable for your investment circumstances.
- You wish to have the benefit of scrip-for-scrip capital gains tax rollover relief (in which acceptance of the Drillsearch Offer has a greater likelihood of receiving such relief than if you accept the Magnum Hunter Offer).

However, Ambassador Shareholders should **ACCEPT THE MAGNUM HUNTER OFFER** if you:

- wish to receive the higher implied premium for your Ambassador Shares; or
- prefer to have an investment in a larger New York Stock Exchange listed entity with extensive experience in the unconventional oil and gas industry and large interests in shale resource basins in the United States in respect of which Magnum Hunter intends to invest significant capital in exploration and development activities; **AND**
- are prepared to accept the risk profile of being a Magnum Hunter shareholder or the risks and uncertainties of participating in the Magnum Hunter Sale Facility.

² Based on Drillsearch's closing share price of \$1.505 on 27 June 2014, being the last practicable trading day prior to the date of this Target's.

³ Based on the closing sales price of Magnum Hunter common stock on the New York Stock Exchange of USD\$8.31 on 27 June 2014, being the last practicable trading day prior to the date of this Target's.

In making their recommendation, your Ambassador Directors have taken into account the following key considerations for Ambassador Shareholders:

| Reasons why you may wish to accept the Drillsearch Offer | Reasons why you may wish to accept the Magnum Hunter Offer |
|--|--|
| <p>The Drillsearch Offer represents a significant premium to the closing price of Ambassador Shares of \$0.195 on 23 May 2014, being the trading day prior to Ambassador entering into a trading halt pending announcement of Drillsearch's original offer on 28 May 2014.</p> | <p>The Magnum Hunter Offer represents a significant premium to the closing price of Ambassador Shares of \$0.195 on 23 May 2014, being the trading day prior to Ambassador entering into a trading halt pending announcement of Drillsearch's original offer on 28 May 2014.</p> |
| <p>By accepting the Drillsearch Offer you will own Drillsearch Shares allowing you to retain a less diluted exposure to Ambassador's key asset, and gain greater exposure to a more diversified Cooper Basin asset base in a profitable mid-tier ASX listed oil and gas business, and the risk profile of holding Drillsearch Shares is acceptable to you.</p> | <p>As at 27 June 2014, being the last practical trading day prior to the date of this Target's Statement, the implied value of the Magnum Hunter Offer represents a premium over the implied value of the Drillsearch Offer.</p> |

| <p>Ambassador Shareholders who favour a greater degree of certainty and control in relation to the liquidation of the consideration received for their Ambassador Shares may prefer to receive Drillsearch Shares and sell those on the ASX, rather than participate in the Magnum Hunter Sale Facility under the Magnum Hunter Offer (in particular in the short term).</p> | <p>You may prefer an investment in a NYSE listed entity that historically has had good trading volume and liquidity of its shares.</p> |
| <p>The risk profile of holding Magnum Hunter common stock or participating in the Magnum Hunter Sale Facility in order to liquidate your investment may be unacceptable for your investment circumstances.</p> | <p>You may prefer an investment in a NYSE listed entity which provides geological, geographical and exchange rate diversity to your investment or asset portfolio.</p> |
| <p>There may be a greater likelihood of receiving scrip-for-scrip capital gains tax rollover relief if you accept the Drillsearch Offer (in which acceptance of the Drillsearch Offer has a greater likelihood of receiving such relief than if you accept the Magnum Hunter Offer).</p> | |

2 Ambassador Directors' recommendations and reasons

2.1 Ambassador Directors' recommendations

As at the date of this Target's Statement, the directors of Ambassador are:

- David Shaw (Non-Executive Chairman);
- Giustino Guglielmo (Managing Director); and
- Emmanuel Correia (Non-Executive Director and Company Secretary).

Having given careful consideration to the Drillsearch Offer and the Magnum Hunter Offer, the Ambassador Directors unanimously recommends:

Ambassador Shareholders should **ACCEPT THE DRILLSEARCH OFFER** if one or more of the following applies:

- You wish to retain and increase your exposure to the Cooper Basin with an investment in Drillsearch, consistent with your initial investment in Ambassador and the risk profile of holding Drillsearch Shares is acceptable to you.
- You prefer to receive a combination of cash and shares in an Australian ASX listed entity, instead of common stock in an entity which is listed on the New York Stock Exchange.
- You intend to liquidate your investment in the short term and wish to have a greater degree of control and certainty in relation to the subsequent sale of the consideration received for your Ambassador Shares.
- The risk profile of holding Magnum Hunter common stock or participating in the Magnum Hunter Sale Facility in order to liquidate your investment may be unacceptable for your investment circumstances.
- You wish to have the benefit of scrip-for-scrip capital gains tax rollover relief (in which acceptance of the Drillsearch Offer has a greater likelihood of receiving such relief than if you accept the Magnum Hunter Offer).

However, Ambassador Shareholders should **ACCEPT THE MAGNUM HUNTER OFFER** if you:

- wish to receive the higher implied premium for your Ambassador Shares; or
- prefer to have an investment in a larger New York Stock Exchange listed entity with extensive experience in the unconventional oil and gas industry and large interests in shale resource basins in the United States in respect of which Magnum Hunter intends to invest significant capital in exploration and development activities; **AND**
- are prepared to accept the risk profile of being a Magnum Hunter shareholder or the risks and uncertainties of participating in the Magnum Hunter Sale Facility.

In considering whether to accept the Drillsearch Offer, the Magnum Hunter Offer, or none at all, your Ambassador Directors encourage you to:

- carefully read this Target's Statement, the Drillsearch Bidder's Statement, the Supplementary Drillsearch Bidder's Statement and the Magnum Hunter Bidder's Statement;
- have regard to your individual risk profile, portfolio strategy, tax position and financial circumstances;

- take into account the other relevant considerations discussed in Section 2.5 of this Target's Statement;
- consider the alternatives discussed in Section 6 of this Target's Statement; and
- obtain independent financial, legal, taxation or other professional advice before making a decision.

2.2 Ambassador Directors' intentions

On 16 June 2014, two of the three Ambassador Directors, Mr David Shaw and Mr Giustino Guglielmo, having independently assessed the merits of the Drillsearch Offer, accepted the Drillsearch Offer in respect of the 9,000,000 Ambassador Shares that they own or control, representing approximately 6.34% of the issued Ambassador Shares.

Mr Shaw and Mr Guglielmo accepted the Drillsearch Offer in respect of those Ambassador Shares before Magnum Hunter announced its revised takeover offer for Ambassador, which was announced on 17 June 2014.

Mr Giustino Guglielmo also has an interest in 100,000 Ambassador Shares held jointly in his capacity as a trustee of the Nicola Guglielmo Family Trust, and 1 Ambassador Share held directly by Mr Guglielmo. As at the date of this Target's Statement, Mr Guglielmo remains undecided on whether he intends to accept the Drillsearch Offer, the Magnum Hunter Offer, or either of them in respect to these Ambassador Shares, representing approximately 0.07% of the issued Ambassador Shares.

Mr Emmanuel Correia, Non-Executive Director and Company Secretary of Ambassador, as at the date of this Target's Statement, remains undecided on whether he intends to accept the Drillsearch Offer, the Magnum Hunter Offer, or either of them. Mr Correia owns or controls 1,375,000 Ambassador Shares, representing approximately 0.96% of the issued Ambassador Shares.

2.3 Reasons why you may wish to accept the Drillsearch Offer

-
1. The Drillsearch Offer represents a significant premium to the closing price of Ambassador Shares of \$0.195 on 23 May 2014, being the trading day prior to Ambassador entering into a trading halt pending announcement of Drillsearch's original offer on 28 May 2014.

 2. By accepting the Drillsearch Offer you will own Drillsearch Shares allowing you to retain a less diluted exposure to Ambassador's key asset, and gain greater exposure to a more diversified Cooper Basin asset base in a profitable mid-tier ASX listed oil and gas business, and the risk profile of holding Drillsearch Shares is acceptable to you.

 3. You may prefer to receive cash and shares in Drillsearch, being an Australian ASX listed entity, instead of Magnum Hunter common stock, listed on the New York Stock Exchange.

 4. Ambassador Shareholders who favour a greater degree of certainty and control in relation to the liquidation of the consideration received for their Ambassador Shares may prefer to receive Drillsearch Shares and sell those on the ASX, rather than participate in the Magnum Hunter Sale Facility under the Magnum Hunter Offer (in particular in the short term).

 5. The risk profile of holding Magnum Hunter common stock or participating in the Magnum Hunter Sale Facility in order to liquidate your investment may be unacceptable for your investment circumstances.

 6. There may be a greater likelihood of receiving scrip-for-scrip capital gains tax rollover relief if you accept the Drillsearch Offer (in which acceptance of the Drillsearch Offer has a greater likelihood of receiving such relief than if you accept the Magnum Hunter Offer).
-

Reason 1 to accept the Drillsearch Offer:

The Drillsearch Offer represents a significant premium to the closing price of Ambassador Shares of \$0.195 on 23 May 2014, being the trading day prior to Ambassador entering into a trading halt pending announcement of Drillsearch's original offer on 28 May 2014.

The consideration offered under the Drillsearch Offer is 1 Drillsearch Share for every 5.4 of your Ambassador Shares plus 5 cents cash for every Ambassador Share.

The Drillsearch Offer implies a value of \$0.329 per Ambassador Share based on Drillsearch's closing share price of \$1.505 on 27 June 2014, being the last practicable trading day prior to the date of this Target's Statement. Specifically, the implied value of the Drillsearch Offer of \$0.329 per Ambassador Share represents a substantial premium of 68.57% to the closing price of Ambassador shares of \$0.195 on 23 May 2014, the trading day prior to Ambassador entering into a trading halt pending announcement of the original Drillsearch Offer on 28 May 2014.

Your Ambassador Directors believe that the Drillsearch Offer provides Ambassador Shareholders with a compelling premium to the pre-bid Ambassador Share prices.

Your Ambassador Directors also note that the 68.57% premium of the Drillsearch Offer will change as a result of market movements in the Drillsearch share price.

Reason 2 to accept the Drillsearch Offer:

By accepting the Drillsearch Offer you will own Drillsearch Shares allowing you to retain a less diluted exposure to Ambassador's key asset, and gain greater exposure to a more diversified asset base in a profitable mid-tier ASX listed oil and gas business, and the risk profile of holding Drillsearch Shares is acceptable to you.

Drillsearch is a larger and more diversified oil and gas company than Ambassador. The respective boards of Ambassador and Drillsearch believe there is a compelling strategic rationale for the Drillsearch Offer, which would consolidate Drillsearch's dominant position in the Northern Cooper Wet Gas area by combining Ambassador's 47.5% non-operated interest in PEL 570 with Drillsearch's 80% owned and operated interest in the adjacent PEL 101. You may prefer to retain and increase your exposure to the Cooper Basin, consistent with your initial investment in Ambassador.

On the other hand, if you accept the Magnum Hunter Offer and receive Magnum Hunter common stock, you will become a shareholder in Magnum Hunter. Magnum Hunter is a larger US-based operator, and the Cooper Basin would comprise a significantly smaller part of its overall business, which would in turn dilute the benefit in an investment in the Cooper Basin.

If the Drillsearch Offer succeeds, it is anticipated that Ambassador Shareholders may benefit from:

- **Exposure to Drillsearch's business:** exposure to Drillsearch, which is a profitable mid-tier ASX listed oil and gas company focused on growing reserves, production and cash flow.
- **Drillsearch's Cooper Basin interests:** exposure to Drillsearch's Cooper Basin interests that includes:⁴
 - exposure to a prolific Oil Business on the Western Flank;
 - a Wet Gas Business pursuing commercialisation of a number of existing discoveries in the Western and Northern Cooper areas;
 - an active Unconventional exploration program focused on ATP 940P in the Nappamerri Trough; and
 - 2P reserves of 28.7 million barrels of oil equivalent.
- **Strong acreage position in the Cooper Basin:** the Merged Group will have a strong presence in the Cooper Basin.
- **Ability to leverage scale efficiencies:** by combining Ambassador's assets with those of Drillsearch, the Merged Group may benefit from access to shared infrastructure and scale efficiencies to capitalise on the complementary acreage.
- **Diversified asset base:** Ambassador Shareholders will gain exposure to a larger and more diversified pool of assets and opportunities including Drillsearch's interests in the Cooper Basin, whilst retaining exposure to Ambassador's current asset base. Ambassador Shareholders will benefit

⁴ Details derived from page 6 of the Drillsearch Bidder's Statement.

from the operational diversity provided by exposure to numerous producing oil fields in the Cooper Basin.

There are a number of risks associated with an investment in Drillsearch Shares, including:

- merger integration risks;
- exploration and development risks;
- drilling risks;
- production risks; and
- oil and gas price fluctuations.

You are already exposed to several of these risks, to varying degrees, as a result of holding Ambassador Shares. Please see Section 8 of the Drillsearch Bidder's Statement for further information.

Reason 3 to accept the Drillsearch Offer:

You may prefer to receive cash and shares in Drillsearch, an Australian ASX listed entity, instead of Magnum Hunter common stock, listed on the New York Stock Exchange.

Under the Drillsearch Offer, accepting Ambassador Shareholders will receive 1 Drillsearch Share for every 5.4 Ambassador Shares plus 5 cents cash for every Ambassador Share. Drillsearch is an Australian entity with its shares listed, and tradable on, the ASX.

Under the Magnum Hunter Offer, accepting Ambassador Shareholders will receive 1 share of Magnum Hunter common stock for every 23.6 Ambassador Shares. Magnum Hunter is listed New York Stock Exchange (**NYSE**).

Ambassador Shareholders (who are predominantly Australian resident shareholders based on the shareholder profile in Ambassador's share register) may prefer the familiarity of holding shares in an Australian ASX listed company in the form of Drillsearch Shares that could be more easily traded on the ASX, as compared to holding Magnum Hunter common stock that is listed on the NYSE, which can only be traded through a broker with international affiliation.⁵

The holding and trading of Magnum Hunter common stock may be subject to additional administrative requirements, exposure to foreign exchange risk, subject to unfamiliar US securities law, a different regulatory regime and potentially a different and unfamiliar US tax system. There may also be difficulties in monitoring the financial performance of Magnum Hunter, as regulatory financial information would be presented on a United States GAAP basis, which may be unfamiliar to most Australian resident investors.

Furthermore, as stated in Annexure A of the Magnum Hunter Bidder's Statement (page 117 to 118), Ambassador Shareholders who accept the Magnum Hunter Offer may be issued with Magnum Hunter common stock that are "restricted securities" for the purposes of the *United States Securities Act of 1936*. If the Magnum Hunter common stocks are "restricted securities", restrictions on resale may apply.⁶

⁵ "Annexure A – Trading Your Consideration Stock" of the Magnum Hunter Bidder's Statement, pages 117 to 118.

⁶ Unless registered under the United States Securities Act of 1933 or an exemption from registration is available.

Any resale of “restricted securities” would be subject to a six-month holding period running from the date the restricted securities of Magnum Hunter common stock are acquired and certain other conditions. If you accept the Magnum Hunter Offer and elect to receive Magnum Hunter Stock and they are restricted securities, your ability to trade those securities, and the price at which you may sell them at, may be adversely affected.

Stated in Annexure A of the Magnum Hunter Bidder’s Statement, Magnum Hunter expects that most, if not all, of the shares in Magnum Hunter common stock issued pursuant to the Magnum Hunter Offer would not be restricted securities. However, Magnum Hunter advises, and so too do your Ambassador Directors, that you consult your legal advisers if you have any questions about whether shares in Magnum Hunter common stock would be restricted securities if you were to accept the Magnum Hunter Offer, and, if so, obtain advice on applicable resale restrictions.

Reason 4 to accept the Drillsearch Offer:

Ambassador Shareholders who favour a greater degree of certainty and control in relation to the liquidation of the consideration received for their Ambassador Shares may prefer to receive Drillsearch Shares and sell those on the ASX, rather than participate in the Magnum Hunter Sale Facility under the Magnum Hunter Offer (in particular in the short term).

Ambassador Shareholders who favour cash over scrip may prefer to receive Drillsearch Shares and the cash component under the Drillsearch Offer and sell those on the ASX, as this option may provide greater price certainty than electing to participate in the Magnum Hunter Sale Facility. For the reasons outlined below, the Ambassador Directors consider it is likely that Ambassador Shareholders would receive a material discount to the implied value of the Magnum Hunter Offer if they elect to participate in the Magnum Hunter Sale Facility.

Under the Magnum Hunter Offer, Ambassador Shareholders may instead elect to receive cash rather than holding Magnum Hunter common stock by electing to participate in the Magnum Hunter Sale Facility. Under this facility, the Magnum Hunter common stock to which an accepting Ambassador Shareholder would otherwise be entitled will be issued to the Sale Facility Agent and sold on their behalf. The proceeds of that sale will be remitted to the Ambassador Shareholder, less any costs and expenses of the sale, such as stamp duty and other sale expenses. The election to participate in the Magnum Hunter Sale Facility must be made at the time of acceptance of the Magnum Hunter Offer.

Section 15.9 of the Magnum Hunter Bidder’s Statement sets out further details of the Magnum Hunter Sale Facility, which relevantly states that:

- The Sale Facility Agent can only sell the Magnum Hunter common stock outside of the United States and only to non-United States persons.
- The Magnum Hunter common stock sold by the Sale Facility Agent will be “restricted securities” under US securities law⁷ and any purchaser of those securities will be subject to restrictions on transfer, including a restriction on any sales in the United States or for the benefit of US persons for a period of 6 months.
- The Sale Facility Agent will only be issued with your Magnum Hunter common stock for sale under the Magnum Hunter Sale Facility on or before

⁷ Unless registered under the United States Securities Act of 1933 or an exemption from registration is available.

the earlier of one month after the date of your acceptance or 21 days after the end of the Magnum Hunter Offer period.

- There is no guarantee as to when the Sale Facility Agent would be able to sell your Magnum Hunter common stock, if at all, and therefore no guarantee as to when you will receive the cash proceeds of those sales.
- The proceeds you would receive under the Magnum Hunter Sale Facility would be less any stamp duty and other sale expenses. The Magnum Hunter Bidder's Statement has not specified what stamp duty, costs and expenses would be, or how they would be calculated.
- The Magnum Hunter Sale Facility is not underwritten, and therefore no guarantee that the Sale Facility Agent will be able to sell your Magnum Hunter common stock at the same price as the implied value of the Magnum Hunter Offer.

For the reasons above, the Ambassador Directors consider that:

- the significant restrictions on resale of the Magnum Hunter common stock, particularly since it can only be offered to non-United States persons and any purchaser would be subject to a 6 month resale restriction;
- the undisclosed stamp duty, sale costs and expenses;
- exposure to foreign currency movement;
- the fact that no guarantee can be provided as to when your Magnum Hunter common stock would be sold, if at all; and
- the uncertain timing as to when Ambassador Shareholders would receive the cash proceeds,

would likely have a material and adverse impact on the price at which the Sale Facility Agent could sell the Magnum Hunter common stock. Accordingly, the Ambassador Directors consider it is likely that Ambassador Shareholders would receive a material discount to the implied value of the Magnum Hunter Offer if they elect to participate in the Magnum Hunter Sale Facility.

On 20 June and 23 June 2014, the Takeovers Panel announced that it had made interim orders with the effect that Drillsearch Bidco and Magnum Hunter Bidco respectively must not take any further steps to process any acceptances received in relation to the each of their Offers. These interim orders have effect until the earliest of:

- further order of the Takeovers Panel;
- the determination of the proceedings before the Takeovers Panel; and
- 2 months from the date of the interim order.

Accordingly, accepting Ambassador Shareholders will not receive the Drillsearch Offer Consideration or the Magnum Hunter Offer Consideration whilst the respective interim orders remains in effect.

However, on 16 June 2014, Drillsearch announced accelerated payment terms whereby Drillsearch Bidco will provide the Drillsearch Offer Consideration (Drillsearch Shares and the cash component) within 10 Business Days of receipt of a valid acceptance. Once the interim orders are no longer in effect, an Ambassador Shareholder who accepts the Drillsearch Offer and subsequently sells some or all of their Drillsearch Shares on the ASX is more likely to receive cash sooner, than if an Ambassador Shareholder accepts the Magnum Hunter Offer and elects to participate in the Magnum Hunter Sale Facility (by which time the Magnum Hunter common stock price and the Australian to US Dollar exchange rate may have materially

changed from the point at which an Ambassador Shareholder makes the decision on which to accept the Magnum Hunter Offer).

Reason 5 to accept the Drillsearch Offer:

The risk profile of holding Magnum Hunter common stock or participating in the Magnum Hunter Sale Facility in order to liquidate your investment may be unacceptable for your investment circumstances.

You may prefer to accept the Drillsearch Offer and receive 1 Drillsearch Share for every 5.4 Ambassador Shares plus 5 cents cash for every Ambassador Share, rather than becoming a shareholder in Magnum Hunter, because you may consider Magnum Hunter's risk profile to be unacceptable for your investment circumstances.

Based on the Ambassador Directors' review of the Magnum Hunter Bidder's Statement and their own independent analysis, they have identified material concerns with an investment in Magnum Hunter, including:

- **(History of significant losses)** Magnum Hunter has a history of losses and cannot assure investors that it will be profitable in the foreseeable future, with accumulated deficit of US\$586.4 million since it entered the oil and gas business in April 2005 through to 31 December 2013.⁸
- **(Significant debt levels)** Magnum Hunter has significant debt levels. As at 31 March 2014, Magnum Hunter's total outstanding indebtedness was approximately US\$869.9 million. Magnum Hunter states that it depends upon borrowings under its credit facilities, cash generated from operations, proceeds from sales of non-core assets, and the availability of equity and debt financing to fund its operations and planned capital expenditure. This significant level of indebtedness and reliance on borrowings could adversely affect Magnum Hunter's financial condition and ability to operate its business.⁹
- **(Pending SEC investigations)** Magnum Hunter is currently subject to pending U.S. Securities and Exchange Commission (**SEC**) investigation. As stated in Section 6 "Risk factors" of the Magnum Hunter Bidder's Statement (page 25), "*on 26 April 2013, Magnum Hunter was advised by the staff of the SEC Enforcement Division that the SEC had commenced an inquiry into matters disclosed in certain of Magnum Hunter's SEC filings and press releases, as well as the sufficiency of Magnum Hunter's internal controls and its decisions to change auditors from Hein & Associates LLP to PricewaterhouseCoopers LLP, and from PricewaterhouseCoopers LLP to BDO USA, LLP, among other matters.*"

Magnum Hunter has not provided any details relating to the circumstances as to why Hein & Associates LLP and PricewaterhouseCoopers LLP were removed as its auditors in the Magnum Hunter Bidder's Statement.

Magnum Hunter may incur significant professional fees and other costs in responding to the SEC investigation, and if enforcement action is determined, Magnum Hunter could be required to pay substantial civil penalties and fines. Magnum Hunter has failed to disclose the scope, timing and quantum of the penalties, fines or sanctions which may be imposed by the SEC. The SEC could also impose other sanctions against Magnum Hunter or its current and/or former directors and officers. Any of these events

⁸ Section 6 "Risk factors" of the Magnum Hunter Bidder's Statement, page 25.

⁹ Section 6 "Risk factors" of the Magnum Hunter Bidder's Statement, page 25.

could have a material adverse effect on the business of Magnum Hunter, its financial condition, results of operations or cash flows.¹⁰

The Ambassador Directors consider the pending SEC investigation material and may raise questions surrounding the adequacy of Magnum Hunter's regulatory disclosure requirements, internal and financial controls and general business operations.

- **(Subject to class actions and other litigation)** The Magnum Hunter Bidder's Statement disclosed details of material litigation which Magnum Hunter is currently the subject of as at the date of the Magnum Hunter Bidder's Statement. On 23 June 2014,¹¹ Magnum Hunter was successful in dismissing five of the separate securities class action and shareholder derivative lawsuits filed in four different judicial courts without any monies paid to any plaintiffs or their respective legal counsel. Magnum Hunter states that the plaintiffs in the consolidated securities class action lawsuit can appeal the decision to the U.S. Court of Appeals for the Second Circuit. Magnum Hunter states that it is currently working to obtain dismissal of the last remaining shareholder derivative lawsuit. The material litigation related to several shareholder class action complaints and putative shareholder derivative complaints, some of which relate to the SEC investigation referred to above.

In relation to the remaining shareholder derivative lawsuit, Magnum Hunter has failed to provide details on the timing for the case to be heard, Magnum Hunter's position on the claim or the scope, timing or quantum of the claim. These details may be highly material for Ambassador Shareholders.

Magnum Hunter also notes that it has received demand letters from several shareholders seeking books and records relating to the allegations in relation to the material litigation which Magnum Hunter is currently the subject of. It is possible that additional similar legal proceedings may be filed against Magnum Hunter and that similar shareholder demands could be made. Further details of these material litigation disclosed by Magnum Hunter are set out in Section 16.3 "Material Litigation" of the Magnum Hunter Bidder's Statement (pages 99 to 101).

Further details of the above risks, and other relevant risks, are set out in Section 6 "Risk factors" of the Magnum Hunter Bidder's Statement (page 25).

Ambassador was not provided access to due diligence on Magnum Hunter (other than Magnum Hunter's latest statutory accounts and several independent broker reports in relation to Magnum Hunter) and therefore does not have any information which a reasonable person would expect to have a material effect on the price or value of Magnum Hunter securities, its business, operations or any other information that may be material to a decision by an Ambassador Shareholder whether or not to accept the Magnum Hunter Offer.

Reason 4 above outlines the risks and uncertainties in relation to the Magnum Hunter Sale Facility.

¹¹ Magnum Hunter's press release dated 24 June 2014 "*Magnum Hunter Resources Announces Dismissal of Consolidated Securities Class Action Lawsuit in the United States District Court for the Southern District of New York.*"

Reason 6 to accept the Drillsearch Offer:

There may be a greater likelihood of receiving scrip-for-scrip capital gains tax rollover relief if you accept the Drillsearch Offer (in which acceptance of the Drillsearch Offer has a greater likelihood of receiving such relief than if you accept the Magnum Hunter Offer).

A general outline of the Australian tax implications of accepting the Drillsearch Offer is set out in Section 9 of the Drillsearch Bidder's Statement and Section 5 of the Supplementary Drillsearch Bidder's Statement applicable to the cash component of the Drillsearch Offer Consideration. That general outline contains information regarding the availability of scrip-for-scrip capital gains tax rollover relief.

Generally speaking, scrip-for-scrip rollover relief enables a shareholder to elect to defer a capital gain made on the disposal of a share as part of a corporate takeover or merger, if the shareholder receives a replacement share in exchange. However, one of the key requirements to be entitled to scrip-for-scrip rollover relief is that as a result of a corporate takeover or merger, the bidder (and its wholly owned subsidiaries) acquires at least 80% of the voting shares in Ambassador.

As at 27 June 2014, being the last practical trading day prior to the date of this Target's Statement, Drillsearch (with its Associates) has a Relevant Interest in approximately 52.66% of the voting shares in Ambassador.¹² Accordingly, there is a greater likelihood that scrip-for scrip capital gains tax rollover relief would be available to Ambassador Shareholders who accept the Drillsearch Offer (only in respect of the scrip component of the Drillsearch Offer Consideration, and not the cash component).

Scrip-for-scrip rollover relief would only be available under the Magnum Hunter Offer if Drillsearch also accepted into the Magnum Hunter Offer (in order for Magnum Hunter to acquire at least 80% of the voting shares in Ambassador).

If Ambassador Shareholders accept the Magnum Hunter Offer and receive Magnum Hunter common stock and scrip-for-scrip capital gains tax rollover relief is **not** available, Ambassador Shareholders may have capital gains tax liability. If so, Ambassador Shareholders would need to fund that capital gains tax liability.

Since the outline of the Australian taxation implications in the Drillsearch Bidder's Statement and Supplementary Drillsearch Bidder's Statement is general in nature only, you are advised to seek your own specific professional advice as to the taxation implications applicable to your circumstances.

Ambassador Shareholders who are considering accepting the Magnum Hunter Offer should also seek specific independent professional advice as to the Australian and United States taxation implications.

¹² As at 27 June 2014, being the last practical trading day prior to the date of this Target's Statement. Based on Drillsearch's ASIC Form 604 Notice of change of interests of substantial holder dated 17 June 2014. On 18 June 2014, Magnum Hunter submitted an application to the Takeovers Panel seeking a declaration of unacceptable circumstances in relation to the affairs of Ambassador. Magnum Hunter has sought orders to the effect that Drillsearch must divest of its 19.9% pre-bid shareholding in Ambassador and allow any Ambassador Shareholder who has already accepted the Drillsearch Offer the right to withdraw that acceptance. The Takeovers Panel may grant such orders with the effect that Drillsearch's shareholding in Ambassador would be less than stated above.

2.4 Reasons why you may wish to accept the Magnum Hunter Offer

-
1. The Magnum Hunter Offer represents a significant premium to the closing price of Ambassador Shares of \$0.195 on 23 May 2014, being the trading day prior to Ambassador entering into a trading halt pending announcement of Drillsearch's original offer on 28 May 2014.

 2. As at 27 June 2014, being the last practical trading day prior to the date of this Target's Statement, the implied value of the Magnum Hunter Offer represents a 13.63% premium over the implied value of the Drillsearch Offer.

 3. You may prefer an investment in a larger NYSE listed entity with:
 - (i) extensive experience in the unconventional oil and gas industry; and
 - (ii) large interests in shale resource basins in the United States in respect of which Magnum Hunter intends to invest significant capital in exploration and development activities.

 4. You may prefer an investment in a NYSE listed entity that historically has had good trading volume and liquidity.

 5. You may prefer an investment in a NYSE listed entity which provides geological, geographical and exchange rate diversity.
-

However, the Ambassador Directors note that there are certain risks in becoming a shareholder of Magnum Hunter. Some of these risks are described by the Ambassador Directors in Section 2.3 of this Target's Statement, "**Reason 6 to accept the Drillsearch Offer: The risk profile of holding Magnum Hunter common stock may be unacceptable for your investment circumstances.**" Further details of the risks of accepting the Magnum Hunter Offer are set out in Section 6 "Risks factors" in the Magnum Hunter Bidder's Statement.

Reason 1 to accept the Magnum Hunter Offer:

The Magnum Hunter Offer represents a significant premium to the closing price of Ambassador Shares of \$0.195 on 23 May 2014, being the trading day prior to Ambassador entering into a trading halt pending announcement of Drillsearch's original offer on 28 May 2014.

The consideration offered under the Magnum Hunter Offer is 1 Magnum Hunter common stock for every 23.6 of your Ambassador Shares.

The Magnum Hunter Offer implies a value of \$0.374 per Ambassador Share based on Magnum Hunter's closing share price of USD\$8.31 on 27 June 2014, being the last practicable trading day prior to the date of this Target's Statement. Specifically, the implied value of the Magnum Hunter Offer of \$0.374 per Ambassador Share represents a substantial premium of 91.55% to the closing price of Ambassador Shares of \$0.195 on 23 May 2014, the trading day prior to Ambassador entering into a trading halt pending announcement of the Drillsearch's original offer on 28 May 2014.

Your Ambassador Directors believe that the Magnum Hunter Offer provides Ambassador Shareholders with a compelling premium to the pre-bid Ambassador Share prices.

Your Ambassador Directors also note that the 91.55% premium of the Magnum Hunter Offer will change as a result of market movements in the Magnum Hunter share price and foreign currency exchange movements.

Reason 2 to accept the Magnum Hunter Offer:

As at 27 June 2014, being the last practical trading day prior to the date of this Target's Statement, the implied value of the Magnum Hunter Offer represents a premium over the implied value of the Drillsearch Offer.

As at 27 June 2014, being the last practicable trading day prior to the date of this Target's Statement, the implied value of the Magnum Hunter Offer was \$0.374 per Ambassador Share, compared to the implied value of the Drillsearch Offer of \$0.329 per Ambassador Share.

Accordingly, as at 27 June 2014, being the last practicable trading day prior to the date of this Target's Statement, the Magnum Hunter Offer represents a 13.63% premium over the implied value of the Drillsearch Offer.

However, your Ambassador Directors notes that the 13.63% premium of the Magnum Hunter Offer over the Drillsearch Offer will change as a result of market movements in the Magnum Hunter and Drillsearch share prices and in the case of the Magnum Hunter Offer, the implied value is also subject to foreign exchange currency movements.

In addition, the uncertainties in relation to the sale of Magnum Hunter common stock pursuant to the Magnum Hunter Sale Facility is also likely to materially impact the difference in premium between the Magnum Hunter Offer and the Drillsearch Offer.

Reason 3 to accept the Magnum Hunter Offer:

You may prefer an investment in a larger NYSE listed entity with:

- (i) extensive experience in the unconventional oil and gas industry; and**
- (ii) large interests in shale resource basins in the United States in respect of which Magnum Hunter intends to invest significant capital in exploration and development activities.**

Magnum Hunter is a larger entity than Drillsearch. Magnum Hunter is a NYSE listed oil and gas company engaged in the exploration for and the exploitation, acquisition and development and production of crude oil, natural gas and natural gas liquids resources in the United States. Magnum Hunter has stated that, as at close of trading on 18 June 2014, it had a market capitalisation of approximately AUD\$1.7 billion.

Exposure to Magnum Hunter's business

Magnum Hunter is presently active in three unconventional shale resource plays in the United States, specifically:

- the Marcellus Shale in West Virginia and Ohio;
- the Utica Shale in south-eastern Ohio and western West Virginia, and
- the Williston Basin/Bakken Shale in North Dakota.

Magnum Hunter is a participant in three prospective and active unconventional shale plays in the US. The United States business environment in the oil and gas industry is characterised by a diversity of supply of technical expertise, equipment and materials. This generally results in efficient well drilling and construction and a ready availability of those services reducing lead times for such operations.

The United States also has an extensive product processing and transportation network, or infrastructure, to allow the export of oil, gas and gas liquids to market minimising the delay in monetising an economic hydrocarbon resource.

An attractive resource, an active work program, lower costs and faster access to markets can be significant value drivers in the oil and gas business which Magnum Hunter operates in.

Magnum Hunter is also a major shareholder (holding approximately 17% of the issued shares) in New Standard Energy Limited (ASX Code: NSE), the joint venture partner of Ambassador in PEL 570.

Magnum Hunter has extensive experience in the unconventional oil and gas industry

Magnum Hunter has substantial unconventional onshore shale oil and gas experience having been a pioneer in some of the largest shale plays in the United States during recent years. Magnum Hunter strives to use state of the art drilling, completion and production technologies, including certain completion techniques that Magnum Hunter has developed and continues to refine, allowing Magnum Hunter the opportunity for cost effective drilling, completion and production success.

In the past five years Magnum Hunter has monetised a significant holding in the Eagleford shale in south Texas for cash and non-cash consideration of US\$401 million after applying its expertise to developing those properties.

Magnum Hunter has indicated that it considers Ambassador's PEL 570 highly prospective for hydrocarbon resources and is looking to apply some or all of its advanced drilling, completion and productions technologies at its disposal.

Further details regarding Magnum Hunter and its operations are set out in the Magnum Hunter Bidder's Statement, specifically Section 7 "Magnum Hunter and Outback Shale Hunter".

However, Ambassador Shareholders should also be aware that holding NYSE listed common stock will be different to holding shares in an Australian ASX listed entity. The holding and trading of Magnum Hunter common stock may be subject to additional administrative requirements, exposure to foreign exchange risk, subject to unfamiliar US securities law, a different regulatory regime and potentially a different and unfamiliar US tax system. There may also be difficulties in monitoring the financial performance of Magnum Hunter, as regulatory financial information would be presented on a United States GAAP basis, which may be unfamiliar to most Australian resident investors.

Reason 4 to accept the Magnum Hunter Offer:

You may prefer an investment in a NYSE listed entity that historically has had good trading volume and liquidity.

Ambassador Shareholders who accept the Magnum Hunter Offer will receive shares that have historically traded at significantly higher daily volumes than Drillsearch. As outlined in Section 5.5 of the Magnum Hunter Bidder's Statement, the average

trading daily volume of Magnum Hunter common stock on the NYSE has been approximately 4.1 million shares for the 2014 year to date. This volume of trading, if continued, should provide ample opportunity for the sale of Magnum Hunter common stock, provided however, they are not “restricted securities”.

Ambassador Shareholders should also be aware that holding NYSE listed Magnum Hunter common stock will be different to holding shares in an Australian ASX listed entity. The holding and trading of Magnum Hunter common stock may be subject to additional administrative requirements, exposure to foreign exchange risk, subject to unfamiliar US securities law, a different regulatory regime and potentially a different and unfamiliar US tax system. There may also be difficulties in monitoring the financial performance of Magnum Hunter, as regulatory financial information would be presented on a United States GAAP basis, which may be unfamiliar to most Australian resident investors.

Reason 5 to accept the Magnum Hunter Offer:

You may prefer an investment in a NYSE listed entity which provides geological, geographical and exchange rate diversity.

Ambassador Shareholders who accept the Magnum Hunter Offer will obtain an investment with exposure to a number of geological oil and gas formations which are located in the United States and also have exposure to the large United States oil and gas market. This exposure may be preferable to some Ambassador Shareholders who are seeking an element of diversification in their investment portfolio. In addition, the Magnum Hunter Offer would also still have an interest in Ambassador’s 47.5% of PEL 570 in the Cooper Basin, the precise quantum of that interest would be dependent on the percentage of shareholding in Ambassador that Magnum Hunter acquires as a result of the Magnum Hunter Offer.

However, Ambassador Shareholders should also be aware that holding NYSE listed common stock will be different to holding shares in an Australian ASX listed entity. The holding and trading of Magnum Hunter common stock may be subject to additional administrative requirements, exposure to foreign exchange risk, subject to unfamiliar US securities law, a different regulatory regime and potentially a different and unfamiliar US tax system. There may also be difficulties in monitoring the financial performance of Magnum Hunter, as regulatory financial information would be presented on a United States GAAP basis, which may be unfamiliar to most Australian resident investors

2.5 Other relevant considerations

The Ambassador Directors also encourage you to take into account the following additional considerations in deciding whether to accept the Drillsearch Offer, the Magnum Hunter Offer, or none at all.

-
1. You may wish to sell your Ambassador Shares on-market on the ASX and not accept the Drillsearch Offer or the Magnum Hunter Offer.

 2. There is a risk that liquidity in Ambassador Shares may be reduced if Drillsearch Bidco or Magnum Hunter Bidco is unable to proceed to compulsory acquisition.

 3. You may consider there is the potential for a superior proposal to be made in relation to Ambassador in the foreseeable future.

 4. The Ambassador Share price is likely to fall, at least in the short term, if you do not accept the Drillsearch Offer or the Magnum Hunter Offer and the respective Offer Periods have closed, in the absence of a superior proposal.
-

Other Relevant Considerations 1:

You may wish to sell your Ambassador Shares on-market on the ASX and not accept the Drillsearch Offer or the Magnum Hunter Offer.

You can sell your Ambassador Shares on-market if you have not accepted the Drillsearch Offer or the Magnum Hunter Offer.

The latest price of Ambassador Shares may be obtained from the ASX website at www.asx.com.au (ASX code: AQO).

Ambassador Shareholders who sell their Ambassador Shares on-market:

- (a) will lose the opportunity to receive any future benefits from being a shareholder in Ambassador; and
- (b) may incur a brokerage charge; and
- (c) will lose the opportunity to participate in the benefits of any potential higher offer from Drillsearch Bidco, Magnum Hunter Bidco or under any other competing proposal, if such a higher offer or competing proposal eventuates.

Other Relevant Considerations 2:

There is a risk that liquidity in Ambassador Shares may be reduced if Drillsearch Bidco or Magnum Hunter Bidco is unable to proceed to compulsory acquisition.

Both Drillsearch and Magnum Hunter have declared their respective offers unconditional. There is a possibility that if Drillsearch Bidco or Magnum Hunter Bidco has not received sufficient acceptances to be able to proceed to compulsory acquisition, that Ambassador will remain a publicly traded company but with reduced liquidity for ongoing shareholders. Ordinarily, this scenario would arise if Drillsearch

Bidco or Magnum Hunter Bidco (together with its other Associates) does not have, during or at the end of the offer period, a Relevant Interest in at least 90% (by number) of Ambassador Shares. This decreased liquidity and no takeover offer for Ambassador after the Drillsearch Offer and Magnum Hunter Offer has closed may adversely affect the Ambassador Share price.

Other Relevant Considerations 3:

You may consider there is the potential for a superior proposal to be made in relation to Ambassador in the foreseeable future.

You may believe that there is a possibility that a superior proposal could emerge in the foreseeable future, either in the form of an increased offer from Drillsearch or Magnum Hunter, or another party.

If you accept the Drillsearch Offer or the Magnum Hunter Offer or sell your Ambassador Shares on-market, you will lose the opportunity to participate in the benefits of any potential higher offer from Drillsearch Bidco, Magnum Hunter Bidco or under any other competing proposal, if such a higher offer or competing proposal eventuates.

However, if you accept or have already accepted the Drillsearch Offer, and Drillsearch subsequently increases the consideration offered under the Drillsearch Offer, you will also receive the increased price for your Ambassador Shares.

This will also apply if you if you accept the Magnum Hunter Offer, and Magnum Hunter Bidco subsequently increase the consideration offered under the Magnum Hunter Offer.

Other Relevant Considerations 4:

The Ambassador Share price is likely to fall, at least in the short term, if you do not accept the Drillsearch Offer or the Magnum Hunter Offer and the respective Offer Periods have closed, in the absence of a superior proposal.

There are many factors that affect the Ambassador Share price. However the Ambassador Directors consider that in the absence of the Drillsearch Offer or the Magnum Hunter Offer or an alternative proposal, or speculation regarding an alternative proposal, the Ambassador Share price may fall below current levels, at least in the short term.

If you decide to accept the Drillsearch Offer, your acceptance must be received before the close of the Drillsearch Offer Period (currently scheduled to be 7:00pm (Sydney time) on 14 July 2014, unless extended in accordance with the Corporations Act).

Sections 11.7(b) and 11.7(c) of the Drillsearch Bidder's Statement refer, among other things, to the different Acceptance Forms (enclosed in the Drillsearch Bidder's Statement) for use to accept the Drillsearch Offer depending on the nature of your Ambassador shareholding. You can only accept the Drillsearch Offer during the Drillsearch Offer Period for all of your Ambassador Shares. You will be taken to have accepted the Drillsearch Offer for all your Ambassador Shares plus any additional Ambassador Shares held by you at the date your acceptance is processed (despite any difference between that number and the number of Ambassador Shares specified when you accept the Drillsearch Offer).

You should read this Target's Statement, the Drillsearch Bidder's Statement and the Supplementary Drillsearch Bidder's Statement in their entirety before making a decision on whether to accept the Drillsearch Offer.

If you have misplaced or have not received your Acceptance Form, please contact the Drillsearch Offer Information Line on 1300 365 790 (toll-free within Australia) or +61 1300 365 790 (from outside of Australia) between 8:30am and 5:30pm Monday to Friday (Sydney time), to request another acceptance form.

On 18 June 2014, Magnum Hunter submitted an application to the Takeovers Panel seeking a declaration of unacceptable circumstances in relation to the affairs of Ambassador. Magnum Hunter has sought orders to the effect that Drillsearch must divest of its 19.9% pre-bid shareholding in Ambassador and allow any Ambassador Shareholder who has already accepted the Drillsearch Offer the right to withdraw that acceptance. The Takeovers Panel may grant such orders with the effect that Drillsearch's shareholding in Ambassador would be less than stated above.

- further order of the Takeovers Panel;
- the determination of the proceedings before the Takeovers Panel; and
- 2 months from the date of the interim order.

Accordingly, accepting Ambassador Shareholders will not receive the Drillsearch Offer Consideration or the Magnum Hunter Offer Consideration whilst the respective interim orders remains in effect.

If you become entitled to a fraction of a Drillsearch Share under the Drillsearch Offer, the number of Drillsearch Shares you are entitled to will be rounded up to the nearest whole number.

If Drillsearch Bidco reasonably believes that your holding has been created or manipulated to take advantage of round up then any fractional element will be aggregated or rounded down to the lowest whole number of Drillsearch Shares.

7.5 Offer Period

The Drillsearch Offer is currently scheduled to close at 7:00pm (Sydney time) on 14 July 2014, unless extended or withdrawn.

Drillsearch Bidco may extend the Drillsearch Offer Period at any time before the end of the Drillsearch Offer Period (but the Drillsearch Offer Period must not in any event exceed 12 months).

In addition, there would be an automatic extension of the Drillsearch Offer Period if, within the last 7 days of the Drillsearch Offer Period:

- Drillsearch Bidco improves the consideration offered under the Drillsearch Offer;
- the consideration offered under the Drillsearch Offer is taken to be increased under section 651A(2) of the Corporations Act because Drillsearch Bidco purchases Ambassador Shares outside the takeover bid constituted by the Drillsearch Offers for a cash price; or
- Drillsearch Bidco's voting power in Ambassador increases to more than 50%,

in which case the Drillsearch Offer Period would be automatically extended so that it would end 14 days after the relevant event occurs.

Please see Section 11.6 of the Drillsearch Bidder's Statement for further information.

7.6 Conditions of the Drillsearch Offer

On 16 June 2014, Drillsearch Bidco declared the Drillsearch Offer unconditional. This means the Drillsearch Offer will proceed and will not be subject to any conditions.

However, on 20 June and 23 June 2014, the Takeovers Panel announced that it had made interim orders with the effect that Drillsearch Bidco and Magnum Hunter Bidco respectively must not take any further steps to process any acceptances received in relation to the each of their Offers. These interim orders have effect until the earliest of:

- further order of the Takeovers Panel;
- the determination of the proceedings before the Takeovers Panel; and
- 2 months from the date of the interim order.

Accordingly, accepting Ambassador Shareholders will not receive the Drillsearch Offer Consideration or the Magnum Hunter Offer Consideration whilst the respective interim orders remains in effect.

7.7 Effect of acceptance

On 16 June 2014, Drillsearch Bidco declared the Drillsearch Offer unconditional. Accordingly, if you accept the Drillsearch Offer, you will give up your right to sell your Ambassador Shares on-market or accept any competing proposal for Ambassador.

You should ensure that, if you do wish to accept the Drillsearch Offer, you allow sufficient time for your acceptance to be processed before the end of the Drillsearch Offer Period. Please refer to section 2 and 11.7 of the Drillsearch Bidder's Statement and Section 4 of this Target's Statement for further information.

Other consequences of accepting the Drillsearch Offer are set out in Section 6 of the Supplementary Drillsearch Bidder's Statement and Sections 11.9 and 11.10 of the Drillsearch Bidder's Statement. You are encouraged to read those sections in full. In particular, you should note that by accepting the Drillsearch Offer you will:

- be deemed to give Drillsearch Bidco certain representations and warranties regarding your title to your Ambassador Shares;
- appoint Drillsearch Bidco and its directors and nominees, severally, as your agent and attorney to exercise, in the interests of Drillsearch Bidco, your rights in relation to your Ambassador Shares (including voting rights); and
- agree not to attend or vote in person at any general meeting of Ambassador.

7.8 Your inability to withdraw your acceptance

On 16 June 2014, Drillsearch declared the Drillsearch Offer unconditional, and on 17 June 2014, Magnum Hunter also declared the Magnum Hunter Offer unconditional. Accordingly, if you accept the Drillsearch Offer or the Magnum Hunter Offer, you will not be able to withdraw your acceptance.

7.9 When will you receive your consideration if you accept the Drillsearch Offer?

On 16 June 2014, Drillsearch announced accelerated payment terms for Ambassador Shareholders who accept the Drillsearch Offer. If you accept the Drillsearch Offer, Drillsearch Bidco will provide the Drillsearch Offer Consideration (Drillsearch Shares and the cash component) within 10 Business Days of receipt of your valid acceptance.

However, on 20 June and 23 June 2014, the Takeovers Panel announced that it had made interim orders with the effect that Drillsearch Bidco and Magnum Hunter Bidco respectively must not take any further steps to process any acceptances received in relation to the each of their Offers. These interim orders have effect until the earliest of:

- further order of the Takeovers Panel;
- the determination of the proceedings before the Takeovers Panel; and
- 2 months from the date of the interim order.

Accordingly, accepting Ambassador Shareholders will not receive the Drillsearch Offer Consideration or the Magnum Hunter Offer Consideration whilst the respective interim orders remains in effect.

Please also see Section 6 of the Supplementary Drillsearch Bidder's Statement.

Payment of the consideration offered under the Drillsearch Offer in the form of Drillsearch Shares may be delayed if you do not provide with your acceptance any additional documents which are required under the terms of the Drillsearch Offer. Please refer to Section 11.19 of the Drillsearch Bidder's Statement for further details.

As stated in Section 11.19 of the Drillsearch Bidder's Statement, subject to the Corporations Act, Drillsearch Bidco will send a confirmation of issue (for CHES Holdings) or an uncertified holding statement in your name (for Issuer Sponsored Holdings) for the Drillsearch Shares due to you by pre-paid ordinary mail, or in the case of an address outside Australia by airmail, to the address shown in Ambassador's register of members on the Register Date

7.10 Effect of an improvement in the Drillsearch Offer Consideration

As required by the Corporations Act, if Drillsearch Bidco improves the consideration offered under the Drillsearch Offer, all Ambassador Shareholders who accept the Drillsearch Offer, whether or not they have accepted the Drillsearch Offer before or after the improvement in consideration, will be entitled to the benefit of that improved consideration.

On 16 June 2014, Drillsearch announced it has increased the consideration under the Drillsearch Offer of 1 Drillsearch Share for every 5.4 Ambassador Shares to now include 5 cents cash for every Ambassador Share.

All Ambassador Shareholders who have already accepted the First Drillsearch Offer (as set out in the Drillsearch Bidder's Statement) will be entitled to receive the increased offer consideration, being an additional 5 cents cash for every Ambassador Share held.

7.11 Foreign Shareholders

If an Ambassador Shareholder is (or is acting on behalf of) a resident of a jurisdiction other than Australia, its external territories or New Zealand, or the address shown in the Ambassador Register is a place outside Australia, its external territories or New Zealand, or an Ambassador Shareholder is acting on behalf of such a person, then they are considered a **Foreign Shareholder**.

In respect of a Foreign Shareholder, unless Drillsearch Bidco otherwise determines that:

- it is lawful and not unduly onerous or impracticable to make the Drillsearch Offer to you and issue you with Drillsearch Shares on acceptance of the Drillsearch Offer; and
- it is not unlawful for you to accept the Drillsearch Offer by the law of the relevant place outside Australia, its external territories or New Zealand,

then you are an **Ineligible Foreign Shareholder**, and you will not be entitled to receive Drillsearch Shares as consideration for you Ambassador Shares.

Instead, the relevant Drillsearch Shares (which would otherwise be transferred to Foreign Shareholders) will be allotted to a nominee (the appointment of a nominee may require approval by ASIC) who will sell the Drillsearch Shares and will distribute to each of those Foreign Shareholders their proportion of the proceeds of sale net of expenses.

See Section 10.8 of the Drillsearch Bidder's Statement for further information.

7.12 Unmarketable Parcels of Drillsearch Shares

If the total number of Drillsearch Shares you are entitled to receive as consideration offered under the Drillsearch Offer is an Unmarketable Parcel and you do not sign and return the Acceptance Form and state clearly on it you wish to be the holder of an Unmarketable Parcel, you are offered and will receive a cash amount for your Ambassador Shares calculated under Section 11.22 of the Drillsearch Bidder's Statement as if you were an Ineligible Foreign Shareholder. Please also see Section 11.23 of the Drillsearch Bidder's Statement for further information regarding Unmarketable Parcels of Drillsearch Shares.

7.13 Taxation implications of the Drillsearch Offer

The taxation consequences of accepting the Drillsearch Offer depend on a number of factors and will vary depending on your particular circumstances. A general outline of the Australian taxation considerations of accepting the Drillsearch Offer are set out in Section 9 of the Drillsearch Bidder's Statement and Section 5 of the Supplementary Drillsearch Bidder's Statement applicable to the cash component of the Drillsearch Offer Consideration. That general outline has been prepared by Drillsearch.

You should carefully read and consider the taxation consequences of accepting the Drillsearch Offer. The outline provided in the Drillsearch Bidder's Statement and the Supplementary Drillsearch Bidder's Statement is of a general nature only and you should seek your own professional advice as to the taxation implications applicable to your circumstances.

7.14 Drillsearch Bidco's intentions with respect to the Drillsearch Offer and Ambassador

Drillsearch Bidco has indicated its intentions in relation to the Drillsearch Offer and the business of Ambassador generally in Section 6 of the Drillsearch Bidder's Statement, including:

- intentions upon acquiring 90% or more of Ambassador Shares;
- intentions for Ambassador as a wholly owned subsidiary of the Drillsearch Group;
- intentions for Ambassador upon acquiring more than 50.1% but less than 90% of Ambassador Shares;
- Intentions for Drillsearch Bidco upon acquiring less than 50.1% of Ambassador Shares; and
- other intentions with respect to the business of Ambassador generally.

While Section 6 of the Drillsearch Bidder's Statement sets out Drillsearch Bidco's intentions for Ambassador in certain circumstances, those intentions are expressed to be subject to a review of the operations, assets, strategy, structure and employees of Ambassador. This review is to be undertaken by Drillsearch Bidco during the Drillsearch Offer Period and following the close of the Drillsearch Offer, and Drillsearch Bidco's intentions for Ambassador may therefore change, potentially resulting in changes to Ambassador and its strategy and activities.

7.15 Compulsory acquisition

Drillsearch Bidco has stated in section 6.2 of the Drillsearch Bidder's Statement that it intends to compulsorily acquire all remaining Ambassador Shares if Drillsearch Bidco (with its Associates) have a Relevant Interest in at least 90% (by number) of Drillsearch Shares during or at the end of the Drillsearch Offer Period. As at the date immediately prior to this Target's Statement, Drillsearch Bidco (with its Associates)

have a Relevant Interest in at approximately 52.66% of the voting shares in Ambassador.¹⁵

If compulsory acquisition occurs, Ambassador will become wholly owned by the Drillsearch Group.

(a) Compulsory acquisition following the takeover bid

Drillsearch Bidco will be entitled, under Part 6A.1 of the Corporations Act, to compulsorily acquire any Ambassador Shares in respect of which it has not received an acceptance under the Drillsearch Offer if, during or at the end of the Drillsearch Offer Period, Drillsearch Bidco (together with its Associates) has a Relevant Interest in at least 90% (by number) of Ambassador Shares. Compulsory acquisition must occur on the same terms as the Drillsearch Offer, including as to the amount of consideration to be paid per Ambassador Share.

If this threshold is met, Drillsearch Bidco will have up to one month after the end of the Drillsearch Offer Period within which to give compulsory acquisition notices to all Ambassador Shareholders who have not accepted the Drillsearch Offer, but it may choose to commence compulsory acquisition sooner if the threshold is satisfied at an earlier date. Ambassador Shareholders have certain statutory rights to challenge the compulsory acquisition. However, a successful challenge will require the relevant holder to establish to the satisfaction of a court that the consideration offered does not represent “fair value” for their Ambassador Shares.

If compulsory acquisition occurs, Ambassador Shareholders who have their Ambassador Shares compulsorily acquired should be aware that they are not likely to receive payment until at least one month after the compulsory acquisition notice is issued to them by Drillsearch Bidco.

If Drillsearch Bidco (with its Associates) has a Relevant Interest in at least 90% (by number) of Ambassador Shares at the end of the Drillsearch Offer Period, Drillsearch Bidco must offer to buy out the remaining Ambassador Shareholders on the same terms as the Drillsearch Offer, even if, contrary to its stated intention, Drillsearch Bidco does not seek to compulsorily acquire all remaining Ambassador Shares. If you do not accept the Drillsearch Offer and Drillsearch Bidco is required to offer to buy out your remaining Ambassador Shareholders, Drillsearch Bidco will send you a notice informing you of your right to be bought out. You may accept that offer within one month of Drillsearch Bidco giving you the notice by notifying Drillsearch Bidco in writing that you wish to have your Ambassador Shares bought out.

(b) Later compulsory acquisition

Even if Drillsearch Bidco does not satisfy the compulsory acquisition threshold by the end of the Drillsearch Offer Period, it is possible that Drillsearch Bidco may, at some time after the end of the Drillsearch Offer Period, become entitled to rely on the general compulsory acquisition provisions of Part 6A.2 of the Corporations Act.

¹⁵ As at 27 June 2014, being the last practical trading day prior to the date of this Target's Statement. On 18 June 2014, Magnum Hunter submitted an application to the Takeovers Panel seeking a declaration of unacceptable circumstances in relation to the affairs of Ambassador. Magnum Hunter has sought orders to the effect that Drillsearch must divest of its 19.9% pre-bid shareholding in Ambassador and allow any Ambassador Shareholder who has already accepted the Drillsearch Offer the right to withdraw that acceptance. The Takeovers Panel may grant such orders with the effect that Drillsearch's shareholding in Ambassador would be less than stated above.

Under these provisions, Drillsearch Bidco will become entitled to compulsorily acquire any outstanding Ambassador Shares if Drillsearch Bidco (together with its Related Bodies Corporate) acquires full beneficial interest in at least 90% (by number) of Ambassador Shares.

In that event, compulsory acquisition will occur if (among other things):

- Drillsearch Bidco lodges a compulsory acquisition notice with ASIC within six months of satisfying the general compulsory acquisition threshold;
- Drillsearch Bidco proposes a cash sum for the Ambassador Shares to be compulsorily acquired; and
- Drillsearch Bidco obtains the report of an expert stating whether, in the expert's opinion, the terms proposed in the compulsory acquisition notice give a "fair value" for the Ambassador Shares to be compulsorily acquired.

In addition, Drillsearch Bidco will need to obtain the approval of a court for the compulsory acquisition in the event that Ambassador Shareholders holding at least 10% of those remaining Ambassador Shares object to the acquisition.

7.16 Minority ownership consequences

On 16 June 2014, Drillsearch Bidco declared the Drillsearch Offer unconditional. As at the date immediately prior to this Target's Statement, Drillsearch Bidco (with its Associates) have a Relevant Interest in at approximately 52.66% of the voting shares in Ambassador.¹⁶ If Drillsearch Bidco acquires more than 50.1% but less than 90% of the Ambassador Shares then the Drillsearch Group will acquire a majority shareholding in Ambassador. In that situation Ambassador Shareholders who do not accept the Drillsearch Offer will become minority shareholders in Ambassador. This has a number of possible implications, including:

- the Drillsearch Group will be in a position to cast the majority of votes at a general meeting of Ambassador. This will enable it to control the composition of the Board and senior management, determine Ambassador's dividend policy and control the strategic direction of the businesses of Ambassador and its subsidiaries;
- the Ambassador Share price may fall immediately following the end of the Drillsearch Offer Period and it is unlikely that the Ambassador Share price will contain any takeover premium;
- the liquidity of Ambassador Shares may be lower than at present;
- if the number of Ambassador Shareholders is less than that required by the ASX Listing Rules to maintain an ASX listing then Drillsearch may seek to have Ambassador removed from the official list of the ASX. If this occurs, Ambassador Shares will not be able to be bought or sold on the ASX;
- if the Drillsearch Group acquires 75% or more of the Ambassador Shares it will be able to ensure that the passing of special resolution of Ambassador at

general meetings. This will enable the Drillsearch Group to, among other things, change Ambassador's constitution; and

- transactions between the Drillsearch Group and Ambassador will not fall within the exceptions for closely held or wholly owned subsidiaries under the related party provisions of Chapter 2E of the Corporations Act and ASX Listing Rule 10.1.

7.17 Withdrawal of the Drillsearch Offer by Drillsearch Bidco

In accordance with Section 652B of the Corporations Act, the Drillsearch Offer may be withdrawn with the written consent of ASIC and subject to the conditions (if any) specified in such consent.

If Drillsearch Bidco withdraws the Drillsearch Offer, Ambassador Shareholders will no longer be able to accept the Drillsearch Offer.

7.18 Governing law

The Drillsearch Offer and any contract resulting from acceptance of it are governed by the law in force in New South Wales, Australia.

8 Information regarding Ambassador

8.1 Background

This Section 8 contains information in relation to Ambassador. Additional information about Ambassador is included in Section 10 of this Target's Statement.

Further information regarding Ambassador is also available in Ambassador's Annual Report for the financial year to 30 June 2013, its financial statements for the half-year to 31 December 2013 and its quarterly reports and cash flow statements, which are available on the ASX website at www.asx.com.au (ASX code: AQO).

8.2 Overview of Ambassador

Ambassador is an unconventional oil and gas exploration company, with assets in the United States and the Cooper Basin, Australia's premier onshore oil and gas basin.

PEL 570, in the South Australian portion of the Cooper Basin, has been independently assessed with estimates of potential gas in place of up to 20 trillion cubic feet contained in unconventional rock and coal seams have been recognised.

The PEL 570 permit is situated in the northern end of the gas prone Patchawarra trough which is characterised by low-CO₂ levels and higher liquids content, particularly in the northern regions of the basin. It covers approximately 2400 km², is close to infrastructure and remains a key target for unconventional gas exploitation.

In December 2013 Ambassador entered into an agreement to farm-out a 52.5% working interest in PEL 570 exploration to Outback Energy Hunter Pty Ltd, a wholly owned subsidiary of New Standard Energy Limited (ASX Code: NSE) for \$42.5 million in direct exploration expenditure. Magnum Hunter is currently the largest shareholder of New Standard Energy Limited, with approximately 17% of the issued shares in New Standard Energy.

As part of the farm-out deal, Magnum Hunter became involved with PEL 570 bringing with it expertise in the United States shale industry in the exploration for the high liquids content/low CO₂ gas targets anticipated to exist in the permit.

The Cooper Basin is linked to the Australian East coast gas market by an existing gas pipeline network providing Cooper Basin gas with direct access to Queensland liquefied natural gas projects near Gladstone and the wider Australian East coast gas market.

In the United States, Ambassador has acquired prospective oil and gas exploration leases in emerging, oil prone, resource plays in Colorado. Ambassador holds leases in the Denver Julesburg basin in Colorado totaling over 3,000 net acres. In March 2014 Ambassador exercised an option to acquire a further net 9,350 net acres in Colorado. Finalisation of the acquisition is subject to title verification which is expected to be completed in the short term. Furthermore, the agreement under which Ambassador acquired these exploration leases affords the vendor of those leases with the right to purchase them back in the event that a transaction announced prior to 30 June 2014 results in another party acquiring more than 50% of Ambassador's share capital. Ambassador considers the land the subject to the buy-back right to be a non-core asset and immaterial to the activities of Ambassador. Please refer to Section 8.4(b) of this Target's Statement for further details.

8.4 Material changes in financial position of Ambassador and other developments

(a) Half year results and quarterly reporting

On 5 March 2014, Ambassador released its results for the six month period ended 31 December 2013. A copy of Ambassador's results announcement and half year financial statements are available on the ASX's website at www.asx.com.au (ASX code: AQO).

On 28 April 2014, Ambassador released its Appendix 5B and Quarterly report for the quarter ended 31 March 2014. A copy of this appendix is available on the ASX's website at www.asx.com.au (ASX code: AQO).

(b) Other material matters

Corporate advisory agreement with ADC

By an agreement dated 27 March 2013, Ambassador engaged Australian Development Consortium Residential & Commercial Developers Pty Ltd (ACN 137 394 515) (**ADC**) as a corporate adviser to assist Ambassador with (among other things) investigating a potential change of control transaction in respect of Ambassador.

Under this agreement, if ADC has introduced a party to Ambassador and a change of control transaction with that party is completed in respect of Ambassador, or if ADC is involved in the negotiations and facilitation of that process, ADC is entitled to a success fee being the lesser of:

- 2.5% of the value of Ambassador calculated by the total number of ordinary shares outstanding (immediately before the change of control transaction is accepted) multiplied by the price per share for the purposes of the change of control transaction; and
- \$1 million.

ADC has assisted with the negotiations and overall facilitation of the Drillsearch Offer. Accordingly, ADC would be entitled to its success fee in accordance with its engagement with Ambassador.

Colorado land vendor buy-back right

As outlined above Ambassador holds leases in the Denver Julesburg basin in Colorado totaling over 3,000 net acres and in March 2014 Ambassador exercised an option to acquire a further net 9,350 net acres in Colorado.

Under the terms of that land acquisition agreement, the vendor of those leases has the right to purchase them back in the event that a transaction announced prior to 30 June 2014 results in another party acquiring more than 50% of Ambassador's share capital. The vendor of that land has a right to buy it back by giving notice to that effect within 30 days of the change of control occurring.

The funds spent in acquiring the Colorado land acreage totalled approximately \$1.2 million and at its current value is considered a non-core asset and immaterial to the activities of Ambassador. If Ambassador was not subject to a change in control transaction, it was Ambassador's intention to seek to expand its United States acreage position to a more meaningful position in line with its objective of introducing diversification into its asset base.

Except as disclosed above, there have been no material changes to the financial position of Ambassador since 31 December 2013.

8.5 Issued Ambassador Shares

As at the date of this Target's Statement, Ambassador had 142,058,491 fully paid ordinary shares on issue.

Ambassador does not anticipate that it will be required to issue any Ambassador Shares before 14 July 2014, being the last day of the Drillsearch Offer Period as currently scheduled. (The Drillsearch Offer Period may be extended or withdrawn in the circumstances described in Section 11.6 of the Drillsearch Bidder's Statement.)

8.6 Ambassador substantial shareholders

The Ambassador Shareholders with substantial holdings (within the meaning of the Corporations Act) as at close of trading on 27 June 2014, being the last practicable trading day prior to the date of this Target's Statement are as follows:

| Name | Number of Ambassador Shares | Relevant Interest in Ambassador Shares |
|---|------------------------------------|---|
| Drillsearch Bidco | 74,809,238 | 52.66% ¹⁷ |
| VBS Exchange Pty Ltd | 13,298,246 | 9.36% |
| Morgan Stanley Australia Securities (Nominee) Pty Ltd | 8,860,112 | 6.24% |

Ambassador has relied on substantial holder notices provided to it up to the date of this Target's Statement, which are available on the ASX website, and information provided by its share registry, to compile the above table.

8.7 Material litigation

As at the date of this Target's Statement, your Ambassador Directors are not aware and do not believe Ambassador is involved in any ongoing litigation which is material in the context of Ambassador and its subsidiaries taken as whole.

8.8 Risk factors affecting Ambassador's business

The risk factors in this Section 8.8 are existing risks relating to Ambassador's business and the industry in which it operates. Some of these risks will continue to be relevant to Ambassador Shareholders who do not accept the Drillsearch Offer and retain their current investment in Ambassador. The risks will also continue to be relevant to all Ambassador Shareholders if the Drillsearch Offer does not proceed (for example, because Drillsearch accepts into the Magnum Hunter Offer).

Section 8 of the Drillsearch Bidder's Statement describes some of the key risk factors affecting Drillsearch and the Merged Group, which would be relevant to Ambassador Shareholders who accept the Drillsearch Offer and become shareholders in Drillsearch.

This Section describes key, but not all, risks associated with an investment in Ambassador. This Section does not take into account the investment objectives, financial situation, taxation position or particular needs of Ambassador Shareholders and is not exhaustive and are relevant to Ambassador Shareholders as at the date of this Target's Statement. Prior to deciding whether to accept the Drillsearch Offer, Ambassador Shareholders should carefully consider the risk factors discussed in this Section 8.8, as well as other information contained in this Target's Statement and the Drillsearch Bidder's Statement and, if in doubt, seek independent professional advice.

In addition, if you do not accept the Drillsearch Offer during the Drillsearch Offer Period, you may end up being a minority shareholder in Ambassador. This Section should be read in conjunction with Section 7.16 of this Target's Statement, which describes some of the risks associated with being a minority shareholder in

¹⁷ On 18 June 2014, Magnum Hunter submitted an application to the Takeovers Panel seeking a declaration of unacceptable circumstances in relation to the affairs of Ambassador. Magnum Hunter has sought orders to the effect that Drillsearch must divest of its 19.9% pre-bid shareholding in Ambassador and allow any Ambassador Shareholder who has already accepted the Drillsearch Offer the right to withdraw that acceptance. The Takeovers Panel may grant such orders with the effect that Drillsearch's shareholding in Ambassador would be less than stated above.

Ambassador (in circumstances where Drillsearch Bidco does not become entitled to compulsorily acquire all remaining Ambassador Shares).

(a) General risk factors

As with any entity with listed securities on the ASX, the future prospects, operating and financial performance of Ambassador and the value of Ambassador Shares are affected by a variety of general business cycles, economic and political factors in Australia and overseas, including economic growth, inflation, interest rates, employment levels, changes in government policies or regulatory regimes, changes in accounting or financial reporting standards, and changes in taxation laws (or their interpretation) or regulations in the markets in which Ambassador operates. Deterioration of the general economic conditions, adverse foreign exchange rate movements, the Australian and overseas stock markets, natural disasters and catastrophic events may also affect Ambassador's operating and financial position.

(b) Specific risk factors

Specific risk factors for Ambassador include, but are not limited to, the following:

(i) Oil and gas price fluctuations

The price for oil and gas will depend upon available markets at acceptable prices and transmission and distribution costs. Any substantial decline in the prices of oil or gas or an increase in transmission or distribution costs could have a material adverse effect on Ambassador and the value of Ambassador Shares.

(ii) Reliance on successful exploration

The future profitability of Ambassador and the value of Ambassador Shares directly relates to the results of exploration. There are inherent risks in exploration activities. No assurances can be given that funds spent on exploration will result in discoveries that will eventually be viable.

(iii) Drilling

Drilling activities may be curtailed, delayed or cancelled as a result of weather conditions, mechanical difficulties, shortages or delays in the delivery of rigs and/or other equipment. Drilling may result in wells that, while encountering oil and gas, may not achieve economically viable results.

(iv) Operating

Industry operating risks include fire, explosions, blow outs, pipe failures, abnormally pressured formations and environmental hazards such as accidental spills or leakage of petroleum liquids, gas leaks, ruptures or discharge of toxic gases. The occurrence of any of these risks could result in legal proceedings being instituted against Ambassador and substantial losses to Ambassador due to injury or loss of life, damage to or destruction of property, natural resources or equipment, pollution or other environmental damage, clean up responsibilities, regulatory investigation and penalties or suspension of operations.

(v) Environmental risks

Oil and gas exploration, development and production can be potentially environmentally hazardous, giving rise to substantial costs for environmental rehabilitation, damage control and losses.

(vi) Commercialisation

If Ambassador recovers commercial quantities of oil or gas, there is no guarantee that Ambassador will be able to successfully transport the oil or gas to commercially viable markets or sell the oil or gas to customers to achieve a commercial return.

(vii) Insurance

Insurance of all risks associated with oil and gas exploration and production is not always available and, where available, the cost can be high. Ambassador will not be insured against all possible losses, whether because of the unavailability of cover or because the premiums may be excessive relative to the benefits that would accrue.

(viii) Native title and Aboriginal cultural heritage

The existence native title, registered native title claims and sacred Aboriginal sites or objects on land the subject of Ambassador's tenements is a potential risk and may result in increased legal and administrative costs, or a complete or partial prohibition on petroleum activities, which have a material adverse effect on Ambassador's profitability.

(ix) Regulatory risk

Ambassador will require government regulatory approvals for its operations and must comply with those approvals and other applicable laws, regulations and policies. This may from time to time affect timing and scope of work to be undertaken. Furthermore, changes to taxation rates or regimes designed to address climate change and greenhouse gas emissions, may have a material adverse effect on Ambassador's profitability.

(x) Reserves

Resource estimates are based on knowledge, experience and industry practice. Estimates are a necessary practice, and though valid when originally calculated, may change significantly and cease to be accurate when new information becomes available through additional fieldwork or analysis. Resource estimates are by their nature imprecise and to an extent depend on interpretation, which may result in inaccuracies.

(xi) Litigation

Ambassador may be the subject of complaints or litigation by customers, suppliers, government agencies or other third parties. Such matters may have an adverse effect on Ambassador's reputation, divert its financial and management resources from more beneficial uses, or have a material adverse effect on Ambassador's future financial performance or position.

(xii) Future funding

Substantial capital expenditure is required for oil and gas exploration. Ambassador may be unable to meet future capital requirements once current cash reserves are fully expended. In that event, Ambassador may be required to raise future additional capital. There are no guarantees that Ambassador will be able to raise additional capital on acceptable terms or at all. In the event such funds are not forthcoming Ambassador may seek to divest all or part of its interests or reduce its commitments.

8.9 Continuous disclosure
