THANET WAY

A299, Thanet Way, Kent: Work started on this road on Monday May 15th and there are now Daily Actions. About 13 unlawful arrests have occurred under the CJA. The Protest Camp was evicted but there are now 3 squats on route, camps & a 'Free State'. One of the squats is Kier Hochtief's - the Construction Company's intended site office! There was an action at Michael Howard's Surgery in Folkestone. **People and supplies are needed NOW before Bronze Age settlements and trees are trashed.** The Blue Route Action Group 01227 788031, 0378 693157 (mobile).

A30

It's all happening down at the A30 protest camp near Exeter. A camp consisting of benders, defences and a tree house village has been constructed at the Fairmile site and other camps along the route of the proposed road are being built. This place has to be seen to be believed! Around 250 people attended a Beltaine gathering at the beginning of May and areas of the route are now being reclaimed by tree planting and possibly a new pond to replace one that was destroyed. Get down there and check it out / learn tree climbing / help plant vegetables. The Fairmile Camp is off the A30, 8 miles east of Exeter - head up past the church to the camp and introduce yourself. Tel. 0385 278156/7 A new office is being set up. Equipment for the camp is needed.

POLLOK ESTATE

Local MP Alan Stewart appeared in court on the 23rd May and pleaded not guilty to assaulting road protesters. Makes a change doesn't it! The police have been operating an 'arrest on site' policy, 10 local people have been arrested recently, held over night and then released with outrageous bail conditions. The good news is that John Livingstone got out of prison on 28th April and Colin McLeod, founder of the Free State, was acquitted of assault charges when a security guard admitted that it was a stitch-up. The Scottish Defiance Alliance are holding an anti-CJA party on 3rd June, starting at 2pm at the bandstand in Kelvin Grove Park, live music, etc. Glasgow EF! are thinking of having a DIY conference this summer and would be interested to get some feedback on the idea. Also any spare office equipment would be handy for their new office. Contact Glasgow EF! 0141 226 5066.

STANWORTH VALLEY

On Monday 1st May the forces of darkness began the eviction of Stanworth Valley which was to last over 5 days and result in over 70 arrests, mainly under Section 10 of the 1977 Criminal Law Act. Teams of professional climbers and bum bailiffs openly flouted the law and put lives at risk whilst a slimy under-sheriff along with hordes of pigs and Grope 4 trolls looked on and slavered. Incredibly the gallant tree-pixies of Stanworth suffered only several minor injuries (including various slashings and bruises) protecting the trees from strange men armed with axes, stanley knives and more. One of the Climbing companies used for the evictions was RTA of Sheffield, on 01246 861738, give them a ring and tell them what you think. Court hearings for 72 people from the NO M65 Campaign are on June 13th at Blackburn Magistrates Court and there will be a wicked party before, during and after the legal farce which masquerades as justice - so come along and

Munstonia

give your support. There is still a camp in Stanworth valley so why not pop in for a visit. 0161 8617895

MUNSTONIA

Munstonia, the last remaining house on the route of the M11 Link road, is now well barricaded (see photo). Eviction could happen any day and people are needed more than ever. The Greenmania camp is also well established with benders, tree houses etc. There was a gathering there on the 20th May: live music, stalls and speakers from the local community - the message - "You Can't Kill the Spirit". The resistance continues. The camp is situated at the north end of Leytonstone Road and "Munstonia" is on Fillebrook Road. Nearest tube, Leytonstone. 0181 9898741/5274896 for latest updates.

OPENCAST MINING

Garforth is a suburb of Leeds, close to an area with a strong deep mining tradition. Opencast mines are proposed for a belt of land around the town. The land threatened is primarily agricultural, though the mines approach the edge of Hawk's Nest Wood and affect residential areas through subsidence and lowered water tables. The local campaign group, GATOC, is opposed to direct action and prefers to continue with lobbying efforts. Others in the town would be keen to see a direct action campaign. An action has/will occur on the 30th of May, Leeds EF! would like other EF groups and individuals to get involved. 0113 2629365.

Selar Opencast

The Selar SSSI at Cwmgwrach, West Glamorgan is the site of yet more open cast madness on a vast scale. 880 acres of destruction to take in a SSSI, an ancient Oak wood (100's of trees), 1000's of assorted

other trees, lakes and ponds... The SSSI consists of several (rapidly vanishing) acres of some of Wales' finest wet meadow land. Home to protected species including the Marsh Frattillery butterfly, rare birds and plants. How did they get away with this one? By offering to move it 3/4 mile down the road! Alaska Environmental Services, the contractor responsible for the move, are slicing up 8' by 4' chunks of SSSI lobbing them two at a time on the back of a cart and plonking them in a grotesque patchwork of pieces at the relocation site. The majority of delicate flora are not responding too well from the trauma and as for the fauna... They plan to finish the first ever destruction of an SSSI (beating Cardiff Bay by a whisker) within 6 weeks. Then come the chainsaws...

A ground camp has just been set up, tree houses and walkways under construction - actions happening, help desperately needed. Picnic/gathering July 1st. Camp contact: 01222 383363 Local Contact: Eric 01685 873993. Email scelh@gn.apc.org

Caerphilly Mountain

Caerphilly mountain (the location of the BBC's version of the Lion the Witch and the Wardrobe) near Cardiff was also facing imminent destruction. Locals gup for a major direct action campaign after a public enquiry turned down permission for the opencast mine, only to be overruled. However developers Clay Collieries have just stated that they are to halt quarrying pending further enquiries. Wales Against Open Cast is an umbrella group for the anti-Open Cast groups: 01656 783405

REMEMBER HIROSHIMA

On August 6th 1945 the US dropped an atomic bomb on Hiroshima. 3 days later, a second bomb dropped on Nagasaki. The nuclear age had begun. Even now, more than 100 000 people are still receiving medical assistance due to the after effects. As the 50th anniversary approaches, 2 of the survivors - Hibakusha - are touring the UK in a campaign for world nuclear disarmament. The tour is being organised by CND and the dates are: June 27th London, 28th Norwich, 29th Sheffield, 30th Leeds, July 3rd Newcastle, 4th Glasgow, 6th Carlisle, 7th Manchester, 8th Coventry, 10th Birmingham, 11th Cardiff, 13th Bristol, 14th Reading, 16th London (event in Trafalgar Square). Contact 01274 730795 or 0114 2739047. Faslane Peace Camp at Faslane Trident Submarine Base in Scotland, will be having a series of major actions between the 7th & 9th of August, in memory of the Nagasaki bombing - Don't let it happen again. 01436 820901. Other Anti Nuclear Actions need to be organised around the country (particularly in the light of Britain's further commitment to nuclear arms reduction in the Nuclear Non-Proliferation Treaty) - watch this space or sort one out yourself.

KILLING FOR OIL

About 150 people gathered on Thursday 18th May outside Shell's Annual General Meeting to hear Ogoni tribes people demand that Shell stop supporting Nigeria's Military Dictatorship. The Ogoni tribe in Nigeria are being killed and locked up for protesting against the destruction of their homelands by Shell, so that the rich north can have oil to drive cars, pollute the air and thus build more roads. Ogoni leader Saro-Wiwa is on death row NOW The protest started with the usual rants and drums but as Big Ben struck 11,

people rushed the lobby sitting down and blocking the entrance. Meanwhile, others climbed flag poles, lowering Shell's flags to half mast. Later one of the flags was burnt. There were 6 arrests and seriously heavy policing. Contact 0171 2542290. Let Shell know how you feel by organising actions in your area. Britain still supplies arms to Nigeria while unknown numbers of civilians have been killed, particularly in the labour movement by these arms. Contact People's Embargo for Democracy in Nigeria, c/o PO BOX 256, London. SE11 5TH. 0181 202 6292.

CARMEL WOODS

The battle to save Carmel Woods in the Gwent Valley (site of the only turlough lake in the UK), South Wales from destruction through Quarrying is now in its 12th year. The struggle continues to protect this beautiful area, which contains no less than 5 Habitats of European Importance. The two priority EC Habitats have been omitted from the governments proposed list of special areas of conservation, leaving the door open for the new quarry operators **WIMPEY** - stone quarried is destined to build roads! The campaign has reached a crucial phase. The situation is very complicated but it would appear that there is no immediate danger that Wimpey will move into the woodlands. However, if Wimpey should try anything stupid, local campaigners will be out in force and as legend predicts "sound the bell to awake the warriors of Owain Llawgloch" in defence of the area. We may need your help at any time. Offers of help or for more information 01558 685353.

MCLIBEL TRIAL LATEST

On the 26th April, the Employment section of the trial started, with two witnesses from McDonalds testifying. The first, Sid Nicholson, head of Personnel for McD's UK was questioned about the low pay and high hours for workers, and the company's hostility to Trade Unions. Robert Beavers on the Board of Directors in McD's US was the next to testify.

On a more active note, Saturday 15th April, was McDonald's 40th Anniversary. Dave and Helen of the McLibel campaign travelled to Illinois, to smash a birthday cake and wish Ronald an unhappy birthday. McDonald's cancelled all the celebrations they had due to the protests. Meanwhile, in Britain, over 100 stores were picketed, and much disruption was caused. Well done to all of you who got involved, especially Swindon, where the local store was closed for the day, resulting in a loss of £5000. Contact 0171 7131269

Operation "Send it Back" has also been launched. Collect McD's rubbish (which has a useful life span of 10 minutes!) and send it back to: Paul Preston, McDonald's HQ, 11-59 High Road, London. N2 8AW

FREE EAST TIMOR

It is estimated that approximately 30% of East Timor's population has been murdered during the Indonesian occupation. Britain continues to arm the occupying forces. Following a successful action at British Aerospace Engineering's AGM, June 10th is a day of action against BAe who are planning to sell Hawk aircraft to the Indonesian military. Hawks sold in previous deals have been seen in use against civilians in East Timor. There are actions in some parts of the country - if there isn't one near you why not organise a "visit" to the nearest BAe site? Also on June 10th, an action is planned in Coventry against Alvis who are supplying tanks to Indonesia. Contacts: Stop the Hawks, 88 Islington High St, London N1. Tel 0171 561 1236 / 0161 8340295. CLIMATE ACTION DAY

Several actions occurred in the UK on Climate Action Day, along with hundreds across the world. Here are reports from Glasgow, Cambridge and Cardiff. Over 30 campaigners blockaded Hope Street in Glasgow city centre on Monday 15th May for half an hour. Hope Street suffers greatly from vehicle exhaust pollution, and is one of the most polluted streets in Europe. The campaigners (some wearing gas masks) D-locked themselves to the traffic lights across the street, taking motorists by surprise and bringing the already gridlocked traffic to a complete halt. 11 people were arrested, including one innocent bystander. Meanwhile in Cardiff, the Billboard Liberation Front were out in force, this time turning their attentions to major roads in and out of the city. Various slogans such as "Cars are Choking Cardiff" and "Cars Kill" greeted motorists entering the city on the Monday morning. All the stone statues around Cardiff Castle also decided to wear gas masks for the day! Unfortunately 2 people were nicked with paint all over their hands - "It wasn't me, honest copper!". A critical mass cycle ride was held in the evening just to 'drive' the point home.

In Cambridge a huge car showroom was visited for some banner fun! A huge banner (Earth First! Cars Last) was displayed 30 foot above the cars. The police put in an appearance, warning them not to hurt the cars before bugging off again. One officer suggested "Why don't you go and do something else, like defacing car posters?" - Cambridge EF! are offering a small prize for the "most bizarre police incitement".

DERBY BY-PASS

The A564 is a 15-mile road, linking the M1 and M6. As usual the most destructive route possible has been chosen, taking in archeological sites and badger sets. Actions have occurred, but a camp has not yet been set up ... maybe in the summer. In the mean time digger diving has been a doddle, with Reliance Security been pretty unwilling to climb onto machinery and get oil on their clothes! Work has even managed to be stopped with just 2 protesters! A very successful night action held up work for two hours while contractors tried to put in a railway bridge. Since they could only close the railway for 4 hours they were bugged up nicely!

To get involved with actions or help set up a camp contact 01332 204097.

TOXIC ALERT!

Toxic Alert! is a newly formed network of activists protesting against toxic capitalism, polluting industry and colluding government. TAI is also campaigning for more information on the impact of all forms of pollution on the health of all species on the planet. A pollution and health database is being set up to augment an existing publishing operation, whose aim is to help empower polluted communities with information. A magazine, Toxcat, is available. A series of actions are being planned and more ideas are needed.

STONEHENGE & BATTLE OF THE BEANFIELD.

While the rest of the country was celebrating VE day an alternative celebration was happening down at Stonehenge. Hundreds arrived at five in the morning and to their surprise easily gained access to the centre of the stones. They stayed there all day Picnicking & Dancing. English Heritage made no attempt to get them out but did let all the normal visitors in for half-price and handed out leaflets apologising for the spoilt view of the stones! Some of the visitors decided to join the fun in the middle. June 1st see's the tenth anniversary of the Battle of the Beanfield where police decided to violently prevent a free festival at the stones. There will be a gathering held in memory of this infamous event. 0171 501 9253

LAMB BOYCOTTING THE BANKS

By the time you read this the HSBC (Midlands Bank) Annual General Meeting will have been and gone (Barbican, 26th May). Lloyds & Midland Boycott are all shareholders so it should be an eventful day! May 3rd saw the LAMB National Day of Action with a dozen bank actions around the country. These focused on Lloyds and Midland's involvement in the Bakun Dam, and called for the banks to adopt ethical and environmental guidelines. There will be a new LAMB materials pack by the end of July. Anyone out there who has any time, expertise (or cash) to contribute to the campaign, especially during this summer, would be highly popular. There is a new LAMB e-mail server - email SPL3CIM@lucs01.leeds.ac.uk - LAMB 0161 274 4665.

RTZ AGGRAVATED GENERAL MEETING

The AGM of Rio Tinto Zinc (RTZ), the worlds largest mining corporation, was hit on May 10th in London, with Earth First! and Partizans protesters drowning the lies from the stage and supporting indigenous West Papuans present amid the meeting. Activists were dragged out by the mining corporation's private security firm, Wackenhut.

RTZ has heavily invested in mining operations in West Papua to ensure increased production at the Freeport Mine at Grasberg. It was here that around 40 of the indigenous protesters fighting against pollution, cultural destruction & the occupying Indonesian Military, were recently massacred by soldiers and Freeport's security. Over the next few months 2000 people will be forcibly relocated, and many have already been forced into camps to clear the land. Military Dictator Suharto of Indonesia announced in May that the West Papuans would be "shadowed like those in East Timor", an attempt to silence the pro-democracy and independence movements which

centre on the mine. The situation is similar to Bougainville, where another RTZ mine sparked the ongoing civil war which has left thousands dead. From supporting the Nazi's in prewar Germany to bulldozing Aboriginal villages, RTZ has shown itself to be one of the most ruthless companies with respect to Human Rights & the Environment. Contact LEAF 0116 255 3223 or Partizans 0171 700 6189. If you have a RTZ office near you why not organise an action? Even just 2 or 3 people can make the point painfully clear!

ASHTON COURT QUARRY

A procession to oppose the extension to Ashton Court Quarry, near Bristol, was organised for May 13th by Avon Gorge EF! and Bristol FoE. The procession was banned as 2 others were taking place, but showing their usual respect for the forces of the state the musical, colourful procession took place; going into the centre, the wrong way down one way streets - causing havoc to the city. Afterwards the police wrote to them saying, "...The consequent frustration caused to motorists cannot be overestimated." Glad to learn it was a success! Anyone into a quarry action in Bristol get in touch with Avon Gorge EF!

FRESH AIR NOW

The local elections in Manchester saw the launch of the Fresh Air Now party to raise awareness of the growing problem of air pollution. 29 candidates were fielded for the 31 seats with out of a low turnout one candidate getting 144 votes but most polling around 60-70 votes, on a par with the Tories in some places! Hand in hand with the campaign was a series of direct actions which did everything from closing car parks to selling bottles of fresh air. The whole thing went down well locally and put air pollution on the agenda for the election where otherwise it would have been lost in the smog.

ECOTOPIA '95

Ecotopia is a summer camp that takes part in a different European country each year. This year it will be slightly different since it aims to set up a permanent, sustainable eco-art village in Poland (1-18 Aug). There will be crafts, workshops, therapy... All to teach people new skills, exchange ideas, empower and raise awareness, a coming together of cultures. To succeed it needs help! Come and participate, Karol on 0031-20-665-77-43, email karol@eyfa.antenna.nl or write to EYFA Ecotopia '95, PostBus 941115, 1090 GC Amsterdam, Holland.

BIALOWIEZA FOREST

13 Native Forest activists recently travelled to Poland to help the campaign to save the Bialowieza forest. This forest is the last remaining natural area of biodiversity in central and eastern Europe, containing European Bison, lynx, wolf and moose. The 'Workshop for all Beings' are environmentalists working to protect the Polish side of the forest from logging. As the forest is the last remains of the wilderness that once covered Europe they want to highlight the international importance of the forest. The activists took part in several actions whilst there including a protest camp outside the Presidential building and occupying the Ministry of Forestry. An action in London is being planned as part of an international day of action. Contact Avon Gorge EF! or email: joystick@plearn.edu.pl

GREENPEACE

The London Offices of Greenpeace were raided by over 50 Police Officers and MOD officials on Wednesday 17 of May. The raid follows an incident at the Aldermaston Nuclear Weapons Plant, where activists blocked a pipe discharging waste into a nearby canal with six tonnes of concrete. This delayed work at the plant for 12 days while it was being unblocked. Greenpeace said "It seems the Police actions were punishment for the success of recent Greenpeace activities". 4 campaigners were later arrested.

Greenpeace activists have also been occupying an oil storage buoy in the North Sea for 23 days. This was in protest at Shell's intentions to dump the 460

ft tall structure at sea, when it contained large quantities of toxics. On 23rd of May, 15 Shell security staff and police eventually managed to board the platform and at the time of going to press some of the protesters were still barricaded inside the rig.

WELLS "RELIEF" ROAD

Work on this road in Somerset is due to start 1 July. For further details contact 01749 880639

RECLAIM THE STREETS

Suddenly, 2 cars crashed in the middle of the street, people appeared from nowhere... jumping on the cars, throwing paint, slashing their tyres... And so began an amazing 4 hour street reclamation on Sunday 14 May in central London. The cars, (which were part of the street theatre!) marked the start of the street occupation which included live music, entertainers, a peddle powered sound system and a free cafe. Children played, picnics were eaten and a good party was had by all. The 500 revellers swelled into thousands and the size of the party made it far beyond the control of the police. More actions planned. Contact 0171 2542290.

MAHOGANY IS MURDER

On Saturday 13th of May, Five Cambridge EF! activists removed 5 items suspected to be manufactured from Brazilian Mahogany from Robert Sayle Stores in Cambridge. The items were taken to Parkside Police station where the activists requested that the items, were investigated to establish Robert Sayle's involvement in the trade of Mahogany stolen from the indigenous peoples of the Brazilian Amazon. CRISP-O appeal yet again to the John Lewis chain to cease all involvement in the mahogany trade, in order to bring an end to the destruction of the rainforest and the murder of Indigenous Peoples for their property. Contact CRISP-O to organise actions in your area: 01603 631007.

EDITORIAL

Sorry the May issue got out so late but Manchester EF! were living in trees at Stanworth so it was a bit difficult for them to distribute it!...allegedly. Speaking of which we don't know when you'll get this as we haven't got anyone to distribute it ...help us or we'll all go mad! Also, please remember that we're just a bunch of amateurs so if you can write articles (only 100-150 words) and send them to us it'll save us making a mess of writing up your campaign! We've got a proper email address now - actionupdate@gn.apc.org - so get your stuff to us NOW! The next issue will be going to Glastonbury. *Subliminal Message* - GIVE US SOME MONEY!!! Also we would like to thank Red Kite for some cheap & good quality printing.

DISCLAIMER: Hang on...why do we have to have a disclaimer when "Construction News" doesn't? "Construction News" is far more likely to incite people to go and smash JCBs, pour sugar into dozers' petrol tanks, wipe computer hard drives etc.; which obviously you shouldn't do, never ever, not even once not even slightly, don't even think about it, especially not on earth nights ok!?!)
