

PROGRESS REVIEW INFORMATION SEMINARS JULY 2014

If you have received a letter advising that you have not made satisfactory progress in Semester 1 or are concerned about your progress in your studies after receiving your results

Come along to a **Progress Review Information Seminar**. This is your opportunity to find out information about the progress review process and prepare for a meeting with your course coordinator or unit of study coordinator. **This is very important, especially if you feel lost or unsure of what to do.**

After the seminar, you will have the opportunity to ask questions and speak individually with a **Student Advocate** from the Student Advocacy Service about your own situation.

You do not need to book for any of the following sessions. However make sure that you choose a seminar before your scheduled meeting. If you are unable to attend a seminar on your home campus, please note the dates and locations of other sessions.
