## Are you a State Sovereign Free Man or A UNITED STATES CITIZEN ?

David A. Darby  
November 7<sup>th</sup> 2010 A.D.

This is a question very few Americans have asked themselves. The reason being, they do not know that there is a question to be asked. I will attempt to give you a brief description of each. Then, you will have the information available to ask yourself that question.

### **Signed Documents are Contracts:**

One point to remember as you read. *All government documents that are signed by individuals are contracts between that individual and the government.* Even by answering to your name in an official situation will seal a verbal contract, unless you declare that this does not constitute a verbal contract. You have to be very careful as to how you answer a question from any government official. That is the one point that you will see throughout this paper many times. Once you get that imprinted into your mind; everything else will fall into place. Contracts with the government will remove you farther and farther from your original status of a sovereign born free man.

### **You Were Born Sovereign:**

You need to understand that the day you were delivered from your mother's womb in this country, you were born a sovereign free man. ("free man" refers equally to both genders). But, you are enticed to sign contracts with the county, state, and federal governments with the promise of benefits from the programs that the county, state, and fed government has set up to keep you signing these contracts.

*All of us are originally born a natural 'sovereign free man.'* As soon as you sign the **Social Security SS-5 form**, you start your very own trust account in the Corporation of the UNITED STATES. This is where you officially separate yourself from your original status as sovereign born free man. Each time you sign for a license or permit, you are signing a contract to do whatever the state or federal government tells you is legal.

*The government is now assigning the social security number in the hospitals at the time of birth of a natural free man, thereby getting them into the system as early as possible.* You see even today babies are originally born with the status of sovereign free

## Sovereignty Lost

man. They will remain free man until they accept benefits from the government. The government officials depend upon you remaining in the dark about your true nature.

One thing that you should to remember, ***there is no law forcing you to get a SS number or to give the SS number to anyone except the Social Security administration.*** The only laws that have been passed concerning Social Security numbers are intended to force companies to ***'ask'*** you for the number. ***All of this is covered in the Privacy Act of 1974.***

After that date no law could be passed to compel you to give your social security number for any reason other than Social Security. The government knows this, so they skirt the issue and go after your SS number in a roundabout way by forcing employers (and others) to basically force you to give it to them in order to work or otherwise be employed. Again all you have to do is stand up to the employer and tell him that you will not comply.

At that point, if he continues to force you to give a SS number, you can take him to court and force him under the threat of summary judgment to do whatever you were asking. What the employers do not understand is that ***the 1974 Privacy Act gives you the power to take any government organization or private company to court with a stipulated summary judgment attached if it is proved that they violated the Privacy Act.***

### **Slavery by Contract:**

The one drawback of this Constitution for the United States is the ability of federal government to contract with the people. In a perfect world this would work just fine. But, in our world, unscrupulous government officials have formulated contracts under statute law to take away your freedom since the 1860's. Unfortunately, there have always been unscrupulous people that have worked against the sovereign people of the United States. Therefore, contracts were devised to actually take away our sovereign rights.

You need to understand, that ***we in this country, are the only people in the world that were originally given sovereign rights.*** That is why others in the United States and Europe have been working to undermine our status. Once our sovereign status is removed, we all become slaves to the government; so that a new world order or one world government can eventually be implemented.

A New World Order can never be implemented if a part of the world has a higher status than the other people around the world? The problem that the 'One Worlders' have, is that they must keep our sovereign status hidden until they actually implement the one

# Sovereignty Lost

world government. If you remember, President Bush Sr. (41) slipped and talked about this during his presidency.

## What Does It Say?:

Another important fact to remember, when reading any government document, especially if it is a ‘legal document’; *you have to know the meaning of the words being used. The accepted meaning is not always the same as what is being used in contracts and legal documents.* I use a **4th edition Black’s Law Dictionary** to define the terminology. This is especially important if the meanings of certain words have not been clearly defined in the body of the document that I am reading. This is very important! It can give you a false sense of security. You may think the contract says one thing but, because of the different meanings of words “in law” it may have an entirely different meaning. These documents once signed by the individual, become valid and either support or help take away your God given sovereign rights.

For instance normal use of the word “**person,**” is ‘individual,’ ‘people,’ etc. But, in government documents it means “**citizen of the UNITED STATES Corporation**”. Most of us never even think of this when reading a government document. The reason they have redefined the word person is to make you think they (the government) are talking about a sovereign individual. This gives you the feeling that you are free, but in reality you have become a slave to the corporate state.

Other examples of the differences in words and their meaning is the word “**Freeman**” vs. “**Free man**”. On the surface they look the same. But when consulting Black’s law dictionary, you find two completely different definitions.

- ‘**Freeman**’ is defined in modern legal phraseology, as the appellation of a member of a city or borough having the right of suffrage, or member of any municipal corporation invested with full civic rights.
- ‘**Free man**’ on the other hand is a lawfully competent sovereign that can act as juror and is also an allodial proprietor, as distinguished from a vassal or feudatory.

## CITIZEN vs Citizen vs citizen:

- **CITIZEN:** All caps CITIZEN is generally defined as a Corporate Entity unless qualified with a specific explanation.
  - All CAPS generally refers to Corporate or Federal designations.
- **Citizen:** Capitalized Citizen is defined as Sovereign Citizen or free man
- **citizen:** Lower case citizen is generally defined as an individual and relies on the explanation for context.

# Sovereignty Lost

**Individual:** Individual is also dependent upon the explanation and context.

**PERSON, Person, person:** A Person is always defined as belonging to the corporation.

**Your Rights are “Self Evident”:**

At the end of the Revolutionary War it was recognized that “We the People” (each individual) was a sovereign. *Notice that no constitution [state or federal] has ever provided the people with any rights.* The people possessed these rights before the Constitution was formed. Therefore, all constitutions (contracts with the people) state the limits of which government may exercise control of the people. In fact it is the existence and recognition of these rights that give the people authority to form both federal and state constitutions.

The existence and recognition of preexisting rights can be can be found in:

- **The Magna Carta (June 15, 1215)**
- **The Declaration of Rights in Congress, at New York (October 19, 1765)**
- **The Declaration of Rights in Congress, at Philadelphia (October 14, 1774)**
- **The Declaration of Independence (July 4, 1776)**
- **The Articles of Confederation (November 15, 1777)**
- **The Treaty of Paris (September 3, 1783)**
- **This Constitution for the United States of America (September 17, 1787 )**
- **And, The Bill of Rights including the 9th and 10th Amendments (December 15, 1791)**

Throughout these documents, it can be seen that *‘the people are not subservient to the government, but rather that the government it subservient to the people.’*

Think about this for just a second. Do you feel that the government is subservient to you, or is it the other way around? Today it is just the opposite of what our forefathers fought and died for. They fought to give us all sovereign freedom. Instead our government has given us government slavery. You see, the definition of freedom is the jurisdiction of common law, and title to one’s land. We have lost both.

**The Constitution:**

The **1787 Constitution for the United States**, is one of the most powerful and revered documents ever conceived in the history of mankind, and was created by some of the most dedicated, passionate, and God fearing men of their time. The Constitution forms the basis of the ultimate contract with the people, and gives all of us that legally live with- in the boundary of the present UNITED STATES the rules that ‘limit’ government.

## Sovereignty Lost

***You must understand that the Constitution is a contract with the people and our rights as free citizens are enumerated in that document.*** The Constitution protects individual sovereign rights, Not governmental rights. That is why there is no such thing as an evolving constitution. ***Our Constitution is a contract with the American people*** and can only be changed one way, through “Amendments.” This is the basis of contract law.

This contract is binding and cannot be changed unless all parties agree to the form. But, even the constitution and amendments cannot overcome the **Treaty of Paris 1783 A.D.**

You see treaties are even above the constitution. ***Therefore, even if they enact an amendment that is contrary to the Treaty of Paris, it does not apply to the sovereign free man. It will only apply to the UNITED STATES CITIZEN.***

Unfortunately, we have all signed government contracts that make us Corporate US CITIZENS; at this point the organic Constitution means nothing to the UNITED STATES corporate CITIZIN. As a corporate UNITED STATES CITIZEN you are a fictitious person, and part of the fictitious Corporation of the UNITED STATES. Therefore, natural free men (Sovereigns) cannot be a part of the Corporation. The Corporation has to change your status before you can belong. We will discuss this in more detail a little later.

### **The Treaty of Paris:**

The document no one ever talks about is ***the first document that officially mentioned sovereign rights and actually gave all residents of the several states sovereign rights.*** The first document we should be holding above all others is the Treaty of Paris 1783 A.D.

That one document was a historic contract that the King of England signed with all in America and gave all citizens of the several states, sovereign state citizenship. With-in the body of this document all citizens of the separate states were given “sovereign citizenship” in their respective states, not UNITED STATES Citizenship. At that time, the states were considered little countries that formed a union of the several states to become the United States of America.

### **Sovereign People Are the State:**

In 1783, the treaty of Paris, which ended the revolutionary war, gave sovereignty to the original 13 colonies or states. When looking in Blacks law to define word state, we find that the very first definition defines state as **‘all of the people within the boundary of a defined area in the state’**. Therefore, by definition the state cannot have sovereign

## Sovereignty Lost

status unless all the people have sovereign status. We hear the state officials talk about the sovereignty of the state, but never the sovereignty of the people. Therefore, it stands to reason, there is no sovereign state if the people are not sovereign, because **the people are the state.**

**Sovereign** as defined by law is *‘an individual, body, or state in which independent and supreme authority is vested; a chief ruler with supreme power; a king or other ruler with limited power.’*

This Constitution for the United States is very specific about the power of the United States government. Our fore fathers were afraid of a strong central government. (Read ***the Anti-Federalist papers.***) That is why the United States Constitution made sure that the central government had specific duties leaving the states with all of the power.

The US Constitution states that ***‘the central United States government is limited in jurisdiction to the boundaries of Washington D.C., the protectorates, and the military bases’***. Only the separate states had the power over the common laws that govern the people of the separate states. The sovereignty of the individual was to be protected by all laws that were enacted by the several states. The United States had no citizens when it was first formed. All citizens were ‘state citizens’ or ‘free men’. There was no such entity known as a United States Citizen. This would come later via the 14th Amendment to the constitution.

Each sovereign individual was expected to conduct his or her life under the common law. Common law is not a forgiving law, but can only take action when another party is harmed. Essentially, it is a law that concerns the liability of the individual. Therefore, under common law, no laws can be passed to force a state free man to do anything. Laws can only be passed to give out punishment for an action that has harmed another.

### **Common law is the law of liability.**

This system worked well until the civil war between the states. We must understand that the popular belief that the civil war was fought only because of slavery is another myth. It was a component, but the main reason was states rights and the right for the state to secede from the Union.

There is nothing in the constitution that mandates that the states have to stay in the union. Lincoln and the northern states decided that the southern states did not have states rights and forced them to stay in the union. Thus, the north caused the war of session (Civil

## Sovereignty Lost

War). To this day the Federal government keeps downplaying states rights. The south had the courage to fight for their belief in the state's right and self determination or sovereignty. What makes up the state? The people are the state. So, when you speak of states' rights, you are talking about our 'Sovereign' rights.

When the civil war began, President Lincoln declared martial law; which as president of the Union of the United States of America, he had the right and power to do only during emergencies. President Lincoln, as we all know, was assassinated at Ford's Theater. Few people know however, that his assassination took place before Lincoln could officially end the civil war and martial law, which was necessary to get the country out of Admiralty or Statute law and put the country back on a Common law footing by reinstating the constitutional government.

You see, President Lincoln had issued a 'Proclamation of Cessation' to end hostilities, but only a lawful congress has the power to end the war and reinstitute constitutional government for the United States of America.

President Lincoln had already lawfully dismissed Congress with an order of "*Sine Die*" [defined in Black's law dictionary 4th edition as, "a final adjournment; a final dismissal of cause."] and therefore, there was no lawful Congress able to end the war and cease hostilities. Congress could not lawfully convene or reconvene as there was no longer a quorum due to the Civil War, since many of the states were missing.

***Therefore, we are technically still at war and still under Martial Law!***

This is also why many unconstitutional laws are passed and the people who have sworn an oath to uphold the constitution look the other way... Think about it... The people in control have more power under martial law and without the constitution...

This also means that all of the constitutional amendments after the declaration of martial law, including the 14<sup>th</sup> onward, are ***not constitutional***, nor are they lawful as we have had no lawful Congress since that time to enact them.

It must also be understood that the "Corporation" of THE UNITED STATES was formed in the year 1871, and so our current congressmen (including both the House and Senate) are acting members of the "Board of Directors" of the CORPORATION of THE UNITED STATES.

## Sovereignty Lost

This is why the Corporate UNITED STATES government is still using Military Law in the form of Statute Law. It is the only way that the government can control the people, even though our forefathers fought a war with Britain to end a government's ability to completely control the people once and for all.

Our government has conspired since the inception of the United States of America to control the people. Now, through contracts, they have once again achieved complete control. Now it is time to take back our freedoms and our rights. We have to learn about and take steps to cancel all of the fraudulent contracts that have robbed us of our sovereignty, our rights, and our freedoms.

Congress saw a way to take away some of our freedoms and wield the power of the US government over all of us by remaining on civil war footing and never removing martial law. Andrew Johnson succeeded Lincoln and did nothing to change the war footing. Then, Ulysses S. Grant an ex general of the northern army's became president. He had always operated under military law, which is another form of admiralty law and saw no reason to change. Therefore, ***the country to this day is still under martial law or better known as admiralty law. (Law of the Seas, statute law, or private law)***. Essentially, the Civil War was instrumental in taking away a major part of our freedoms. With civil law or statute law, statutes can be enacted to force you to do things that the common law would never allow to happen. Just think about how free we would be without the statutes to force us to do things.

At first it seemed reasonable to have all these laws that tell us what we can do and what we cannot do. But, if you look at the laws today there are laws concerning everything we do. You see common law achieves the same thing in a very different way. If you hurt someone, no matter what it is, you will be held liable in a common law court. The jury of your peers who know you will decide on your punishment. There are no appeals that go on and on for years.

As I have studied history over the last 30 years and I have come to the conclusion that President Lincoln was assassinated because the civil war was over. Foreign interests and our own crooked politicians conspired to kill Lincoln to keep statute law in place. This would provide more control of the people and more power into the hands of the United States government. In statute law, laws can be passed that force a certain behavior. That is what we see today in the environmental movement and many other movements that seek to take more and more of our freedoms and rights. What people do not understand is that the sovereign free man is not under the jurisdiction of statute law.

## Sovereignty Lost

“**Common law**” is referred to as “**Public law**” and “**Statute law**” or “**Admiralty law**” is referred to as “**Private law.**” Admiralty law / Statute law was developed by the insurance companies that insured ships of the sea, and is therefore, private law.

Now you can see when and how private law actually has taken precedence over the common law as the law of the United States. The UNITED STATES Government could not control our daily lives until Common Law was superseded by Admiralty law. I reiterate, the common law was superseded, not removed. Common law is accessible to the sovereign, but is not available to the UNITED STATES citizen. This is all due to the contracts that the persons of the corporation have signed with the Federal corporation that turns natural rights over to the government.

Government now had a tool to force people to do what it wanted by outlawing many of the rights that we enjoyed up until the Civil War. You have to remember that this was all done piecemeal. No one really noticed that we had in essence lost our sovereignty, and now we are slowly being conditioned to accept unconstitutional laws so that the masses can be controlled. Again, you have to understand that we are now a fictitious corporation not a free society. You are now a trust account in the largest corporation in the world. You now only get the rights that the corporate government wants to give you through statute law.

We must reiterate this distinction right now. A sovereign state citizen embraces Common Law or public law. The sovereign citizen is not subject to the laws that are private in nature or admiralty laws. All statutes that are passed by government, forcing someone to act in a certain manner are admiralty in nature or private law. They are unconstitutional to the sovereign. There are certain statutes that are not repugnant to the common law and these are constitutional.

Now you are beginning to see why it is relevant to understand the status of a sovereign free man. You see a statute law can force behavior. Common law will only take charge when you have hurt another party. When a party is hurt, it is the jury that decides the punishment, not the judge. That is why we hear of the practice of a jury of one’s peers. The result is similar, but with common law we still retain our independence and freedom. Statute law takes all of that away from the UNITED STATES citizen. In a statute court the Judge has all the power not the jury, as it once was. The jury in a common law court has the power to make a determination of the validity of the law in question, before it provides a verdict in the case at hand. Can you imagine how a judge in a statute or Admiralty court would react, if the jury struck down the law as unconstitutional, which was being used to convict someone?

# Sovereignty Lost

When was the last time you heard the term sovereign citizen or sovereign free man. You hear about the sovereignty of the nation, sovereignty of the state, but not the sovereignty of the citizen. Under the constitution there can be no sovereign nation unless the people are sovereign. That is because sovereignty of the citizen has been stolen from us. We are now considered Corporate UNITED STATES Citizens through contract with the government.

How was this perpetrated on the country? You have to go back to the end of the civil war. The newly freed slaves having been property and having no legal status at all within the country had to be given some type of status. The United States with the help of unscrupulous politicians decided to use the emergency of the Civil War to usurp the constitution by extending United States citizenship to the freed slaves through the enactment of the **14th amendment**. (Read the 14th amendment.)

## **The 14th Amendment:**

To paraphrase the 14th amendment; *it refers to all persons born or naturalized in the United States and subject to the jurisdiction thereof, are citizens of the United States; nor shall any state deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws.* Therefore, **the full benefits of the original constitution do not apply to the ‘14th amendment citizen.’** “Equal rights” are not same rights!

*The Treaty of Paris and the Constitution are both ‘color blind’.* It says nothing of race in either document. The newly freed slave was actually automatically a free man or sovereign citizen when he/she was freed, but the politicians could not let that stand. They decided that keeping statute law in place would give more control over the ex slave and therefore all of us. They passed into law a lesser citizenship, which was increased to include all born in the UNITED STATES. Therefore, the UNITED STATES government could have just as easily made the ex-slaves state sovereign citizens with all the rights that this bestows. Do you see the ramifications?

Again the intention of the US government was not to ‘free the slaves,’ it was to enslave all of us into federalism without our knowledge. Even today they give lip service to our freedom, but we know only what has been taught to us in the government schools. As each one of us begins to study our past, we find that the US citizen is a true slave to the corporate UNITED STATES, with a few more rights than the plantation slave in the feudal system of the old south. Even though the yoke is light, it is still a yoke. We now have to get permission from government for everything we do as a government slave. As

# Sovereignty Lost

a Free man, you do not have to ask the government for permission for anything. The masters have no power over the free man because the free man is the master.

Until the War of Northern aggression started there were 'sovereign black citizens'. I have two final questions on this subject.

1. Why did politicians take away all opportunity for ex-slaves to get free man status?
2. Why did the politicians take the law of the sovereign away from all free men?

## **Manifest Destiny Government Style:**

One needs to remember that *the United States government under the original constitution had control only in the area of the District of Columbia and all of the protectorates*. By extending United State's citizenship to the newly freed slaves, they officially became citizens of the District of Columbia, which was a way to extend US governmental control from the District of Columbia to include the rest of the country.

Therefore, unwittingly the newly freed slaves became the first United States Citizens. Of course the freed ex-slaves, having no previous status, readily embraced this concept wholeheartedly. They knew nothing of state citizenship or what it meant. All that was important to them was getting recognized as a legal citizen and not as property. This was the beginning of the end of the free man in the United States.

This was all concealed within the 14th amendment to the constitution. If you read the constitution it states that the United States government only has jurisdiction in the District of Columbia, the protectorates and military bases. By enacting the 14th amendment, the reach of the federal government now extended into the states through its new citizens, the freed slaves and everyone else that was born or naturalized into the United States.

We have believed that the 14th amendment was written for the ex-slaves. When you read it with the slaves in mind that will be your conclusion, but if you read the words carefully; you will see that it is actually encompassing all citizens of the country.

At that time in history, no one thought anything about it. The ex-slaves had to have some type of status within the country and everyone agreed. The problem is; no one sat down and thought through the argument of State citizenship vs. United States citizenship.

The government deceived the people by using the ongoing national emergency and martial (Admiralty) law to replace the plantation of the ex-slaves with the government plantation and the total enslavement of former free persons. The free men of the country

## Sovereignty Lost

felt good that we had ended slavery for all time, when in fact the whole population was enslaved by the government.

### **Big Business:**

The next step in our loss of rights was **the enactment of the UNITED STATES Corporation in 1871**. To recap history a little, in 1871, the politicians turned on the sovereign citizen status and changed the federal government into the ‘corporation of the UNITED STATES’. This pulled the federal government out from under the constitution. To this day the corporate government does lip service to the 1787 constitution, but continues to pass unconstitutional laws.

The UNITED STATES as a corporation is now a fictitious entity; therefore it will only follow what it wants to of the constitution to keep the masses thinking that they have the protections of the constitution.

**This Constitution for the United States has no control in the corporation of the UNITED STATES**, because it has been codified and therefore is subject to change at will, unlike amendment process of the Constitution. Of course the government giving lip service to the constitution keeps the people believing that the Federal corporation is following the constitution, but there are no legal constitutional restrictions to the corporate federal government. Only the ones that the federal government wants to adhere to will it follow.

To prove this point, the definition of ‘United States’ in **US code: Title 28, section 15** is:

**“UNITED STATES”** means

- A. Federal Corporation
- B. An agency, department, commission, board or other entity of the UNITED STATES.
- C. An instrumentality of the UNITED STATES.

### **It’s All in the Case:**

Notice the capitalization of the UNITED STATES and the exclusion of America. This denotes the difference between the ‘Corporate, UNITED STATES’ and ‘Constitutional government, The United States of America’.

### **Fast Forward:**

#### **Income Tax and the Federal Reserve:**

Now we jump in time to the early 1900’s for the next big power grab by the UNITED STATES Government. Notice the timing again. We have the First World War as an emergency to cover up what the corporate government is doing to the people. **The 16th Amendment (Income Tax) was ratified February 3, 1913.**

# Sovereignty Lost

By that time a few generations had passed away. Legally, state sovereign citizens cannot be taxed on their labor, but this was the first step to codify the tax and ultimately tax us all into poverty. All education about sovereign citizenship had been completely dropped from the schools after the civil war. The only citizenship being taught is about UNITED STATES Citizenship. This was a concerted effort on behalf of the government corporation to conceal our true nature.

## **Federal Reserve Act – Banking:**

Shortly after the Income tax amendment, the **Federal Reserve act (1913)** was passed giving away our country's control of the monetary system to foreign bankers. Our forefathers explicitly told us to never let the banks control the monetary system. We traded our real currency (gold) for a credit (Fiat) system. In a credit system the banks can print whatever amount of paper money they wish. We see the results of that decision in our country today. Run away debt.

## **Read the Book “The Creature from Jekyll Island” A Second Look at the Federal Reserve**

The Federal Reserve just prints more money when the government wants to borrow more. We cannot even ask or demand an audit of the Federal Reserve. You see *the Federal Reserve is not a government bank, it is a corporation owned by foreign and domestic bankers*. Therefore, when the government borrows money the Federal Reserve charges the government interest on that loan. We the people cannot even find out what that interest actually is that the Federal Reserve is charging us.

The Internal Revenue Service (IRS) now becomes the collection arm of the Federal Reserve. The internal revenue is also not part of the UNITED STATES government as proven in many court cases. The UNITED STATES government separates itself from the illegal practices of the Internal Revenue service.

## **Statute Law:**

The 16th amendment could not have been put into effect without statute law and the 14th amendment. At this point there is no longer any mention of sovereign state citizens. People are now called UNITED STATES citizens. At this point in history, citizens are not legally UNITED STATES citizens, because there are no contractual agreements in place, to legally force sovereigns, to pay the corporate taxes. The UNITED STATES government still had to follow the original law; but by concealing our true identity and forcing us to sign statute contracts taking away our sovereign rights, they have stolen the remembrance and the last traces of our original sovereignty. Many have fought the IRS

## Sovereignty Lost

as UNITED STATES citizens and they will lose every time. They do not comprehend the real reasons why we are paying unconstitutional taxes. **IT'S THE CONTRACTS!**

So, by this point in our history they have only 'concealed' our citizenship and everyone in the United States is still technically sovereign citizens; they are unaware and no longer know how to be recognized as sovereign. This is a condition that the politicians could not allow to continue. At this point it would still be very easy for citizens to wake up and start taking back rightful sovereign citizenship. So a scheme had to be concocted to steal the actual sovereign status from the individual once and for all. The fix was in, but would take a few more years to work its way to fruition.

### **Social Security:**

They achieved this with the **1935 Social Security act**. Franklin D. Roosevelt and the Democratic Party conspired to permanently take away our natural born rights once and for all and instigate the Democratic Party in power forever. The government promoted the new SS system to the people, by simply telling everyone that it was an "insurance policy for old age". But, under statute law not common law, they had passed laws that went around common law. Buried within the SS contract, ***the government sets up a trust account in your name in the Federal Corporation of the UNITED STATES making you a fictitious person of the corporation of the UNITED STATES.***

Now, we will discuss the real reason for the social security contract. What was not put in the body of the SS5 form (Social Security contract) is that a trust account in the corporation of the UNITED STATES in the name of UNITED STATES citizen that had applied is set up. The significance of the Social Security Act is to provide an account in your name and you are now a trustee in the UNITED STATES corporation and liable for all statutes and debts that are enacted or incurred within the corporation rules.

***As a corporate citizen you do not have the constitutional rights that the sovereign citizen has.*** You give all that up, for the protections and benefits that the corporation provides. ***As a corporate citizen you have only the constitutional laws that the corporation wants you to have.*** You can now see that the UNITED STATES Corporation masks all of its corporate business in a phony act of embracing the constitution, but all the while undermining it with unconstitutional laws.

***The constitution does not apply to a corporate individual because the corporate citizen is a fictitious person with your name.*** You have been made to think that the fictitious person is you. This was the final step to remove anything to do with sovereign citizenship.

# Sovereignty Lost

Once signed with social security, *it was believed that you would never find out the truth, because it was hidden so deeply* that it would be impossible to find. In fact there are only a handful of people in the country that understand the total story. You are now on your way to becoming one of the few in the county that knows this truth.

## **Identity Crisis:**

You can identify your “Corporate Status” in all paper work that you get from any government entity. **Your corporate name (Trust Account) is always used.** It is always spelled out in all CAPITAL LETTERS. The corporate UNITED STATES leaders pay lip service to the constitution to keep up the illusion that we have all the rights that are enumerated in the constitution.

*Under corporate law they can change anything and do anything they wish to the laws governing fictitious citizens.* That is why so many unconstitutional laws have been passed and called legal. **They are legal under corporate rules.** Now instead of ‘constitutional rights’ we have only the rights that the corporate government wants us to have, they call this ‘civil law.’

Under ‘Civil Law,’ they can control all aspects of your life including your behavior without repercussion. You can see that there are no more constitutional rights. Only rights that the corporate UNITED STATES wants to give you.

## **Trust Me:**

What corporate citizens do not understand is their Social Security number represents both an insurance policy and a trust account created in the person’s name within the corporation of the UNITED STATES. ***This government contract effectively trades sovereignty for a trust account within the corporation.*** This exchange is what makes the contract legal.

**In order to regain sovereignty, we must ‘close’ the trust account in our name.**

Sovereignty, once declared, means *the sovereign is no longer responsible for the trust account or any other contracts signed with any government entity* (local, state or federal).

**The Social Security ‘insurance policy’ remains in force and may be drawn upon.**

## Sovereignty Lost

The trust account is basically closed and the sovereign is no longer a corporate entity. He now reverts to his original status of a free man. They still receive the Social Security benefits because that was the common law part of the contract.

### **The Buck Act:**

One must then study the **1939 Buck Act** which was signed into law by President Roosevelt. When passing new statutes, the Federal government always does everything according to the principles of law. In order for the Federal government to tax a Citizen of one of the several states, they had to create some sort of contractual agreement between the citizen and the Federal Corporation. ***This contractual agreement is the “Social Security Number.”*** Now you can see why the Federal Government is adamant that each and everyone in the country is coerced into signing up for a social security number.

By the middle of the 20th century we were all considered UNITED STATES citizens. Real Freedom that we all mistakenly cling to had been erased from memory. Through the enactment of the 14th amendment and statute law, the corporate UNITED STATES government has usurped the free man’s freedom and the ex-slave merely exchanged one slave master for another. This is the only way that ‘we the people’ can be controlled by a central government. Exactly what our own forefathers feared most.

***The “citizen of the United States” in Article II of the United States constitution is not the same as “Citizen of the United States” in the 14th amendment to the constitution. The “Citizen” with the capitalized “C” is a class of “Citizens.” The lower case “c” “citizen” applies to one of the people that has standing, i.e. a party to the contract of the constitution with the people with “Privileges and Immunities.”***

**The 14th amendment citizen of the United States does not have full access to the bill of rights.** When you look up Wolf vs. People of the State of Colorado, 338 U.S. 25 (1948) it’s talking about only the Bill of Rights to the constitution of 1-8 being estopped – which was over ruled by Mapp v., Ohio 367, (1961) and this decision has now been limited.

What this means is that in a criminal court as a corporate citizen you now have limited access to the Bill of Rights.

***With the 16th amendment in place and the international bankers in control of the monetary system, the international banking community convinced the UNITED STATES to stop putting tariffs on incoming goods( as the constitution had provided to***

## Sovereignty Lost

*pay for US governmental operations.) The government then forced the population to pay for all of the government expenditures through the income tax that was passed in 1913.*

**According to the original Constitution, only ‘federal employees’ are legally obligated to pay taxes on their earnings.**

Of course it took many years before the tariffs were removed. They (the international bankers) could not show their hand as to what was going to happen in about 20 years. The income tax did not even become relevant until the 1930’s. It was a Trojan horse just sitting there to be used at a later date.

The politicians have always known about state citizenship and were very careful as to how they worded all the tax laws. *They were very careful to keep all laws legal and according to the original constitution and the Treaty of Paris.* They were also very careful to enact tax laws that specifically mentioned UNITED STATES Citizens and federal employees as tax payers. They did not mention the State citizen for fear of the masses finding out what was taken from them or that there was such a thing as sovereign citizenship. *They keep it legal by using the ‘voluntary statement’ on the IRS 1040 form.*

**This statement is strictly for ‘state sovereign citizens’ that do know their own status and ‘want’ to contribute.**

Sovereign State Citizens cannot be forced to pay income taxes, however there is no way a UNITED STATES’ Citizen can get out of paying taxes. This is also why the News is quick to inform you about UNITED STATE’S citizens going to jail or losing their property for not paying their federal income taxes. You have never heard one word about someone that has declared their state citizenship (sovereignty) being prosecuted for not paying taxes. This is because **state citizens (sovereigns) are not included in the tax codes.** *They are considered ‘Non-resident aliens’ to the Corporate UNITED STATES not the organic United States.*

There are circumstances that a sovereign would pay federal income tax. If a sovereign worked for federal government for example as a contractor, then by law the sovereign would have to pay income tax to the federal corporation. It may be difficult to maintain employees status however.

## Sovereignty Lost

State citizens are the only citizens that actually get the benefits of the constitution legally within our system. The UNITED STATES' citizens have no legal protection under the constitution. They can have only the benefits that the Federal government will allow them to have under corporate rules.

This was the state of affairs in the country until the 1930's when the United States went bankrupt. Again, politicians turned on the people and went to the foreign bankers. Instead of turning to its citizens and proposing a fix, they turned to the international bankers and changed our free country into a corporate controlled state with its citizens truly slaves to the state.

**Again, you must remember that you have unknowingly contracted with the UNITED STATES government to unwillingly give away your sovereign rights.**

Why is this important? This is easy to answer. Let us say that the country is now bankrupt. Where do we in the government turn to bail ourselves out from all the extravagant spending that the government has and is continuing to do? You turn to the international bankers again, just like we hear the third world countries are doing all the time. But, we cannot let the people know what we have done. So, first we allow an international bank into this country called the 'Federal Reserve' to take over the money supply and insert a credit system.

The Federal Reserve Act is Dispersed throughout 12 USC; ch. 6, 38 Stat. 251 (December 23, 1913).[To provide for the establishment of Federal reserve banks, to furnish an elastic currency, to afford means of rediscounting commercial paper, to establish a more effective supervision of banking in the United States, and for other purposes.]

The above is a definition given of the official explanation of the Federal Reserve. ***It says nothing about being a branch of the United States government or even as a locally owned bank in this country.*** Notice the date of the legislation. It corresponds with the year of the Income Tax 16th amendment.

**The Federal Reserve has never been audited by bank examiners.** They do not have to; they are above the jurisdiction of the UNITED STATES. You see when the Federal Reserve convinced Roosevelt to get rid of the gold standard; the Federal Reserve was able to print money with no backing. When you pass a one dollar bill you are only passing a note which is a promise to pay. Before the demise of the gold standard, you could take that one dollar bill (a 'Gold Certificate') and turn it in for one dollar of gold.

## Sovereignty Lost

That was called real money. The problem is that you could never print any more money than the government had in gold reserves at Fort Knox. **Now the Federal Reserve can print as much money as the government wants to borrow.**

### **Planning Ahead:**

You see the politicians knew that the country was going to go bankrupt back at the turn of the 20th century. So, the Federal Reserve was set up long before the country actually went bankrupt. Next we get a loan from that bank. But, what can we use for collateral? They were very ingenious. Our trusted politicians decided to *mortgage all of the efforts of all the UNITED STATES citizens through the 16th amendment*. Notice that this does not include state citizens. They are exempt.

Unfortunately, the **truth has now been withheld for almost 100 years**, so no one really knows what the term 'state citizen' really implies. So, by propaganda and through the school systems, everyone is now a 14th amendment UNITED STATES Citizen by definition. (i.e. Slave to the Federal Corporate Government)

As you can see the UNITED STATES Corporation has now made slaves of all of us and made us the payers of the national debt. Again, you have to go back to the constitution to see that originally the United States government was funded entirely by foreign tariffs. This was the part that the international bankers would not tolerate, because it cost more to get goods into this nation from Europe.

By 'law' the government could only be funded by the incoming goods that were assessed tariffs to pay for the United States government. The bankers also did not like the fact that the American people were the only people on the face of the earth that they could not control or tax because of the Treaty of Paris and the law of the 1787 Constitution. By reading the Constitution for the United States of America you can see that the government of the United States of America was funded by tariffs of incoming goods into this country. Therefore, foreign goods paid for the United States government. The people of the United States did not pay for the operations of the United States government. The foreign bankers could not let this stand. They schemed and connived to force the American people to pay for the United States government, so that they could make more money.

### **Hollow Victory:**

Unfortunately, controlling the money was not enough for the foreign bankers. The Europeans never wanted the People of this country to be free. You see only a free people can 'own their own land' and be sovereign individuals. So, they put one more stipulation

## Sovereignty Lost

into the loan to put the corporate UNITED STATES back in the money. **The international bankers wanted the UNITED STATES to mortgage all of the land within the borders of the United States,** which is exactly what the government officials did.

In 1933 President Roosevelt again turned on the people. He signed Senate Document No. 43 (1933) into law: "The ultimate ownership of all property is in the state; individual so-called 'ownership' is only by virtue of government, i.e., law, amounting to a mere user; and use must be in accordance with law and subordinate to the necessities of the State." The affect of this ***gave all property of federal citizens to the state.*** Therefore, only sovereign citizens can now have title to the land.

Also in 1933 Roosevelt passed HJR 192 on June 5 that ***took the gold away from the people,*** even though they were not required to give it away. The affect this had on the country is that the people were left without legal "money" for paying debts. In one fell swoop of the pen ***Roosevelt transformed our society from a ownership society to a credit society.*** You can see the effects today.

Again you ask how did this happen? The UNITED STATES government does not own the land of the United States; the people own the land. How can the government mortgage the land that they do not own? This is the question that we want to answer.

### **Torrens Act:**

Around 1907 in preparation for the coming bankruptcy, the United States government passed the "**Torrens act.**" We believe this was instigated by our government's ties with the international bankers at this early stage in history. You see, Torren's was a ruthless politician in Australia and had passed the law down there to rob their citizens of their land. It was actually a gimmick to take away true title to the land from the people. The act essentially said that ***if a land owner would bring in his actual title, which was a land patent, the government would then give them the ability to break up their land and make it easier to sell and mortgage.*** The banks would in turn give them a deed to show that they were 'entitled to the use of the land.' The government would record all transactions on the land.

We must give most of our ancestor's in Clark county credit, they saw through all of this fraud and very few actually went through with a Torrens transaction, at least here in Clark County, Washington. The ***counties around the state then started recording all land transactions fraudulently.*** The county did not tell anyone that they would have to bring the title forward on every transaction to keep the title up to date. ***Without using Torrens or any actual law, they simply stripped off the title and it would revert to the***

## Sovereignty Lost

*state, without the land owner knowing what had happened.* Now, all land owners have 'deeds' and the fraud is complete with the state now claiming ownership to all the land. We are now serfs to the feudal federal system. You have to understand that ***deeds are not true title to the land.***

### **Washington State's '2' Constitutions:**

Another document Washington State natural citizens should be aware of is the **1878 Washington State Constitution** which was conceived in the town of Walla Walla, Washington. This constitution actually upholds the original constitution and supports both individual and state sovereignty.

This is one of the reasons for getting rid of the 1878 constitution; ***it was contrary to the 14th amendment and the newly formed corporation of the UNITED STATES.***

As it happens, the governor of the Washington territory Miles Moore switched to a proposed 1889 constitution that was not approved according to the conditions set down in the 1878 constitution already in place. The governor lied to the residents of Washington and convinced everyone that we needed a different constitution.

***In fact Washington was already accepted as state before the politicians in Olympia started to work on the 1889 constitution.*** The state had passed all the tests. Politicians in Washington D.C. conspired with people in Washington State to not recognize the Statehood of Washington until the Governor of Washington Territory could convene another 'illegal constitutional convention' and replace the 1878 CONSTITUTION of the State of Washington.

The people did not get the right to approve 1889 constitution until after we were already a state. In fact ***all official documents in Washington DC still refer to the 1878 Walla Walla constitution.*** Any one that is interested should look up the 1878 constitution and read ***Article II sections 1, 2, and 3. Section 1 states the jurisdiction of the state, section 2 states that the land and other property that is accrued to the territory of Washington shall vest in the state, and section 3 the people of the state, in their right of sovereignty, are declared to possess the ultimate property in and to all lands within the jurisdiction of the state, and all lands, the title to which shall fail from a defect of heirs, shall revert or escheat to the state.***

Now you can see why the territorial governor wanted to lose the 1878 constitution. It confirmed to all residents of Washington that they were sovereign in their status and that they would forever keep title to the land. Think about those two statements. That is the

## Sovereignty Lost

meaning of being free. Of course *the 1889 constitution did not even mention these items*. Very few people in the state of Washington even know that we were all swindled out of the original constitution. There are in fact other states having two (2) constitutions.

**They did not want to allow the people of The State of Washington to remain sovereigns while the rest of the country denied its citizens that status.**

But, the state did not believe that someone would put it all together and bring the title forward. But, if they should, *the state passed laws so that corporate citizens cannot hold title to the land. Only a state free man or sovereign can own and hold title to land.*

On the face that seemed really good. I was just as gullible as everyone else for most of my life. I assumed that a 'deed' is the same thing as a 'title' not so! If you look in Blacks law you will find this is true, they are not the same.

### **Bad Deeds:**

The problem is that now **the owner does not have true title to the land**. The title was given over to the state under the Torrens land registration act or fraudulent transactions by the county registrars. Under Torrens you could petition to get back the title to the land; but if the county took the land by fraudulent means during the registration of transaction process, **it is really hard to get back the title from the counties but not impossible**.

The owner is now a tenant to the land, to which the state controls title and interest, and the state actually 'holds' the title even though the means were fraudulent. This is why we have to pay property taxes, land use taxes, fees and get building permits to do anything with 'their' land. **THE PEOPLE DO NOT HAVE TITLE TO THE LAND**. This answers the question as to why no one has the property rights that they believe. Also, *the county can only tax the land as long as the state actually has title*.

The owner does not have the title, he has a deed. Again, these are not the same. The state claims to hold the title, but they cannot prove it. The state can now control anything that you do with the land because they claim to own the land. The land owner is nothing but a tenant to the state. Again, what is the difference in the European feudal system and in our own corporate state owning all the land?

### **Federal Reserve Act - Land:**

When the gigantic public trust was implemented in 1913 via the Federal Reserve act, no immediate changes with regard to the master/serf relationship that had developed

## Sovereignty Lost

between government and land holder were necessary. Again life went on as usual for awhile with no clues to the fact that **all property had been pledged to the Board of Governors of the Federal Reserve; and as trustees**, they held the MORTGAGE on all the land of the UNITED STATES. This was accomplished by allowing the same taxing agencies to act as administrating agents for this newly formed trust.

President Woodrow Wilson approved the Federal Reserve Act in 1913 and a few years later, he reflected: *"I am a most unhappy man. I have unwittingly ruined my country. A great industrial nation is controlled by its system of credit. Our system of credit is concentrated. The growth of the nation, therefore, and all our activities are in the hands of a few men. We have come to be one of the worst ruled, one of the most completely controlled and dominated governments in the civilized world -- no longer a government by free opinion, no longer a government by conviction and the vote of the majority, but a government by the opinion and duress of a small group of dominant men."*

A century before, Thomas Jefferson reflected much the same sentiment:

*"If the American people ever allow private banks to control the issue of their currency, first by inflation, then by deflation, the banks....will deprive the people of all property until their children wakeup homeless on the continent their fathers conquered...The issuing power should be taken from the banks and restored to the people, to whom it properly belongs."*

On June 4, 1963, John F. Kennedy signed Executive Order No. 11110 to **strip the Federal Reserve Bank of its power to loan money to the government at interest**. On that day Executive Order No. 11110 returned the power to issue currency, without going through the Federal Reserve to the US government. Kennedy's order once again gave the Treasury the power "to issue silver certificates against any silver bullion, silver, or standard silver dollars in the Treasury." This meant that for every ounce of silver in the US Treasury's vault, the government could introduce new money into circulation. In all, Kennedy brought nearly \$4.3 billion in US notes into circulation. For a short period our money was backed by Silver (Silver Certificates). Many believe this is the reason President John F. Kennedy was assassinated five short months later. They believe the Federal Reserve board of directors issued the actual order.

After President Kennedy was assassinated, and upon assuming office, newly sworn in President Lyndon Johnson recalled all of the US Silver certificates that Kennedy had put into circulation.

## Sovereignty Lost

President Ronald Reagan was the next to challenge the power of the Federal Reserve, but this abruptly ended with his near assassination on March 30, 1981 by the hand of the crazed son of former CIA Director, and one of then Vice President, George Bush's closest friends and oil business backer John Hinckley Sr.

President Reagan had pitted himself against the Federal Reserve over their refusal to lower the crushing interests rates they had been imposed upon the American people during the US recession of 1980-1982 which was their greatest since the Great Depression, but after his near death quietly signed into law on September 13, 1982, H.R.6128 which became Public Law No: 97-258 that was written on the behalf of the Federal Reserve by little known US Congressman Peter Wallace Rodino Jr., with no co-sponsors, and *made it illegal for any future American President to print money for the American people.*

**Now you are beginning to see how our land has been stolen along with our sovereignty.**

We as citizens have been misled, and we are now true slaves belonging to the Corporation of the UNITED STATES and ultimately to the Federal Reserve and its owners the international bankers. We are as much slaves to the corporate UNITED STATES as the slaves were to the plantation owners of the south, only very few are actually aware of it.

The UNITED STATES Corporation continues getting Federal Reserve loans that the international bankers are only too happy and willing to provide. The United States Corporation mortgaged our efforts in the form of income taxes (16th amendment) and the foreign bankers (Federal Reserve legislation) effectively get our land as part of the deal. Next the federal government went to the states. Since all of the states are also corporations, they were not going to get money from the corporate UNITED STATES, unless they essentially mortgaged the land that they had fraudulently taken from the land owners.

The states then mortgaged all of our land to the corporate UNITED STATES government, which in turn mortgaged the country to the Federal Reserve Bank, which is owned by the international bankers.

Now in control, the Federal Reserve then made sure that the UNITED STATES Citizens paid the national debt, so the Internal Revenue Service was born as the collection arm of

# Sovereignty Lost

the Federal Reserve. It is a branch of the Federal Reserve Bank, not a branch of the US government.

As you can see, nothing is as what it seems. We have always been taught to be good little corporate citizens (slaves).

The people of the UNITED STATES are slaves to the state, and the most depressing part of the deal is that they do not even know it. Definition of a slave: ***one that does not have freedom, one that is not under common law and one that does not own land.*** Our land has been lost by fraud and our sovereignty has been taken away through statute law via illegal contracts, what else can we be called but SLAVES!

## **Now answer these questions:**

- Are you a state sovereign free man or a UNITED STATES Citizen?
- Are you content to continue to perpetuate the lie, now that you know the truth.

Only you can answer these questions. You have to analyze all of the ramifications to this conundrum.

If you are a state free man, you are not obligated or forced to pay any federal or state income taxes or social security taxes; you are only subject to common law and you can proceed to take back your land title and again, pay no taxes on your titled property. At this point you volunteer to sign a contract for county services such as Fire, Roads, etc..

With Freedom Comes Great Responsibility:

With state citizenship comes responsibility along with independence.

## **The Down side:**

- You cannot expect to receive any of the benefits that the government provides by stealing the money from one class of slave to give to another class of slave.
- Another drawback is that a sovereign citizen has to be careful to never sign any contract with the government.
- As a sovereign you have to get rid of all licenses. Each license has a contract attached to it. The government can suck you right back into the system if you sign some document that gives the government authority over you.

With UNITED STATES Citizenship you continue to receive all the benefits they are using to buy you off and keep the slave population happy with their lot in life. Such as college tuition, tax rebates, loss of freedom, and all the other rules that they are daily

# Sovereignty Lost

imposing upon its citizens. You will have national health care provided by the government that you will be forced to take. They will continue to take more and more in tax and give very little in return. You will see politicians getting rich off of the tax money supplied by the slaves. You will be paying for all the illegal aliens and everyone else that does not want to work. We see how the politicians of both parties go to Washington as regular people and come back millionaires at our expense through graft and corruption.

## **This Path Is Not Easy:**

I am not trying to make this sound easy. It is going to be hard and scary to accomplish all of the above items that make up a sovereign. In fact there will be only a few that have the fortitude to join a group of like minded individuals (Patriots for a lack of a better word) that are only thinking of the future of our children. Most will take the easy way and not make waves. I for one have never thought of myself as a slave. Now that I know the truth, I am doing something about it. Our forefathers fought and died so that we can be free. Wouldn't it be great to pass this on and leave our country to our children who are truly free sovereigns? I want to help everyone that has the fortitude become a truly free person. This is the information that you need to start your education.

## **The Up Side:**

### **Social Security Benefits Are Still Available:**

For myself, I have declared myself a sovereign. I was worried at first about all that money that I paid into the Social Security for all these years. I waited a year then applied for my Social Security and started receiving the payments in March 2009. Again, that was the common law contract with the SS dept. They still have to pay, because that was all part of the contract that was stated and signed by both parties.

**'I am also in the process of getting back pure title to my land.'**

## **You Can Own Your Land:**

Only a sovereign citizen can have title to the land. Laws have been passed at the state level to prevent corporate citizens from ever getting clear title to the land. As of January 25th 2010, I have filed a law suit in the 10th Federal District Court against the County auditor to get my land patent recognized. Utah Division court case 2:10cv00053  
Description [Darby v. Kimsey](#).

## **Summary:**

In summary, if you continue this into the future and do some research to make sure that I am not lying about what I have said, then it stands to reason that someday in the future the international bankers are going to want to foreclose on the massive debt. What do

## Sovereignty Lost

you think will happen? I believe that at that time the facade will come off and they will make themselves known to each and every one of us. The international bankers will take title to all the land. All that you have paid into it will be forfeit. We are witnessing the greatest exchange of wealth in human history. All of peoples hard earned life savings passing to the government through taxes and banks through foreclosures.

Next, if you want to work you will be forced to make whatever deals you can to keep your family alive. You will give as much as they require to the banks to pay for the debt that our politicians have run up. You can also see that there are two countries, the United States of America of our forefathers and the country of the corporate state brought into the existence by contracts, the UNITED STATES OF AMERICA.

### **The Constitution is Still In Effect:**

The student of our past history has to remember that all historical documents such as this constitution for the United States or Treaties are contracts still in effect. That means that dishonest politicians had to pass laws that would take your citizenship away from you by offering you services or money from the federal government.

If you accept services or money from the county, state or federal; you become an involuntary citizen of the District of Columbia a tax paying citizen. It has finally come to pass that the federal government by giving money to the counties after stealing from other citizens is now in the position to make you a federal citizen by your acceptance of funds from the county that the federal government supplied. As you can see, you have to be very careful when accepting help from anyone. Your freedom is more important than any help you receive from the government.

Are you a UNITED STATES Citizen or a state free man? All I can do is give you this information. What you do with it is entirely up to you.

Personally I can think of no better legacy to leave my children and grand children than freedom from slavery. I have pledged my life, liberty and my sacred HONOR as a sovereign citizen to this endeavor. If you are of like mind, please contact me and I will put you in touch with people that can help you with state citizenship paperwork and land patents.

### **Will You Dare To Be Free?**

At least you now have a choice!

**Peacetime Civil Flag**

The "Cartel for the Exchange of Prisoners of War between Great Britain and the United States of America," dated May 12, 1813 mentions a flag called the American Ensign. The exact origin and use of this flag is not known. A picture of the American Ensign may be found in *Illuminated History of North America* (1860). The American Ensign incorporates the blue stars similar to those of the Revolutionary war era Guilford Flag and the vertical stripes of the Civil Flag of the United States.

The Civilian Flag of the United States of America was flown, for over 100 years, by a select citizenry that could afford to buy them. Most used the design of the Customs Bureau and its American Eagle, many used the design of the American Ensign. These were not official flags like those created by Congress for military use, but existed by custom.

Some historians believe that the Civil Flag was discontinued after the Civil War when the federal government imposed military governments in the States and disbanded civilian government. As a show of its power over the States, Civil Flags were discontinued and Old Glory became the sole emblem representing the People of the United States of America, united under military (or admiralty) rule.

So, apparently there is more legitimacy to the Civil flag than I originally thought and it is tied up with the concept of Sovereignty for WE THE PEOPLE and the country as a whole.

When I use the term 'free man' it encompasses both male and female. This is for all free loving people of this country. It is a color blind idea and it is for all that want freedom.

I must also acknowledge that I have used excerpts from many sources, most of which were not signed. I owe all that I know from what I have read and would identify these great writers if I could. No plagiarism is intended. I have used some of their words as they wrote them, because I could do no better. All of these great people that have written on different subjects are great patriots.
