PRECISION LEGAL DRAFTING

... the only system that automates the process of creating and maintaining model forms, clause libraries, and document assembly systems.

Draft

Begin with a high quality initial draft.

kiiac creates drafting templates based on your documents or publicly available contracts. Choose the approach that best meets your professional and business needs.

Model Documents

Select default and alternative clauses from the clause library and quickly develop model documents.

Document Assembly

Add clause selection logic and create automated document production solutions.

Emerging Contract Terms

Collect and share practice knowledge with the integrated Wiki.

Immediate Productivity

kiiac's automated and user-friendly system will have an instant impact on productivity. Make kiiac part of your firm's best practices.

... the only system that automates both initial draft and subsequent document reviews.

Review

Consider all standard contract terms and alternatives.

kiiac automatically creates deal checklists. The contract analysis engine analyzes your documents, or publicly available contracts; classifies them, and provides analysis regarding:

- what clauses they contain
- how the document is organized
- range of standard and non-standard language

Deal Checklists

Start with your preferred document or a document prepared by the other party – and use kiiac's checklists to consider all standard and alternative terms.

Clause Libraries

Use kiiac's highly-accurate clause search tools to quickly determine alternative clause language.

... the only system that integrates your firm's best practices and market standards.

Compare

Secure the best deal terms for your client

kiiac compares your contract to market standards and your firm's best practices, detailing which clauses:

- diverge from market norms
- do not typically appear
- may be missing

Best Practices

Ensure compliance with your firm's best practices and market standards.

Continuous Improvement

Constantly update and improve forms and clause libraries with each new contract.
