## Northern Newspapers Pre-Press specifications April 2008

### Page & Column Sizes.

1 column = 35mm    2 column = 75mm    3 column = 114mm    4 column = 153mm    5 column = 192mm    6 column = 231mm

7 column = 270mm    Full page is 380mm by 7 columns    Centre spread 380mm. by 560mm

- Wraps have the same specs as centre spreads and must contain the Publication Masthead on the front page.
- Full page landscape ads should only be booked on back pages
- With the exception of full pages all ads must have a border.

### Colour.

Our presses use 4 colour process; no special mixes are available. It should be noted that due to differences in stock ambient temperature and humidity there may be variances in reproduced colour from publication to publication. Spot colours available are WARM RED to be supplied as 100% Magenta and 100% Yellow as the mix is not always on the press and BLUE (CYAN). Please ensure all other colours are converted to CMYK we do not accept RGB, Pantone or other indexed colours in files supplied. Please ensure all body text is set in TRUE BLACK which is solid black not registration or process black. Files containing process/registration black will be rejected they are the major cause of illegible type. TOTAL INK WEIGHT should not exceed 240% ie 60% each CMYK in process graphics.

### Delivery of material.

File resolution must be 200dpi for Process, 300dpi for mono and up to 600dpi for line art. The preferred delivery methods are email, Pagestore, Weblink or other trusted digital media providers to the industry. Files should preferably be in the PDF or EPS format however elements may be accepted as tiff, eps or jpeg for pictures and graphics. MS word files are accepted for text only. DVD, CD and flash drives will be accepted providing the files contained on them meet the above criteria and have been checked to ensure no viruses are present on the media. Please allow extra time when supplying on disk or flash drive as the media has to be scanned before going on to our system. Open files will be accepted in Illustrator and InDesign only. We do not support open Quark Xpress files. PDF files will only be altered if space is left for change outs in the form of a white box we will not alter type on screens or process colour backgrounds.

### ✓ Client checks before submitting material for publishing

- ✓ All Colour has been converted to CMYK.
- ✓ There is no process colour text under 20pt in the file.
- ✓ There is no registration black in the file.
- ✓ Total ink weight does not exceed 240%.
- ✓ All text has been converted to outlines.
- ✓ Knockouts are switched on for reverse type.
- ✓ The document and image area are the same.
- ✓ There are no screens under 20% for black, cyan and magenta or 40% yellow
- ✓ All pictures and graphics are High Resolution and present on disks if supplying that way.
- ✓ Reverse type is a minimum of 12pt bold sans serif.
- ✓ Fine type should be avoided and if it is used must not be below 10pt.
- ✓ The ad is clearly identified with a key number provided with the order or our internal number issued with the order confirmation
- ✓ Preflight your file and correct any errors shown in the report.
