How NiE can help you ...

NiE is firmly based on the curriculum and easily implemented into your teaching plan.

We aim to support you in the classroom, saving you time in lesson planning, rather than adding to your workload.

Each NiE eight-page mini newspaper is accompanied by additional teacher notes. These provide relevant curriculum links and include scaffolding suggestions, activities and ideas for further extension.

A list of relevant journal articles is included, along with links to useful websites for your convenience.

Each mini newspaper involves ...

- Close reading
- Inquiry learning
- Problem-solving
- Critical thinking
- Engaging with visuals
- Processing information activities

By using NiE mini newspapers in your classroom you will ...

- Encourage critical literacy and social inquiry.
- Encourage reading comprehension and information skills, such as: skimming and scanning, brainstorming and questioning.
- Help your students ask and understand rich questions to challenge thinking.
- Save yourself valuable time by covering the key competencies and learning area concepts through your NiE programme.

Take advantage of Stuff NiE's multi award-winning, high-quality, motivating, **curriculum-based** resources.

Using NiE in your literacy programme will ensure **English objectives** along with **key competencies** and **learning area concepts** are addressed.

NiE mini newspapers are **written by teachers** who understand the curriculum and the pressures facing today's teachers.
