Build a wardrobe with sliding doors

1 Pick your style

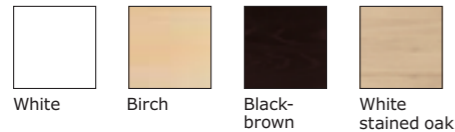

Look at the wardrobe combinations on the opposite page and choose the ones you like best. The measurements tell you the sizes you can get. Sliding doors are sold in pairs.

2 Choose frames

Frames come in different heights and widths. Think about how big your space is and how much you need to store, then combine frames to get the wardrobe you want. For a wardrobe with sliding doors you will always need at least two frames. Look in the buying guide (see below) for more details about the frames and how to combine them.

3 Choose interior organisers

Think about your clothes, shoes, accessories and whatever else you want to fit in your wardrobe. Then choose organisers to make everything easy to find and reach. You can get shelves and drawers in colours that match the frames.

Frames, shelves and drawers are available in different colours

Please check that your preferred colour is available for the product and size you require. Ask at the store, look in the buying guide or see www.IKEA.com.au/PAX
