7. In some states, members of the public have the right to view the counting of votes and verify how that process is working with public records requests. In other states, citizens are in effect barred from viewing vote counting because the vote counting software is a trade secret. Which of the following statements comes closest to your own view? Statement A: Citizens should have the right to view and obtain information about how election officials count votes Statement B: Citizens should not have the right to view and obtain information about how election officials count votes and trade secrecy rights should be protected.
