

# Companies That Don't Test on Animals: Availability by Country

## Frequently Asked Questions

### Why aren't there more companies on this list?

The "availability by country" feature is a new addition to the Beauty Without Bunnies program! We are working as quickly as possible to add companies to the list, so please check back often for updates. In the meantime, please refer to our full list of companies that don't test on animals for all your cruelty-free shopping needs!

### What types of companies are on the "Don't Test" list?

The list includes companies that make cosmetics, personal-care products, household-cleaning products, and other common household products. In the U.S., no law requires that these types of products be tested on animals, and companies can choose not to sell their products in countries such as China, where tests on animals are required for cosmetics and other products. Companies on this list should be supported for their commitment to manufacturing products without harming any animals.

The list does not include companies that manufacture only products that are required by law to be tested on animals (e.g., pharmaceuticals and garden chemicals). Although PETA is opposed to all animal testing, our quarrel in those instances is less with the individual companies and more with the regulatory agencies that require animal testing. Nonetheless, it is important to let companies know that it is their responsibility to convince the regulatory agencies that there are better ways to determine product safety.

All companies that are included on PETA's cruelty-free list have signed PETA's statement of assurance or submitted a statement verifying that neither they nor their ingredient suppliers conduct, commission, or pay for any tests on animals for ingredients, formulations, or finished products.

## Legend

**V** - The company makes or sells strictly vegan products.

**L** - The company has licensed PETA's official cruelty-free bunny logo.

**M** - The company is a PETA Mall partner, and shopping at this company provides PETA with additional support.
