

Do **you** want **your child** to be tested at 4 years old?

Do **you** want **your child** to be compared to other children who may be 11 months older?

Do **you** want **your child** to be taken out of class to complete a computer-based test in their first days in Reception?

You can **withdraw your** child from these Baseline Assessment tests for September 2015 simply by telling the school.

"The National Union of Teachers (NUT) are opposed to the Government Baseline Assessments and are working with us to campaign against them. They believe that they are unfair on children, misleading and statistically invalid."

We want parents, teachers, grandparents & carers to get involved in a campaign to stop Baseline Assessment in reception classes.
