UNIVERSITY**
MELBOURNE AUSTRALIA

At Victoria University, we know that education can transform lives, and that scholarships can make that transformation possible. We understand how important education is to unleashing individual potential and that access to a scholarship can make that happen.

Each year, we award hundreds of scholarships worth millions of dollars for students at all levels – vocational education (TAFE), undergraduate and postgraduate.

Collectively, this range of scholarships is one of the most comprehensive scholarship programs in Victoria.

Victoria University scholarships provide financial and practical assistance for hard-working, dedicated students to get a head start. They demonstrate the University's commitment to be an accessible university for students from diverse cultures and countries, ages, and socioeconomic and educational backgrounds.

Some scholarships offer valuable one-on-one mentoring from business and industry leaders, reflecting our strong workplace connections.

“Receiving the George Alexander Foundation Leadership Scholarship allows me the freedom to not only meet my academic and musical commitments, but to also focus on using my developing skills and abilities to become involved in important community causes and events that unite musicians.

Having a scholarship for my current degree has opened up opportunities for me to undertake further study that I otherwise may not have had. After completing my Bachelor of Music, I am considering undertaking a postgraduate degree in either music or education.”

"Getting this scholarship means the world to me. Out of all the other students who applied, I got picked to have this special opportunity. Having this scholarship is not only about getting the money that's offered, it tells me that I can be seen as having good potential for my future career.

I chose to study at VU because it offered a lot of flexibility on entry to courses – it has vocational training and higher education with heaps of pathways leading to almost anything."

“It was fantastic receiving the Chancellor’s Scholarship because it was an acknowledgement that all my hard work during VCE had paid off and been rewarded.

The scholarship gives me real financial security during my studies. Knowing that I’ll be receiving regular money because of the scholarship has really taken the pressure off.

VU was my first preference for my uni studies as it is a renowned sporting university. It just seemed like the logical choice.”
