

NEW ETFO LEARNING IN THE EARLY YEARS RESOURCES

Learning in the Early Years: Exploring Our Thinking by Dr. Kimberly Bezaire

This resource focuses on the child as learner, the educator in the classroom, the learning environment and powerful classroom play. It explores effective practices in the early years, provides reflective questions for educators to think about and next steps to take.

ETFO's Professional Learning in the Early Years Website:

www.etfopley.ca

This new website will support educator teams, individual teachers, designated early childhood educators and teacher leaders in accessing professional learning wherever they are. There are videos focused on effective practices in the early years, mathematics, and observation with accompanying sample facilitator's guides, a photo gallery and classroom tours. This website will continue to expand and grow to support our members learning needs.

DVD's & Facilitator Guides

Math Happens in Kindergarten, Observation: A Window Into Children's Thinking and Conversations about Learning in the Early Years with Dr. Kimberly Bezaire are video DVD's with the corresponding facilitator's guides. The facilitator guides correspond to brief video segments in each of the series and include What to Look For, Think about/Discuss and Actions and Next Steps to Try.
