

# TODAY IS MAY DAY— INTERNATIONAL WORKER'S DAY!

STATEMENT BY THE COMMITTEE TO RECONSTRUCT THE COMMUNIST PARTY  
MAY DAY 1986.

May the first is a day to re-affirm the unity of class-conscious workers around the world and carry forward the struggle against imperialism and capitalism.

## PROLETARIAN INTERNATIONALISM.

We pledge our support for the movements for national liberation which are taking place on every continent. We particularly salute the revolutionary people of PERU, whose armed struggle is led by the Communist Party of Peru and is guided by Marxism-Leninism-Maoism.

## REVOLUTIONARY INTERNATIONALIST MOVEMENT.

We support the Revolutionary Internationalist Movement and work to strengthen it and extend its influence.

## PREVENT WORLD WAR THREE.

The most important task facing the world's people today is to oppose the imperialist arms race and prevent them launching a third world war. Mao Tse-tung said;-

"Either revolution will prevent war or war will give rise to revolution."

This statement is very applicable to the present situation. Peace can only be finally assured by stepping up the struggle against imperialism and capitalism, the root cause of war.

## AUSTRALIA AND IMPERIALISM.

Australia is enmeshed in the imperialist's war preparations. The present government slavishly follows the U.S line as did its predecessors. It is prepared to send Australian troops to defend U.S interests in the Philippines as its predecessors did in Korea and Vietnam.

## FOREIGN MILITARY BASES.

The U.S bases in Australia are part of its nuclear "first strike" plans and have nothing to do with defence. It is essential that they be got rid of.

P.T.O

### THE LABOR PARTY.

Clearly the Labor party is not a party of the working people. The Accord hoax promoted by State and Federal Labor governments has drastically cut wages while prices and profits soar. The foreign debt is at record levels, 3 million people live in poverty and unemployment and homelessness are rife.

Life for the working people is getting harder, as it is bound to do under capitalism.

### TRANSNATIONAL CORPORATIONS.

The foreign Transnational Corporations dominate us economically, politically and culturally. They make enormous profits which are sent overseas, thus adding to our indebtedness and impoverishment. The grip of the transnationals must be broken. Let us step up the struggle to defend wages and working conditions, and uphold the right to strike.

### ON MAY DAY.

Conditions in Australia are increasingly favourable for the stepping up of revolutionary struggle against capitalism and imperialism and for socialism, but this struggle can only be victorious under the leadership of a genuinely revolutionary Communist Party, a party guided by Marxism-Leninism-Mao Tse tung thought.
