

One Reason Hillary Clinton Should not be President

Hillary vehemently urged the bombing of Libya
& then in October 2011
a mob murdered Gaddafi

She watched a video on an aide's Blackberry
of Gaddafi being beaten
and impaled in the asshole
by a bayonet then killed

Hillary exclaimed "Wow!"

Then Hillary turned to her television interviewer
and glee-snarled, "We came, we saw, he died,"

then chuckled with delight.

This person should not be president!!!

And please please please
prevent Hillary Clinton
from appointing Victoria Nuland
to lead the State Department
or serve in a high position
in any Clinton government!!!
