?**

NOT TO BE REPRODUCED WITHOUT PERMISSION

FROM AN ORIGINAL IN THE
UNIVERSITY OF MELBOURNE ARCHIVES

They are **NOT** at the Football

They are **NOT** at a Beatles Concert

They are **MARCHING** to demand that
A and H Bombs be **BANNED**

And amongst them you will find footballers, apprentices, Beatle fans,
folkies, rockers, clerks, students—

YOUNG PEOPLE FROM ALL WALKS OF LIFE
who want to keep rocking, surfing, playing football and doing their
work.

Vict. Peace Council Coll

The Alternative

THIS

It is natural that we young people want to enjoy travel and friendship, to make the most of our youth and have a secure future.

OR

THIS

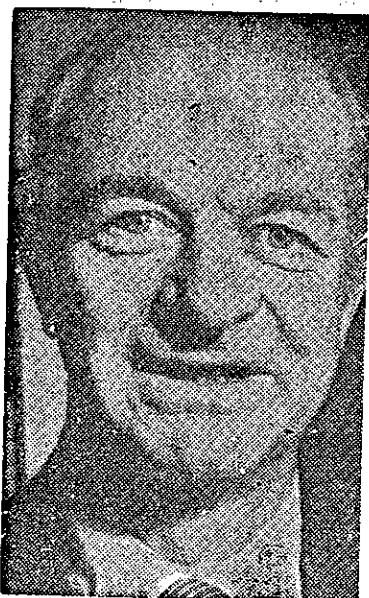

The alternative is for a rifle in one hand and a grenade in the other, with radio-active dust swirling around the ruins of our cities, homes and the places where we usually meet our mates to have a good time.

What do others say?

The Trade Unions say:

Peace is trade union business. Albert Monk, President of the Australian Council of Trade Unions, will be addressing the opening session of the forthcoming Australian Congress for International Co-operation and Disarmament. Trade unionists know from bitter experience that war means inflation, black marketeering, shortages of clothes, long hours and speed-ups, as well as suffering and destruction.

Scientists say:

Nuclear bomb explosions cause bone cancer, leukaemia, deformities in unborn babies.

BAN ALL TESTS. 11,021 world scientists signed a petition calling for an end to all nuclear tests.

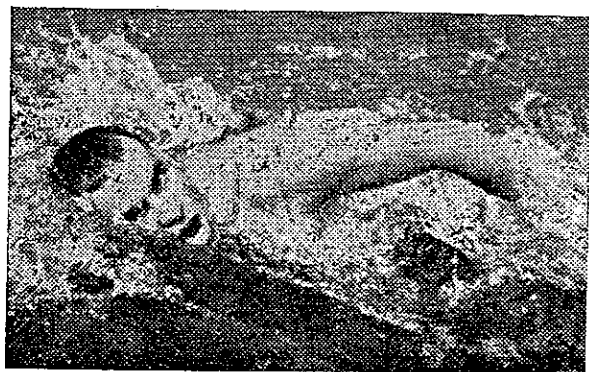

American scientist, **PROFESSOR LINUS PAULING**, who is a leading peace fighter.

The Churches say:

The late Pope, John XXIII, in his Encyclical Peace on Earth, made an appeal asking all men of goodwill to make a personal contribution to world peace. Mankind, he said, was living under the incubus of a hurricane that could wipe it out at any moment and that atomic war was unthinkable.

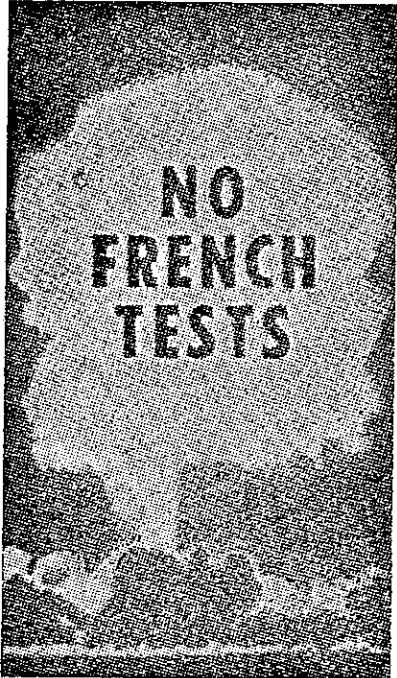

Sportsmen say:

SPORTS FIELDS NOT BATTLEFIELDS. This year is Olympic Games year, and the founder of the modern Olympiads, Baron de Coubertin, in 1896 did so with the express aim of promoting peace and friendship.

Let's face it, it's much more fun meeting young people from other countries on the sports arena than on the battlefields.

WHO SHOULD BAN THE BOMB AND DISARM?

Scientists, churches, unions, sportsmen all agree that to be successful all countries must ban the bomb and disarm together.

HOW CAN THIS BE ACHIEVED?

It will be achieved when young people, along with all other Australians, and more and more people in every country of the world, say it's "GREAT TO BE ALIVE": and we want it to stay that way.

IT WON'T BE ACHIEVED

By hanging back on the other bloke.

Get into the MARCH to the future NOW!

**SUPPORT THE AUSTRALIAN CONGRESS FOR INTERNATIONAL
CO-OPERATION AND DISARMAMENT, OCTOBER 25th.**

Discuss it amongst your mates on the job and contact your union.
