According to the Palestinian Ministry of Health Riyad died following an assault on 14 October by the IOF as he was returning from his olive harvest. He suffered a heart attack thereafter, and it is believed to have been the result of the attack.
4. Huda Muhammad Darwish, 65, suffered a severe asthma attack on 19 October 2015 and died on her way to hospital as the vehicle carrying her was held up at an Israeli checkpoint at the entrance of Huda's neighbourhood, Al-'Essawiya, Jerusalem.
5. Hashem Younes Al-'Azza, 52, died after inhaling poisonous tear gas, which triggered his already-existing heart problems, on 21 October 2015 in Hebron. An ambulance was prevented from reaching Hashem's home, due to the closure of Al-Shuhada Street leading to his home. Neighbours assisted in carrying Hashem but were delayed by the IOF at the checkpoint on the northern entrance of the street. Hashem was transferred to the hospital and died there shortly afterwards.
6. Khairiyya Mansour, 69, died of a heart attack on 24 October 2015. That day, Khairiyya suffered a heart attack while harvesting olives with her family in Tulkarem. In order to reach their land, which is surrounded by the Annexation Wall, the family needs to enter through an Israeli-set up gate that operates at certain hours of the day. Khairiyya's transfer to hospital was delayed due to the closure of that gate. Once the gate opened, she was transferred to hospital where she died shortly after.
7. Nadim Shqeirat, 52, died of a heart attack on 29 October 2015 in Occupied East Jerusalem. Nadim suffered the heart attack while in his home in Jabal Al-Mukaber. Immediately, Nadim's family called for medical assistance. Due to the newly placed Israeli checkpoint and the road blocks surrounding the neighbourhood, and the resulting traffic jams, the local first aid assistance took approximately eleven minutes to arrive. A specialised Israeli ICU ambulance made its way to the neighbourhood quickly, but then refused to enter beyond the checkpoint without police escort, citing "security reasons". Instead, the local Palestinian medics attempted to reach the checkpoint to hand over the ailing Nadim to the Israeli ambulance, and were once more delayed because of the rerouting of traffic. Eventually, Nadim was transferred to the Israeli ambulance waiting at the checkpoint, where he was announced dead.

1 Please note that Jerusalem suburbs are Palestinian towns or areas that lie behind the Annexation Wall surrounding East Jerusalem. Historically, these towns were in close proximity to Jerusalem neighborhoods and were areas for the natural expansion of Palestinian neighborhoods in East Jerusalem. However after the construction of the Annexation Wall in 2002, many of these villages were cut-off from Jerusalem. Some Palestinian inhabitants of these villages have Jerusalem residency status while others hold West Bank IDs.

2 Road 443: is an Israeli road that runs between Jerusalem and Tel Aviv. However, parts of the road continue through the West Bank.
