

s-11 solidarity pie-fight

we prefer pies to batons...

Marcus Brumer was charged on 5 counts, following a pie-throwing incident involving the Premier, Steve Bracks. Steve Bracks, however, got away scot free with his actions of directing and encouraging the worst Police political violence in Victoria's history at the S-11 blockade of the World Economic Forum at Melbourne's Crown Casino.

S-11 was a mass protest, calling for an end to economic rationalist madness, the profit before people mentality of governments and big businesses, sustainable development of our environment and an accessible and participatory democracy. During the course of the mass-blockade, many protesters were brutally hurt by riot police wielding batons and horses. Very few arrests were made, the 'law' was enforced at the hands of the Victorian Police in whatever ways they wanted.... Come and show your solidarity at the court mention and support for S-11 people who were arrested (one of whom will be facing court this day as well) and victims of police violence.
