Interviews with 1,012 adult Americans conducted by telephone by ORC International on September 4 - 8, 2015. The margin of sampling error for results based on the total sample is plus or minus 3 percentage points.

The sample also includes 930 interviews among registered voters (plus or minus 3 percentage points).

This sample includes 612 interviews among landline respondents and 400 interviews among cell phone respondents.

EMBARGOED FOR RELEASE:
Monday, September 14 at 6:00 a.m.

2.   Do you approve or disapprove of the way Barack Obama is handling: (RANDOM ORDER)

	Approve	Disapprove	No opinion
Gun policy			
September 4-8, 2015	35%	59%	5%
June 26-28, 2015	42%	53%	5%
May 29-June 1, 2014	33%	64%	4%
April 5-7, 2013	45%	52%	3%
January 14-15, 2013	46%	49%	6%

On a regular basis, Congress must pass bills that authorize the federal government to spend money for a certain amount of time. When that time expires, the government must shut down until Congress passes a new spending bill.

8. Which do think is more important for Congress to do -- (RANDOM ORDER)

	Sept. 4-8 2015
Approving a budget agreement that would avoid a government shutdown	71%
Eliminating all federal funding for Planned Parenthood	22%
Both equal (vol.)	5%
No opinion	2%

METHODOLOGY

A total of 1012 adults were interviewed by telephone nationwide by live interviewers calling both landline and cell phones. Among the entire sample, 27% described themselves as Democrats, 24% described themselves as Republicans, and 49% described themselves as independents or members of another party.

All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect national Census figures for gender, race, age, education, region of country, and telephone usage.

Crosstabs on the following pages only include results for subgroups with enough unweighted cases to produce a sampling error of +/- 8.5 percentage points or less. Some subgroups represent too small a share of the national population to produce crosstabs with an acceptable sampling error. Interviews were conducted among these subgroups, but results for groups with a sampling error larger than +/-8.5 percentage points are not displayed and instead are denoted with "N/A".
