#### Note

I am writing at face book after publishing our four books in the year of 2010 to share and communicate our observations, findings, conclusion etc about Leninism –the politics of state capitalism and the so-called 'right of selfdetermination of nations', and both are so dangerous weapons against the working class to rebuild the communist movement to form a communist party.

Not countering but Leninist bosses and beneficiaries from Leninism or blind to Lenin of different countries has been using to use so many slangs and so many nonsense terms against me.

Yet, some of them are so interested to quarrel. Though, no quarrel or no debate to win with anyone is our declared principle. But, we are not free to respond anyone if he make a question or differ or counter or same thing with us. Therefore, majority posts of me is the respond and reply to the concern people. But, different friends has been asking

Thus, I have to decide to store my post since December-2014, to publish as a collection of face book posts to respond them easily or even they can use the said collection within shortest time.

me the same question again and again.

Generally, there was no capitation of my posts, but now I have used the caption of every post to know said thing from the caption to use easily to save time of everyone.

Interested persons are invited to make sure any mistake or error of us on the basis of science of communism.

#### (3) On Mayday Celebration

The historical May day is the day of only working class to celebrate it to take more and more steps gradually to fight against capitalist class to vanish the capitalist society to vanish the wage slavery-the cause of miseries of working class to end the miseries of wage slaves of the world.

But, there is no working class party to unite the workers of the world to fight against capitalist class to vanish it by fighting against wage slavery to vanish the wage slavery by the united global but forceful actions of working class by a most modern scientific society- the communist society.

Therefore, so many capitalist organizations including state, political party, trade union, ILO etc & etc has been celebrating the May day- a historical day to win the 8hours working day by the historic fight of the revolutionary working class.

Noted, ILO Conventions are not for the interest of working class to fight against capitalist class by fighting against wage slavery to vanish the wage slavery by a communist revolution by working class alone.

Rather, ILO Conventions are for peaceful co-existence of capitalist class and working class to increase the production and productivity to increase the volume of capital by exploiting the wage slaves.

Moreover, states are defunct under the rule of the IMF but no state is free from serving the capitalist interest by oppressing and overpowering the wage slaves, but such states has determined as a middle man to conciliate the disputes between the capitalist class and working class by the ILO Conventions.

Therefore, no organization is working to serve the working class interest if it is not against the ILO and its Conventions. But, not only Leninist parties but also more or less all trade unions of different countries including Bangladesh are for ILO convention.

On the other hand May day is a historical day for wage slaves of the world to celebrate it to take required steps to fight against all capitalist organizations including IOL to fight against the capitalist class to fight against wage slavery to vanish it for the emancipation of working class by vanishing the capitalist class. Therefore, celebration of the historical May day by all such organizations those are not against the all capitalist organizations including ILO is nothing but a heinous and bad effort to chained the wage slaves by the rules, conventions etc of capitalist organizations including IMF, ILO etc & etc. Sure, working class will celebrate the historical May day to fight against all such capitalist organizations including the trade unions for ILO Conventions.

#### (2) About Colonial Policy

Practicing the colonial policy by the revolutionary capitalist class was so necessary to conquer the whole world to develop the capitalist mode of production globally.

Therefore, colonial policy was the integral part of capitalist development by defeating the ruling class of the pre-capitalist society where there was local, self-dependent but so poor economy.

Thus, the colonial policy was a progressive policy to create the capitalist world by the revolutionary capitalist class.

But, the capitalist society has become old and thereby the disabled capitalist class has become reactionary. Therefore, the colonial policy has lost its utility. The winners of the 2nd world war including Leninist

boss Stalin has founded some global syndicates including IMF-the controller of the world economy by concluding the outdated colonial policy.

Therefore, the number of states has been increasing but no state have independent capacity even to determine and fix the tax and tariff policies to earn and expend under the rule of the IMF.

Noted, the founding members of the IMF was only 51 but currently 198. But all states are defunct under the rule of the IMF, thereby democracy is dead under the politics of capitalist globalization, implemented by the global syndicates.

Capitalist class as a whole is cheat, fraud and lair. Therefore, the capitalist bosses including Leninist are not free from such lie and fraud.

Therefore, Leninist bosses has been trying to ignoring and denying the historical role the revolution capitalist class and thereby they have been trying to ignoring not only the facts of colonial policy, but the politics of capitalist globalization by ending the colonial policy. Thus, they has introduced a theory of new colonial policy to fight against some states but not practically but in paper to hide the rule of the global syndicates including IMF, WTO etc to found a state of state capitalism by occupying the state power by cheating, confusing and

dividing the workers of the world to protect the moribund capitalism.

Noted, the IMF has failed to avoid the recession -the noncurable disease of capitalism, by the existing conditions of capital- (1) Reproduction; And (2) Circulation. On the other hand Leninism-the politics of state capitalism has not only failed but rejected by the politics of capitalist globalization.

Therefore, falsification of bogus theory of new colony has proved by the reality of the moribund capitalism.

Thus, working class will come forward to fight the reactionary capitalist class globally to vanish the capitalist class for their emancipation.

#### (1)Exploiter and exploited

Working class as a whole is exploited by the capitalist class- a class of exploiters, thereby capitalist class as a whole is not only corrupt but also fraud, cheat and lair. Sure, working class is not only deprived to get proper information but the capitalist class has been trying to confusing, provoking and instigating the working class by propagating false, bogus and fabricated stories and information about the capital, capitalist society, role of wage slave in commodity production, antagonistic

relation between capitalist class and working class, class interest, class identity, class struggle, history, politics, science etc to protect the capitalist interest and thereby to avoid the historical consequence of capitalist society by communist society by the working class alone.

But, capital-the fruits of corruption of capitalist class by exploiting the working class is not false or bogus, rather so hard reality, produce by working class alone. So, capital is the cause to know it along with all relations and conditions of it.

Thus, the secret of capital has discovered by Marx. Thereby, science of socialism by discovering the code of capital and the code of society for change has discovered by Marx.

Therefore, the capitalist class has frightened by the effects of the science of communism including the formation of the First International to unite the workers of the world to fight against capitalist class globally to defeat the capitalist class for communism -the historical consequence of capitalist society.

Thus, the reactionary capitalist class tried to distorted, disfigured the science of communism by distorting and disfiguring the writings of Marx and Engels by Lenin and Leninist bosses to create confusion even about socialism

by founding a state of state capitalism at Russia and then China, Vietnam, etc but claiming socialist states to protect the decayed capitalism. But, failed.

However, there is no communist party- a global party of working class to inform the working class the real facts about capital, capitalist exploitation, capitalist society, capitalist class, role of working class in production and to change the capitalist society by communist society by a communist revolution by working class alone for the emancipation, to unite the workers of the world to fight against capitalist class to vanish it by vanishing the capitalist class.

So, a communist party is a historical necessity to do the same by unmasking the ugly faces of capitalist bosses including Lenin and Leninist bosses- an expert group of lairs, cheaters and frauds.

# On Discrimination among the human being

Not color but the private property is the cause of discrimination among the human being.

No color is the cause of exploitation or an exploiter is not an exploiter because of his color ,or an exploited is not an exploited because of his color.

Sure, a buyer of labour power of a seller of labour power is exploiter, and thereby a seller of labour power is exploited.

Therefore, contradiction, conflict and antagonism between the exploiters and exploiters is quite natural and justified.

But, the contradiction, conflict and antagonism by color, or sex or nationality, or ethnicity or language is nothing but an artificial creation by the exploiters to confuse and divide the sellers of labour power of the world by the color, sex, ethnicity, language etc to protect the capitalist mode of production.

But, unity of sellers of labour power of the world is the first condition for the emancipation. Thus, any such policy to divide the sellers of labour power of the world is the cause of loss of the interest of sellers of labour power of the world.

But, the disabled capitalist class has been using such nonsense policies to divided the sellers of labour power of the world by country, nation, sex, language, religion, creed, color etc rubbishes. Sure. the capitalist society has become old before publication of the manifesto of the communist party by Marx and Engels, 1848.

Yet the reactionary capitalist class is not free to do the nonsense not only to hide the crimes of capitalist class against working class but also creating an artificial contradiction and antagonism among the sellers of labour power of the world by ignoring and denying the class interest and class identity of working class to protect the moribund capitalism.

No doubt, a seller of labour power is a seller of labour power to sale it to live. Thereby, the identity of a seller of labour power is only a seller of labour power. Thus, any artificial identity of a seller of labour power except the real is not only the cause of loss but also suicidal for him.

So, any step by ignoring or denying the class interest and class identity by practicing such poisonous policies by working class is not only cause of loss but also suicidal for the working class.

Therefore, recent riots on the basis of the color at USA instigated and provoked by the bosses of capitalist interest is so harmful for the interest of the sellers of labour power of the world.

Thus, there is no option except rejecting the all poisonous policies created by the capitalist class to confuse and divide the sellers of labour power of the world by the sellers of labour power of the world to fight against capitalist class to vanish the capitalist system by communism- a society free from discrimination and disparity even by color, sex etc nonsense.

So, its the unavoidable condition to make sure the identity of working class-the producer of capital is one and only working class-the seller of labour power by working class to fight against capitalist class for the emancipation.

#### **About state**

A state is a dangerous weapon of the ruling class to oppress and overpowering the slaves and oppressed to serve and protect the parasitic interest of the ruling class. Though, the cost & expenditure of state in this capitalist society is nothing but a part of surplus-value, produce by the wage slaves-the producer of value, therefore, surplus-value that is capital-the unpaid labour.

A government is nothing but a managerial body to manage the state affairs to manage the capitalist system in this capitalist society- a society for the interest of the exploiters of the world. Local government is the lowest unit of the state.

Noted, executives of states and the office bearers of the government are nothing but the mangers and officials of ruling class to serve the interest of exploitative capitalist class by managing the capitalist system.

Disappearance of all such weapons including state of the exploitative capitalist class is the condition for a society free from exploitation thereby the that new society but free from exploitation is communist society win by only revolutionary working class.

No doubt, a communist have no interest separate and apart from the working class. Working class have no interest except fight against capitalist class by fighting against the wage slavery to vanish the wage slavery to disappear the capitalist class for their emancipation by the communist society- a society of all of the world, where everyone is equally dignified thereby communist society is a classless society, thus, there is no weapon to rule any class.

So, communism is a society without state and politics.

Noted, the age of human being is not less than 2 hundred thousand (one fifth of a million) years but the age of

class in human being is not more than 5,600 years, thereby the age of class weapons including politics and state are not more than 5,600 year, though the age of modern state with police force at Greece is not more than 2,600 years.

Moreover, no such class divided society is permanent, thereby we are living not at slavery society but capitalist-the number of it among the class divided societies is 3 but it is not free to creating all required pillars and tools to disappear by the working class -the product of capitalist class.

Thus, the historical consequence of capitalism is nothing but the disappearance of capitalist society.

So, capitalist class will disappear along with all weapons of it including state.

#### On Earthquake

Some researchers, engineers and experts has claimed that the waste effects of the earthquake is not only by the earthquake but manmade. They claimed that the construction of unplanned and earthquake non-proof buildings, unplanned development of cities, connections of gas by pipe, open electric line etc are the major

factors for the huge disasters of earthquake, though the earth quake is a natural disaster.

No doubt, mentioned action and activities by man has been increasing the bad effects of natural disasters including earthquake.

But, are the policy maker and implementing authorities of such bad things all men? No.

Or, is the working class is responsible for such actions and activities the causes of extra effects of natural disasters or have there any role of working class to make such nonsense policies to increase the rate of waste effects by natural disasters including the earthquake? No.

Undoubtedly, the capitalist class- a greedy class for capital by exploiting the wage slaves and the slave of capital is the ruling class in this capitalist society is totally responsible, liable and guilty for such nonsense actions and activities to increase the rate of waste effects of natural disasters by creating the said things to increase their volume of capital by exploiting the wage slaves by buying the labour power of the wage slaves to produce anything what is profitable things for the capitalists.

Certainly sure, as a slave of capital –the greedy capitalist class can do anything including war, killing etc for their capitalist interest.

In fact, exploiter and greedy capitalist class is one eyed and blind to their capitalist interest. Thus, the capitalists cannot think openly, properly and scientifically even about the waste and bad effects of their greedy works including the death and lose of themselves too by such 'man made' in fact extra and increased effects of natural disasters but made by the capitalist class.

Experts has been suggesting to improving the condition of existing structures to decrease the rate of damages and lose of lives by the said waste effects of natural disaster by taking some policies to modify and developing all these said things including housing, gas and electricity supply; and to face the natural disasters by taking some advanced measures and steps, what already has taken by some leading countries including USA.

Such suggestions are not bad.

But, will such suggested steps and measures by the experts will reduce the miseries of working class equally with capitalist class by the natural disasters? No.

Or, will such actions and activities on the basis of such suggestions will defeat the nature by winning the nature by knowing the code of nature, or have there any effort to know the code of natural disasters including earthquake? No.

Noted. capitalist class is not the owner of nature and natural resources to use such things as their wishes.

Undoubtedly, the whole human being is from the nature. Therefore, every one of the world are fit and eligible to use the nature and natural resources for the well being of all members of the human being by winning the nature by knowing the code of nature to avoid the natural disasters to make sure the security and safety of all of the world.

Sure, working class will win their world by defeating the slaves of capital-the greedy capitalist class by a scientific society where everyone is scientist to work to know the code of nature to win the nature for the well being of all members of the human being.

#### On Earthquake

There are so many views including 'sin' even by the having sex of out of marital relation is still exist for happening the earthquake.

In fact, the exact causes of earthquake are not yet known. Therefore, remedy from the earthquake is still unknown. Though, there are some measures has suggested to get relief from the effect of the earthquake.

But, is it impossible to know the real causes of earthquake thereby the remedy of it to make sure the safety and security of the human being by defeating it? No.

Have there any meaningful effort to know the real causes and remedy of the earthquake- a dangerous thing for living organism, specially for the normal life of human being? Not seen. Or, have there sufficient budget to know the exact causes of earthquake? No.

But, a meaningful and effective effort is not only important but also unavoidable to defeat the natural disasters including earthquake.

On the other hand war is not only unnecessary but a dangerous thing for human being.

But, the cost for military sector of the world for war was \$1,776.0 billions that is 2,3 % of the GDP of the world, 2014.

There are so many class weapons and tolls including UN. IMF. state, political party etc to rule and overpowering the working class to exploit them to accumulate capital for the sectarian interest of the capitalist class.

And only the cost and expenditure of states are not less than 29% of the GDP of the world in the last year.

Undoubtedly, capitalist class as a whole have no interest except their sectarian interest for capital. Therefore, capitalists are not interested to invest except return their interest by increasing the volume of capital.

Therefore, the exploiter capitalist class is free from the meaning full responsibility to make and increase the well being of the human being thus, the cruel and vile capitalist class is free from taking effective and meaningful steps to make sure the security and safety of the whole human being by knowing the code of nature to win the nature to defeat the natural disasters including the earthquake.

Certainly sure, not any class weapon or toll but a scientific society - a society free from class thereby free from all nonsense class tolls and weapons including UN. IMF etc is not only important but also necessary to make sure the safety and security of human being to win the nature including natural disasters including the earthquake.

Moreover, so many class weapons including states are the barrier and obstacle even to operate the relief and salvage operation to rescue and safe the victims of the natural disasters including earthquake by the unified effective and meaningful effort of the whole human being. But, earthquake, tsunami etc do not care any political border.

Therefore, solution of such problems by natural disaster is not possible in one country alone by any country.

Thus, a global effort by the whole human being of the globe but free from political division by states -the dangerous class weapon is necessary to defeat the natural disasters including earthquake.

So, there is no option except vanishing the capitalist society - a global society but divided by the so many political border by states and classes by a classless thereby stateless thus a global society free from politics and political border so, a scientific society that is communist society to make sure the security and safety of whole human being.

### Existence of the reactionary capitalist class is not because ....

The reactionary capitalist class has lost its ability to rule the capitalist society before the manifesto of the communist party has public,1848, written by Marx and Engels. But, yet the disabled capitalist class is not only exist but also playing ruling part to dominate the working class to exploit to accumulate capital by paying wage.

Because, the revolutionary working class is not united to fight against the reactionary capitalist class to disappear.

The moribund capitalism has been suffering from so many problems and crisis under the rule of the IMF.

Thus, the reactionary capitalist class has been suffering from insanity by the huge load of huge stocks that is recession.

So, the reactionary capitalist class has been committing so many crimes against humanity including militarization of politics and war.

In spite of that the reactionary capitalist class is still exist.

Because, there is no communist party - a party of working class to unite the workers of the world to fight against capitalist class by fighting against wage slavery to vanish the wage slavery system by vanishing the capitalist class by vanishing the selling and buying system by vanishing the private property with all rights of inheritance by a communist revolution- a global but ever biggest event, imposed by the reactionary capitalist

class by the revolutionary working class alone to win communism- the historical consequence of capitalism.

Therefore, a communist party is a historical necessity to do the same job for communism.

# No difference between the both disciples of Jesus and Lenin on birthday celebration:

What is the difference between the disciples of Jesus and Lenin when they both groups are holding the slavery concepts to worship to both of them even by celebrating their birth days as considering them as so great or extraordinary?

But, all are equally dignified in communism- a society of liberty and freedom of all thus, there is no room for any extra-ordinary in communism thereby communist society is free from all such nonsense concepts of slavery to worship.

Jesus had never thought about a society where there is no master or great man or he never claimed that he was for communism.

But, Lenin has claimed that he was a communist.

Though, Lenin had founded a state of state capitalism where he was chief executive to maintain it to exploit the wage slaves to accumulate capital, and thereby he was a so-called great leader to lead the such nonsense absolute dictatorship by ending the even bargaining power of the sellers of labour power-the wage slaves of his state, in fact he was the gang leader of the exploiters.

Undoubtedly, no master, no lord were free from exploitation for their parasitic interest but they have to used to claim that they were the extra-ordinary thus, it's the task of slaves and others to worship to the masters and lords to live by the grace of them.

J.Stalin - a disciple of Lenin has claimed that Lenin was a so great and extra-ordinary one and USSR was not founded if Lenin was not born therefore, Lenin was a master by Stalin too. He was Stalin who has re-introduced the Pyramid culture of Egypt to protect the dead body of Lenin by a huge cost- a part of surplus-value, produce by the wage slaves.

Sure, Stalin has claimed that Lenin was the guide and savior etc nonsense of the people of the USSR by the national anthem, introduced by Stalin. Therefore, disciples of Lenin has been practicing the slavery culture of Egypt introduced by the Pharaoh Dynasty.

#### Worship and slavery

He who is not free from worship to any hero is not free from the nonsense concepts of slavery.

He who is not free from worship to any cult is not free from the nonsense concepts of slavery.

He who is not free from worship to any leader is not free from the nonsense concepts of slavery. He who is not free from worship to any master is not free from the nonsense concepts of slavery.

He who is not free from worship to any man is not free from the nonsense concepts of slavery.

He who is not free from worship to any one is not free from the nonsense concepts of slavery.

Masters- the founder of slavery society has introduced the customs of worship to control, oppress and overpowering the slaves for their sectarian parasitic interest by denial the dignity of human being by dividing the human being as master and slave. Capitalists are not free from such nonsense division among the human being by introducing the wage slavery to exploit the wage slaves to accumulate capital-the unpaid labour.

All exploiters that is masters, lords and capitalists have been trying to create some artificial but political concepts, ideas and ideologies that the slaves cannot live without them. Therefore, loyalties of slaves to the exploiters is the condition to live. Thus, masters, lords and capitalists are not only extra-ordinary but they are so great to allow the slaves including wage slaves to live.

But, the reality is that no exploiter can live without slaves, because, exploiters do not produce anything except such nonsense ideas, ideologies, creeds, concepts etc those are nothing but ill motivated lie and a combination of fabricated and false stories but political propaganda about the earth, life, production, value, capital, property ship etc for the interest of the private property holders thus, these ideologies in fact, politics is based on the private property -the cause of all evils to live a luxurious but parasitic life by the production of slaves.

Undoubtedly, wage slaves have no need any capitalistthe exploiter of capitalist society to live; Because, wage slaves are the producer of value, therefore, surplus- value that is capital.

Even, Spartacus - a slave along with other slaves has proved that they can live without masters by their historical revolt.

Sure. working class will win a society by vanishing the capitalist society, where there is no slavery thus, there is no parasitic people- the master, hero, leader, guide, or extra-ordinary to teach, or lead or guide or save any one because, there is no slave but all are equally dignified in communism- a society of liberty and freedom of all.

So, all such worship is unthinkable in communism.

But, Lenin, Trotsky, Stalin, Mao. Ho-Chi, Kim, Che etc Leninist bosses?

None of them is free from cultism. Even, Mao was the great teacher of the China nation and KIM -the founder of Kim Dynasty is the immortal leader, guide and savior of the people of DPKR by the constitutions of their respective state but Leninist states are state of state capitalism.

Therefore, no Leninist is communist and Lenin was a liar.

# CPI(M) IS A SO REACTIONARY PARTY

He who say that the CPI(M) is a party of working class by denying the fact, even ignoring its symbol along with scythe just to confuse the workers or to win in talking by any cost, is he a liar or cheater or fraud?

Was the Bolshevik party a party of working class to unite the workers of the world to fight against capitalist class by fighting against wage slavery to vanish it by a communist revolution by the working class alone for communism? No.

The CPI(M) is a Leninist party thereby the origin of it is the said Bolshevik party, thus, the CPI(M) is not a working class party, even by the origin of it.

Peasants are not only conservative but also reactionary and working class alone revolutionary in this epoch, by the description of the manifesto of the communist party.

No doubt, such formulation about the class role in this epoch is quite right and ok .

Noted, the fruit of union of a horse and ass is nothing but a mule. Therefore, the combination of reactionary peasants and revolutionary working class is nothing but a so reactionary force.

Undoubtedly, the CPI(M) is a party with a combination of peasants, nationalists, workers etc.

Therefore, the CPI(M) is nothing but a so reactionary party to serve the capitalist interest by exploiting the wage slaves to develop the so-called national economy by increasing the volume of capital-the unpaid labour by supporting, defending and protecting the constitution of India - a constitution for capitalist interest, by the terms and conditions of the registration as a political party of India.

Thereby, the CPI(M) has manufactured a fake manifesto of the communist party by disfiguring the original by Marx and Engels to justify the Leninist misdeeds of it against working class.

In details: Leninists [CPSU-CPI(M)] has done fraud in translation of the manifesto of the communist party too, a book, published by the ICWF @ www.icwfreedom.org.

#### RAPE WILL BE AN UNKNOWN WORD IN SOCIALISM

Rape is a nonsense term but still exist, though there are so many politicians has been committing to reduce it.

But, are they against rape, if they are not against the private property-the cause of rape? No.

Are they for disappearing rape, if they are not for disappearing the private property-the cause of rape? No.

Noted. capitalists are not against the private property -the cause of all evils including hijacking, robbery, stealing, corruption etc nonsense but they are very much against robbery, hijacking, stealing, corruption to protect their private property.

Thus, such intention of capitalists are nothing except an funny effort and failed game.

Because, the capitalist private property is nothing but the fruit of corruption, because capital is unpaid labour.

Similarly, politicians mainly masters, lords etc has introduced the law and rules against rape or having sex out of marriage not because of that they were against rape rather, they were very much for a virgin to rape in bed room by chained girls by the chain of the private property to protect their property by their legitimate inheritances by declaring that not women but men are only active partner to do the same job to reproduce the inheritance by the choice of male in any time; Even a husband have no need to consider the ill health condition of his wife- a female but a sex slave owned by a male.

Still, there are politicians to do the same. How funny!

Sure, politicians are interested to do politics with rape to gain their political interest thus, they do not hesitate to politicize the rape for their political interest, but they are not against the private property to vanish it by working class alone. Really sad.

Undoubtedly, working class will vanish the capitalist private property.

Therefore, the very nonsense term 'rape' will be an unknown word in socialism, win by the working class alone.

## POVERTY IS UNTHINKABLE IN SOCIALISM

No country of the world is free from poverty- an artificial creation of the capitalist class.

Per head average income of the world population was not less than \$ 12,500 in the last year. But, 14.5 % of the total population was bellow extreme poverty line that is they had no ability to spend \$1.2 per day per head by the report of the World Bank.

But, World Bank is working for a poverty free world since its birth,1945.

There were so many politicians in this world those who committed to make their respective country free from poverty. But, failed.

The rate of poverty in USA- 15% (2012); Japan-16.1% (2012); Germany-19.9% (2011); France - 13.5% (2010) and UK-5.5% (2010).

These are the 5 big members of the World Bank by their share.

In spite of that there are so many politicians and economists those are yet committing to free their respective countries from the poverty!

#### How funny.

Noted, there are sellers and buyers to produce commodity to accumulate capital by paying the wage to the wage slaves-the sellers of labour power and the producer of capita in capitalist system. Therefore, capital is nothing but the unpaid part of commodity or unpaid labour by paying wage to the sellers of labour power by the buyers of labour power-the capitalist class . Thus, wage slaves are essential and unavoidable factors to maintain the capitalist system by the capitalist class.

So, if there is no seller of labour power then who will produce capital, if there is no poverty? Or who will produce the capital to run the capitalist society?

Sure, all poor are not sellers of labour power but the sellers of labour power are in general poor, because they have no means of production, transportation and communication to live. Thus, they are sellers of labour power to produce capital.

Really, if any one have the ownership of any means of production, transportation and communication, he is at least rich, then why he will go for sale his labour power?

On the other hand capital cannot exist without reproduction and circulation.

So, if there is capital, there is wage slavery and if there is wage slavery there is poor. Thus, there is no scope to be free from poverty in capitalism.

Thereby, Capitalist bosses, politicians, economist etc are not only liar but also fraud and cheat even about poverty.

But, the term poverty is unthinkable in socialism, win by working class alone by defeating the cheater and liar capitalist class.

#### Girls are not commodity but yet treated:

Girls are not commodity to sale, but yet treated, because there is private property -the cause of all evils.

Girls are nor sex doll to use, but yet treated, because there is private property-the cause of sexism.

Women are not property to belong or owned by males, but yet treated, because there is private property- the cause of all nonsense.

Women are not sex slave of male but yet treated, because there is private property- the cause of all slavery including wage.

Women are not reproductive machine to produce the inheritances for husbands, but yet treated, because there is private property to protect it by the legitimate inheritances- the cause of all violence even against women including rape.

Women are not lower caste but yet treated, because, there is private property- the cause of all disparity and discrimination among the human being.

Women are not weakened but yet treated, because there is private property- the cause of all such nonsense political concepts, ideas etc but unscientific about the human body and functions of human body.

Women are not the cause of crime, but yet treated, because, there is private property - the cause of all crimes including killing, rape.

Therefore, if there is no private property, there is no reason to consider the girls and women as commodity, sex doll, sex slave, reproductive machine etc nonsense. Thus, there is no reason to commit crime and violence even against women including rape, in a new society where there is no private property.

So, there is no reason to exist any such disparity and discrimination among the human being even by sex, in a society where there is no private property.

Rather, all are members of a human being with full sense of humanity in a society where there is no private property.

Therefore, all are free to do anything including love and union, in a society where there is no private property.

Thus, there is no option except abolition the private property to be free from all nonsense concepts, ideas about girls and women as they are sex slave or property of males etc.

So, the abolition of private property is unavoidable condition to free the whole human being from such crimes including rape, violence.

Undoubtedly, the working class- the producer of capital, will vanish the private property for the emancipation.

# <u>16-04-15.</u>

# **Producer of working class**

Working class is not the product of a nation or country, but its the product of capitalist class- the exploiter of it by paying wage to produce of commodity to accumulate capital.

Thereby, workers have no nation and country, but they have a world. Therefore, not any nation or country but the capitalist class is the enemy of working class.

Thus, the antagonist relation of working class- the seller of labour power is not with any nation or country but with capitalist class- the buyer of labour power.

So, the fight of working class is not with any nation or country but with capitalist class -based on private property, the cause of all evils including the miseries of working class to win their world for the emancipation of workers of the world by defeating and vanishing the capitalist class.

But, every Leninist party have a nation and country to love and confirm the self-determination of right of nation and develop the national economy by founding a state of state capitalism by exploiting the wage slaves-the producer of capital.

Therefore, no Leninist party is the party of working class to unite the workers of the world to fight against capitalist class to win the world by defeating and vanishing the capitalist class for a society free from exploitation.

So, No Leninist Party is a communist party.

We have a book as; Lenin Cheat & Betraying Marx So IMF the World Lord and.... published by the ICWF, @ www.icwfreedom.org. Undoubtedly, any one including Leninist bosses or blind to Lenin or supporter of Lenin have right to defend themselves by proving falsification our findings, views on the basis of SCIENCE OF COMMUNISM-discovered by Marx or marking the false records used by us to say Lenin as a fraud and

But, no one have right to say me even a "mad" or "agent of CIA" or a "NGO" lord etc nonsense without defending Lenin properly by proving our ill motivated lie, or false statement against Lenin as a cheater and betrayer.

Therefore, if any one can say such rubbishes against us without proving our ill motive to branded Lenin as cheater is not only use of slang words against us rather, use of such nonsense terms is defamatory. Thanks to all.

# SOCIALISM IS UNAVOIDABLE AND INEVITABLE

Capitalism is a society of numerous commodities.

Therefore, capitalism is a society of selling and buying to reproduce commodities to accumulate capital.

Thus, a seller of a commodity have no need to look or search the nationality, ethnicity, religion, language, color, sex etc of a buyer of his commodity.

Because, he have no scope to exist as a seller of a commodity without selling his commodities. Thus, selling of a commodity is the target of a sellers not only to survive but also to exist as a seller.

So, a seller have no option to look or search the nationality, ethnicity, religion, language, color, sex etc of a buyer of his commodity.

In fact, a commodity have no identity except a commodity to use by any one irrespective of identity of its user by the condition of the production of commodity.

So, a owner of a commodity have no identity except a owner of a commodity to exist by making sure the sale of his commodity.

But, the capitalist class- the sellers of commodities, produce by wage slaves, has been trying to spreading the ideas, concepts etc about patriotism, nationalism, racism, sexism, etc nonsense to increase their sale rate to the targeted groups gripped, blinded and chained by such ideas, concepts to avoid the completion with other sellers of same commodities from other places or identified by sex, color, language, religion, nationality etc.

Such steps to create a hateful situation among the buyers of commodities by the concepts of nationality, ethnicity, religion, language, sex, color etc is not only self-contradictory but also the limitation of the capitalist class as a whole to exist as capitalist.

On the other hand wage slaves are sellers of their commodity- the labour power, thus, they have no scope to look or search the identity of the buyers of labour power by nationality, ethnicity, religion, language, sex, color etc to exist and live as wage slave.

Because, they have no means of production and of exchange thus, they have no scope to live without selling their labour power- the commodity of them.

Therefore, holding any such concepts to branded by the nationality, religion, language, color, sex etc by any wage slave is not only cause of lose but also dangerous, even to some extend its suicidal for him.

But, capitalists bosses including Leninist still succeeded to fall down and gripped the wage slaves-the sellers of labour power in such emotional but false ideas, concepts of nationality, religion, language, sex etc.

Thus, a wage slaves but provoked, gripped and chained by such emotional but dangerous and suicidal concepts for him is the cause of losing even his bargaining capacity to sale his commodity by the cost of product.

Therefore, miseries of such types of wage slaves provoked and chained by the such dangerous ideas, concepts etc has been increasing gradually.

As a buyer the capitalist class is gainer by using the any policy which is useful and effective to divide the wage slaves of the world.

Leninism- the politics so-called right of selfdetermination of nations and state capitalism is so helpful to help the capitalist class to create such dangerous situation and conditions for the wage slaves to loss even the class identity of wage slaves as wage slave.

In spite of that, the capitalist bosses of the world has compelled to accept the politics of globalization to make sure the free movement of commodity and capital-the unpaid party of commodity all over the world by founding some global syndicates including IMF, WTO etc to make the market free for commodity to sale. But, as a ruler of the capitalist society -the capitalist bosses yet not agreed to free the whole world market for the sellers of labour power to bargain freely with the buyers of labour power.

Thus, there are so many states so, there are many boundaries to limit and restrict the movement of wage slaves.

Such steps are not only self-contradictory but also limitation of the disabled capitalist class.

Therefore, there is recession that is stock of commodity by the such limitation and self-contradiction of the disabled capitalist class and moribund capitalism.

Thus, the IMF has failed to protect the capitalist class to survive and exist by selling their commodities, thus, there is recession- the non-curable disease of capitalism by the existing conditions of capital- (1) Re-production; and (2) Circulation.

The consequence of repeated recession that is the outcome of such self-contradiction and limitation of the reactionary capitalist class and moribund capitalism is the socialization of means of production, transportation and communication by ending the production of commodity. And that is SOCIALISM.

Thus, there is no option except socialism by the historical consequence of so waste capitalism by the existing conditions of capital.

So, socialism is unavoidable and inevitable.

# On making question to everything

It's not bad though there are so many restriction on making question to know the facts even about the facts about birth rather, it's so important to raise the question to every thing and every one to know the fact to live in reality to practice science-the code of creation, to win a scientific society, where there is no unscientific concepts, creeds etc, for a scientific life that is a life to work freely to know the code of nature, to realize nature, to win nature for a ever green life full with full sense of humanity thereby every one is free to do anything including love and union and that is the freedom and liberty.

Therefore, a lover of freedom and liberty have no option except to raise the question to every one and every thing to know the reality to fight against all unscientific concepts, creeds, ideologies including Leninism-the corruption of science of communism, discovered by Marx.

Certainly sure, a communist have no option except practicing the science to fight against all existing concepts, ideas, ideologies, customs, rules, traditions, cultures etc introduced by the masters, lords and capitalists to chain the slaves including wage slaves-the producer of capital but not owner of the means of production and exchange for their parasitic interest to disappear all such rotten rubbishes including various functions of various celebrations for various days of various masters, lords including new year by the united action of workers of the world for the freedom and liberty of all by a communist society.

# <u>13-04-15.</u>

# (2) On New year Festival

Celebration of new year's day as a festival by various functions including fair is more or less, cultures, customs and traditions all over the world introduced by the parasitic section of the human being for their parasitic interest even to popularize, spread and increase the mythical concepts about their masters and lords.

Undoubtedly, no new year day is more or less important than a day of 365 days -the orbiting time of the Earth, but active by the Sun light.

Therefore, there is no reason to be good by celebrating the new year day. Even, there is no effect in the orbiting time of the Earth to get some more Sun light - the source of all earthly lives in this particular day by celebrating such functions.

But, such functions are so useful and effective to spared the unscientific concepts about the good and bad of a human being by ignoring the real cause -the existing conditions of the society -ruled by the parasitic section of the society.

Sure, capitalist class as a whole -the last and final parasitic class of the history is benefited by celebrating such non-festival days as festival in various way even by increasing the amount of selling their commodities to earn more money. Moreover, capitalists has been gaining the high rate of political interest by observing such functions to create a false and foul but emotional nationalist concepts among the wage slaves to create an artificial unity to fight against an artificial but manufactured unseen enemies to get better lives in this capitalist system-the cause of miseries of the working class by denying and ignoring the class identity and class interest of working class.

But, facts remain that the capitalists are exploiter thereby, they are not friends of wage slaves-the exploited class thus, a wage slaves have no scope to unite with his exploiter except losing his interest. Even, such friendly unity is not only harmful but also suicidal for the working class. But, such cultures, customs, traditions to celebrate the new years are so effective to influence, confuse the wage slaves to fall down in the Ocean of mythological concepts by creating more and more harmful and suicidal conditions for the wage slaves of the world. Therefore, the capitalist class has been introducing so many events to increase the effect of such poisonous environment to kill and damage the class concepts the wage slaves as wage slaves to exploit them more safely.

Sure, wage slaves- the product of capitalist class to produce capital have no nation and country; but they have a world to win by losing their chain for their emancipation. Certainly sure, wage slaves of the will do so by their united action by rejecting all such nonsense.

Noted, not all but, there are so many calendar years has been counting from the various days including birth, migration etc dates of some masters, lords to make sure their political authority of concern masters and lords by memorizing them by using the respected calendars to gripped and chained the people by the slavery concepts. The calendar of the DPRK has been counting from the birth day of the Kim, the founder of the Kim dynasty- a waste state of the world.

Bengali new year celebration has been considering as one of the most important festivals by the reactionary capitalists including Leninist parties.

But, the Bengali calendar has introduced by the Mogal Emperor Akbor, India to maximize the revenue of his Government by collecting the rent and tax from the tenants of Bengal by the last day of the Bengali year. Therefore, beneficiaries form the tenant system were so pleased by gaining the huge money to expend by creating the huge miseries of the tenants Thus, the exploiters were very happy and interested to celebrate the new year's day as a festival day by various functions along with fair to expend by various way including gambling.

Emperor Akbar was not a Bengali speaking people even his origin is not from Bengal, rather his ancestor Babar was from the outside of the India and he was an invader and conqueror of India.

Sure, capitalists including Leninist bosses of both the Bengal has been claiming that they are for Bengali nationalism but they has been practicing the cultures, customs, festivals etc, introduced by even not an Indian by origin.

How funny!

Noted, it's not by ignorance of them but an ill motivated bad effort to serve the capitalist interest.

# <u>13-04-15.</u>

# (1) On Bengali new year festival

The Mogul Emperor Akbar, India, has introduced the Bengali calendar to maximize the revenue of his government by collecting the tax and rent from the tenants by targeting the main harvesting season of crop, mainly paddy.

The last day of the Bengali year is the last date to pay all dues by the tenants. Therefore, the every last day of the Bengali year was a good day not only for the Emperor of India but also for the collectors of rent and tax to earn.

But, what was the condition of the tenants? So sad, very bad.

So many of them has left their birth land at night, because of failure to pay the rent by the last date of the year. Torture, penalty, punishment etc rubbishes were regular things for the tenants by the collectors and officials of the Emperor.

Noted, Assam, India was not the land of Bengali speaking people but still there are so many Bengalese. Because, their ancestors has migrated to Assam to save their lives from the brutalities of parasitic people -the tax and rent collectors and officials of the Emperor including Emperor himself.

Parasitic people has introduced the new year celebration to enjoy and expend the foul incomes without labour by different way including various fairs.

Nothing change in everyday lives of the wage slaves by any new year.

In fact, the first day or last of a year is not the determining factor for the wage slaves.

But, the capitalist class has been trying to confuse and provoked the wage slaves to celebrate the new year's events for the betterment of their lives.

The capitalist has been trying to selling a lot of commodities by arranging so many functions to celebrate the new years day.

Undoubtedly, miseries of wage slaves will not disappear except the disappearance of wage slavery along with all nonsense including such celebration of new year festivals and all cultures, customs and traditions introduced by the parasitic section of the society for their sectarian parasitic interest.

Sure, wage slaves of the world will win their world by vanishing wage slavery along with all such rubbishes including celebrating the new year's festivals.

#### Was Lenin a Communist?

Was Lenin against man rule by man? No.

But, communism is a society free from rule man by man.

Was Lenin was for ending rule man by man by working class? No.

But, socialism is a society win by working class alone, where there is no rule man by man.

Was Lenin against political power, politics and political party to disappear all these class weapons to vanish these by a communist revolution by the working class alone? No.

But, communism as a classless society is free from all such class weapons to rule and oppressed.

Noted, politics is nothing but a organized power to oppress and overpowering the others, introduced by the masters for their parasitic interest and inherited by the capitalist class- the last and latest parasitic of the history, based on private property.

The age of human being is not less than 2,00,000 years but the age of private property, class, class rule, class oppression, class weapons - ideology that is religion-the politics of masters, kingdom, king -the supreme politician in his kingdom etc are not more than 5,600 years.

But, capitalism has been creating all conditions to destroy the private property by the existing conditions of capital, thereby, working class- the product of not any nation or country but the exploiter capitalist class will vanish the private property along with all nonsense, originated from the private property.

Was Lenin against the capitalist mode of production to vanish it by a communist revolution- a global event, imposed by the reactionary capitalist class for the commune/ social/ common ownership of the means of production, transportation and communication? No.

But, socialism/communism is a society with commune/social/ common ownership of the means of production, transportation and communication to produce, transport and communicate all required social necessities by the all able bodied with an association of

all of the world to coordinate, transport and communicate all required things to the all of the world.

Was Lenin against all nonsense and rubbishes including ideologies, originated from the private property for a scientific society, win by only working class by disappearing the capitalist class, currently suffered by serious and dangerous insanity? No.

But, socialism/communism is a scientific society thus, its free from all nonsense unscientific things including Leninism-the corruption of science of communism, discovered by Marx by discovering the code of capital of and the code society for Was Lenin for a communist revolution- the culmination of contradiction of sellers and buyers of labour power of the world to end the exploitation -the cause contradiction between the capitalist class and working class as sellers and buyers of labour power to produce commodity to accumulate capital? No.

Rather, he founded a state of state capitalism by a planed military coup, where the rate of exploitation was much higher than USA.

But, a communist society is the outcome of the contradiction of sellers and buyers of labour power of the world.

Was Lenin has served the interest of working class? No.

Rather, he served the capitalist interest by his politics of state capitalism and so-called right of self-determination of nations to protect the decayed capitalism by confusing and dividing the workers of the world by nation, country and a false & bogus political but motivated propaganda about socialism, capitalism, communist party, communist revolution, communism etc.

Therefore, Lenin was a historical cheater and fraud by practicing the Leninist politics by committing huge crimes against the working class.

#### WAR

War is nothing but a well planed and well organized brutalities including killing, destruction, rape etc nonsense by the decisions of the politicians to gain or regain and protect the political power to serve and protect the parasitic interest to serve the interest of private property.

But, the working class will end the war by ending the parasitic interest by ending the politics by ending the private property with all rights of inheritance.

Sure, the workers of the Paris (France) has proved that they were not for killing and destruction though they were fall down and defeated in a civil war, 1871,by the capitalists class-the parasitic class of this epoch.

No doubt, professionals for war are nothing but a dangerous human tools as killers and destroyers, But, working class is the producer of value, therefore surplusvalue that is capital thus, the workers are not for killing

and destruction. Rather, working class as a whole for creation and protection.

History proved that the brutality including killing, rape, arson etc nonsense has introduced by the masters by the emergence of the private property. Thus, there was no arm forces to kill or destruction before the emergence of the private property. Thereby, the masters were the creator of the arms forces. Lords and capitalists are not free from the private property, therefore, capitalist class also not only inherited the arms forces rather capitalist class has been improving the arms forces along with most modern equipments and fire arms.

In fact, if there is arms forces to kill and destruct, then there is want of peace.

Even, if there is killer there is brutality thus, there is violence, rape, arson etc heinous jobs thereby, the human being is not free from barbarity, incivility etc nonsense in a society where there is lawful killers to protect the private property – the cause of all nonsense brutalities and cruelties.

So, there is no option except abolish the private property along with all weapons and tolls including the arms forces or lawful professional killers for the uninterrupted peace and a civilized, polite and lovely human being with full sense humanity.

In fact, no one is with full sense of humanity where there is private property along with all nonsense class weapons and tools including arm forces, political party etc to serve and protect the interest of private property

Therefore, he who is not against the private property- the cause of war is not against the war thereby, he is not against killing, destruction, rape, arson etc vile jobs, thus, he is not for uninterrupted peace, so he is not for love, politeness, civilization, and a human being with full sense of humanity.

Thus, only the working class is only the hope for the best future to make sure a war free thereby killing, violence, rape etc nonsense free world with a civilized, polite and lovely human being with full sense of humanity.

#### On Political Parties of India

BJP, Congress, SP or BSP, TMC etc political parties of India are for wage slavery to

accumulate the capital by exploiting the wage slaves by paying wage for their labour power to produce commodity.

CPI(M), CPI, RSP, FB etc left parties of India are not against wage slavery to fight it to vanish for the emancipation.

Rather, Leninist parties and fractions of Leninist camp of India are also for capitalist development in India by exploiting the wage slaves.

Noted, capital is nothing but the unpaid part of commodity or unpaid labour. So, there is no scope to accumulate capital except exploiting the wage slaves.

Therefore, there is no difference among the mentioned political parties of India to exploit the wage slaves for the capitalist interest.

BJP, Congress, SP or BSP, TMC etc political parties are for supporting, defending and protecting the constitution of India - a constitution of capitalist interest to protect the moribund capitalism.

CPI(M), CPI, RSP, FB etc left parties are also committed to support, defend and protect the constitution of India by the terms and conditions of registration of these parties.

Therefore, there is no difference among the mentioned parties to serve the capitalist interest to protect the moribund capitalism by exploiting the wage slaves.

BJP, Congress, SP or BSP, TMC etc political parties are not against the rule of the IMF-the controller of the world economy, founded by the winners of the 2nd world war including Leninist boss J.Stalin by concluding the colonial policy to serve the capitalist interest globally to protect the moribund capitalism. And India was the founding member of the IMF.

CPI(M), CPI, RSP, FB etc left parties of India are not against the rule of the IMF to fight against all such weapons and tolls of capitalist class to vanish these for the emancipation of the workers of the world.

Therefore, there is no difference among the mentioned parties to serve the capitalist interest by not fighting against all weapons and tolls of capitalist class including the IMF.

BJP, Congress, SP or BSP, TMC etc political parties of India are for taking oath by the name of God to hold any constitutional post to serve the capitalist interest by exploiting the wage slaves.

CPI(M), CPI, RSP, FB etc left parties of India are not against such oath to fight for secularism what the parties has been claiming.

Therefore, there is no difference among the mentioned parties to spread the politics of masters and lords those who introduce the such custom and tradition of oath by practicing the such custom and traditions of oath.

In spite of that the mentioned parties has been claiming that there is difference between the left and rightist parties of India to confuse the wage slaves to divide them by the such false and bogus claim.

He who know at least ABCD about the Science of Communism- discovered by Marx, can not say that socialism is a society with exploitation. Rather, socialism- the historical consequence of capitalism is free from exploitation.

# Crime, Punishment and the Private property

Is punishment the cause of crime? No.

Then, why crimes will reduce by the punishment or have there any reason to do the same? No.

Is there any reason to reduce the crimes without reducing the cause of crime? No. Have there any record of disappearance of crime by practicing the policy of punishment for crime? No. However:-

Was there any proof of crime before practicing the policy of punishment? No.

Was there any policy to punish before introducing the law to rule the others for the sectarian interest of parasiticism? No.

Was there any law to punish for violation of law before parasiticism? No.

Was there any parasitic people before law? No.

Was there any law before class and class rule? No.

Was there any class and class rule before the private property? No.

Therefore, is not the age of private property, class & class rule, law & violation of law that is crime and punishment same ?

Certainly sure, the age of the private property, parasiticism, class & class rule, law, crime and punishment is same.

Is not the cause of crime -the private property? undoubtedly, the cause of crime is the private property by the historical record of the private property, parasiticism, class & class rule, law, crime and punishment.

So, if there is no private property, there is no crime including killing, rape etc.

Thus, there is no punishment, if there is no crime.

Thereby, there is no punishment, no crime, if there is no private property.

So, crime and punishment is the opposite of a coin -

originated from the private property introduced by the masters- a class of parasitic people.

Undoubtedly, parasiticism is the crime against humanity. Therefore, no effort is useful & effective to reduce the crime except effort to vanish the private property to vanish the parasitic class - a responsible class for crime and punishment.

Undoubtedly, working class will do the same for a crime free society thereby a society free from punishment. Noted, a communist have no interest separate and apart from those of the working class as a whole.

But, Lenin?

He was for punishment even killing without trial.

Trotsky, Stalin, Mao, Ho-Chi, Kim, Pol Pot, Hoxa, etc no Leninist boss was free from punishment and killing. So, Lenin or above mentioned Leninist boss was never a

# **Exploitation is legal**

Exploitation is legal by the law of capitalist class- a class of exploiters.

Private property-the cause of all nonsense is legal by the law of capitalist class- a class of nonsense to do every nonsense to accrue and hold the private property.

Wage slavery-the cause all miseries of working class by exploiting them by the capitalist class by paying wage for accumulating the capital- the unpaid labour.

But, no Leninist party is against exploitation, or private property or wage slavery.

Sure, Leninist bosses are very much interested to raise the question against robbery, hijacking, theft, plundering, bribery, corruption etc nonsense.

But, the mentioned nonsenses are illegal by the law of corrupt capitalist class- a class with capital- the fruit of corruption and unfairness because, capital is nothing but the unpaid or dead labour.

Therefore, Leninist parties are working for the implementation of laws of capitalist class to serve the capitalist interest.

But, a communist party have no interests separate and apart from those of working class as a whole.

Certainly sure, interest of the working class is nothing but the abolition of private property to end the wage slavery to end the exploitation for their emancipation by a communist society by a communist revolution.

So, Leninist parties are nothing but the servant of capitalist class- a class of cheat and fraud.

# **Capitalist Economy in India**

Capitalist economy in India has introduced by East India Company of UK, mainly.

France East India Company was the another party to do the same.

Therefore, both the companies were not free from the competition, contradiction and conflict to occupy India maximum by each party to maximize their profit by introducing the capitalist mode of production by defeating self-dependent, local, but so poor economy by defeating the ruling class of India -the protector, maintainer and beneficiary from the said poor economy of India- the cause of not only ignorance, superstitious etc but also famine all most every year.

By the immediate effect of concluding the colonial policy by the winners of the 2nd world, India has emerged as a new state without colonial rulers by dividing it as India and Pakistan by the agreed parties.

Competition, contradiction, conflict etc nonsense are the integral part of the character of capitalists to survive and maximize their volume of capital by not only exploiting the wage slaves, but also by trying to marginalize, destroy and inhale of their own class members by each other.

Therefore, capitalists of India -the inheritance of the collaborators of colonial rulers to introduce the capitalist

mode of production in India were not free from such rubbish jobs for the same reason.

Thus, there was contradiction between Indian and the colonial capitalists but the capitalists of India was not free from such competition, contradiction and conflict among themselves too.

But have their any change of such heinous character of the capitalists of the newly formed states- India and Pakistan or have there any relief for the wage slaves of the 2 countries by getting the such new states. or have there any record of reduction or decrease the rate of exploitation? No.

Did the new rulers of India and Pakistan has reduced the judiciary along with civil code, penal code, police regulation; modern education system; transportation and communication system; and commodity production system - introduced by the colonial rulers? No.

Do these still exist? Sure.

Therefore, have there any basic difference between the miseries of wage slaves by the wage slavery system that is by the commodity production system of the both India-under the rule of colonial capitalists and capitalists of India? No.

Is there any such independent economy in India at present? No and quite Impossible.

Because, capitalism is a global system and currently ruled by the IMF-the controller of the world economy, founded by the winners of the 2nd world war including Leninist boss J.Stalin.

Sure, India was the founding member of the IMF, 1945.

Were the leaders of the then Congress and Muslim League of India unconscious about the function and rule of the IMF by its agreement? No.

No doubt, capitalist class has succeeded to confuse the wage slaves of the world by using the politics of nationalism, patriotism by the politics of so-called right of self-determination of nations by founding such so-called independent state thereby increasing the numbers of defunct state to chain the wages slaves so strongly thus, the reactionary capitalist has succeeded to divide the wage slaves of the world by nation and country to protect the moribund capitalism.

Noted, founding members of the IMF were 45 but currently 198.

So, capitalist class as a whole is not only exploiter but also liar, cheater and fraud even about the freedom and independent state.

In fact, state- a powerful weapon of ruling class is a effective chain to chained the people by ignoring and denying the freedom and liberty of all including the executives of states.

Remarkable, Lenin was for such politics of so-called selfdetermination of nations and state capitalism, thereby, Leninist bosses has been practicing such dangerous politics to confuse and divide the wage slaves of the world by nation and country to serve the capitalist interest.

Certainly sure, wage slaves of the world will vanish the capitalist class along with its all weapons and tools including sate, political party, IMF etc for their

emancipation and freedom of all of the world by their united forceful action.

Therefore, unity of wage slaves of the world is the first condition and unavoidable condition to win and conquer the liberty and freedom all of the world.

So, a freedom lover have no option except to work to unite the wage slaves of the world to win and conquer the liberty and freedom.

#### <u>26-03-15.</u>

#### **Nation State is Dead**

Nation state is dead under the rule of the IMF-the controller of the world economy to serve the capitalist interest to protect the moribund capitalism, founded by the winners of the 2nd world war including Leninist boss J.Stalin by concluding the colonial policy-the integral part of capitalist development.

Thus, no state has independent capacity to determine and fix the tax and tariff policies of it to earn and expend independently under the firm surveillance of the IMF.

Rather, currently states are nothing but a local agencies to implementing the economical policies of the IMF.

Noted, founding members of the IMF including India was 45, but currently 198.

Certainly, one of the most important causes of the increasing

the members of the IMF is nothing but the effect of

concluding the colonial policy by the winners of the 2nd world war.

But, capital and commodity will move freely all over the world under the hard and strong supervision and administration of the WTO.

Thereby, defunct states will be the responsible to ensure the free movement of capital and commodity under the administration of the WTO.

Certainly sure, not the defunct states but the capital and commodity will enjoy some sort of freedom and independence to control not only the executives of such dead states but also the executives of the IMF, WTO etc to take decision to serve the interest of capital to survive and exist, under the rule of WTO too.

No doubt, there is no alternate except abolition of capital along with all weapons and instruments including state, IMF, WTO etc of capitalist class to win and conquer the freedom and liberty of all of the world by the working class.

So, no freedom lover have any option except to join with working class to fight against capitalist class by fighting against wage slavery to vanish it for the freedom of all of the world to confirm the liberty and freedom of the lovers of freedom.

#### <u>25-03-15.</u>

#### Rule, man by man is an inhuman job

Rule, man by man is against the liberty and freedom of human being.

Therefore, rule, man by man is a vile job of some men.

Thus, rule, man by man is an inhuman action.

So, rule, man by man is an inhuman job of some parasitic to serve the parasitic interest by denying and ignoring the dignity of human being.

But, rules, laws, customs etc nonsense, introduced by the masters, lords are still exist, because, capitalist society is a society ruled by the parasitic capitalists.

Therefore, capitalist class has been introducing and practicing the new and newer laws, rules to ensure the rule of law to serve the capitalist interest to protect the capitalist society- a society of unfairness, unjust, and corruption.

Thereby, there is no freedom, no liberty in capitalist society too. Because, there is laws, rules, customs to rule man by man.

Though, the parasitic capitalist class has been claiming that the capitalist society is a society of freedom and liberty.

But, such claim of freedom and liberty of all of capitalist rulers is totally false and bogus, but a political propaganda to confuse the wage slaves- the producer of capital. Undoubtedly, if there is slavery, there is no freedom and liberty.

No doubt, capitalist society is a society dependent on wage slavery.

Certainly sure, rules, laws etc has introduced to chain the slaves.

Therefore, masters has introduced their kingdom before 5,600 years to rule. But modern state has founded by the masters too at Greece before 2500 years ago.

Therefore, state it-self is a powerful machine to chain the freedom and liberty to serve and protect the interest of ruling class.

So, if there is state there is no freedom and liberty.

Therefore, creating and founding the new and newer states by the contenders capitalists is nothing but a bad effort to increase the such powerful machine to chained the wages slaves more strongly and dividing them by such false political propaganda for freedom and liberty.

## Shelter to the Cow by the Capitalists of India

Have there any reason to be good than a cow by a son of cow? No.

No doubt, human being is more and better than even a lion or tiger-the king and ferocious animal among the wild animals.

Undoubtedly, there is no scope to compare any animal with any human being, though both are animal but there is basic difference between human being and other animals.

Certainly, human being can produce, store and protect its necessities to live but others can not.

But, sorry, they are sons of cow by their belief in the human being by denying the identity of human being.

And, they are RSS, BJP, SS of India and currently in power of the central government of India too. How funny!

Certainly sure, the reactionary capitalist class of India has taken shelter to the cow to safe and secure them from their disappearance by the historical consequence of moribund capitalism by cheating and dividing the wage slaves of India by mythology, religion, creed etc.

But, no doubt, no cow will protect them by disappearance of capitalism by the working class by the existing conditions of capital- (1) Reproduction; And (2) Circulation.

The reactionary capitalist class have no sense of shame to take shelter to the cow to avoid their historical disappearance.

In fact, the disabled capitalist class is free from sense of common and dignity of human being. Maybe, they will go to goat, sheep, pig etc to protect them in future. But, no one will protect the reactionary capitalist class to insult and undermine the human being by taking shelter to any wild animal.

#### 22-03-15.

#### Cow is their Mother

Cow is their mother, therefore, they have right to protect their mother by saving the cow by punishing the killer of cow, and they are leaders, workers and supporters of RSS, SS, BJP of India by their faith to the Indian Mythology.

BJP in power of the central GOI, RSS are the mentor of BJP and SS is the partner of BJP.

But, India is not out of capitalist system currently ruled by the IMF. No doubt, capitalists of France and England has introduced the capitalist system in India by defeating nature dependent but so poor economy of India -the basis of the said mythology of India, by defeating the rulers thereby, defeating the exploiters, beneficiaries and oppressors of India- the producers, patronizers, defenders and protectors of the Indian supporters, mythologies and other creeds and religions-the politics of masters and lords to develop the capitalist society to survive and accumulate the capital by exploiting the wage slaves.

No mythological hero was free from the politics and more or less all lords of the Indian mythology were king. But, kings were so brutal, so cruel, so barbaric, and so ferocious by the terms and conditions of kingship to rule, oppress and overpowering the salves to serve the parasitic interest of masters, lords and their collaborators.

Certainly, no mythological lords were aware about the diameter or speed of the earth, even none of them was known about the origin of life-the cell originated from the non living things.

The cell is the fundamental unit of structure and function in all living organisms the most basic unit of life.

Sure, capitalism has invented that the Cell.

Certainly sure, no one of the earth was known about the Cell theory before 1839.

Moreover, the first medical school of Asia, currently - 'JIPMER' has founded at Pondicherry, India, 1821 by the capitalists of France.

Furthermore, there are so many scientific research centers in India. These centers are not working only about lives but with nuclear and astronomy.

Lastly, though, the constitution of India is not free from the mythological concept but it's not against the capitalist interest and even India is the founding member of the IMF-the controller of the world economy to serve the capitalist interest, founded by the winners of the 2nd world war including Leninist boss J.Stalin.

In spite of that, the reactionary capitalist class has failed to rule the capitalist society, thus, the disabled capitalist class as a whole has taken shelter to the politics of masters and lords.

Therefore, the reactionary capitalist class of India has taken shelter to the Indian mythology, thereby, BJP is in power to confuse and divide the wages slaves by mythology, religion, creeds etc to create the chaos and conflict among the religious groups too to hide the failure of the capitalist class to avoid the historical consequence

of capitalism -the socialism by the united action of workers of the world. Noted, the left front of India was in power of the West Bengal Government near 34 years, but yet there is killing by declaring any woman as a WITCH.

Is it only a matter of shame?

Is the disabled thereby reactionary capitalist class of India fit and eligible even to FIE?

## **CPI(M)** has done Fraud in Translation of the Manifesto of the Communist Party

**The** Communist Party of India { CPI(M)}has manufactured a fake manifesto of the communist party by disfiguring the original.

Noted, The Manifesto of the Communist Party, by Marx and Engels has described in its part-2 is as: "United action of the leading civilized countries at least is one of the first conditions for the emancipation of the proletariat."

Undoubtedly, its not merely a sentence but a so important formulation about the communist revolution- the culmination of contradictions of the sellers and buyers of labour power of the world to replace the capitalist mode of production by socialism- a society with the social ownership of the means of production, transportation and communication by ending the exploitation, by ending the

selling and buying system by ending the wage slavery by ending the capitalist private property by disappearing the capitalist class thereby, socialism is free from politics, political party, state and all other class weapons and instruments to rule, oppress and overpowering the wage slave thus, socialism is not possible in one country alone. So, socialism is not state but a society along with an undivided human being with full sense of humanity.

But, as a Leninist party-the CPI(M) has deleted the quoted sentence from its Bengali version to justify its Leninist misdeeds to serve the capitalist interest by confusing the wage slaves by using such fake manifesto of the communist party by deleting not only this so important formulation but also some more by disfiguring the original by Marx and Engels.

Though, the leadership of the CPI(M) has been not only cheating but also committing crime against working class by using the name of Marx too as its name, in fact its nothing less than betray to Marx too.

However, no leader, no worker and no supporter of the CPI(M) or no Leninist is free from defending the CPI(M) by proving the wrong of our findings about the disfiguration of the Communist Party by CPI(M).

More details: Leninists [ CPSU- CPI(M) ] has done fraud in translation of the manifesto of the communist party too, a book, published by the ICWF, @ www.icwfreedom.org .

#### Private property and......

If there is private property, there is politics to exploit, oppress and overpowering the slaves including wage slaves.

If there is private property, there is class rule to serve the interest of ruling class to protect the private property.

If there is private property, there are so many class weapons and instruments including State, IMF, NGO to serve the interest of private property holders by maintaining the social system of private property holders by advocating and implementing the required policies by practicing even so cruel and brutal method including killing, rape, arson, destroying the assets.

If there is private property, there is contest, competition, contradiction, conflict, war etc nonsense to protect the private property even by destroying the wealth if necessary.

If there is private property, there is exploitation, discrimination, disparity among the human being to serve and protect the interest of private property holders. If there is private property, there are parasitic people to serve the parasitic interest by exploiting, oppressing, overpowering and disturbing others.

If there is private property, there are crimes including killing, rape, robbery, highjacking, theft, kidnapping,

fraud, cheating etc nonsense to gain and protect the private property.

If there is private property, there is poverty and artificial poverty by capitalist class in capitalism to buy the labour power to accumulate capital by exploiting the wage slaves.

If there is private property, there is class struggle.

If there is private property, there are so many ideologies including Leninism- the politics of nationalism or national liberation and state capitalism to protect the interest of the private property holders by confusing and dividing the workers of the world by nation and country.

If there is private property, there is want of peace. No doubt, capitalist society is a society of certainty of uncertainty, therefore, no one is safe and secure in the capitalist society-based on private property.

If there is private property, there is no human being with full sense of humanity- a sense free from any such discrimination among the human being along with love for love for a lovely life of every one thereby love for all being being. human as a human But, if there is no private property, there is no such rubbishes including politics. So, there is no option except abolish the private property to vanish all such rubbishes including politics for the liberty, freedom and uninterrupted peace by a most modern, friendly & lovely society with a world association of all to coordinate and communicate all required information and social production for all by all

able bodied with the common ownership of the means of production, transportation and communication.

#### Mental slavery and Socialism

Who think that he have a custodian, or he who feel a custodian is necessary to live is not free from mental slavery.

Who think that he have a guide, or he who feel a guide is necessary to live is not free from mental slavery.

Who think that he have a leader, or he who feel a leader is necessary to live is not free from mental slavery.

Who think that he have a savior, or he who feel a savior is necessary to live is not free from mental slavery.

Who think that he have a protector or he who feel a protector is necessary to live is not free from mental slavery.

Who think that he have a master, or he who feel a master is necessary to live is not free from mental slavery.

Who think that he have a director, or he who feel a director is necessary to live is not free from mental slavery.

No doubt, no one can live alone but that does not mean any one have need a master, or guide, or leader etc rubbishes to live.

Sure, all are inter-dependent to live in this capitalist society.

Though, no capitalist can live without wage slaves.

But, wage slaves have no need any capitalist to live.

Because, they are the producer of value, therefore, surplus-value, that is capital-the unpaid labour.

Rather, capitalists are parasitic.

Therefore, there is no necessity of capitalist class -the exploiters to exploit the wage slaves.

But, producers are essential to live.

Undoubtedly, wage slaves of the world will vanish the capitalist class by vanishing the capitalist system to free themselves.

Sure, there is no such slavery including mental in the new society, win by wage slaves of the world.

And that is SOCIALISM.

#### <u>16-03-15.</u>

### Stories of Socialism is a myth

SOCIALISM is a society -free from exploitation by vanishing the wage slavery by ending the selling and buying system by the working class alone.

But, was Lenin never claimed that he was against wage slavery? No.

Had there any points against wage slavery in the founding programmes of the Bloshevik Party? No.

Had there any single sentence against wage slavery in the constitution of Lenin (1918) by which he constituted his state? No.

Had there any single proposal to abolish the wage slavery to vanish exploitation in all 4 constitutions of the USSR (1918, 1924, 1936 and 1977)? No.

Had there any law against wage slavery thereby against exploitation in USSR? No. Moreover, there was a large arms force with huge facilities and benefits to oppress and overpowering the wage slaves and the total number of such parasitic force was not less than 15 millions even in the regime of Lenin but who paid?

There was a corrupt bureaucracy with huge cost, but who paid?

Sure, there were a huge number of professional politicians of the Bolshevik Party at USSR with huge facilities, but who paid?

There was a huge fund to train the disciples of Lenin from all over the world but who paid?

Were they not wage slaves-the producer of value, therefore, surplus-value that is capital-the unpaid labour at USSR? Sure.

Noted, costs and expenditures of a state is nothing but a part of surplus-value, produce by wage slaves?

Furthermore, was there any law at USSR against the production of commodity to accumulate capital by exploiting wage slaves by paying wage? No.

Was there any law against selling and buying at USSR? No.

Was there any law against capital at USSR? No.

Was there any law against discrimination among the human being at USSR? No.

Was there any law against cultism at USSR? No.

But, socialism is a society free from discrimination among human being.

Moreover, there is no commodity or capital in Socialism. Furthermore, socialism is a scientific society, thus, there is no room for any great leader or great teacher or extraordinary along with ideologies of such false great men in

socialism.

Therefore, Lenin was never a communist rather, a cruel dictator by practicing the Leninist politics to serve the capitalist interest.

Thus, USSR was not at all a socialist country.

Noted. socialism by vanishing the capitalism is not possible in one country alone.

Because, capitalism is a global system.

Again, a communist revolution to win the socialism is the job of only working class alone.

But, Lenin has founded his state by planed military coup. So, socialism at USSR is nothing but a political propaganda to confuse and divide the workers of the world.

Thus, all stories about socialism at USSR, CHINA, VIETNAM, CUBA. DPRK etc are nothing but an ill motivated, bad intentional and fabricated stories.

So. stories of socialism in USSR or any Leninist state is nothing but a MYTH.

### Is He Working For the Interest .....

Is he working for the interest of working class or fighting against capitalist system for communism who know that the CPI(M) has manufactured a fake manifesto of the communist party by disfiguring the original to confuse the wage slaves to protect the capitalist interest, but not opposing such crime of the CPI(M) against working class ? No.

Is he working for the interest of working class or fighting against capitalist system for communism who know that the CPSU has manufactured a fake manifesto of the communist party by disfiguring the original to confuse the wage slaves to protect the capitalist interest, but not opposing such crime of the CPSU against working class? No.

Are they free from such crime those who yet support the CPI(M) or following parties of CPSU after knowing the said crime of the both parties ? No.

Noted, Leninists [ CPSU-CPI(M)] has done fraud in translation of the manifesto of the communist party too, a book, published by the ICWF @ www.icwfreedom.org.

Are the leaders, workers, and followers of the said parties, those who distorted the communist manifesto - a basic and fundamental book for the communist movement, in fact a declaration with death sentence to the capitalist class-the exploiter of the exploited working

class free from defending their parties by proving the wrong statement about the said parties for the said crime against working class by disfiguring the communist manifesto or acknowledging the such crime with a declaration to fight against it? No.

#### Rape is Unthinkable in Socialism

There is rape in capitalism.

Noted-

He who is not against private property-the cause of violence including rape, is not against violence and rape. He who is not against wage slavery -the cause of violence including rape, is not against violence and rape. He who is not against exploitation -the cause of violence including rape, is not against violence and rape. He who is not against class rule -the cause of violence including rape, is not against violence and rape. But, there are some people those are shouting against violence and rape but they are not against the private property, wage slavery, exploitation and class rule. Sure, they are politicians or disciples of politicians thus, they are very much interest to do politics even with rape. Thereby, they do not feel shame to use a rape victim as a tool of their politics for their sectarian political interest. Nothing to say to them, even not FIE. Noted, the rate of rape is much higher in the bed room of

a wife by her husband than outside the home by others.

No doubt, the private property holders think that the wives of them are nothing but a reproductive machine to produce their legitimate inheritances to protect their private property, thereby, wives are nothing but not only a sexual commodity but also a sex slave owned by the husbands.

Thereby, husbands do not care about the consent of wives for having sex with them in general, even some husbands do not care the objection of their wives for having sex with them, or some husbands do not consider the illness of their wives.

Even, the nonsense concept of farewell sex with the dead body of wives is not yet totally vanished.

Furthermore, yet there is law to punish the wives by using lethal or not providing the diet for denial the intercourse with their husbands.

Undoubtedly, any such intercourse without mutual consent for the good health and pleasure of both partners is rape.

Certainly sure, the communist society is free from violence and rape.

Because, there is no cause to do such nonsense, rather, all are free to do anything including love and union. Because, communist society is free from exploitation, wage slavery, private property and class rule. So, rape is unthinkable in Socialism.

#### 11-03-15.

# Communism is a global society but exploitation free

Have there any scope to be free from exploitation, if there is wage slavery? No.

Have there any scope to be free from exploitation, if there is selling and buying system? No.

Have there any scope to be free from exploitation, if there is capital? No.

Have there any scope to be free from exploitation, if there is production of commodity? No.

Have there any scope to be free from exploitation, if there is private property? No.

Have there any scope to be free from exploitation, if there is parasitic people? No.

Have there any scope to be free from exploitation, if there is class? No.

Have there any scope to be free from exploitation, if there is class rule? No.

Have there any scope to be free from exploitation, if there is politics to serve the class interest? No.

Have there any scope to be free from exploitation, if there is class instruments and weapons including state. IMF etc? No.

Have there any scope to be free from exploitation, if there is law to rule? No.

Have there any scope to be free from exploitation, if there is ideology? No.

Have there any scope to be free from exploitation, if there is cultism? No.

Have there any scope to be free from exploitation, if there is unscientific views and concepts about life? No.

Have there any scope to be free from exploitation, if there is discrimination among the human being even by sex? No.

Have there any scope to be free from exploitation, if there is extra-ordinary and ordinary people? No.

Have there any scope to be free from exploitation, if there is political boundary to divide the one single world ? No.

Therefore, no Leninist state including USSR was free from exploitation.

Because, all such nonsense, those has mentioned above were exist at USS.

But, communism by the replacement capitalism by the working class alone, is a society free from exploitation.

Thus, communism is not possible in one country alone.

Because, capitalism itself is a global system, currently ruled by the some global syndicates including IMF-the controller of the world economy.

So, communism by vanishing the global capitalist system is a global society but exploitation free.

#### <u>10-03-15.</u>

#### **Sports**

Sports is good for the good health of a players. Sports is good for pleasure of the sports lovers. But, the capitalist class has made the sports as a tool to make money.

Even, players are more interested to make more money even by following and practicing so many unfair polices and vile jobs including gambling than make a good effort to play good.

Moreover, the capitalist class has been making sports as a tool of politics to confuse and divide the wage slaves of the world by the politics of so-called nationalism and emotional but meaningless patriotism to serve and protect the capitalist interest and capitalist society.

Undoubtedly, following and practicing any such policy by a wage slave which is effective and useful to confuse and divide the wage salves of the world by nation and country is helpful for the capitalist class as a whole.

Sure, such policy is so effective to ignore the class interest and class identity of a wage slaves. But, a wage slave is wage slave thereby; he is exploited by the capitalist class.

So, following and practicing such policy is so harmful even suicidal for the working class.

Because, unity of workers of the world is the first condition for the emancipation of the wage slaves by fighting against wage slavery.

Moreover, workers have no nation and country but they have a world to win by defeating the capitalist class by vanishing the wage slavery by vanishing the selling and buying system by a communist revolution by the communist society, where there is no capital, thus, there is no scope to use sports as a tool to make money that is capital.

In fact, he who support any sports from the view of a socalled nationalist is not a sports lover, rather he is a nationalist arrogant.

But, sports need good lovers of sports to develop the sports for good health and pleasure.

Therefore, the capitalist class is not only against good sports or development sports but capitalist class as a whole is a disturbing force and thereby a big obstacle for the development of sports too.

#### (2) No Benefit from the Riches

There are so many high rise building at Dhaka city.

But, have there any benefit for the distress people he who sleep beside the road at Kauran Bazar or many other places of Dhaka city, Bangladesh by such buildings?
No.

There are so many super markets at Delhi India.

But, have there any benefit for the penniless to buy from the super markets of Delhi, India? No.

There are so many Universities in Europe.

But, have there any benefit for the poor of Europe, who he have no required money or required qualification to get admission in these universities? No.

There are so many houses at USA, but some of them not even in use.

But, have there any benefit for the homeless people of USA, who he have no required amount of money to pay as rent to live in these unused houses? No.

There are not less than 50% Billionaires of the world are from USA.

But, have there any benefit for the wage salves of the USA from these billionaires of the USA? No.

There are so many cricketers or different type of players in various countries those are not only famous for their records but also so rich by earning in different ways including playing.

But, have there any benefit for wage slaves of the world from these prominent and rich players? No.

Rather, all these including rich what I have mentioned above are the responsible for the existing miseries of wage slaves of the world.

Noted, there is poor, because, there is rich; there is wage slaves, because, there is billionaires; and there is exploitation, because there is such system to be rich by exploiting the wage slaves.

So, the cause of joy, pleasure of rich and poor is not same, rather, the cause of pleasure of rich is the cause of sorrow of poor, thereby the cause of enjoyment of exploiters is the cause of miseries of wage slaves.

Again, no one is free from class and class interest in this class divided capitalist society.

So, there is no benefit from the riches.

#### 09-03-15.

#### (1) Leninist states and ....

Have there any single word against wage slavery to end it to end the exploitation for the emancipation in any declaration of independence of any Leninist states including Vietnam? No.

But, Leninist bosses has been claiming that they are working for a exploitation free state by founding an independent state. How funny!

Was there any single word against wage slavery to end it to end the exploitation for the emancipation in any constitution of any Leninist state including USSR, China, Vietnam, DPRK, Cuba etc? No.

In spite of that, Leninist bosses has been claiming that these Leninist states are working for the emancipation or a exploitation free society! How funny! Have there any single word against wage slavery to end it to end the exploitation for the emancipation in any declaration of any Leninist party? No.

But, the end of wage slavery is the condition for the emancipation by ending the exploitation by ending the selling and buying system by vanishing the commodity production by vanishing the private property with all rights of inheritances.

So, no independent state or Leninist state is a state for the emancipation to end the exploitation. And, its not

possible by state, because, state is nothing but the strong weapon of ruling class to maintain the exploitative system by oppressing and overpowering the wage slaves.

Noted, the cost & expenditure of a state to run and maintain its function is nothing but a part of surplus-value, produce by wage slaves.

The amount of such cost of the states of the world was not less than 29% of the total GDP of the world, in the last year.

However, currently states are defunct under the rule of the IMF, WTO etc global syndicates. In spite of that, the defunct states are so effective to oppress the wage slaves to protect the exploitative but moribund capitalist society along with a so reactionary capitalist class- a permanent patient of mental disorders including insanity by the huge pressure of huge load of huge production.

Undoubtedly, the consequence of repeated recession by the over production by the existing conditions of capital is socialism.

So, socialism is unavoidable and inevitable.

In details: Consequence of Capital, a book, published by the ICWF, @ www.icwfreedom.org.

### (2) Not Sex but the Private Property

Not sex but the private property is the cause of disparity and discrimination among the human being.

Therefore, discrimination between male and female is nothing but the private property.

Thus, if there is no private property, there is no disparity and discrimination among the human being.

So, there is no disparity and discrimination between male and female, if there is no private property.

In fact, wage slavery, based on private property is the cause of all existing miseries and nonsense including violence against women.

Politicians including Leninist bosses are not against wage slavery, but they has been crying & shouting for so-called women freedom by observing an international day for women freedom -8th March, every year.

Really, its not only fun but also a heinous conspiracy and tactful tactics to confuse and divide the wage slaves even by sex.

Sorry, not sex but the human labour has produce value, and wage slaves has produce not only value but also surplus-value, that is capital -the unpaid labour.

Therefore, politicians including Leninist bosses has been trying to roll back the wheel of history by practicing such vile policy not only divide but also creating a hateful atmosphere among the wage slaves even by sex to serve and protect the so heinous and poisonous capitalism.

No doubt, wage salves of the world will unite to fight against wage slavery for their emancipation by a communist revolution-imposed by the so reactionary capitalist class by the existence conditions of capital: (1) Reproduction; And (2) Circulation.

In fact, capital will vanish by the existing conditions of capital, and thereby the revolutionary working class will play a historical role to vanish the capital, capitalist class and capitalism thus, all will be free to do anything including love and union in the new society -free from capital, so, the new society is free from discrimination, violence, rape, etc nonsense.

In details: Lenin Cheat & Betraying Marx So IMF The World Lord And......, a book, published by the ICWF, @ www.icwfreedom.org.

## (1) No Private property No Sex Slavery

If there is no private property, there is no sex slavery for women to produce the legitimate inheritances to protect the private property by them for the interest of the private property holders.

If there is no wage slavery, there is no sex slavery for women to sale their sex or bodies for the pleasure of male sex. If there is no exploitation, there is no discrimination among the human being even by sex.

Therefore, the abolition of private property is the condition for the emancipation of wage slaves.

No doubt, wage slaves are sellers of labour power but not sex.

So, the emancipation of wage slaves is the condition for the freedom of all of the world, where everyone is free to do anything including love and union, thereby, there is no discrimination among the human being even by sex.

Therefore, there is no alternate except abolition of wage slavery by vanishing the exploitation by vanishing the private property for the freedom and liberty of the entire world.

Sure. unity of workers of the world is the first condition to fight against private property, wage slavery and exploitation to vanish all such nonsense for the emancipation of wage slaves by a communist revolution.

Therefore, any such policy which is helpful to divide the workers of the world is not only dangerous but also cause of uncountable loss for the interest of working class as whole.

But, the Leninist parties has been dividing the workers of the world by nation, country and even by sex.

Therefore, these parties has been observing the 8th March every year as Women day for the so-called freedom or women, since 1908.

Thus, the Leninist parties has been working to divide the wage slaves of the world by sex too by observing such day for women freedom.

Noted, Bush Junior-the president of the USA has also observed and celebrated this so-called International Woman Day for the empowerment of women to enjoy the equal share for the claimed freedom of women.

Thus, there is no difference between Leninist bosses and Bush Junior about the concept of freedom of women.

Bush was the global leader of capitalist class as the USA is the leading capitalist country.

So, If the Leninist parties are communist then why not Mr.Bush?

#### Customs, Traditions etc will reduce

Customs, traditions, cultures etc introduced by the masters, lords and followed and care by the capitalists to serve their exploitative interest by celebrating the birth days and death anniversaries of masters and lords to justify their mastership, lordship and capitalist ownership as the masters, lords etc were so great and extra-ordinary by their claim.

But, no one is great or extra-ordinary but all are equal even by born condition. Noted, everyone from the 23

pair chromosome, but there is disparity and discrimination among the human being.

Because there is private property thus, there is classes, so there class rule to serve and protect the ruling class interest by exploiting, oppressing and overpowering the salves including wage slaves-produce by the capitalist class to accumulate capital by exploiting them by paying wage to produce commodity to sale to get surplus-value, that is capital.

But, if there is no private property, there is no slavery even wage slavery thereby, there is no extra-ordinary and ordinary, thus, there is no festivals, customs, traditions and culture to celebrate the so-called great or extra-ordinary to worship to any masters and lords by slaves too, that is a slavery free society is a society of all without masters, lords, capitalists etc exploiters so, all are equally dignified.

Sure, working class will win the new society, where there is no slavery.

Therefore, all traditional cultures, customs, festivals including -The Holly, (India), Doll festival for baby girl (Japan), New year festival (China and so many countries) etc will reduce and vanish by the vanishing of the private property by working class.

## Science is light, faith is blind

Science is the code of creation, thus, science is not faith but the same views by some body about any code of creation is not unscientific.

Sure, there is doubt in scientific work but science is not a matter of doubt, because, science is reality.

Science and scientific work is not the same.

Difference of views or opinion is good but the unnecessary difference about any code of creation is not scientific attitude.

Because, nothing is code if it is not the factual statement of a creation. As for example - the unpaid labour is capital or the unity of opposite force is matter, these are the code of both capital and matter.

Nothing is a code of any thing, if it is not a proved thing by the scientific experiment to create the same thing.

Sure, raise the question to all by what and why is a scientific method but doubt to all things is not a scientific attitude.

Certainly, follow any one or any views without proving scientifically is not a scientific attitude rather, such mentality to do so has is slavery mentality, originated from the private property, created by the masters to justify their parasitic jobs by the divine right.

In fact, they were the manufacturers of the so-called divine forces to justify the class division among the human being thereby, not questioning but faith to them is only thing in the politics of masters thus, not all are equal but some are great or extra-ordinary and others are ordinary to follow, care and respect the so-called extraordinaries by the grace of divine forces is only the job of slaves by the same politics of masters.

Therefore, faith is blind but science is light to search and know the facts of creation.

Thus, a scientist is working to know the science, to understand the science, to care the science, and to practice the science for a scientific life which is free from slavery mentality.

Capitalism is not free from classes and slavery that is wage slavery, thus, the capitalist class- a reactionary force has been using even the politics of masters to serve and protect the parasitic interest by ignoring the science, though, the revolutionary capitalist class has introduced the modern science to developed the capitalist system all over the world for the existence conditions of capital; And the capitalist class cannot survive or exist without developing the scientific instruments.

Thus, the capitalist class as a whole has been suffering from such self-contradiction so, the capitalist calls has been trying to roll back the wheel of history by using such nonsense concepts, creeds, ideologies, mythologies etc -the politics of masters and lords.

But, the only revolutionary class in this epoch- the working class will vanish all unscientific things including all concepts, creeds, ideologies etc - the politics of masters, lords that is the politics of the private property holders by winning a scientific society with most modern

instruments and equipments for production and communication system for all by the common/ social ownership of the means of productions and transportation.

Therefore, no scientist by profession is scientist, if he is not against the private property or wage slavery along with all unscientific concepts -originated from the private property for the scientific development of the human being.

#### <u>01-03-15.</u>

Is he against killing, if he is for capital punishment? No. Is he against killing, if he is for private property-the root cause of killing? No.

Is he against killing, if he is for wage slavery? No.

Is he against killing, if he is for exploitation? No.

Is he against killing, if he is for mythology? No.

Is he against killing, if he is for war? No.

Some so -called progressive intellectuals or professionals including Leninist has been claiming that they are against killing by demanding the death sentence for killing. Sure, death sentence is nothing but the judicial killing by the views of some capitalist bosses, thereby; there is no capital punishment in not less than loo countries. But, such countries are not against wage slavery or exploitation or war, or private property.

So, such declaration against killing including judicial by the said countries is nothing but a political propaganda to confuse and hypnotize the wage slaves.

On the other hand, the Islamist revolutionary Iran and socalled socialist China of 'great leader' Mao are the champion for the execution of death sentence.

But, working class is not only against killing but the workers of the world will end the killing by ending the private property by their united forceful action for their emancipation by ending the wage slavery by ending the exploitation.

#### <u>28-02-15.</u>

# (2) Punishment is against the dignity of human being

Nose for nose, eye for eye, killing for killing etc legal standard but a cruel policy has introduced by the brutal masters for their parasitic interest to protect the private property.

Certainly sure, such nonsense policy for punishment is against the dignity of human being thus, the said nonsense policy is against humanity.

Capitalists are not free from exercising such heinous policy.

But, some of them have been reducing capital punishment for killing or modifying the concept of punishment.

Currently, there are no death sentence more than 100 countries; and some of capitalists have been considering that the capital punishment is nothing but judicial killing. But, they are not against punishment as a whole.

No doubt, punishment man by man is against dignity of human being.

In fact, if there is private property, there is law to protect the interest of private property holders.

However, if there is law there is violation of law by the conditions of law, and violation of law is punishable crime by the law. Thus, there is a nonsense policy for punishment, if there is private property.

But, if there is no private property, there is no law to protect it, thus, there is no crime by violating the law, thereby,there is no necessity of punishment.

Undoubtedly, working class-the producer of capital will vanish the private property by a new society where there is no law, no crime, no punishment man by man rather, all are equally dignified with full sense of humanity by the existence conditions of capital: (1) Reproduction; And (2) circulation.

So, not determining the rule of law to punish but the end of punishment by ending the law by vanishing the private property is the condition for a man to be free from dirty and inhuman feelings of brutality and cruelty.

He who is not against all unscientific views, concepts etc nonsense to vanish these rubbishes by the united forceful action of wage slaves of the world is not progressive in this epoch.

He who is not against all customs, traditions, cultures etc, originated from the private property to serve and protect the interest of the private property holders to vanish these by the united forceful action of wage slaves of the world is not progressive in this epoch.

He who is not against all slavery concepts to vanish all such nonsense by the united forceful action of wage slaves of the world is not progressive in this epoch. He who is not against all weapons and instruments of ruling classes, including state, political party, IMF etc originated from the private property to serve and protect the interest of private property holders to vanish all such dangerous oppressive machines and harmful tools by the united forceful action of wage slaves of the world is not progressive in this epoch.

He who is not against political borders of the world to vanish all such borders by the united forceful action of wage slaves of the world is not progressive in this epoch. He who is not against discrimination among the human being even by sex, religion etc to vanish such discriminations among the human being by the united forceful action of wage slaves of the world is not progressive in this epoch.

#### You Can Kill a Scientist but Not Science

You can kill a scientist or science writer, but you cannot kill science.

Because, science is the code of creation, thus, science is a fact so, science is real and reality of real life.

So, no killer will kill the all of the world.

## **26-02-15.**

**(2)** 

Is killing have power to stop science? No.

G.Bruno, a scientist who said that the earth is moving has burnt alive at Rome, 1st January, 1600 by the order of court to protect the reactionary interest. But failed.

Capitalist class has no scope to exist without science.

But, the reactionary capitalist class is working against the scientific development for their sectarian interest.

Even, they do not hesitate to kill scientists or the writers of science.

Abhijit Roy, a writer of a scientific book about the origin of the Universe has killed in this evening at Dhaka, Bangladesh. (26-02-2015)

Its not only a heinous jobs of fanatic force but also cause of loss of the development of science, but the scientific development is unavoidable condition for the freedom of all of the world.

No doubt, science will win, because it works.

Therefore, all nonsense ideas, ideologies, mythologies etc will vanish by the united action of workers of the world by a scientific society.

So, we have no option except know the science, understanding the science, care the science and practice the science for a scientific society by vanishing the reactionary capitalist class -the producer of killers of scientists and science writers by vanishing the so waste capitalist class.

# (1) Information about Earth and.....

No one of 1 billion 1 hundred claimed creators and maintainers of a 1 single Earth knows that the diameter of the earth is 12, 742 km.

None of them knows, that the mass of the earth is 5.972E24 kg.

No one of them knows that the distance of the earth from the Sun is 149,500,000 km or 8 min 19 s at light speed.

No one of them knows that the Average orbital speed of the earth is 29.78 km/s and thereby 107200 km/h.

No one of them knows that the surface area of the earth is 510072000km2, but the land is 48940000 km2 (29.2%), and the water is 361132000 km2 (70.8%).

None of them knows that the surface gravity of the earth is

9.807 m/s2.

No one of them knows that Surface pressure of the earth is

101.325 kPa (at MSL).

No one of them knows that the Composition of the earth by volume is as: 78.08% nitrogen (N2); 20.95% oxygen (O2); 0.930% argon; 0.039% carbon dioxide; and 1% water vapor (climate-variable).

No one of them knows that the diameter of the Sun is about 109 times that of Earth, and it has a mass about 330,000 times that of Earth, accounting for about 99.86% of the total mass of the Solar System.

No one of them knows even the age of the earth.

Rather, In 1650 Archbishop Ussher used the Bible to calculate that the Earth was created in 4004BC. (http://www.moorlandschool.co.uk/earth/earthorigin.htm)

But, the age of the earth is not less than 4.5 billion years.

Therefore, there is no doubt that they know nothing about the earth and thereby the earthly lives.

But, sorry, yet they are exist as creators and maintainers of the earth by the cunning tactics and ill motivated policies of the ruling reactionary capitalist class to serve and protect the parasitic interest to accumulate the capital by exploiting the wage slaves.

Though, the above mentioned facts about the earth has discovered by the capitalist society for the capitalist interest.

Therefore, the capitalist society has been suffering from such contradiction even about the earth too.

Sure, the so waste capitalist society is a self-contradictory society by the private ownership of capital. Because, capital is a product of wage labour but not individually but socially.

Certainly sure, the solution of such contradiction even about the earth is the outcome of so many self-contradictions of the capitalist society and mainly contradiction of sellers and buyers of labour power of the world by a scientific society where there is no existence of such false, bogus and fabricated stories about the creation and maintenance of the earth.

## **Democracy is Dead**

Democracy is dead, though there is election or voting system to elect the executives of state to implement the policies of global syndicates including IMF-the controller of the world economy, founded by the winners of 2nd world war including Leninist boss Stalin- a infamous killer of the world.

Because, states are defunct under the rule of the global syndicates including the IMF.

Because, no state have independent power to earn and expend by earning the government fund by collecting tax and tariff under the rule of the IMF.

Rather, executives of such defunct states are nothing but the local authorities to implement the policies of the global syndicates mainly the IMF, even to determine the tax and tariff policies.

Therefore, not the elected executives of such defunct states even by a fair and free election have power to implement any policy which is against the policy of the IMF.

Certainly sure, a chief executive of a state, he who have no power to earn and expend independently for his own government to work by choice of the electoral college thus, he have no scope to comply or honor and respect to the views and opinions of voters.

In fact, such elected government is nothing but a government to comply the policies of the global syndicates mainly the IMF to work to serve the capitalist interest locally by betraying the electoral college.

But, democracy, introduce by the revolutionary capitalist class is nothing but a elected government to implement the effective policies for the required development works that is a democratic government is by the choice of electoral college along with independent power of the state to collect its fund mainly by collecting tax and tariff to expend independently.

Though, a state is never a institution of all of a country, rather, its a powerful and strongest machine among the class instruments for the ruling class to oppress and overpowering the ruled and exploited classes.

But, yet the Leninist parties are working for the so-called self-dependent national economy with a claimed democratic state for all of a country along with so-called new/people's democracy. How funny!

So, only the option to fight to abolish the moribund capitalism by vanishing the wage slavery by abolishing the selling and buying system by abolishing the private property by vanishing all instruments for class rule and class interest including IMF, states, political parties etc by the working class.

#### <u>22-02-15.</u>

#### **Patriot**

If the politicians including Leninist bosses are patriot, then who divide the countries?

Noted, the founding members of the UN were 51 but now 198.

If the politicians including Leninist bosses are for socalled national economy, then who are the member of the IMF-the controller of the world economy, founded by the wining party of the 2nd world to serve the capitalist interest globally?

Noted, states are member of the IMF and currently the member of the IMF is 198 but all member states are defunct.

If the politicians including Leninist bosses are working for so-called self-defendant economy, then who are the member of the WTO-the strong administrator to confirm the free movement of capital and commodity all over the world?

Noted, more or less all states are the member of the WTO except some non qualified.

Mentionable, capitalism is a global system, thus, all nations are inter-dependent under the capitalist net; All states are defunct under the rule of the IMF; There is no option except practice the globalization policy under the rule of the IMF and WTO for any state thus, there is no existence of the so-called self -dependent economy. Furthermore, capitalists are the slave of capital thus, they have no scope to be patriot or lover of so-called national economy or self-dependent economy by the existence conditions of capital: (1) Reproduction; And (2) Circulation.

Therefore, the progressive capitalist had practice the colonial policy to conquer the other countries to create world market by defeating the self-dependent local but poor economy and by denying and ignoring the national independency and patriotism.

But, winners of the 2<sup>nd</sup> world war has concluded the colonial policy by founding the global syndicates including IMF to implement and practice the globalization policy along with their members -the defunct states.

Therefore, politicians including Leninist bosses as the managers of the capitalist class to manage the capitalist system have no scope to be a patriot or nationalist. But, they have been using such false but emotional slogans for patriotism, nationalism, self-defendant

economy etc & etc to dive the workers of the world by nation and country to protect the moribund capitalism. So, its not just cheating!

### **21-02-15.**

# No Capitalist is fair and patriot

Capital is a fruit of unfairness, because capital is unpaid labour thereby capitalist class as a whole is exploiter thus, capitalist class as a whole is an unfair force.

Thereby. the capitalist class as a whole is not free from lie, cheat, fraud, distrust, doubt, betray, rape, kill etc and etc all existing crimes.

In fact, the capitalist society is the producer of lie, cheat, fraud, etc all nonsense and thereby the so-waste capitalist society is the supporter, defender, protector of all such rubbishes.

Capitalism is a worldwide system, conquered by the revolutionary capitalist class by uniting the unknown earth and defeating and destroying all local and self-dependent but so poor economy along with beneficiaries from the that nature dependent but poor economy.

Because, national boundary was not enough to develop the capitalist system thus, colonial policy was the integral part of capitalist development.

Currently, the moribund capitalist system is ruled by some global syndicates including the IMF, founded by the winners of the 2nd world war, including Stalin to control the world economy by ending the colonial policy by creating defunct the state, in fact states are local unit of the IMF, to implement the policies of it to serve and protect the capitalist interest and capitalist system.

Sure, capitalist bosses has been branding the system as globalization where the capital and commodity is free to move all over the globe, and after some years it will be punishable crime if any state create any restriction on free movement of capital and commodity, under the firm administration of the WTO with its judiciary power and capacity.

So, no capitalist is patriot.

On the other hand, workers have no nation and country, but they have a world to win by losing their chain by vanishing the wage slavery by vanishing the capitalist class by vanishing the capitalist society by vanishing the private property, but unity of workers of the world is the first condition for doing so for their emancipation.

Therefore, no one except some emotionally grieved and concealed thus, politically motivated stupid or ignorant is so-called 'patriot" in this capitalist society.

But, Leninist parties are for so-called patriotism, to confuse and divide the workers of the world by nation and country by such emotional political propaganda to serve the capitalist interest.

Thus, Leninist parties are the party of capitalist interest by claiming as patriot by denying and ignoring the real picture of the globe and the politics of globalization. So, no Leninist party is communist party.

#### (2) Obama For Real Islam!

Mr. Obama- president of the USA has declared that he will fight for real Islam by fighting against the perverted Islamists.

But, how he will determine the real and perverted Islamist?

It was Mr. Obama, he who ordered to kill O.B. Laden-the chief boss of Taliban, but currently Taliban's are not enemy rather the administration of Mr. Obama has started discussion with Taliban by declaring that the Taliban is not a terrorist organization, without any explanation of such double standard of the authority of USA about Taliban.

Was it not the Bush administration of USA has supported and cooperated the Taliban to fight against ruined USSR? Moreover, is the constitution of USA for such fight for purify any religion-the politics of masters and lords but defeated by the revolutionary capitalist class for the development of the capitalist system by the politics of secularism-the integral part of democracy.

Therefore, as a big boss of the reactionary capitalist class Mr.Obama has ignored and denial the historical role and pride of the revolutionary capitalist class to protect the moribund capitalism by taking shelter to the religions too.

Furthermore, have Obama any such academic certificate from any reputed University to judge the real and perverted Islamist? No.

In fact, the reactionary capitalist class have no sense of common by the huge pressure of huge load of huge stock by the overproduction-the effect of reproduction-one of the 2 conditions of existence of capital.

Thus, the disabled capitalist class has been suffering from the insanity by the non-curable disease of capitalism- the recession.

So, bosses of such patient of non-curable mental disorder -the disabled capitalist class are not free from such ignorance and double standard as Mr.Obama done by such self-contradictory actions and declaration about Taliban and Islam.

# (1)On Language

Is there any reason of lose, if some languages of Europe will reduce and vanish by the modification of languages by the terms and conditions of modernization of instruments of production? No.

Rather, it would be better for users of the most modern language for their easy expression and communication.

Therefore. such reduction or vanishing of some languages are not only unavoidable but also so practical for any other continents including Asia.

Sure, there were so many languages but currently not in use including the Devanagari- the original language of Bengali language; Even, Sanskrit- the near past Language of Bengal is not so useable at present though its a state language of a state of India.

Sure, 50 % of total 6400 languages of the current world will reduce and vanish by the next half century.

Moreover, no language is language of either father or mother but a language is language for its users.

Therefore, there is no reason to disturbing the modification of languages by blindness to any particular language.

Thus, no such emotional approach to any particular language is nothing but not only the blindness and ignorance about the development of languages by the development of the society but also a well planed and organized political propaganda to divide and confuse the working class to protect the moribund capitalism.

So, such emotional approach is not only disturbing the modification process of languages but also a reactionary job.

Noted, emotion is part of life but life is not a big bag of emotion. rather, the earth is a practical thing, thereby, the earthly lives specially human beings have no scope to be non-practical for long by such emotional approach even about language.

But, capitalist class is not free from such emotional approach thus, capitalists has been exercising such reactionary jobs even about language to spread the emotional concepts to grief the wage slaves to confuse them even by language to ignore and

denial of the class and class interest by participating the such chorus song to be blind to any particular language.

But, language of a wage slave is the language of his work place thereby a wage slaves have need to learn one more languages if need by the terms and conditions of his labour market to sale his labour power to produce the value, therefore, surplus-value, that is capital.

Certainly sure, the reactionary capitalist class as a whole is against the modernization and modification of the moribund capitalist society for its sectarian parasitic interest, rather, the disabled capitalist class has been disturbing the progress of social development by trying to roll back the wheel of history by using even language and religion.

But, the historical good bye of the capitalist class and capitalism by wage slaves is the historical consequence of the nonsense capitalism.

So, a most modern language will be evolved by the development of the human society by the scientific society, win by the working class for the easiest contact and communication among the whole human being - a most modern species with a single identity as human being along with full sense of humanity.

# **Elements of Commodity**

Not nation, but labour is the one of two elements of commodity.

Not race, but labour is the one of two elements of commodity.

Not color, but labour is the one of two elements of commodity.

Not gender, but labour is the one of two elements of commodity.

Not country, but labour is the one of two elements of commodity.

Not leader, but labour is the one of two elements of commodity.

Not extra-ordinary one, but labour is the one of two elements of commodity.

Not great one, but labour is the one of two elements of commodity.

Not hero, but labour is the one of two elements of commodity.

Not guide, but labour is the one of two elements of commodity.

Not religion, but labour is the one of two elements of commodity.

Not politics, but labour is the one of two elements of commodity.

Not soldier, but labour is the one of two elements of commodity.

Not arms force, but labour is the one of two elements of commodity.

Not banker, but labour is the one of two elements of commodity.

Not trader, but labour is the one of two elements of commodity.

Not politician, but labour is the one of two elements of commodity.

Not state, but labour is the one of two elements of commodity.

And another element of commodity is natural resource.

But, national resource have no exchange value, though it have use value.

But, commodity have use and exchange value.

Therefore, value of a commodity is nothing but labour.

But. buyers of labour power pay wage for buying the labour power of sellers of labour power that is wage slaves.

But, the price of a commodity is much higher than wage pay for it.

And buyers of labour power owned the that part of price of a commodity which is higher than wage for which they do not pay.

Therefore, the unpaid labour is capital, owned by the capitalist by exploiting the wage slaves thus, it's unfair and unjustified though it's not illegal by their laws so, capital is nothing but the fruit of corruption or unfairness as capital is unpaid labor.

Thus, capitalist class as a whole is not only exploiter but also corrupt, and wage slaves-the seller of labour power is exploited and living with miseries and degradation. So, there is no option except end the buying and selling system to end the exploitation for the emancipation of the workers.

Therefore, unity of workers of the world is the first condition for the emancipation.

Thereby, practice any such policy except unity of workers of the world is helpful to confuse and divide the workers of the world and thereby these policies are harmful, dangerous and suicidal for the working class.

But, Leninist parties has been trying to divide the workers of the world by nation, country, gender, great, extra-ordinary etc & etc nonsense and rubbish but fabricated and emotional concepts of patriotism, national liberation, freedom of woman etc on the basis of Leninism- the corruption of science of communism; and the politics of state capitalism and so-called right of self-determination of nations.

Therefore, Leninist parties are so dangerous, so harmful and suicidal for the working class.

So, there is no option except rejecting the Leninism to rebuild the communist movement to form a working class party that is a communist party to unite the workers of the world to fight the wage slavery system to vanish wage slavery by vanishing the commodity production system by vanishing the private property by a communist revolution by the working class alone for a exploitation free society, where there is no discrimination among the human being by nation, color, race, religion, sex etc thus, all are equally dignified human being to do anything freely including love and union, and identity of everyone is human being with full sense of humanity.

#### 17-02-15.

#### (2) Politics

Politics is nothing but the supreme policy of all evils to serve the parasitic interest by oppressing and overpowering the exploited and others by the by born condition of politics.

But, the politicians has been trying to impressing the wage slaves and others to convince and confuse that the politics is a great policy to serve all to ignoring and denying the classes and class interest.

Therefore, politicians are not free from lie even about politics.

Thereby, politicians are not free from acting as great to sacrifice their lives for the well being of mass people.

Though, the size of pocket and private property of the politicians mainly ruling parties has been increasing by the size of power holding by them.

Undoubtedly, successful politicians are so expert to act as required even by crying to cash the sympathy and support even from the victims of politics.

# (1) Good Bye Capitalism

The Moribund capitalism is suffering from so many nonsense including recession.

The reactionary capitalist class has lost its ability to rule the capitalist society by the effect of the repeated recession -the non curable disease of capitalism by the existing conditions of capital.

But, the disabled capitalist class has been trying to protect the moribund capitalism for the sectarian interest of it by trying to roll back the wheel of history therefore, the reactionary capitalist class has taken shelter again to the religion- the politics of masters and lords but defeated by the revolutionary capitalist class to develop the capitalist society- a global society, after the failure of Leninism -the politics of state capitalism to serve the capitalist interest.

Therefore, capitalist class as a whole are staying at present but living in the hole of past by using the politics of past.

Thus, capitalist class as a whole is nothing but ghost.

But, capitalists are alive to sucking the blood of working class to accumulate capital by exploiting the sellers of labour power.

So, the reactionary capitalist class has been suffering from insanity by the load of huge stock.

Thereby,the disabled capitalist class can do anything including killing its own members by anyhow without caring its own law.

So, militarization of politics by using the fundamentalism, fanaticism, racism, terrorism etc rubbishes are the practice of the reactionary capitalist class.

Therefore, the disabled capitalist class do not care its well published claim -the rule of law to maintain the peaceful co-existence. In fact, lawlessness or anarchy is the current condition of the moribund capitalism.

No way except vanish the capitalist system by the working class to get relief from the such suffocating, miserable and inhuman conditions by the insanity of reactionary capitalist class-a permanent patient of mental disorder by the economic anarchy by the existing conditions of capital- (1) Reproduction; And (2) Circulation.

So, good bye CAPITALISM.

#### Earth

The Earth is one, but the claimed creators and maintainers of it are not less than 1 billion 100.

But, no one of them knows even the diameter of the earth.

More interesting that no such claimed creator knows that the earth is moving. N.Copernicus is the first man who said that the earth is moving.

Scientist Bruno is the 2nd who said that the earth is moving. But, sorry to say that he was not only killed but also burnt alive publicly at Rome city by the order of the court at 1st January,1600 to protect the authority of the divine right holders to rule, oppress, exploit and overpowering the subjects and slaves by introducing and

using the said creators and maintainers of the world to justify the source of power of the masters and lords- the parasitic section of the human being and the originators of parasitism by dividing the human being into classes.

Galileo was not free from punishment by the court of Rome for the same reason, but he was not killed directly but imprisoned till death.

Certainly sure, no one of the said creators knows the real age of the earth.

Even, no one of them knows the elements or properties of the earth.

Undoubtedly, no one has created the earth.

Sure, the earth is a natural product, and age of it is known thing by the scientists.

Noted, science is nothing but the code of creation.

Therefore, science is a factually fact thus, science is reality so, science will win.

Thereby, all unscientific concepts that is all ill motivated, sectarian and self-centred thus, fabricated & manufactured stories about the earth and earthly lives by the beneficiaries from the parasitic system for their parasitic interest are not only lie and false but also dangerous and harmful for the real life of the human being.

No doubt, working class will vanish all such unscientific thereby, false & foul stories thus, myth and mythologies by their forceful actions globally for not only emancipation of the working class alone but also freedom and liberty of all of the world by a scientific society, where there is no room for any parasitic exploiter, that's why there is no great or extra-ordinary or ordinary one

but everyone is not only scientist but also equally dignified as a human being free rule man by man.

#### <u>14-02015.</u>

#### No Law, No Crime, No punishment

Law makers are sure that the law itself an instrument to control and rule the others thereby somebody will violate the laws to deny the rulers for their interest, therefore, there is penalty and punishment for violation of law.

Even, there is capital punishment for violation of some laws in different countries.

Once upon a time there were 122 laws for capital punishment at UK, though currently there is no law for capitalist punishment at UK.

Therefore, law it-self is the best record of proof that the law is for violation by somebody even by law makers too.

Noted, there was no law before private property to protect it for the parasitic interest of private property holders by introducing the politics to rule, oppress and overpowering the exploited and others.

Therefore, there was no violation of law before private property and politics.

Thus, there was no penalty and punishment for violation of law.

So, there was no crime before law, that is before private property and politics no one was parasitic or criminal.

The first written law is the Code of Humburrabi, but more or less it's with various sections for death sentence to punish the violators to serve and protect the interest of masters.

No doubt, if there is no private property, there is no politics, thus, there is no law, so, there is no crime and punishment.

Thereby, not the rule of law but the end of law is the condition for the freedom of all of the world by ending the politics by vanishing the private property thus, there is uninterrupted peace.

Certainly sure, the outcome of sellers and buyers of labour power of the world is a new society free from private property, politics and law.

So, working class will win the new society where there is no law, no crime, no punishment.

#### About AAP

Is really the AAP ( Aam Aadmi Party, India) against corruption? NO.

Because, it's not against capital.

But, capital it-self is the fruit of corruption.

Because, capital is nothing but the unpaid labour.

Is AAP against the constitution of India? No.

But, the constitution of India is not against the capitalist interest.

Thereby, the AAP is not against capitalist interest thus, its not against the reactionary capitalist class and the moribund capitalism-the cause of all miseries of wage slaves.

Certainly sure, working class -the producer of capital is not ordinary but the only the genuine people and the hope for the best future of the human being; And undoubtedly, the members of capitalist class- a corrupt class as a whole is not great but also a so waste class, because, it's not only the exploiter but also disturbing the scientific development of the society.

But, the AAP has been acknowledging that the corrupt capitalists are great and thereby the working people are ordinary that is AAM ADMI, which is not only a falsification of truth but also totally against the dignity of working class.

Thus, the name of AAP is it-self is against the working class.

Noted, there is no basic difference among the registered political parties of India by terms and conditions of the registration to support, defend and protect the constitution of India to serve the capitalist interest to protect the so waste capitalist system- a corrupt system.

### **Political Party and Country**

No political party is working for the country, but working to serve the capitalist interest by managing the capitalist system to protect the capitalism for the capitalist class to accumulate capital by exploiting the wage slaves. But, all political parties has been claiming and pretending that they are serving the country to confuse and blackmail the wage slaves to chain and divide them by nation and country.

If fact, country is nothing but a part of the world chained by the political boarder by the politicians. Thus, country have no interest but the politicians have political interest so there is conflict and contradiction among the countries.

There was no political party before capitalism. Therefore, the political parties has originated to serve the capitalist system by serving the capitalist class by the capitalist class to create every possible opportunity and scope to produce commodity and to easier communication system to circulate the capital so easily to the whole world for the survival of the capitalist class by using the state power and over powering the wage slaves for maximizing the rate of accumulation of capital by maximization of the rate of exploitation.

Therefore, capitalist class has created a world after its own image, thus, capitalism is a worldwide system currently ruled by the some global syndicates including IMF-the controller of the world economy.

Moreover, disabled capitalist class has introduced the WTO to ensure the free movement of commodity and capital all over the world along its judicial power to punish the violators' country.

In fact, countries are the local unit of the IMF and WTO and the governments are the local authority to implement the policies of the said global syndicates to serve the capitalist interest to protect the moribund capitalism.

Noted, Founding members of the UN were 51, but now 198.

Therefore, records show that the political parties has been increasing the number of country by dividing the counties.

If the political parties are working for the country, then how they dividing the countries?

So, not country but the interest of political parties are serving the capitalist class, and if need by dividing the countries.

## Language and state Language

There was no state, but there were languages.

Therefore, there was no state language before state.

Thus, if there is state, there is language for using by the executives and officials of state to manage the parasitic system for the interest of ruling class.

Noted, state is a powerful, strong but oppressive machine thus its nothing but a class weapon to serve the ruling class.

Currently, there are more than 6,000 languages all over the world but all languages are not state language.

Moreover, more than 50% language of the world will be reduced by the next 50 years.

Furthermore, language is nothing but an expression of human being to contact and communicate among themselves to maintain their daily lives and develop the society. Thus, no particular language is so important more than the development of lives of human being.

Rather, in the mean time so many languages have already lost their existence by the development of human being by developing the material condition of production thereby the society.

So, no state language is so important more than the development of human being to develop the material conditions of the human being as a whole.

Rather, a most developed and most modern society of human being will reduce so many languages for the better contact and easiest communication of all members of the human being , where there is no conflict and discrimination among the human being even by nationality and language or sex.

On the other hand states are defunct under the rule of the IMF -the global financial instrument of capitalist globalization.

Thus, so many state languages has been losing their use under the such condition of moribund capitalism.

Furthermore, the defunct states will vanish by the communist revolution by the working class alone by the existing conditions of CAPITAL.

Therefore, there is no necessity of any state language in a classless -state less and politics free society win by the workers of the world.

Noted, emotion is a part of life but life is not a bag full of emotion.

So, no emotional but the scientific concept is so important to think and decide the real things of lives for the betterment of real lives.

### **Dignity and Humanity**

Not only against dignity but exploitation man by man is also against the humanity.

Not only against dignity but miseries man by man is also against the humanity.

Not only against dignity but undermining man by man is also against the humanity.

Not only against dignity but ruling man by man is also against the humanity.

Not only against dignity but dictating man by man is also against the humanity.

Not only against dignity but controlling man by man is also against the humanity.

Not only against dignity but punishing man by man is also against the humanity.

Not only against dignity but killing man by man is also against the humanity.

Not only against dignity but raping man by man is also against the humanity.

Not only against dignity but torturing man by man is also against the humanity.

Not only against dignity but dishonoring man by man is also against the humanity.

Not only against dignity but division man by man is also against the humanity.

But, no class divided society including capitalism is free from such inhuman actions to serve and protect the parasitic interest of the private property holders.

Therefore, there is no option except vanish the capitalist society- the last and final class divided society of history to get relief from all such nonsense and rubbishes jobs by man for the equal dignity of all by a humanitarian society - the communist society.

Sure, working class will win the new society, where everyone is equally equal thus, there is no discrimination among the human being and that is a humanitarian society- communism, free from the private property-the cause all such nonsense inhuman jobs by man.

#### <u>03-02-15.</u>

#### **Political Job and**

A chief executive of a state or a contender for the post of chief executive of a state have no financial problem to live with that special job to manage the capitalist system to serve and protect the capitalist interest.

But, a wage slave cannot live without selling his labour power in this capitalist system to accumulate capital for the capitalists.

Therefore, a job is so important for a wage slave to live.

But, the contenders for the job of chief executive of a state do not care and hesitate to kill even the only earning member of a family of a wage slave for their job. The contest, competition, contradiction and conflict of

contenders for the post of chief executive of a state along with such dirty and heinous actions including violence, war, killing, rape, arson etc to disturb the normal life of others mainly the most effected wage slaves by these vile jobs of them is called politics.

But, if there is no state, there is no post of a chief executive of it, thereby, there is no contenders for the job of the chief executive, thus, there is no politics, thereby, there is no such nonsense actions of politics to kill and disturb the normal life of human being.

Noted, state has originated from the private property to oppress the others for the sectarian interest of parasitic section of human being as emerged as a ruling class to rule and overpowering the rest mainly exploited that is slaves to protect the private property. It was so unjustified but slaves were also the private property of masters. Shame!

But, if there is no private property, there is no state to serve and protect the class interest, therefore, there is no politics to do the same nonsense jobs thus, all are free to live their normal life with uninterrupted peace.

Sure, working class will win a new society without state and politics.

#### (2) Rate of Billionaires

Jack Ma, was the first but today he is the 2nd richest man of the 'socialist China' of the 'great' Leninist leader Mao'

by losing 1.4 billion US dollar in a single day in the share market. He is the founder of Ali Baba, an e-commerce company.

Records show that the number one position for the rich man of the world is not a permanent for anyone.

Because, there is competition among the billionaires of the world.

Thus, no billionaire is safe and secure by such competition system of the capitalist society- a society of certainty of uncertainty.

Currently, the total number of billionaires of the world is 2,325 and among them - USA: 571; China: 190; and Japan27.

(<a href="http://en.wikipedia.org/.../List\_of\_countries\_by\_the\_nu">http://en.wikipedia.org/.../List\_of\_countries\_by\_the\_nu</a> mber o...)

Socialism is nothing but a discrimination free society by the abolition of private property with all rights of inheritances but with the ownership of the means of production by society, thus, there is no scope to be a private property holder, so, no question does arise at all to be a billionaire in socialism.

There is no record of any billionaire in China before 1949, but now 190. On the other hand, the USA has produce 571 billionaires by 225 years. And Japan is the 2nd richest country and the USA is number one by the SDR records of the IMF, but Japan has only 27 billionaires.

It's known that the unpaid labour is capital, therefore capitalists are exploiter, and thereby billionaires of the world are nothing but the biggest exploiters. Therefore, the place for producing the maximum number of billionaires by shortest time is China of Mao.

Thus, the rate of exploitation is higher in China than USA or Japan.

Therefore, if the China is a socialist, then why not the USA is 1000 times more socialist for the lower rate of exploitation than China.

In fact, as a Leninist boss Mao has founded a state of state capitalism, where the rate of exploitation is much higher than traditional capitalist countries.

USSR -founded by Lenin by a planed military coup was also a state of state capitalism.

Noted, Leninism - an ideology but the corruption of science of communism-discovered by Marx is not against capitalism rather, it was useful to serve the capitalist interest, but currently lost its utility by the politics of globalization of the reactionary capitalist class.

In details: No Leninist Party is Communist Party, a book, published by the ICWF, @ www.icwfreedom.org .

## Rape and Punishment

There is law for death sentence for rape, but there is rape. In fact, if there is law to protect the private property there is violation of law, thus, there is lawful punishment.

But, if there is no law, there is no reason to violet the law thus, there is no punishment. That means there is no crime determined by law if there is no law. Undoubtedly, women are not sex commodity but yet treated even, not only as sexual commodity but also sex slave to produce legitimate inheritances to protect the private property of their husbands.

Therefore, if there is no private property, there is no law to restrict any one to do anything including love and union, thus, question of violation of law does not arise at all, so, there is no rape or violence.

Thereby, only the option for a rape free society to abolish the private property to determined the equal dignity of all by vanishing the all concepts -ideas etc nonsense those are helpful or useful to create disparity and discrimination among the human being.

Undoubtedly, working class will conquer a new society where there is no private property, no classes, no law for class interest, no crime, no punishment, no disparity or discrimination among the human being even by sex, no sex slave, no right of inheritance, no commodity, no wage, no exploitation, no great or ordinary people, no selling and buying.

So, there is no rape in that new society-Socialism.

#### 31-01-15.

#### **Politics**

There is politics, but there are no contradiction, no conflict, no violence, no conspiracy, no killing, and no torture, is it possible? No.

There is politics, but there are no exploitation, no miseries, no oppression, no overpowering, no undermining, no hateful behaviors, no lie, no cheat, no fraud, and no betraying, is it possible? No.

There is politics, but there is no rape, no ugly and dirty jobs, no ferocious events, and no brutalities, is it possible? No.

There is politics, but there is no class, no class rule, no class instruments, and no class struggle, is it possible? No.

There is politics, but there is no disparity, or no discrimination among the human being, is it possible? No.

There is politics, but there is no war or no war war situation, or no possibility of war, is it possible? No.

There is politics, but there is no arms forces to kill, to torture, to intimidate, is it possible? No.

There is politics, but there is no uncertainty, is it possible? No.

There is politics, but there is no parasitic, is it possible? No.

There is politics, but there is no hateful situation, is it possible? No.

There is politics, but there is no private property-the cause of all such nonsense and rubbishes, is it possible? No.

There is politics, but there is no want of peace, is it possible? No.

But, if there is no politics, there is no such nonsense and rubbishes therefore, there is uninterrupted peace for all of the world. So, a peace lover have no option except fight against the private property to vanish the politics by vanishing the private property holders by disappearing the capitalist society by the forceful action of the working class -the only and alone force to do the same for a discrimination free society, where there is no exploitation, thus, there is no politics, so there is no want of peace.

Noted, politics has introduced by the masters to serve and protect the private property by so many political instruments.

Political party - a modern instrument to exercise the political power to serve and protect the capitalist private property has introduced by the capitalist class.

## **Education professionals to Kill.....**

A provincial Government of Pakistan has announced to provide fire arms to the educational professionals to kill terrorists, without trial.

No doubt, capitalist society based on private property is not free from personal conflict, or personal enmity. Therefore, there is scope and opportunity to take revenge by killing the personal enemies by branding the killed as a terrorist by the educational professionals by getting the fire arms to kill.

Educational professionals are for helping the students to improve their level of information but not killing.

But, now they will kill by the fire arms, provided by the Government. Therefore, how they will perform their professional duties? Will the students of them will feel free to talk with them? Will they get extra benefit from the Government for charging such extra duty to kill?

If the educational professionals will do the same then what will be conditions of the regular arms forces, though the arms forces are not allowed to fire at sight without some special conditions, define by the laws and rules.

Is not the announcement of the said government is not a bitter record of proof of inability of state to survive?

Sure, states are defunct under the rule of the IMF.

No doubt, reactionary capitalist class has been suffering from insanity for its disability to run the society by the load of over production.

Now, a section of reactionary capitalist class is not only suffering from insanity but also the heinous tendency of killing the contenders.

Mentionable, no terrorist is free from capitalist concepts to increase his political power to dominate the others to increase his material benefits by serving the state power. Religious terrorist to Maoist no one is working for the disappearing the capitalist system by the working class, rather, they are trying to confusing and dividing the workers of the world by their political creeds and views to protect the capitalist society.

Certainly sure, unity of workers of the world is the first condition and united action of the leading countries (G-7) at least is one of the first conditions for the peace of all by vanishing the all fire arms and arms forces to kill.

Therefore, a peace lover have no option except trying to work to unite the workers of the world to vanish such heinous capitalist class along with its all instruments to rule and overpowering the working class including arms forces for the uninterrupted peace for all of the world.

## **28-01-15.**

#### **New Government of Greece**

Will the new Government of Greece will fight against wage slavery? No.

Will the new Government of Greece will vanish the constitution of Greece- a constitution for the capitalist interest, to end the scope and facility of exploiters for the interest of exploited wage slaves? No.

Will the new Government of Greece will vanish the selling and buying system to end the exploitation? No.

Will the new Government of Greece will end the selling and buying of labour power to end the exploitation and miseries of wage slaves? No.

Will the new Government of Greece will abolish all personal laws in relation to private property-the cause of all evil jobs including killing, violence, rape etc with all rights of inheritance? No.

Will the new Government of Greece will disappear the arms forces to end the war, killing, violence, etc nonsense? No.

Will the new Government of Greece will destroy and vanish the prison and penal code to free the inhabitants? No.

Will the new Government of Greece will vanish the commodity production to vanish the capital- the unpaid labour? No.

Will the new Government of Greece will reduce the capitalist education system- a system to produce the human tools for the capitalist mode of production? No. Will the new Government of Greece will withdraw the membership of Greece from the IMF-the controller of the world economy to serve and protect the capitalist interest and moribund capitalism? No.

Therefore, what the new Government of Greece will do for the interest of working class?

Nothing, nothing and nothing.

Noted, the cost and expenditure of a state is nothing but a part of surplus-value, produce by the wage slaves.

Thus, if there is state, there is exploitation even to maintain it to maintain the capitalist system - a worldwide system to accumulate capital by exploiting the wage slaves to overpowering the wage slaves.

So, the left party of the Greece -the winner party of recent parliament election,2015, and thereby, it is going to form the government of Greece is nothing but the left side of the reactionary capitalist class- suffering from insanity by the huge pressure of recession -the non curable disease of capitalism. Therefore, the new Government of Greece will undoubtedly suffer by the insanity, thus, failure of the left

party to run the Government smoothly is due and unavoidable.

## <u>26-01-15.</u>

## **An Illusion of Independent Country**

India was the founding member of the IMF-the controller of the world economy, and a global syndicate of capitalist class to serve the capitalist interest by serving the capitalist system by injuring and defunct the states to protect the moribund capitalism.

India is not out of the IMF, yet even it did not withdrawn its membership from the IMF after 1947.

No member state of the IMF have independent capacity even to fix and determine the tax and tariff policies to earn and expend. In fact, government of a member state of the IMF is nothing but the local agent of the IMF to implement the policies of the IMF, even if some of these policies are against the constitution and laws of respective country.

India was under capitalist system before participation-1947 and still now under the same capitalist system, introduced and developed in India by the France East India Company and mainly British East India company by defeating the Indian reactionary rulers but not only politically but also disappearing the local, self-dependent and nature dependent but so poor economy, where the famine was a regular yearly events to kill so many people and lives of people were still and unchangeable as like as plants along with slavery customs and traditions to worship even to cow or tree to gain the material benefit from not only cow but also non-material or no existing but claimed and believed authorities by the lesson, teaching and concepts of different ideologies, creeds etc of various faith from religions, mythologies-the politics of masters and lords. There was absolute blindness and ignorance even about life and death.

Capitalism is not only a more and more advanced economy with a global system but also a enlightened society with science and modern education system, political system with modern law and judiciary, transportation and communication system etc from such poor and self-dependent economy, though it is not free from exploitation and class division, rather, capitalist class has produced the working class to accumulate the capital by exploiting the wage slaves by buying the labour power of working class.

Undoubtedly, the Indian capitalist has got more and more scope and opportunities to increase their volume of capital by getting the political power from England and France to rule and overpowering the wage slaves of India by the effect of 2<sup>nd</sup> world war by ending the colonial policy-the integral policy for capitalist development by the winners of the 2<sup>nd</sup> world war including Leninist boss Stalin –the key founders of the UN, IMF etc global authority.

But, the capitalist class as a whole has got the chance and scope to divide the workers of the world by founding such so-called independent states like as India to protect the moribund capitalism with a disabled capitalist class to rule the capitalist society but patient of insanity by the huge load of stock by practicing the politics of claimed national liberation by implementing the so-called right of self-determination of nations as a declared policy of the UN.

Noted, Lenin and his party and the so-called 3<sup>rd</sup> International founded by Lenin, Trotsky etc was for the so-called right of self-determination of nations.

Not only cheat and deprive but the said policy is effective to ignore the class identity of working class by working class by the foul but emotional ideas of nationalism; and its useful to dived the workers of the world by nation and country. But, unity of workers of the world is the first condition for the emancipation of them, those who have nation and county but a world to win by losing their chain.

Therefore, founding such so-called new state is so useful for the capitalist class as a whole though some member of it has lost something by losing their political power.

But what about working class? Nothing less than increasing the rate of exploitation, and losing the class interest thus increasing the miseries, disunity by ignoring the class identity by the illusion of independent country.

Thus, not getting any such so-called independent country to lose and chained but the workers of the world has need unity to fight against capitalist class globally for their emancipation.

So, a working class party is a historical necessity to unite the workers of the world to fight against the capitalist class and system to vanish both by their global forceful action for their emancipation, where there is no class, no class rule thus, no class instruments including state, UN, IMF etc.

## <u>25-01-15.</u>

#### **No Politician in Communism**

**Lenin** was a successful politician. He was the founder of the Leninism. But, the

rejection of poisonous Leninism-the corruption of science communism -discovered by Marx is unavoidable condition to know and understand the capitalist system, socialism - the historical consequence of capitalism by a communist revolution by only working class- the ever biggest global events -imposed by the reactionary capitalist class and communist party - a party of only working class to unite the workers of the world to fight against capitalist class by fighting against wage slavery to vanish the wage slavery to end the exploitation by abolishing the private property

Politics is not free from violence thus its not free from drama of so-called peace by politicians. But, the hard reality is that if there is politics there is no peace. Because, there is private property thus, there is contest, contradiction, conflict etc to accumulate the capital-produce by the wage slaves.

In fact, capitalist society based on private property is a society of certainty of uncertainty. So, no one is safe and secure in capitalist society- a global society, currently ruled by the some global syndicates including IMF-the controller of the world economy.

A successful politician is a best actor to stage a drama for his political interest to impress his supporters and to confuse the wage slaves to win their support to him by ignoring the interest of working class.

There is no doubt that the public statement and hidden agenda of a successful politician is not same but, the followers and supporters of a successful politician believe his public statement without considering his overall activities to serve a section of parasitic people to increase their volume of wealth by serving the capitalist interest as a whole.

Even, his pocket is not so narrow to put his personal share for such acting to create such nonsense impression that he is serving and protecting the interest of people of his country as a claimed leader of people.

But, people is a combination of classes but there is contradiction among the exploiter capitalist class and exploited working class by the condition of accumulation of capital-the unpaid commodity. Thus, no one is out of class and class interest in the capitalist society, thereby, the very word 'people' is a well fabricated term to mislead the workers.

So, no politician is a leader of people but the servant of capitalist class in this capitalist society to manage the capitalist system.

Thus, politicians have no option except to play such role of such false leader of people to hide the fact of politics too.

Therefore, politics and politicians are not free from lie too.

No doubt, peace in such uncertain capitalist society is a

day dream but an artificial projection, a false political propaganda and a fake commitment of politicians. Sure, if there is no politics, there is uninterrupted peace for all of the world and that society is a communist society, where there is no private property but social ownership of means of production.

So, there is no politician in communism.

## **24-01-15.**

## Socialism is free from politics

There was no politics, no political authority, no kingdom or state before the slavery society-the first class divided society.

Therefore, there was no class, no exploitation, no oppression, no torture, no violence, no rape, no killing man by man thus, there was no discrimination among the human being even by sex in the ancient society.

And, undoubtedly there was no private property-the root of all evil works including rape and killing.

The inhabitants of ancient society were free to migrate to any where to live and stay for their survival.

But, currently people of the world are restricted to go anywhere by their choice by the political authority. Yeah, there is not less than 265 administrative unite in the world including 198 member state of the UN to restrict, though the capital and commodity will be free to move all over the world by the agreement of GAT, 1995 to ensure the free market economy.

Noted. the age of human being is not less than 2,000,000 years but the age of class divided society is not more than 5600 years.

In the meantime the slavery and feudal both societies has vanished by the outcome of class struggle.

So, there is no reason to be continuing the so waste capitalist society with a disabled capitalist class.

Certainly sure, the outcome of contradiction of working class and capitalist class is the socialism- a discrimination free society.

So, private property, wage slavery, exploitation, oppression, torture, violence, rape, killing and all such nonsense will be vanish by the vanishing of politics by the revolutionary working class.

Therefore, the world will be a political boundary free world with a most modern society along with most modern and scientific but so lovely and friendly ever green human being to work to win the nature.

## <u>23-01-15.</u>

## Politics, political party and Political Contenders

There was politics but not political party before the capitalist system. In fact, politics is the supreme policy of all nonsense policies of parasitism, introduced by the masters and lords for their parasitic interest.

Therefore, a political party is nothing but the servant of parasitic section of the capitalist society, but a ruling party is not only servant but also manager of the capitalist class, therefore, there are so many scope and opportunity to earn and use the various facilities in cash and kind by the ruling party. Even, oppositions are not always deprived.

Therefore, there is contradiction, contest and conflict among the political parties to occupy the state power to enjoy the state power to gain the different benefits by maintaining the capitalist system by oppressing and overpowering the working class; and by founding, building, constructing and creating the required structures, installations, institutions, transportation and communication for the easiest circulation of capital and quickest reproduction of commodity to accumulate capital by exploiting the wage slaves.

So, state power is so necessary for gaining the material benefit by managing the capitalist system by a political party.

But, sorry, capitalism is in moribund condition with so many defunct states by the rule of the some failed global syndicates including the IMF, and thereby the reactionary capitalist class have no ability to lead and rule the society, thus, there are so danger, so waste and so heinous conditions in all over the world by the so many vile and brutal actions of the contenders of state power among the contesting political parties including war, violence, political unrest etc & etc.

Therefore, there is no alternate except ending the politics by vanishing the political parties by disappearing the capital by overthrowing the disabled capitalist class into the air by abolishing the capitalist private property by the working class to get relief from the such so waste situation and rubbish conditions.

No doubt, working class will win their world by defeating the so reactionary capitalist class.

## **18-01-15.**

## He Who.....

He who is not against private property or wage slavery is not against exploitation or politics.

Religions were the politics of masters and lords to serve the sectarian parasitic interest of them by protecting the private property, and yet exist because, there is private property, though, the revolutionary capitalist class has defeated the lords and masters along with politics of lords and masters by the politics of secularism-the integral part of democracy to develop the capitalist society- a worldwide society.

But, it was the reactionary capitalist class who has used to like to nourish and spreading the views of decayed religions to protect their private property by confusing the working class- the only revolutionary class to fight to vanish the capitalist class by vanishing the private property by replacing the capitalist society by the communist society- a society with common ownership of means of production. But, failed.

Therefore, the disabled capitalist class has introduced Leninism -the politics of state capitalism and so-called 'right of self-determination of nations' to confuse the working class about capitalism, communism, communist revolution etc, and divide the workers of the world by the nation and country to protect the decayed capitalism. But failed.

Therefore, the reactionary capitalist class has been suffering from the insanity by repeated failure to protect the capitalist class from the huge pressure of huge load of huge stock even by taking the politics of capitalist globalization to control the capitalist system by some global syndicates including the IMF.

Thus, the reactionary capitalist class as a permanent patients of insanity by the failure to solve the problems and crisis of unsolvable disease of capital -the recession has been using the tactics of quarrel, conflict, contradiction etc by using the so many dead and unnecessary or useless issues including religion among-(1) the nations; (2) countries; (3) religious camp; (4) groups for religion and against religion; (5) race; (6) ethnicity etc to create violence, war and war war situation to try to get some sorts of relief by destroying the structures and installments along with various things to get relief from current recession; involving the working class with such nonsense contradictions to take their active participation with any section of the capitalist class those are involve in conflict by ignoring the class contradiction and class struggle between the capitalist class and working class by losing and damaging the class interest and class identity of workers of the world.

Killing of Paris, (Jan-2015) and so many places of the world is nothing but the filthy effect of such heinous tactics and policies of the so reactionary capitalist class.

Noted, no conflicting group is against private property or wage slavery to vanish the politics for the freedom and liberty of all of the world.

Sure, there is no alternate except unity of workers of the world to fight against the wage slavery to vanish it by vanishing the capitalist class by vanishing the capitalist system by vanishing the private property by ending the politics by a communist revolution by working class alone.

#### **Politics is not Free From War**

Politics is not free from war, violence, killing, arson, rape, destruction etc nonsense and many other inhuman actions thereby, these heinous activities are not out of politics, since the introduction of politics.

Politics has introduced by the masters by founding their kingdoms to serve and protect the parasitic interest of them by using, exploiting and overpowering the slaves by introducing private property.

Therefore, the politics is nothing but the effective policies for private property to serve and protect the sectarian parasitic interest of the private property holders. Noted, kings that is the political bosses of masters of slaves has introduced the weapons and tools of war with arms forces to protect their political authority and to extend the area of their kingdoms by defeating others kings.

However, defeated kings were not free to try to regain the political authority of their lost kingdoms.

In fact, the age of politics and parasiticism is the same thereby, the age of politics and killing, violence, rape etc rubbishes is same, and all such inhuman works are the inter-related things of politics.

So, the politics is nothing but the supreme policy of all nasty policies.

Therefore, if there is politics, there is classes, and if there is classes, there is exploitation, thus, there is parsiticism, and if there is parasiticism, there is war, violence, killing, rape, arson, destruction etc filthy activities.

But, if there is no politics, there are no classes, thus, there is no parsiticism, thereby, there is no war, no violence, no killing, no rape, no arson, no destruction and etc dirty works against the human being and humanity.

Therefore, there are no arms and arms forces to serve and protect the parasitic interest.

Thus, there is uninterrupted peace with a friendly and lovely relation among the human being, where there is no private property for the parasitic interest, thus, there is no discrimination and disparity among the human being. So, all are equal with equality or equal dignity.

Certainly sure, workers of the world will conquer their world by defeating the last and final parasitic class of history-the capitalist class.

## Not only the Capitalists of a state but

Not only the capitalists of a state but a government is serving the interest of the capitalist class of the world by managing the capitalist mode of production - a worldwide system, currently financially ruled by the IMF-a global syndicate to control the world economy.

Therefore, executives of various states mainly developed countries has been not only expressing their concern about the waste political situation of a country but also intervening to end it to protect the capitalist society-a global society.

Therefore, the winners of the 2nd world war- the political bosses of capitalist class of the world has founded so many global organizations including the UN to do this such action of intervention.

Sure, capitalist class as a whole is not free from their inner contradiction, contest, conflict etc thus, there is division among the political bosses of capitalist class, thereby. there is difference of opinion of representatives of different countries at various global forum about the actions because of economic interest of them at the concern countries.

Therefore, no state is running by the only executives of it but also the executives of so many states and global agencies.

In fact, states are defunct under the rule of such global agencies. Thus, no state have independent power to take economic policy to earn its fund to expend by collecting the tax, tariff etc thereby there is voting to appoint the executives of states but there is no democracy.

So, democracy is dead.

Therefore, there is only one single option to replace the capitalist system by the communist system by the common ownership of means of production to produce necessary things for all of the world by all able bodied by ending the selling and buying system by a communist revolution by the working class alone- the only revolutionary class of this epoch.

But, Leninist parties are working to occupy the state power to form a so-called self-dependent and new/people's democratic state, as they have been claiming that they are socialist. How funny!

More details: NO LENINIST PARTY IS COMMUNIST PARTY, a book, published by the ICWF, @ www.icwfreedom.org.

## <u>15-01-15.</u>

## **Capitalism is in Moribund Condition**

Capitalism is in moribund condition by the repeated recession by the existing conditions of capital.

In fact, the capitalist class has lost its ability to rule the society since the capitalist society had become old before the manifesto of the communist party by Marx and Engels had public-1948.

But, yet the moribund capitalism along with a disabled capitalist class is exit under the rule of some global syndicates including the IMF- because, workers of the world is not united to disappear the moribund capitalism. Because there is no working class party to unite the workers of the world to fight against the capitalist class by fighting against wage slavery to vanish it by a communist revolution.

On the other hand WB, IMF etc has failed to control the capital from creating the recession by the existing conditions of capital. Thus, there is recession since 2008. Therefore, the reactionary capitalist class has been suffering from the insanity by the heavy pressure of huge load of stock.

Thus, the disabled capitalist class has been using the religions -the politics of masters and lords to protect the capitalist society. So, there is not only local or regional war or civil war but also religion war is ongoing in different parts of the globe.

Noted, the revolutionary capitalist class has defeated the politics of the masters and lords by using the politics of secularism-the integral part of democracy to developed the capitalist society.

In fact, the reactionary capitalist class has taken shelter to the past.

Therefore, there is no alternate except a communist party to unite the workers of the world for a communist revolution to vanish the so-waste capitalism by vanishing the reactionary capitalist class for a classless society for protecting the human being from such insecure situation.

## Not only one single life but

Not only one single life but a human body have contain more or less 77 to 100 trillion lives.

Therefore, the human body is composed of above mentioned number of cells.

Remarkable, the cell is the basic structural, functional, and biological unit of all known living organisms.

Cells are the smallest unit of life that can replicate independently, and are often called the "building blocks of life".

Therefore,

- (a) All living organisms are composed of one or more cells;
- (b) The cell is the most basic unit of life; And
- (c) All cells arise from pre-existing, living cells.

Noted, the cell was discovered by Robert Hooke in 1665, and the cell theory, first developed in 1839 by Matthias Jakob Schleiden and Theodor Schwann.

Though, Cells emerged at least 3.5 billion years ago from non living elements.

Therefore, the death of a human being does not mean that the disappearance of a so-called single soul from his body.

In fact, there was no scope to know the fact of death or meaning of death and the origin of life before the discovery of cell. Thereby, the origin of life was unknown before the "Cell theory".

So, all concepts, ideas etc about life and death were wrong before 1839.

#### Lie is Lie

Politicians are nothing but the managers of capitalist class to manage the capitalist interest by overpowering the working class and creating the proper scope and facilities by constructing the required structures, transportation and communication system for ensuring the friendly conditions for production and circulation of commodity so easily and speedily to defend the existing conditions of capital.

Sure, maintaining the law and order by the concern authorities is another task of the executives of states.

Noted, executives of states are the leading politicians.

But, politicians has been claiming that they are serving the whole people of their respective states. Therefore, they are not only servant of people but also so great.

In fact, politicians has been trying to confuse the working class by spreading such politics of greatness of politicians and service of them for the so-called people to ignoring the class, class interest and class role in this capitalist system ruled by the disabled capitalist class.

Capital is the fruit of exploitation, thus, capitalist class as whole is not only exploiter but also liar about the capital-the unpaid labour.

Thus, managers of capitalist class have no option except to lie and cheat the working class to be a successful politicians. But, lie is lie.

## 05-01-15.

## I am with Marx but against Lenin

#### I am with Marx.

But, not because of that he was a extra-ordinary or great leader or messenger or universal reformer, rather, as a scientist he had discovered the science of communism, thereby he worked for communism - a discrimination free society, which is the historical consequence of capitalism therefore, communism is inevitable by the existing conditions of capital.

Noted, capital cannot exist without reproduction and circulation. But, the outcome of reproduction is over

production, and the effect of over production is stock that is recession, and the result of recession is the disturbance of circulation thereby, there is anarchy and the outcome of such anarchy is the cause of lose of private ownership along with so many problems and crisis of capitalist class by labour unrest, riot, war and war- war situation, killing, bankruptcy etc & etc.

Therefore, consequence of repeated recession -the non curable but unavoidable disease of capitalism by the existence conditions of capital is the social ownership of means of production and that is socialism.

Sure, working class-the product of the capitalist class will vanish the capital and capitalist class by a communist revolution, imposed by the reactionary and disabled capitalist class but done by the revolutionary working class.

Its my pleasure, that I am with working class-the hope of future for liberty and freedom of all by playing a historical role to make sure the communist society by their global unity and global united action.

In fact, working class is the builder of future history of human being by the conditions of capital for their emancipation from the exploitation and miseries by the capitalist private property.

So, I am with the revolutionary force of history.

Certainly sure, Marx and Engels both were for communist revolution by the working class alone for communism - a global society.

No doubt, a communist revolution is the culmination of the contradiction of sellers and buyers of labour power of the world to replace the so waste capitalist society by the communist society; thus, its unavoidable because, there is contradiction among the buyers and sellers of labour power, because buyers of labour power are exploiter for paying wage to the sellers of labour power and sellers of labour power are exploited by producing the value, therefore, surplus-value against wage, but the communist revolution is not possible in one country alone.

Because, capitalism is a worldwide system introduced by the revolutionary capitalist class by conquering and uniting the whole world by the capitalist system by defeating the self-dependent but so poor and backward local economic system by defeating the rulers of the said pre-capitalist societies.

So, capitalism is a global society.

Sure, the colonial policy was the integral condition for the development of capitalism by the above mentioned existing conditions of capital. Therefore, it was progressive policy of the revolutionary capitalist class. But, now capitalism is in moribund condition by the existing conditions of capital, under the rule of some global syndicates including the IMF, to serve the capitalist interest to protect the moribund capitalism by controlling the world economy to avoid the recession, but failed

Thus, the colonial policy has lost its utility and thereby the globalization is the policy of the disabled capitalist class by making sure the defunct condition of states under the rule of said global agencies by make sure the dead condition of democracy, introduced by the revolutionary capitalist class along with secularism-the integral political philosophy of democracy to defeat the religion-the politics of masters and lords-the beneficiaries of the pre-capitalist societies.

#### I am against Lenin.

Because,

- (a) Lenin has founded a state of state capitalism at Russia by a military coup where the rate of exploitation was much higher than USA but he has claimed that he has founded a socialist state, which is not only false and a historical lie but also a bad effort to create confusion about socialism and capitalism to serve the decayed capitalism by corrupting science of communism, thereby he has used the name of Marx with his bad political intention to confuse the working class by the false claiming of him that Marx a producer of so-called Marxism was his teacher, and later on by the claim of Leninist bosses Lenin was the founder of Leninism -the corruption of the science of communism. But. science and ideology is not the same rather total opposite;
- (b) Lenin was against the colonial policy but not the capitalist system as a whole by the politics of so-called 'right of self-determination of nations' of the Bolshevik party therefore, he was for national liberation to confuse and divide the workers of the world by nation and country to serve the capitalist interest by protecting the decayed capitalism by the state capitalism;
- (c) Lenin was never a communist for a communist revolution by the working class alone for communism- a society free from capital, commodity, wage slavery, selling & buying, exploitation, torture, killing, rape, war, politics, state and state related things but with an

association of all of the world with the recall system and scope for all to hold any post of the association to communicate and coordinate the social information and production for all of the world by all able bodied with most modern equipments and instruments of production and communication, therefore, communism is free from private property -the cause of all evils and miseries but with social/common ownership of the means of production thus, socialism is free from class therefore, there is no discrimination among the human being thus, all are equally treated by all so, all are free to do anything freely including love and union; And,

(d) Lenin was a great leader, great teacher by claim of Leninist bosses but he was extreme dictator by the politics of his state capitalism and the practicing organizational policy -the democratic centralism, therefore, Lenin was for discrimination among the human being.

Moreover, capital is not the product of any singe great man but social labour. But the private ownership of capital is a self-contradictory thing and this selfcontradictory private ownership of capital or capitalist means of production is capitalism therefore, capitalism is a self-contradictory, unjustified and unfair society.

Sure, unpaid labour is capital and its the code of capital, discovered by Marx.

No doubt, capitalist mode of production is the creator of sense and concept of equality, because of social condition of the capitalist production therefore, common ownership of means of production is the essential and unavoidable condition to practice the sense of equality by vanishing the private property thus, communism is the society of equals by the social ownership by fulfillment of sense of equality by the social production system of capitalism.

So, there is no room for any great or extra-ordinary people in communism- the historical consequence of sense of equality of all created by the capitalism.

Nationality, ethnicity etc will reduce and disappear by the united movement of working class to win their world by disappearing the political border by disappearing the state and state related things by disappearing the capitalist class by disappearing the capitalist private property by a communist revolution that is the united forceful action of workers of the world.

But, Leninist parties are for so-called "right of self-determination of nations" thereby they are for so-called national liberation.

Therefore, Leninist parties are for nationalism but not communism by disappearing the nationality.

Thus, Leninist parties has been working to divide workers of the world by country and nation by their politics of nationalism.

But, unity of workers of the world is the first condition for the emancipation of working class. Undoubtedly, practicing any such policy to divide the workers of the world by a party is nothing but the crime against working class.

Thereby, Leninist parties has been committing such crime against working class since the Bolshevik party has started its works with such nonsense politics of so-called right of self-determination of nations to serve the capitalist interest.

## <u>31-12-14.</u>

(3) Not time or year but the existing condition of the society is the determining factor of life. Therefore, there is no reason to celebrate any new year day for success of life of any one.

But, there is custom and tradition to celebrate the new year's day along with so many functions by so many manners.

Noted, calendar has introduced by the rulers to collect tax and rent for a particular period for their parasitic lives.

Roman calendar was not 12 but with 10 months.

Naming the months of the Roman calendar by the name of mythological authorities by the introducer of the said calendar to impose the mythological lords by naming the name and day of the calendar.

The Gregorian calendar, also called the Western calendar and the Christian calendar, is internationally the most widely used civil calendar. It is named for Pope Gregory XIII, who introduced it in 1582 CE to memorize the birth day of Jesus as such as it was a special day.

But, sure, no day is special for the birth of any one.

Certainly, working class will vanish the all such customs to celebrate such meaningless events introduced by the parasitic rulers.

## 31-12-14.

(1)Birth of any one is not a special but quite normal and natural event.

n fact, birth of any one is nothing but an outcome of the union of 23 pair of Chromosomes. Thus, there is nothing to celebrate it.

But, the Masters and Lords has introduced the such function of celebration of their birth day's by claiming that they were not ordinary people but great man by the right of divine right holders, thus, born of them is not normal but a special event. So, celebration of such special event is the task of their slaves and subjects to live with peace and prosperity by the kindness and kind care of the said but so-called great men.

Such concepts and views has originated by the parasitic people to serve and protect their parasitic interest by confusing and misleading the oppressed classes by such worship to the masters and lords-the rulers of class divided societies.

The capitalist class is not free from parasiticism. Thus, they are for such nonsense celebration.

But, working class will win their world by vanishing the parasiticism by vanishing the disabled ruling capitalist class by vanishing the private property- the basis and source of all nonsense jobs including parasiticism by a communist revolution.

## **20-12-14**

( A ) The Source of power to rule the slaves for the sectarian interest of masters and lords from the unearthly, unseen and unproved but claimed authority of all is divine right.

Divine right holders and their beneficiaries are parasitic.

They had introduced the politics to serve and protect the parasitic interest by introducing the private property.

Thus, the politics of divine right holder is known as religion.

So, religions are nothing but the politics of masters and lords that is divine right holders;

(B) The Source of power to rule the wage slaves for the capitalist interest from the voters is secularism- an integral part democracy.

Sure, the revolutionary capitalist class has introduced the politics of secularism for the democracy to develop the capitalist society by defeating the divine right holders and their claimed authorities along with the politics of divine right holders.

No doubt, they were against slavery but not wage slavery to accumulate the capital by exploiting the wage slavesthe producer of capital.

Thereby, they are not against the private property to free the whole human being by vanishing it by common ownership of means of production.

Therefore, the politics of democracy is not against exploitation, thereby, secularism is not enough to fight to vanish the exploitation for the liberty and freedom of all of the world.

Noted, the shameless reactionary capitalist class has taken shelter to the politics of divine right holders to confuse and divide the wage slaves to protect the capitalist society from the disappearance of capitalism it by the wage slaves.

Sure, the historical consequence of capitalism is socialism.

Thus, the hateful reactionary capitalist class has been fostering the politics of divine right holders by using the scientific instruments by spreading the false ideas about discrimination among the human being to protect the classes to hide the secret of capital - the unpaid labour; And

( C ) No rule man by man therefore, no classes to rule and ruled thus, no exploitation man by man, thereby, no politics that is the end of politics and the disappearance of politicians that is the end of parasiticism by ending the exploitation by ending the wage slavery by ending the selling and buying system by vanishing the private property by a communist revolution by the workers of the

world by common ownership of the means of production is COMMUNISM.

Certainly sure, Marx has discovered the SCIENCE OF COMMUNISM.

So, only and only the Science of Communism is the only practicing principle for the liberty and freedom of all of the world.

Therefore, there is no option except rejection the Leninism and Lenin to rebuild the communist movement to form a communist party to unite the workers of the world for a communist revolution for communism.

So, I am against Lenin but with Marx to rebuild the communist movement.

## <u>19-12-14</u>

## Not ideologist but Marx was a scientist

Code of creation is science.

So, science is the factual statement of reality by repeated experiment by inventing and discovering the cause and effect of a matter or change of a matter therefore, science is the fact sheet of a matter and material actions.

Thus, science is a proved fact.

Therefore, science is reality.

So, science is true.

He who is for science thereby trying to know science, thus, caring science to understand and realize the science, so, working by practicing the science is a scientist. Marx did so and he has discovered the code of capital, and the code of society for change.

Ideology is nothing but a fabricated statement on creation by the masters, lords and their beneficiaries for their parasitic interest.

So, ideology is an ill motivated and manufactured story therefore, its not factual or actual factual fact sheet of a matter or material action.

So, ideology is lie and false

But, yet its an effective weapons to confuse and divide the exploited.

Sure, ideologies are nothing but the politics of exploiters. Undoubtedly, as a communist Marx was against exploitation.

Sure, exploiters are for the private property along with right of inheritance.

But, Marx was against private property with the right of inheritance.

Certainly sure, exploitative societies are unscientific but communism-the historical culmination of capitalism is a scientific society.

Marx was for communism.

So, not an ideologist but Marx was a Scientist.

Sure, Marx was not a producer of the so-called Marxism but he has discovered, formulated and explained the SCIENCE OF COMMUNISM along with Engels. But, Leninist parties are working on the basis of "Marxism-Leninism, but not the science of communism.

So, no Leninist party is working for the communism.

## The End of Exploitation

The end of exploitation man by man is the condition of liberty and freedom of all of the world.

Therefore, the end of parasiticism is the condition of liberty and freedom of all of the world.

Thus, the end of politics and political instruments and weapons including political party and state is the condition of liberty and freedom of all of the world.

Because, politics has introduced by the parasitic people to serve and protect their sectarian parasitic interest and state is the so powerful machine to chained and ruled the oppressed by overpowering.

Noted, states are defunct under the rule of the IMF-the controller of the world economy.

No doubt, all parasitic instruments including state will disappear by the existing conditions of capital.

herefore, all of the world will be free from the chain of state to rule man by man, thus, everyone will be free to do anything freely and that is the liberty.

#### 14-12-14

## The outcome of exploiter and exploited is Socialism

The capitalist class as a whole is exploiter.

The working class as a whole is exploited.

Because, capital is nothing but the unpaid labour.

Thus, there is contradiction among the both classes.

So, the relation between both the classes is antagonistic by the by born condition of capital.

However, the capitalist class it-self is not free from inner and internal contradiction and conflict.

Therefore, the capitalist society is a society of antagonism.

But, the end of antagonism among the human being is the condition of an exploitation free society- the Socialism.

Sure, the outcome of contradiction between capitalist class and working class is a antagonism free society- the Socialism.

The culmination of contradiction of capitalist class and working class is communist revolution to solve such antagonism.

Therefore, unity of workers of the world is the first condition for the solution by ending the antagonism.

But, unity of workers of the world for a communist revolution is not possible without a working class party for the same aim.

Thus, a working class party is unavoidable condition to unite the workers of the world for a communist revolution to vanish the capitalist society for communism.

But, there is no such working class party to unite the workers of the world for a communist revolution for communism.

So, a communist party that is a working class party is a historical necessity to unite the workers of the world to fight against wage slaver to end it by a communist revolution-imposed by the reactionary capitalist class. In details: For Communism, an article, published by the ICWF @ www.icwfreedom.org.

# The End of state is the condition for liberty and freedom

State is a powerful machine to oppress and overpowering others by its different tools and weapons by chaining by its laws and rules to serve and protect the interest of ruling class to exploit the wage slaves to accumulate and increase the volume of capital.

Therefore, all are chained by the state made laws and rules, thus, no one have liberty to do anything freely, if there is state.

So, state it-self is against the liberty and freedom.

Undoubtedly, the end of state is the condition of liberty and freedom of all of the world by the working class by ending the classes by ending the capitalist private property.

Noted, private property is the cause of existing of state and state has originated from the private property by the private property holders, but in the mean time the capitalism has confirmed the defunct condition of states by founding the IMF-the controller of the world economy.

In fact, state is dead under the rule of the IMF, founded by the winners of 2nd world war including Leninist boss Stalin.

Therefore, forming a new state by dividing the old one or separating some area of state to form a new state does not mean that there is liberty.

In fact, separation or division of a state is nothing but the inability of a state to sustain.

But, politicians including Leninist are not free from lie and cheat about the formation of a new state thus, they have been soughting that there is liberty under the rule of not only defunct states but also the mightiest syndicate the IMF.

Really, such bogus claim of liberty by politicians is not only lie and false but also an intentional and motivated political propaganda to confuse the working class by such illusion for liberty and freedom.

Noted, politicians are the leading groups of the parasitic groups -the exploiters of wage slaves of the world.

Sure, the end of parasiticism is the condition of liberty and freedom of all.

#### The End.
