

NetSuite SuiteSolutions – Phantom BOM

Description and Terms of Service

Overview of Functionality

This SuiteSolution explodes Work Order line items that are Phantom Assembly items and adds the components of the exploded line item as new Work Order line items. Upon completion of the explosion, the original Phantom Assembly item can be retained or deleted based on a configuration preference.

Limitations:

1. Explosion of component items for phantom items occurs only when Work Orders are created or updated from the UI; it is not supported for Work Orders created by other methods such as Mass Updates.
2. Combination of Phantom Sub-Assembly and Regular “Build Sub-Assembly” on the same Work Order is not supported.
3. All standard NetSuite Service usage and governance limits apply.

Terms of Service:

SuiteSolutions are pre-built offerings used to accelerate the delivery of custom functionality into Customer’s account. Any custom configurations or code deployed with SuiteSolution is not locked and can be further customized in Customer’s account. It is Customer’s sole responsibility to review the functionality and limitations enabled by this SuiteSolution item before procuring. Unless specifically agreed in writing in a separate Statement of Work, SuiteSolutions are not supported, maintained or upgraded by NetSuite. In addition, unless otherwise agreed upon in writing pursuant to a Statement of Work between NetSuite and Customer, Customer is responsible for all testing and configuration of all SuiteSolutions. SuiteSolutions can only be deployed to the account of the specific Customer that has procured the SuiteSolution. SuiteSolutions are for Customer’s internal use only for use with Customer’s NetSuite Service account and cannot be re-bundled and/or shared. Customer may continue to use this SuiteSolution item during the term of their use of the NetSuite Service.
