

## NetSuite SuiteSolutions – Script Queue Manager

### Description and Terms of Service

#### **Overview of Functionality**

SuiteSolutions – Script Queue Manager is designed for companies that want to optimize the NetSuite SuiteCloud Plus licenses they have procured, by making sure that scheduled scripts execute on the most available queues. The Script Queue manager can also be used to split the load across multiple queues for scheduled scripts that process records returned by a saved search.

This SuiteSolution includes options to configure the scripts to be submitted via the Script Queue Manager, specify number of queues, and minimum records per process.

#### **Limitations:**

1. Dynamic searches (the filters applied to one search depend on the results of another search) are not supported.
2. Only queues that are 100% available are used. Queues with scripts currently executing or pending execution are ignored.
3. One queue is reserved for a master script that submits the scheduled script to the available queues.
4. All standard NetSuite Service usage and governance limits apply.

#### **Terms of Service:**

SuiteSolutions are pre-built offerings used to accelerate the delivery of custom functionality into Customer's account. Any custom configurations or code deployed with SuiteSolution is not locked and can be further customized in Customer's account. It is Customer's sole responsibility to review the functionality and limitations enabled by this SuiteSolution item before procuring. Unless specifically agreed in writing in a separate Statement of Work, SuiteSolutions are not supported, maintained or upgraded by NetSuite. In addition, unless otherwise agreed upon in writing pursuant to a Statement of Work between NetSuite and Customer, Customer is responsible for all testing and configuration of all SuiteSolutions. SuiteSolutions can only be deployed to the account of the specific Customer that has procured the SuiteSolution. SuiteSolutions are for Customer's internal use only for use with Customer's NetSuite Service account and cannot be re-bundled and/or shared. Customer may continue to use this SuiteSolution item during the term of their use of the NetSuite Service.

This item shall be considered a Deliverable (as such term is defined in the PS Terms) and is provided to you pursuant to and governed by (in order of preference, as applicable): (i) the Professional Services Addendum to the NetSuite Subscription Services Agreement entered by and between the parties, (ii) the separate NetSuite Professional Services Agreement entered by and between the parties; or (iii) if neither (i) nor (ii) are applicable, the NetSuite Professional Services Agreement found at [www.netsuite.com/termservice](http://www.netsuite.com/termservice) (the "PS Terms").

The SuiteSolution may include open source software programs licensed under different terms or licensed by a vendor other than NetSuite. To the extent that NetSuite includes open source software in or with the SuiteSolution ("Open Source Software"), the licenses governing such Open Source Software

will apply to Customer's access and use of such Open Source Software. A list of certain Open Source Software notices applicable to the SuiteSolution is set forth below. Customer agrees to comply with all applicable provisions of the licenses and terms governing Open Source Software. Notwithstanding anything to the contrary set forth herein or in the PS Terms, , NetSuite is not responsible for, and makes no warranties, express or implied, related to Open Source Software and will have no liability for Customer's use of such Open Source Software.
